*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city

The Minneapolis Flour output last week increased 42,000 brls. Seventeen mills were running to-day, and they were grinding at the rate of about 50,000 brls per day. However, several of them are likely to be shut down Friday for Fourth of July, so the week's production will probably fall considerably short of 300,000 brls. For the same week in 1903 the output was 280,180 brls

The experience of Minneapolis mills as to trade in Flour during last week was somewhat varied. One large company early in the week made fair sales, all domestic, and averaged a moderate business for the whole week. Others however, were less fortunate, experiencing a very dull trade. Nevertheless, about all got in shipping directions freely, and the amount of Flour now on the books is comparatively small

Export trade received little attention. It is out of the question to sell Patent abroad, except at a heavy sacrifice, and millers pretty generally confine their attention to domestic markets Clears are duller than ever Domestic markets which were previously taking this Flour seem to no longer seek it, at least to the same extent. The result is that foreign markets are turned to as an outlet, and to make sales, very low prices have to be accepted. Holland was reported unwilling to pay even 7¾ guilders for first Clear

The mills are holding Patent at about the same price as a week ago, and quotations of Minneapolis and outside mills now range at $4 70@4 90 per 196 lbs in wood f. o. b. Minneapolis.

The range of Eastern prices to-day (June 28) asked by Minneapolis and outside mills for Patent in wood was: Boston rate points, $5 35@5 50, New York rate points, $5 30@5 50; Pittsburg rate points, $5 10@5 35; Baltimore rate points, $5 20@5 40; Philadelphia rate points, $5 25@5 50; Albany rate points, $5 30@5 50; Rochester and Syracuse rate points, $5 25@5 50; Buffalo rate points, $5 1 @5 35; Michigan, $4 85@5 10 in sacks; Iowa, Illinois and Wisconsin, $4 80@5 05 in sacks; Missouri points, $4 65@4 90 in sacks.

On the part of millers, the desire to see the last of the month of June seems to be unanimous. As one of the *Northwestern Miller* correspondents aptly puts it, "While they recognize that June is the month of bright flowers, blushing brides and lovely weather they hope that they may never see its like again"—if there is to be a repetition of the stagnant Flour trade of the past four weeks. With prospects for sufficient Wheat for milling needs during the coming months and prices that will allow the miller to grind it at some small profit for himself, the outlook is perhaps improving, though there is nothing in the present situation to warrant buoyant hopes or spirits. All eyes are on the new Wheat crops, and in the winter belt too much rain seems to be the only bogie. Last reports state that heavy rains have fallen since Sunday in parts of the Southwest where harvesting was due to begin Monday.

MONEY CIRCULATION OF THE WORLD.

The per capita circulation of the world, as estimated by the Director of the Mint, is $9 47, and it is being increased at the rate of about 25c per annum through the production of Gold. It is estimated that the annual Gold production is at least $350,000,000. The United States and France hold the largest amounts of Gold and are the richest in money among the nations of the world. The Director of the Mint estimates the population of the world at 1,285,600,000, the amount of Gold in circulation at $5,382,600,000, Silver $3 869,000,000 and paper money $2,933,500,000 The total money, according to the estimate, is $12,185,100,000.

The circulation per capita varies greatly in different countries, both in amount and the quality of the money. The latest estimates of the per capita circulation are:

Germany	$20.48	Straits Settlem'ts	$18.25
Greece	21 00	Bulgaria	1.32
Spain	21.10	India	2.07
Belgium	22.37	Cuba	2.19
Australia	24 19	China	2.27
South Africa	25.33	Servia	3.23
United States	30.69	Japan	3.24
South America	30.43	Egypt	3.71
Siam	31.20	Turkey	3.75
France	39 22	Roumania	3.66

The per capita circulation of Gold is more than three times the world's average in the United States and France, and eight banks in Europe hold half the Gold of the world.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, June 29.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth, together with that of 39 "outside mills" with a daily capacity of 30,580 brls, from Sept. 1, 1903, to June 18, 1904:

	1903-04 Flour, brls.	1903-04 Wheat, bu.	1902-03 Flour, brls.	1902-03 Wheat, bu.
Minneapolis	11,794 065	53,073 000	13,806,4-0	62,129,000
Duluth	885,165	3,983,000	1,298,510	5,843,000
39 outside mills	5,689,945	25,605 000	5,474,705	21,635,000
Totals	18,370 175	82 661,0 0	20,579,665	92 608 000

These figures represent the approximate consumption of 9 947,010 bu less Wheat this year than in 1902-03. This has occurred from the mills of Minneapolis and Duluth turning out 2,425,730 brls less Flour, equal to 10,916,000 bu of Wheat, than last year In contrast, the outside mills have increased their output to the extent of 215,240 brls, or equal to 969,(0) bu of Wheat.

FLAX CROP CONDITIONS.

[From the Minneapolis Market Record.]

The crop news regarding Flax has rarely been in a more uncertain condition. This is largely owing to the fact that in making estimates of total decreases it is necessary to take into consideration the importance, as a Flax-raising point, of the station making the report. And there is very little available data on that point.

Whether a station ships two cars of Flax or a hundred or more means something, and, on investigation, it is found that a great many stations that are used in making averages have shipped less than five cars during the entire year.

The *Record* is doing the best it can in trying to get an accurate idea of the present crop area, but we don't care about offering any new estimates just now. In the meantime the crop looks good everywhere, although in many places it is not over six to eight inches high. From Ward County a sample was shown, June 28, that was in blossom

THE WEATHER CONDITIONS.

Indications are for mostly fair weather in this forecast district. Showers probable in upper lake region to-day, and a disturbance that is developing west of Rockies may possibly cause unsettled conditions Friday on the eastern slope. Moderate temperatures will prevail.

A Des Moines man takes an optimistic view of Iowa's crop prospects and says: "Corn is growing nicely, good color, and as a rule clean. Saw some fields being laid by. Oats are heading out; short Straw and good-sized heads. I see no reason to change my opinion as to prospects in this State. A continuance of good weather is all that we need now."

A Carroll, Iowa, message, Wednesday, said: "Corn prospects in this vicinity are not as good as a week ago. Corn has made very little growth this week owing to cold nights. Don't think it is anything serious, but it is time Corn was getting some rapid growth. A late crop, you know, is in danger of an early frost. The color in low places is getting yellow."

A Chicago commission man, who is going over the St. Paul Road, making a personal investigation of crop prospects, wired from Sheldon, Iowa, Wednesday: "Wheat prospects in the James River Valley are better than for the past three and a half years. Vermillion, Sioux and Rock Valleys are splendid. Corn in this territory looks better than in Illinois."

A knockout blow to all contracts between unions and employers was given, Tuesday, in a decision by Judge Hardy of the Boston Superior Court, who held that any such agreement relating to the employment exclusively of union help, regulation of hours of labor, apprentices, etc., is against public policy and illegal. A receiver has been appointed for the Orange County Gas and Electric Company, of Orange County, New York, in a suit brought by its president, a judgment creditor, for $10,761 for salary and money advanced. There are two mortgages upon the property of the corporation to secure bond issues amounting to $214,000. The company has a capital stock of $300,000.

Recent surveys and exploration tests of Iron ore properties owned by the United States Steel Corporation in the Lake Superior region show total holdings approximating 760,000,000 tons. It would take fifty years to exhaust the supply at the rate of 20,000,000 tons per annum. The figures do not indicate that there is much chance of ore carrying on the lakes falling off if the country continues to maintain its present prestige in the Iron and Steel industry.

The plan devised to raise enough money to pay the debts of the American Alkali Company, turning over the assets to the common stockholders, is now in abeyance pending the consideration of some proposed modification. It was intended to ask the court to decree a sale of all the assets of the company, and then to buy them in for cash sufficient to pay all debts, preferred stockholders being thus relieved from liability for unpaid assessments. It is stated that subscriptions under this plan aggregate about $50,000, leaving $40,000 still to be raised to make up the sum needed.

The rolling mill of the Colorado Fuel and Iron Company at Minnequa has been put in operation and a large force of men is at work. The output will be large for some time, as the plant has not been operating for a considerable period. It is understood that the company has orders ahead for a comparatively heavy tonnage. If the bondholders' protective committee succeeds in carrying through its plan and the management is given money to complete its improvements, its output will be doubled. The territory covered by the company is so free from real competition that its business is practically held for it. The rail demands of the section are growing larger every year.

The Iowa crop report says: "The average temperature of the week was slightly below normal, but there was sufficient warmth to promote the healthy growth of all crops. The only material drawback was excessive rainfall in about two-fifths of the State, heaviest amounts being reported from stations in the north central district and in the northern counties of the central district In the larger part of the State the showers were timely and beneficial. Except in localities visited by excessive rains, good progress has been made in the cultivation of Corn, and the crop is generally making satisfactory growth. As a whole, the condition of Corn is materially better than at the corresponding date last year and in 1902"

The following table, compiled from returns filed with the New York State Banking Department, shows the largest ten savings banks of New York City, with the assets of each:

Bowery Savings Bank	$94,594,126
Emigrant Industrial	78,833,312
Bank for Savings	77,643,444
Seamen's Bank	66 862,068

The Illinois Trust and Savings Bank of Chicago has assets of $91,068,635, the Merchants' Loan and Trust Company of $48,392,616, and the Northern Trust Company of $25,733,346. These banks do not do an exclusive savings business, however, like the New York institutions.

President E. H. Harriman of the Southern Pacific, Tuesday made the following statement: "There is no foundation for the current reports respecting the purpose of the additional $60,000,000 issue of Southern Pacific preferred stock. The main purpose has been to provide the company with a strong capital reserve, and assure thereby the refunding upon favorable terms of its bonds, of which a considerable amount mature during the next year. The issue of preferred stock enhances the credit of the company and safeguards the interest of the stockholders in all contingencies, besides permitting the continued improvement and betterment of the properties and development of the territory tributary to the lines, and thus continues the increase of the company's business without incurring the risk of a floating debt or drawing too heavily upon earnings, as has heretofore been necessary."

With the exception of the Alton and the Nebraska City elevators, the list of "regular" warehouses in Chicago is the same as a year ago. The Directors accepted the report of the Warehouse Committee and made all the houses regular. The regular storage capacity now is 32,450,000 bu, a reduction of 4,300,000 bu from last year. This leaves plenty of working capacity, which can be increased whenever necessary. There is always an abundance of available storage capacity of 50,000,000 bu outside of the 26,000,000 bu "regular" the past year. The regular list, effective July 1, as it stands at present, is as follows:

	Capacity, bu.
Armour elevators, A, B, and B annex, C, F	15,800,000
St. Paul and Fulton annex	800,000
Calumet elevator C	1,500,001

REVIEW OF TO-DAY'S MARKETS

FLOUR—Market is quiet and steady as quoted on the second page.

WINTER WHEAT—Demand limited and market ruled quiet. Prices about the same, but are little better than nominal. No 2 Red in store nominally 98c@$1 00, and fresh arrivals free on board quotably about $1 00@$1 02. No. 3 Red fresh receipts free on board steady, with sales at 96@99c. No. 2 Hard fresh receipts free on board ranged at 88@94½c. with sales of a car at the top figure. No. 3 Hard fresh receipts quotable at 82@90c, with a sale at 88c. No. 3 White sold at 96@99c.

SPRING WHEAT—Very little doing and market quiet and steady. Receipts continue very light. No. 1 Northern in store quotably 8½@9¼c over old July, and ranged at 94½@96¼c, and fresh arrivals free on board quotably 97@98c. No. 2 Northern fresh arrivals quotably 93@96c No. 3 Spring fresh receipts free on board quotably 85@90c, with sales at 88@90c. No. 4 Spring quotably 65@90c for poor to choice.

REGULAR WHEAT—Just a moderate trade, with the close a trifle lower for old July. New September declined ⅛c and old ¼c. Feeling was somewhat unsettled, with light offerings the principal feature at the start. "Shorts" covered and market for a time displayed a strong under tone. There were no deliveries on July contracts, and on buying by several of the large commission houses the market advanced. On reports of large receipts in the Southwest by Tuesday the offerings increased and prices receded. Part of the selling was by the Southwest Estimates were at hand claiming 150 cars of new Wheat for Kansas City, Tuesday, and 75 cars for St. Louis. Whitehall, Ill., sold 2,000 bu new No. 2 Red at 87c. to be shipped before July 20 Map was more favorable, but Southern Kansas had more rain and showery conditions generally indicated. Liverpool quoted spot unchanged and futures ⅛@⅜d higher. Stock there July 1, 3,176,000 bu, an increase in June of 176,000 bu. Receipts the past three days, 552,000 bu. Cargoes on ocean passage firm, bidding 1½d more than yesterday. London came unchanged to ⅛d better. Buda Pesth was up ⅛c. Antwerp steady. Weather in Argentina cabled as favorable for farm work. Argentina shipped 1,128,000 bu, making 66 664,000 bu since January 1, against 47,298,000 bu last year. Local weekly receipts 82,000 bu and shipments 158,000 bu. Primary receipts this week 1,570,000 bu; last week 1,679,000 bu; year ago 1 387,000. Exports this week 1,128,000 bu, against 2,967,000 bu same week in 1903. Minneapolis stocks are expected to decrease 540,000 bu this week and Duluth decreased 180,000 bu. St. Louis reported 3 cars new No. 2 Red at $1 01½ *Modern Miller* claimed movement from the farms would be later than last year. Toledo advices predicted Missouri would raise 40,000,000 bu. Minneapolis received a car of new Wheat from Oklahoma which sold at No. 2 Northern price, was fine quality, weighed 61 lbs. Wheat of this quality offered at 85c July shipment. Receipts at Duluth 29 cars and at Minneapolis 193 cars, a total of 222 cars, against 207 cars yesterday, 139 cars a week ago, and holiday last year. Local receipts included 10 cars Winter, 1 car Spring, 3 cars mixed, a total of 14 cars, against holiday last year. Included in the above was no car contract grade. There was no car and no bu taken from unlicensed elevators The estimated receipts for to-morrow are 11 cars. Withdrawals to-day were 6,350 bu. Receipts at Western points were 262,239 bu, against holiday last year. At Eastern points 11,531 bu, against holiday last year. Shipments from Western points were 123,134 bu, against holiday last year, and from Eastern points 87,652, against holiday last year. Shipments of Flour were 33,509 brls. Exports of Wheat in Flour were equal to 238,412 bu.

RYE Quiet and firmer. Aside from a couple of cars of fresh receipts there was nothing doing No interest whatever shown in the market No receipts and two cars withdrawn from private warehouse. No export clearances from New York. No 2 in store nominally 64c and fresh arrivals free on board nominally 64@65c No. 3 sold at 60c and quotably down to 52c for common. A car by sample sold at 57½c.

Future Deliveries of No. 2 Rye—Nothing doing. July nominally 58c. September 54c bid and 55c asked.

BARLEY—To-day the market was about as quiet as has yet been. Pending three days of no session of the Board there was really no desire to purchase. A little good malting Barley was salable, but low grades of all kinds seemed to be without demand. Nine cars were inspected in. Screenings were quotable at 30@35c for common to good; very choice possibly a trifle over. Feed Barley, common, dirty or musty down to 25@28c, sweet, good color, thin about 30@35c. Malting, low grade, was quotable 37@41c; fair to good, sound, 42@47c; good color, 48@52c, and fancy above

SEEDS—There was an easy feeling in the Timothy market and at the same time Flax improved somewhat. All the rest unchanged and lifeless

Timothy—There was nothing doing No cash Seed whatever on the market. Buyers and sellers apart in the case of September delivery, and little interest shown. Market dull, and undertone heavy but no change noted. Contract spot or July delivery was called nominally $2 90, which was rather easier. September was $3 10 bid and $3 15 asked. Country lots quotable at $2 00@2 75 for low grade to fancy, choice about $2 65@2 70, fair to good Seed $2 45@2 55 and rough at $2 30@2 40.

Flax—Was firmer, with ½@1c advance over last prices, and improved state of market was due to more favorable advices from the Northwest The offerings were extremely limited. Two cars or 1,700 bu received and none taken out At Minneapolis there were 10 cars received and at Duluth 17 cars. No. 1 Northwestern or No 1 from the Northwest was $1 07½, with a sale made. No. 1 salable at $1 02. Rejected was quotable at 90c@$1 02 July was $1 02 bid and $1 04 bid for September

Clover No transactions to-day and no Clover offered Nominally unchanged. Contract spot Seed about $10 75 Country lots, common to choice, $7 00@10 00; fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good $8 50@9 50.

Other Seeds—No quotations at present for late sowing Grass Seed, Hungarian and Millet. Buckwheat remains at $1 55@1 60 for good. Some order trade continues

HOG PRODUCTS—A fairly good trade was reported in the market for Hog Products, and the feeling was stronger in a general way Hogs were in fair supply and higher, and the deliveries on July contracts were not as liberal as expected. Offerings were only moderate, while the demand was quite good, and prices ruled higher on all the leading articles, and the advance was fully supported to the close. September contracts met with most favor. Receipts of Hogs at the leading Western markets were estimated at 52 100 Foreign markets were steady, and Hams were quoted 6d higher Domestic markets quiet Receipts of Products were moderate—of Lard and Meats about 11 cars. Shipments were very small—of Lard and Meats about 66 cars. Shipping demand moderate, and offerings were only fair Sales somewhat limited, and prices favored sellers.

Mess Pork—Trade rather active and market stronger in a general way Offerings were moderate, and the demand was fair. Market opened firm and prices were 12½@15c higher, and a further improvement of 15@17½c was gained. Later, the feeling was not quite so strong, and prices receded 2½c, and the market closed steady Deliveries on July contracts about 2,000 brls. Shipping demand was light and offerings were small. Cash lots quotable at $12 95@13 00.

JULY—Offerings were moderate, and the demand was only fair. Sales were made at $12 82½@13 00 Opened at $12 85, sold to $12 82½, to $13 00, to $12 97½, and closed steady.

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, THURSDAY EVENING, June 30, 1904.

The situation in the local money market is practically the same that it has been for several weeks. Loans were made at 4 per cent on call, and some of the smaller banks have discounted commercial paper at 4 per cent and slightly under. The big banks are making no concessions below 4 per cent and are getting 4½ per cent on most of their loans, with 5 per cent the regular rate over the counter. Calls for accomodations are not such as to give any indications of better things for the near future. Packers are using a moderate amount of money, but merchants and manufacturers are borrowing less than usual. Many borrowers who have loans are constantly liquidating. In New York the market was easy at 1 to 1½ per cent on the Stock Exchange and time money ranged at 2½ to 3½ per cent.

The New York exchange is steady at 20@35c to 35c and closed at 20c premium per $1,000.

Foreign exchange was in light supply in the way of bills drawn against actual shipments, but there was plenty of banker's bills offered against future shipments of Grain and Cotton. Shippers' 60-day documentary sterling bills on London ranged at 484¼@485.

Local Securities were sparingly handled and changes were small. There was the midsummer dullness and nothing to trade on in the way of news. The changes that accrued were fractional and had no insignificance. Returns from the various industrial companies on the business so far this year are not discouraging, an average business having been transacted. But at the present they are in the dull season and reports of slow sales are to be expected. Metropolitan Elevated expects to have its new terminal in the business district ready for business inside of a month, and will be able to handle its traffic more readily. Developments in the Union Traction affairs are unfavorable showing an absorption of the assets of the underlying companies for the benefit of the Union Traction Company. Trading in Bonds was fair, but not up to expectations.

The New York Stock market was a narrow affair, there being a disposition on the part of operators to await the action of the Democratic convention, which meets in St. Louis next week. Trading dropped to insignificant proportions, and for the time being there is no inclination on the part of the large operators to do more than hold the market within narrow limits. In this movement Wall Street is acting different from its usual course, as it always has been anxious to discount events in advance. No new factors of importance on either side of the market were brought out to affect values either way. Crop reports were, on the whole, favorable, and traffic returns of the railroads in the West showed a maintainance of their tonnage, and a more cheerful feeling as to future earnings. Money is abundant and cheap and there are conditions which are inducing many investors to take Stocks on declines in anticipation of an advance in the fall. There has been a good deal of this class of buying of late, and many of the good dividend Stocks have been picked up so closely the floating supply in the Street has become small. Most of this class of buying has come from the West and is based on the belief in large earnings for the future, with a maintainance of the present crop promise. The slowness gave the "bears" a pretext to sell the market, but they made little headway in forcing prices down and the close was with no material change from the previous week, except in a few instances. Bonds were more actively traded in and good issues were picked up by investors that has reduced the supply. Total sales on the New York Stock Exchange for the week were 620,000 shares, against 1,178,000 shares the previous week.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

Cotton in New York averaged lower. Crop prospects were, on the whole, favorable, although in parts of Texas the Boll Weevil is still agressive and doing some damage. Speculation was quite extensive at times and there was a great deal of liquidation on these strong spots. On the evidence of weakness the "bear" interest became so aggressive that the market is oversold every few days, causing sharp reactions. Prices are reaching the point where manufacturers begin to take hold. Closing prices were 4@21 points lower as compared with a week ago.

Business with the mercantile houses was as good as can be expected at this season. Crop prospects are now such that it has created a better feeling among interior distributors and this has had a good effect in the way of starting in moderate fall buying, and the replacing of small lots of seasonable goods. In the dry goods line Cottons were bought fairly, but the recent sharp decline created nervousness among the large buyers and they were inclined to hold off, especially as the market shows weakness and crop prospects are favorable. Woolens and Silk goods remained at previous prices. Indications are of a better business in Pig Iron for distant deliveries. Purchases for immediate use, however, were small. Production is being decreased, but stocks are ample and it is hard to induce buyers to pay any advance. In act, most of the business of late has been at concessions. Fair orders of Steel rails are being placed, but in other lines of finished product the buying was not extensive. The report comes from Pennsylvania that some of the largest mills will be shut down during July and August for want of orders. Jobbers of light and heavy Hardware are having a good business, consumers taking hold as they are required to have supplies. Lumber was bought moderately, the most of the demand being for building purposes. Statistics of the building trade here show an excess in cost from Jan. 1 to date as compared with last year of $2,000,000. Concessions are being made in some lines of hard woods and yellow pines, but white pine is held at previous prices. Refined Sugars had an active trade and advanced 5 points. Collections were fair.

COMMERCIAL.

Business in commercial circles on the Chicago Board of Trade was not very active the past week, the holidays possibly tending to limit transactions to some extent. Speculative values most of the week were influenced chiefly by the weather and crop conditions. Advices from important agricultural sections were quite conflicting in some instances, and traders rather mystified as to actual existing conditions. The result was frequent fluctuations in the principal cereals though price changes were confined within moderate limits. Business is still in the main professional and local, though there was some increase in the number of orders from outside speculative centers. All things considered, the situation was comparatively firm. Climatic conditions from now on will no doubt have considerable to do with shaping the course of values. Indications favor greater activity in all the leading markets, and the summer months should offer many opportunities for those speculatively inclined with ample capital to back up their opinions.

European crop conditions were reported as gradually improving. The weather in the United Kingdom was reported as favorable and in France prospects are said to be brilliant and a large yield of Wheat expected. Further rains fell in Germany but in Roumania the position of the crop remained unchanged. In Southwest Russia Winter Wheat conditions are not altogether satisfactory but Spring Wheat is said to be in good shape. In the Southeast dry weather was reported. Beneficial rains were reported in Argentina while in Northern Africa the harvest has been hindered by rain, but a large yield is still expected. The condition of Winter Wheat in Germany on June 1 was 82 per cent against 71 per cent one year ago. Rye was placed at 80 per cent or same as in 1903.

Weather conditions in the United States and Canada were not altogether favorable the past week. Rather too much rain fell in the Southwest and Northwest the first of the week, but late conditions were more favorable. The harvesting of Winter Wheat was delayed in some sections and the outlook taken as a whole is hardly as promising as noted a while ago. Some lodging and rust was reported from Nebraska and Missouri. While the condition of Spring Wheat is somewhat less promising than previously indicated, the outlook continues encouraging east of the Rockies. In portions of the Dakotas the crop is weedy but in these States and in Minnesota, it has made growth and the early sown is beginning to head. In Iowa and in principal Corn States Eastward of Mississippi River crop has made good progress and is well cultivated, rapid growth being generally reported. Rapid growth was also reported from Missouri, Kansas and Nebraska, but in these States cultivation has been hindered, particularly in Missouri and Nebraska, where many fields are grassy. Oats Continue promising in nearly all districts. In some of the most important sections, however, the crop is heading short, with less favorable prospects than previously indicated. Harvest has begun in Southern Missouri, Tennessee and North Carolina.

The movement of Grain from the farms and interior elevators was moderate the past week. Receipts of Wheat in the Northwest, however, were fair for the close of the season and compared favorably with those of a year ago at this time. New Wheat has commenced to move in the Southwest, but receipts are not expected to show up as liberally as calculated a few weeks back, owing to excessive rains in important growing districts. The quality of the first arrivals is excellent and interior mills will no doubt absorb a fair proportion of the early marketings. Corn continues to move with considerable freedom through the West and Central West, but arrivals at terminal points are not up to last year's aggregate. The movement of Oats from first hands was very moderate. Arrivals of Rye and Barley were small. The movement of Grain Eastward was moderate notwithstanding low lake rate and reduced rail freights East of Buffalo. Exports of Flour and Wheat were very small and Corn and Oats clearances likewise limited. Bookings of Grain at the seaboard for forward shipment were rather light. According to the visible supply as compiled by the Secretary of the Chicago Board of Trade there were decreases in Wheat, Oats, Rye and Barley, and an increase in Corn. *Bradstreet's* reported a liberal reduction in Wheat and Flour supplies, a moderate decrease in Oats, and a fair-sized increase in Corn.

Only a moderate speculative business was transacted in the leading markets on 'Change the past week. Operators in many instances were disposed to curtail their transactions and there was general evening up of outstanding contracts the last of the week owing to the several holidays. Sentiment, at the same time, was very much mixed, particularly as regards the Wheat situation. All things considered, however, the tone was steadier. Foreign advices were more favorable and crop conditions in the country, aside from the rains in the Southwest, were fairly satisfactory. The decreasing stocks and fears of a delayed movement of Winter Wheat tended to check any material depreciation in values. Corn was unsettled, but prices on the whole were fairly well supported by "bull" interests. July liquidation was more in evidence at the close and the attitude of the principal "long" interest was watched closely. Cash market is unsatisfactory and receipts fair. Elevators are turning out large quantities of contract. Oats were easy and were traded in moderately. "Longs" sold the July. Crop reports were favorable, the harvest starting in Missouri and Tennessee. Rye was dull and Barley quiet. Seeds inactive. Hog Products were fairly active and weaker. Offerings quite liberal, packers selling. Hogs were lower. At the declines established "shorts" covered and prices advanced moderately. Packing of the West for the week was 25,000 Hogs short of the corresponding week in 1903, and total for season 7,225,000, compared with 6,825,000 in 1903.

Just a fair business was transacted in cash Grain the past week. Current receipts sold quite readily, but the demand for cargo lots was very moderate. Inquiry for Winter Wheat was somewhat limited. Spring Wheat, too, was quiet on milling and shipping account. Corn was dull, that is round shipping lots. A large quantity that was in transit and in store at Buffalo sold the first of the week at a sacrifice price. Car lots were in smaller supply and prices were irregular. Oats were in moderate demand and the general run of the offerings poor. Prices ruled lower. Some call for cargoes at the prices current. Rye was quiet, as also Barley. Seeds were neglected, but steady in price. Timothy Hay in moderate demand and fair supply. Prairie was dull. Hog Products were in moderate request and the offerings only fair. Sales were not large and prices without special change. Hogs were weaker. Cattle were marketed in fair numbers and prices favored buyers. Sheep were steady and Lambs higher.

FREIGHTS—Railroads have more idle cars east and west than for years and traffic is only fair. The tariff eastbound is as follows:

To—	From Chicago. Domestic.	From Chicago. Export.	From Miss. River. Domestic.	From Miss. River. Export.
Boston..........	19½	14½	22½	16
New York.	17½	13½	19½	16
Philadelphia	15½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News...	14½	11	16½	14½

Flour rates are to be 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 3c per bu on Wheat, 3c on Corn, 3c on Barley and 2c on Oats.

Ocean rates on Grain are slow and lower, with some of the lines running out of Boston taking Grain for ballast. Rates on Grain are ½@¾d per bu from New York and ½d from Boston. Through rate on Wheat from Chicago to Liverpool is 5½c per bu and Corn 4¾@5c. Flour 19c per 100 lbs and Provisions 35½c per 100 lbs.

Lake rates are lower at ¼c for Corn to Buffalo. Many boats were sent for Coal and Ore which pays better than Grain.

FLOUR—June has been the dullest month experienced in the Flour market for a long time. Here and there a few small lots have been taken for export in order to fill up gaps, but generally speaking export business was entirely out of the question. Millers have been forced to depend almost wholly upon the domestic trade to absorb their offerings, and as the buying side has been taking hold only in a hand-to-mouth way, there has been very little in the situation to encourage the man making the Flour. Stocks are not large in this country, and an improved demand with a better general feeling can be counted on after new Wheat commences to move freely and the whole situation readjusts itself automatically. Stocks abroad are excessive, and cables from the United Kingdom show the markets of that country as weak and favoring buyers. Consignments of Flour are small—almost nothing from the Northwest. City mills and those controlled by Chicago interests are running only on part time. There will be a general shut-down of the mills of the country over the Fourth of July holidays. Flour output for week ending June 25, 455,000 brls, compared with 505,000 brls one year ago. Quotations are entirely nominal.

MILLSTUFFS—The receipts have been smaller during the past week and the demand fair, which resulted in developing a better feeling. Prices were advanced in consequence. Bran in 100-lb sacks sold early in the week at $16 25 per ton and later at $17 00.

WINTER WHEAT—The market has ruled quiet during the past week, and there has been no important change in prices. The demand was limited and was confined almost entirely to the car lots of fresh arrivals which were taken by millers and shippers. No shipping demand existed for round lots, and there were no withdrawals from elevators worth mentioning. So little doing that it has been almost impossible to ascertain quotations, which ruled little better than nominal. The stock of No 2 Red in store was reported at 184,000 bu against 177,000 bu last week and 1,089,000 bu the corresponding week a year ago. The receipts for the week were 29 cars, against 87 cars the previous week. There were withdrawn from public elevators 5,801 bu, and from private warehouses 27 cars and 25,000 bu. No 2 Red in store was quoted at 98c@$1 10, and fresh arrivals free on board at $1 00@1 02. No 3 Red fresh arrivals ranged at 95c@$1 00 depending on quality. No Grade Red sold at 90c. No. 2 Hard fresh receipts were quotable at 8 9c and sold in store at 87½c. No. 3 Hard fresh receipts free on board quotable at 82@90c. No. 4 Hard sold at 8 c.

SPRING WHEAT—Very little business was transacted in the cash market, and prices held rather steady. Trade has been of a limited character. There has been no demand outside of the wanting of an occasional small parcel for milling and shipping purposes and the few cars of fresh arrivals which came on the market. The receipts have been very small and so little doing in fresh arrivals as to make it difficult to establish market quotations. The stock of No. 1 Northern in store was decreased to 491,000 bu, against 523,000 bu the previous week and 1,172,000 bu the corresponding time last year. The receipts for the week aggregated 21 cars, against 42 cars the previous week. There were withdrawn from public elevators 31,600 bu and 15 cars and 10,000 bu were taken from private warehouses. No. 1 Northern in store was quotably 8½@9½c over old July prices, and ranged at 91½@97½c and fresh arrivals free quotable at 97@99c. No 2 Northern fresh receipts free on board ranged 91@97c. No 3 Spring fresh arrivals free on board ranged at 85@93c. No. 4 Spring fresh arrivals ranged at 65@80c, and a car of fancy hard variety sold at 92c.

REGULAR WHEAT—The trade this week was a little on the spasmodic order and the feeling manifested was quite unsettled. Fluctuations were frequent within the limits established and the close shows old July ⅛c lower, while old September gained 1c. The trade has drifted more into new September, transactions in July being mostly in the way of closing up old contracts. New September sold between 80⅝@81¾c and closed at 81¼@81⅜c. The comparatively firm tone abroad and fear of a wet harvest in the Southwest started the market stronger and "shorts" purchased with considerable freedom. Covering for Northwest account was a feature on the upturn, which was helped along by local professionals. The decreasing stocks and moderate movement, too, proved "bull" helps. The visible supply decreased 1,691,000 bu, against 1,091,000 bu decrease same week in 1903. Total is now 14,652,000 bu against 17,459,000 bu in 1903 and 19,760,000 bu in 1902. There were increases at two points only covered in the official statement, 22,000 bu at New York, to a total of 532,000 bu, and 28,000 bu at Boston, to a total of 42,000 bu. Of these stocks 2,769,000 bu are at Canadian points, compared with 2,536,000 bu at those points last year. Considering American points only, the total stocks are now 11,883,000 bu, compared with 14,923,000 bu a year ago. Stocks have not been so small at this date in thirteen years. In 1891 the total was 13,590,000 bu, including Canadian points; in 1890, 13,056,000 bu, and from that year back to 1882 to total was larger than present stocks. Local public stocks decreased 20,000 bu to 1,374,000 bu, compared with 2,866,000 bu same date one year ago. Stocks here in all positions were reported 2,708,000 bu, a decrease last week of 205,000 bu. Stock one year ago 4,485,000 bu. Contract stocks decreased 33,676 bu, and are now 675,354 bu, against 2,261,726 bu same date in 1903. *Bradstreet's* decreased 3,071,000 bu, compared with 2,048,000 bu decrease same week in 1903. Quantity on ocean passage decreased 1,792,000 bu and is now 49,168,000 bu, against 37,640,000 bu same time last year. World's shipments, 9,298,000 bu; previous week, 9,335,000 bu; year ago, 10,440,000 bu. At the advance and around 87⅜c for old July, 86c for new July and 83c for new September "long" property came out in large quantities. The Southwest was quite conspicuous on the "bear" side and was looked upon as indicative of an early movement in that section. The weekly Government crop bulletin noted satisfactory conditions though claimed that the harvest had been delayed in parts of Kansas and Missouri. Old July broke to 85⅜c, new to 84⅝c and new September to 80⅜c. The English as well as the Continental markets failed to follow the rise on this side and likewise tended to in part a weaker tone to the situation. Foreign crop advices more favorable this week and *Broomhall's* weekly foreign crop summary said: "United Kingdom—Weather the past week been favorable; most of the crop is thin. France—Wheat prospects brilliant and a large yield is expected. Germany—Further rains past week have relieved the drouth. Russia—In Southwest there are, in some sections, continued complaints regarding Winter Wheat, but Spring Wheat is generally in fair condition. Prospects in the Azoff districts are mostly fair. In the Southeast it is too dry. Roumania—Position of Wheat remains unchanged. North Africa—Wheat harvest been hindered by rains, but large yield is still expected." The *Marche Francais* of June 13 stated that the weather in France had become fine and warmer, and if this continues all will be well with the crops, although in their opinion the Wheat crop will not be equal to what last year's crop finally proved to be. The recent reports of damage are considered to have been exaggerated, which was to a certain extent proved by the fact that although supplies from farmers did not increase, on the other hand they did not decrease, which would certainly have been the case had any serious damage been done. The weekly weather crop bulletin stated that the Winter Wheat harvest in Kansas and Missouri has been interrupted by rains, but this work has proceeded without interference eastward of the Mississippi River, and is now in progress as far north as the southern portion of Illinois and Indiana and in Virginia and Maryland. Some lodging and rust are reported from Nebraska and Missouri, and dry weather has hastened the crop materially in Michigan, but elsewhere the crop has advanced favorably, well filled heads being generally reported. The condition of Spring Wheat was said to be less promising than previously indicated, but outlook continues encouraging in region east of the Rockies. In portions of the Dakotas the crop is weedy, but in these States and in Minnesota it has made growth and the early sown is beginning to head. The milling situation was looked upon as "bearish," the output of Flour in the Northwest this week being reported 455,000 brls, as against 505,000 brls one year ago. Receipts at primary markets were smaller than a year ago and total for the cereal year about 219,509,000 bu, against 248,786,000 bu in 1902-3 and 214,681,000 bu in 1901-2. Exports were again light this week and bookings at the seaboard were smaller. On adverse crop reports from Kansas, Missouri and other parts of the West coming in, the situation again turned strong. July advanced on fear of congestion to 86⅝c, and September to 83c and new September to 81⅜c. The following table exhibits the exports of Breadstuffs from the following countries from July 1, 1903, to June 25, 1904, compared with the corresponding period in 1902-3:

CORN—There were no particularly new or interesting features developed in this market the past week. Transactions were in the main for local account and the feeling manifested while a little unsettled was easier on the whole. Closing prices showed the July 1¼c lower, September unchanged and the December up ⅛c. The week started out rather easy with July liquidation a feature. Elevator interests had considerable for sale and before the decline was checked the price touched 47½c, the September selling off in sympathy to 48⅛c. Weather conditions and crop advices were generally favorable, receipts were liberal, the Wheat market was lower and market for a time had rather indifferent support. The statistics as presented were construed as favorable to the "short" interest and likewise exerted rather a depressing influence on values. Beneficial rains were reported in Roumania where drouth has prevailed and heavy rains were reported in Argentine. Another feature was the liberal quantities of contract that were turned out of private elevators. World's shipments last week were 4,318,000 bu, against 4,192,000 bu previous week and 5,148,000 bu one year ago. The visible supply increased 311,000 bu, against 557,000 bu increase same week in 1903. Total is now 5,431,000 bu, against 5,967,000 bu in 1903 and 5,687,000 bu in 1902. Local public stocks increased 185,000 bu to 1,976,000 bu, compared with 1,875,000 bu corresponding date one year ago. Stocks here in all positions reported 6,655,000 bu, an increase last week of 215,000 bu. Stock one year ago was 6,096,000 bu. Contract stocks increased 15,082 bu and now include 1,822,521 bu, against 1,642,754 bu same date in 1903. *Bradstreet's* increased 814,000 bu, against 1,333,000 bu increase same period in 1903. At the decline and around 47½c for July "shorts" came in freely and "bull" interests helped along the advance. The sale of about 500,000 bu No. 3 and No. 3 Yellow, most of which was in transit, was one of the strengthening factors at the time. The above transaction developed later was practically at a sacrifice price. The price was reported at ¾c under July f o b Buffalo or equal to about 3c under July in store Chicago. Elevator people have been buying grades, sorting it up and keeping that which would make contract for July delivery and selling or shipping the poor. Quite a number of the firms that had started Corn East lately had it on the lakes at Buffalo and other points unsold. As for the past week the Eastern demand has been extremely poor. Elevator men, apparently, Monday thinking it was no use keeping the Corn and paying charges on it, decided to sell, which they did at practically the Eastern buyers' own figures. Elevator interests were in rather bad shape having the July Corn sold against it. The No. 3 Corn they had in Buffalo and were extremely anxious to close up and take their loss without waiting any longer. The purchasers were Eastern ... bers, who apparently felt, on account of the ... basis at which they purchased the Corn they could finally work it out either for domestic or export. The market, too, gathered some strength from the falling off in the local movement. Receipts this week were 1,813 cars, against 2,21.. cars last week and 2,803 cars one year ago. Receipts at Western terminal points, while fair, were short of those at this time one year ago. July rallied under miscellaneous buying to 48¼c and September touched 48⅝c. The Illinois crop bulletin was "bearish," claiming the condition was quite favorable, some fields being laid by. The crop was reported as growing fast and the fields mostly clean. The Government weekly crop bulletin stated that in Iowa and in the principal Corn States eastward of the Mississippi River the crop had made good progress and was well cultivated, rapid growth being generally reported. Rapid growth was also reported from Missouri, Kansas and Nebraska, but in these States cultivation has been hindered, particularly in Missouri and Nebraska, where many fields are grassy. A large crop is practically assured in Texas, but drouth has impaired the outlook in the Central, East Gulf and South Atlantic States. Exports this week show little if any increase and bookings at the seaboard were meagre. July liquidation started in with renewed vigor on Thursday and the price broke to 47½c, which was 1⅝c under September. Deliveries for Friday were estimated at 2,000,000 bu. Argentine shipments were estimated at 1,600,000 bu. December and May were relatively strong, notwithstanding the break in July. Crop reports came in "bullish" from Kansas and Missouri and was responsible for the strength displayed. The call for car lots were fair and prices were irregular from day to day depending on the offerings.

OATS—The market for Oats last week was weaker within a moderate range. A feature was the liquidation by July holders and the strength in September. July sold between 37¾@38..., and closed easy at 37⅞c, a loss of ⅝c. September sold between 31¾@32c, and closed firm at 3.., a gain of ¼c. December closed 32½@32⅝c, a gain of ¼c. Trading started in May and sales were at 33⅝@34c. Crop reports were generally favorable. The weekly Government crop bulletin says "Oats continue promising in nearly all districts. In some of the most important Oat States, however, the crop is heading short, with less favorable prospects than previously indicated. Harvest has begun in Southern Missouri, Tennessee and North Carolina." New No. 3 White to arrive billed through by August 15 were 1c over September bid. Cash demand was fair and prices in the sample market were steady for good, but declined ½c for the general run, which showed poorer quality, indicating a cleaning up of interior offerings. Receipts for the week were 657 cars, against ... cars the previous week. Export clearances for the week were 64,125 bu, against 95,570 bu the previous week. Contract stocks decreased 24,889 bu and were 539,402 bu. Stocks in all positions increased 23,000 bu and were 1,318,000 bu. The visible supply decreased 160,000 bu, and was 4,777,... bu against 4,555,000 bu last year.

RYE—Very little business was done in this market during the past week, and changes in prices have been unimportant; in fact, so little business doing as to make it almost impossible to establish prices. Very little interest was shown in the market; operators do not seem to get interested and trading has been on a very limited scale. As far as the speculative feature of the market was concerned, little can be said, excepting there has been no special pressure to sell and no particular desire to buy. What little cash business was transacted was confined to the few cars of fresh arrivals which were taken by local millers and for manufacturing purposes, and possibly a few cars taken by carriers to go to store. No Rye has been exported for some time, and the stock in store exceeded the quantity in elevators a year ago. There is just about enough Rye coming to supply requirements and stocks in store are not being drawn upon. The receipts for the week aggregated 3 cars, against 23 cars the previous week. There were no withdrawals from public elevators and there were none from private warehouses. Export clearances from the seaboard none. Visible supply decreased 45,000 bu and was reported at 834,000 bu, against 879,000 bu the previous week and 704,000 bu one year ago. The local stock in store was 152,000 bu and a year ago was 109,000 bu. No. 2 in store was entirely nominal and held about 8c over the July price—making a nominal quotation of 65c to 63½c. Fresh receipts free on board quotably 61@65c. No. 3 fresh receipts free on board were quotably 52@60c. No. 4 sold 48c and No Grade at 50c. For future delivery No 2 Rye the market was quiet. July sold at ... to 57½c and closed at 57½c. September sold at 53½c.

BARLEY—The summer dullness was being experienced. Trading was of a limited order. Demand from all sources was very small. A little good malting Barley was called for, but only by a few buyers. They did not want much, and then only when they could get it at about their idea of value. Anything of low grade, whether malting or mixing Barley, was very weak and dragging. Some cars of poor, musty had to sold low. Nice sweet mixing Barley and bright, clean screenings were sparingly offered. Such grades had some demand, and were about steady. Receipts were small, but fully as much Barley came in as was required. The visible supply fell off 79,000 bu, but a good stock remains in sight, 1,212,000 bu, against 515,000 bu a year ago. Local stocks did not change, being given as 72,317 bu; last year at this time there was none in regular houses. No withdrawals reported. From New York there were exports of 8,496 bu. The several grades had a quotable range as follows: Screenings were quotable at ... for poor to choice, though finally 36@38c per ... would have been about the top. Barley, low ... feed or mixing, quotable at 30@37c for ... seedy, musty; good color, sweet and good ... about 37@39c. Some very poor chaffy stuff on the market, hard to tell what to call it, for which 25c was about all that was bid. Malting ... grade, was about 37@41c, fair to good sound ... 47c; good color, 48@52c, and fancy above. Receipts the past week were 60 cars, the week before ... cars, and two weeks ago 111 cars.

SEEDS—There were no additions to trade ...

treme quietness again prevailed. Price changes were so few and so slight that they were hardly noticeable. Cash Seed of all kinds were very sparingly offered, and in no line was there any particular speculative interest apparent. From the absence of comment on crop conditions it could only be inferred that everything was looking well.

Timothy—There were slight variations in the price of new crop Timothy or September delivery. In other respects there were no changes. The trade was again of an exceedingly small order. Arrivals light, only enough to supply the demand offered on the regular market, and the demand was found to be very light when sellers did appear. Shipments showed some gain, and yet at this season they are not of much significance. The cash market was quotably dull and heavy unless it might be high grade Seed, and of this none came on sale. September delivery advanced about 50 while there was a little decline in October, but subsided there was a reaction. There has been little in way of crop news. The fact that there were no disturbances in the market was suggestive that everything in the crop outlook was normal up to the present. September delivery opened at $3.20 asked and $3.17½ bid, later a little sold at $3.20, afterward it was offered at $3.15 and inside at $3.17½. Contract spot was usually quoted as nominally $2.05, and country lots were quotable at $2.00@2.85 for low grade to fancy, choice about $2.50@2.60 and good Seed $2.65@2.75, closing at $2.70@2.75 Same time last year 71,460

Flax—Very little was done. In this respect there was nothing new. It was the same inactive market for cash Seed and futures have not grown any in interest. There was no news from outside to have any influence. Arrivals very small, and output the same way. About the only thing done in futures was changing July to September at 2½ @3c premium for latter—last change at the outside. Visible supply in the Northwest decreased considerably, but for all that it remains liberal. Local receipts were 6 cars and 223,877 bu by lake, the week before they were 8 cars and 240,000 bu by boat, and two weeks ago 13 cars. There were taken out 1,351 bu, compared with 693 the previous week and 3,823 bu two weeks ago. Local stock did not change, remaining at 24,201 bu, a year ago it was 71,295 bu. Duluth with 876,000 bu had still 6,920,000 bu. Minneapolis decreased 37,733 bu, reporting 234,283 bu. Spot No. 1 Northwestern or No. 1 from the Northwest was stationary at $1.07. No. 1 at $1.01. Rejected was quotable at 92c@$1.01. July about $1.01, September was usually quoted at $1.05 early, but later it changed at 3½@3¾c over July and was in the regular way finally offered at $1.08.

Groats—Has remained inactive. There has been practically nothing doing for several weeks Arrivals of old Seed have so nearly ceased that none appears on sale, excepting an occasional small lot. New crop Groats attracts no attention as yet, but in the absence of business values have remained unchanged. There has been no change for some time. The nominal quotations were as follows: Contract spot Seed was quoted at $6.75. Country lots, common to choice, $7.00@10.00; fancy above; mixed with Buckhorn or other weed Seeds, $6.00@6.00; poor, cleaned out of Timothy, very foul, down to $3.00@6.00. Fair to good $8.50@9.50.

Receipts—The past week, lbs	23,000
A week ago	82,000
Two weeks ago	80,000
Same time last year	740
Shipments—The past week, lbs	26,610
A week ago	34,870

Other Seeds—Have been unusually dull and heavy. Small lots of Hungarian and Millet were offered. No open market business was reported Dealers have had a small trade in Seeds, apparently were supplied to the extent required. They were indifferent about buying. No one cares to hold over any lots of these Seeds at existing prices than they will have to. No quantity could be sold except lower prices were accepted. No one cared to make bids on the occasional to arrive lots offered. Nominal prices quoted from day to day are shown in the table appearing elsewhere. The movement for the week, with comparisons, was as follows:

Receipts the past week, lbs	176,475
The previous week	202,165
Two weeks ago	242,470
Same time last year	86,600
Shipments the past week, lbs	81,970

Hay—The receipts for the week were 4,749 tons, against 4,434 for the previous week. Arrivals of Timothy for the week were 372 tons, against 215 tons for the previous week. The offerings of Timothy Hay were only fair, and a moderate demand existed during the past week, with the feeling a little improved, but prices show no material change. Prairie Hay was dull throughout the week. The receipts were liberal and the demand quite light. Prices ruled steady early in the week, but later declined 50c per ton. Quotations at the close ranged as follows: Choice Timothy, $13 50@14 00; No. 1 Timothy, No. 2 Timothy and Mixed Timothy, $11 50@12 50; No. 3 Timothy, $8 50@10 00. Choice Prairie, $11 00@11 50; No. 1 Prairie, $9 50@10 50; No. 2 Prairie, $8 00 @9 00; No. 3 Prairie, $6 00@8 50; No. 4 Prairie, $6 00 @7 00. No. 2 Prairie on Platform Hay Track, Chicago, outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $8 00@14 50 for poor to choice Timothy, $7 00@12 00 for Seate, and $10 25@11 50 for Kansas Prairie Hay. Rye Straw sold at $5 00@10 00, and Oat Straw at $6 00@7 25.

Coal—Trade was moderate in the market for Coal during the past week, and the feeling was steadier in a general way. Offerings were not very free, and the demand was moderate. Buyers a little slow to meet the views of sellers. Local receipts were quite liberal, but shipping orders were moderate. Ash Pork Barrels were in fair demand, and prices steady at 97½@$1 00. Oak Pork Barrels were in small request, and prices ruled slightly higher, quotable at $1 00@$1 10. Lard Tierces were in moderate request, and offerings were not very large. Prices a trifle higher, quotable at $1 20@$1 30. Iron bound Lard Tierces in moderate request and offering in only fair. Prices quotable at $1 12½@$1 15 for six-hoop, and $1 19@$1 20 for eight-hoop.

HOGS—The supply of Hogs during the past week, was rather good, and the quality was well maintained. Market in a general way was quite active. Packers purchased rather freely, and shippers provided for a fair number of Hogs from the Eastern markets. Feeling was rather easy and prices declined 10@15c on the whole range, and the market closed comparatively steady. Sales during the week were at $5 20@$5 40 for light, $5 05@$5 30 for rough packing, packing and shipping lots, with the bulk of the trading at $5 15@$5 40 for fair to good averages At the close about 3,000 Hogs remained in the pens unsold. Pigs met with moderate supply and in active demand, especially for shipping lots. In the week were made at $4 70@$5 20 according to size and weight. Receipts of Hogs at the other large Western packing points were fairly large, and the quality rather good.

PACKING—Only a fair business was transacted in packing circles during the past week. Receipts of Hogs were fair, and prices slightly lower, and this feature encouraged a little more activity. Many packers of Products was fair. Mess Pork nerlected—supply on hand ample. Offerings of Pork made sparingly. Lard produced rather freely, and the average yield was quite good. Very little placed in tanks. Domestic cuts of Hams made in fair quantities, and a moderate proportion delivered from the block. Skinned Hams made moderately, and a good proportion shaped for manufacturers. Foreign orders have made sparingly. Shoulders made in moderate quantities, and a fair proportion delivered from the block. Picnic Hams made in fair quantities and shaped to meet the views of buyers in moderate degree. Long Clear Sides and Extra Long Clear Sides made very sparingly. Short Clear Sides made in limited quantities. Extra Short Clear Sides made a little more freely. Short Rib Sides made in fair quantities. Extra Short Rib Sides made moderately. Rough Sides cut with considerable freedom, and chiefly of light and medium averages. Backs and Bellies made in moderate quantities. Plates made sparingly. Butts cut moderately. Foreign fancy and special cuts of Meats made in limited quantities. Loins cut rather liberally for current wants.

PROVISIONS—Quite a good speculative business was reported in the market for Hog Products during the past week, and the feeling was considerably unsettled, with the leaning to a great extent to the "bear" side of the market. A good share of the business was in transferring contracts from July to September at the usual differences—about 37½@37¾c on Mess Pork, 17½@20c on Lard, and 27½@32½c on Short Rib Sides. Hogs were in fairly good supply at the leading packing points of the West and prices ruled lower, and this feature had a depressing effect on the market for Products. Returns of the packing of the West for the week exhibited a decrease of 25,000 Hogs compared with the corresponding week in 1903. Foreign markets were inclined to quietness, but rather firm for Meats at slightly advanced prices. While Lard was easy as a moderate decline. Domestic markets were fairly active and prices exhibited little change. Receipts of Products from the interior were fairly large as packers are selling Products in fair quantities. Shipments were moderately free. Exports for the week were fairly large, and somewhat in excess of the returns for the corresponding week last year. Early in the week the feeling was rather easy, with considerable general liquidation, and prices declined sharply on all the leading articles. At the reduction, there was a little better demand, mainly from "shorts," and a steady feeling was maintained temporarily, with a moderate rally in prices. Again, the market weakened under the pressure of miscellaneous offerings, and prices receded quite sharply all around. Toward the close the feeling was stronger, with fair buying, and a moderate rally in prices, and the market closed comparatively steady. In the shipping branch of the trade there was a fairly good call, with the demand chiefly from the domestic trade. Exporters accepted only small quantities. Offerings were not very large, and holders were rather firm in their views. Cash trade was fair and prices were slightly higher for most descriptions

Pork—Quite an active business was reported in the market for Mess Pork, and the feeling was unsettled with frequent fluctuations in prices. Offerings in a general way were quite free, while the buying was moderate and somewhat scattering. Considerable realizing by holders of moderate quantities. Supply on hand quite large for the season of the year. Manufacture very small Operators transferring their contracts ahead. Early in the week, the feeling was comparatively easy, and prices declined 40@45c. At the reduction there was a fair inquiry from "shorts," and a steadier feeling was manifested. Prices rallied 10@15c. At the improvement there was a little pressure to sell while the demand was moderate, and prices receded 15@23c Toward the close, a little more steadiness prevailed, and prices ruled firm at the close, with the market closed steady. Very little demand on shipping account, and offerings were moderate. Cash lots at the close were quotable at $17 70@17 75. Other cuts of Pork were in only fair request to fill orders, and offerings were not very large. Prices well supported for most cuts.

Lard—A fairly good speculative business was transacted in Lard during the past week, and the undertone to the market was rather easy. Offerings were moderately free, and the demand was only fair, and the packing parties who were willing to accept moderate profits. Considerable realizing by holders of small quantities. Manufacture fairly liberal, and supplies gradually enlarging. Foreign markets were somewhat unsettled, and prices quoted lower, both in the United Kingdom and on the Continent. Interior packers rather free sellers. Early in the week, the feeling was rather easy, with considerable pressure to sell, and prices declined 32½@33c on the whole range. At the decline, there was moderate miscellaneous buying, and prices rallied 7½@10c. At the advance, offerings were more liberal, and while the demand was somewhat limited, and prices gradually receded 17½@20. Toward the close, rather more steadiness was manifested, and prices advanced 15@17½c, and the market closed rather steady. Transfers of contracts from July to September were made at 17½@23c difference. Offerings of cash Lard were moderate early in the week the offerings were moderate. A few small trades were made at about July figures—closing at 35 92½ @36 05. Refined Lard was in moderate demand, and a few sales were made of prices not made public. Loose lots were in only limited request, and the offerings were small. Quotable at 50c discount on the July figure. Leaf Lard was in rather good demand and sold at prices not made public, at 36 @36 25, and closed steady at 36 18¾. Neutral was in only limited request, and offerings were small. Prices were quotably steady at 5½@5¾c. Refined Lard was quotably easier at $7 50@7 12½, for No. 1, and $6 75@6 87½ for No. 2.

Short Rib Sides—Rather an active business was transacted in Short Rib Sides during the past week, and the market was considerably unsettled. Outside orders were fair, and local trading was quite active. Supply on hand quite large, and manufacture only fair. Offerings were quite free and fair. Trading was chiefly in July and September contracts, and transfers were made at 25@27½c difference. Little more doing in actual contracts. Early in the week, the feeling was rather easy, with considerable realizing, especially by outside holders of moderate quantities, and a fairly good inquiry from "shorts" developed, and receded 27½@33c. At the decline, there was a little more demand in a general way, and prices rallied temporarily 5@7½c. This improvement brought considerable property on the market, and a decidedly weak feeling was manifested. Prices irregularly declined 40@75c, but rallied 7½@10c, and closed comparatively steady. The demand on shipping account was light, and offerings were moderate. At the close, cash lots were quotable at $7 12½@$7 25 according to weight.

Green Meats—Were in moderate request in the market for Green Meats during the past week, and the undertone was rather firm. Offerings were fair, but holders were firm in their views. Buyers were a little slow to meet the views of sellers, though provided for a fair number of orders. Local curers purchased fair quantities, and outside orders were somewhat larger. Interior packers sold with considerable freedom. Hams were in fair request and prices ruled 4@4½c higher. Skinned Hams were called for in fair quantities, and prices ruled 4@4½c higher, especially on desirable averages. Shoulders were in fair demand, but were held firmly, and prices ruled slightly higher. Picnic Hams were in rather good request, and sales were made at prices favored sellers. Bellies were in small demand, and prices were well maintained.

Pickled Meats—Trade was rather active in the market for Pickled Meats during the past week and the feeling was firm. Offerings were fair, especially by interior packers, and the demand was quite good. Orders from distributing markets were fair. Export orders were comparatively light. Advices from abroad were rather favorable to holders Merchants in the manufacturing districts bought fair quantities. Supplies of most descriptions are fairly large. Hams were in good request, especially medium and heavy averages, and prices ruled 4@4½c higher. Skinned Hams were in good request with moderate offerings and prices advanced 4@4½c, and closed steady. Shoulders were in light request, and prices were well maintained. Picnic Hams were in rather good demand, and prices were about 4c higher. Bellies were in moderate request to fill small orders, and prices were well supported.

Dry Salted Meats—Only a fair business was transacted in the market for Dry Salted Meats during the past week. Offerings were fair, both by local and interior packers, and the demand was only fair. Supplies of all kinds are fairly liberal. Foreign markets were stronger and quotations were advanced on some of the leading articles. Orders from that quarter were somewhat limited. Domestic markets were rather steady. Foreign cuts of Hams were quiet and firm. Shoulders were in small request and prices well maintained. Long Clear Sides and Extra Long Clear Sides were in fair request, prices ruled firm, and Short Clear Sides were quiet and prices inclined in favor of sellers. Extra Short Clear Sides were in fair request and prices were slightly reduced—closing at 7@7¼c. Extra Short Rib Sides were in moderate request and prices ruled steady at 7½@7¾c for buyers—closing at 7@7½c. Rough Sides were in rather good request, with fair offerings, and prices were slightly lower—closing at 6@6¼c according to weight.

Plates were in moderate demand and prices were without material change Butts in moderate request and prices ruled steady. Backs were in fair request, and prices ruled steady. Bellies were in moderate request and prices ruled steady. Foreign fancy and special cuts of Meats were in small demand and prices were unchanged

Smoked Meats—Trade was fair in the market for Smoked Meats during the past week, and there were no particular changes to note. Supplies of all kinds are fair. Demand for car lots was moderate, and the jobbing trade was quite good. Prices without material change. Hams were in fair request and prices well maintained. Skinned Hams were called for in moderate quantities and prices ruled steady. Shoulders in moderate request, and prices without material change. Picnic Hams were in fair request, and prices ruled steady. Sides of all kinds were in only fair request, and prices were reduced about 4c all around. Breakfast Bacon in rather good demand in a jobbing way, and prices ruled steady.

Lard—Fairly good speculative business was reported in Beef Products during the past week, and there were few changes to note. Offerings were not very large, and the demand was only fair. Foreign markets were steady, and the domestic markets rather quiet. Cattle were in fair supply, but with little to move in prices, especially for the better grades. Manufacture of Products in moderate amounts of Oleo Stearine in quite liberal. Beef Hams were in moderate request and firmer. Prices ruled 25@50c higher. Mess Beef in fair demand and prices ruled steady without material change. Plate Beef rather quiet and prices ruled rather steady. Extra Plate Beef was called for moderately, and prices were unchanged. Tallow was in fair demand in a quiet way, and offerings were moderate. Prices well maintained. Oleo Stearine in rather good demand prices ruled 4@5c higher—closing at 6@6¼c.

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, June 30.]

The tenor of the crop reports received the past week was nearly the same as in the preceding week East of the Mississippi River an improving tendency is reflected, the crop turning out much better than expected early in the season. In limited portions of Western Illinois some damage has been reported lately by rust. In the Western States - that is, in Missouri, Kansas and Nebraska—excessive rains have been unfavorable for harvesting and best development of the Grain, but actual damage is believed to be local and in the aggregate only slight generally. Both in the East and West evidences of large and well-filled heads is the characteristic of the reports of the past few weeks. Although harvesting averages fully a week later than normally, it is gradually extending Northward, and is now about ready in the central part of the Winter Wheat section Mail advices from the Pacific Coast indicate that the outlook is not quite as favorable as a month ago

Advices from the Northwest indicate that about the only drawback of any significance in Spring Wheat condition is that many fields are too weedy; but as a whole the promise is as good as a month ago Spring Wheat on the Pacific Coast has been impaired by dry weather

While the Corn crop has not had much hot driving weather it has made fair progress in growth. In Kansas and Missouri the fields are weedy, but elsewhere generally they are clean and the Corn has a healthy appearance. If the plant were a little more advanced in growth, the crop would be in prime condition. The acreage is as large as ever before notwithstanding not as much was planted as originally intended owing to excessive rains in the West.

The Oats crop is as promising as a week ago; in the Eastern States the yield will be large. In the West it varies from moderately below an average, due to short and thin stands, to very heavy crop; on the whole the crop will be an average in yield.

A noticeable feature of our crop correspondence recently has been the generally favorable outlook for the minor crops. Vegetation, taking the country as a whole, is above the average Pastures are good and Live Stock is doing well.

In Ohio the Wheat crop continues to show a tendency toward improvement; heads are filling well and a good quality is expected; most estimates now range between 50 and 75 per cent of a crop and a 60 per cent crop or more may now be expected but the acreage is small. Oats prospects are above an average, with large acreage. Corn is rather small for the season, but in good condition and growing nicely Potatoes are in promising condition. In fact, vegetation in general is unusually favorable. Supplies of old Grains are believed to be small

In Indiana Wheat is maturing much better than expected earlier, but condition in different parts of the State is very irregular, estimates ranging from 25 per cent to an average crop, generally better in southern than northern parts of the State; 66 per cent crop may be expected. Corn crop is well cultivated, and is making a healthy growth. Oats promise a large yield, although shortened some in the northwestern part by drouth. Vegetation generally favorable.

In Illinois rust is reported to be injuring the Wheat seriously in some western counties. Crop is rather irregular, in nearby counties ranging from half crop to a bumper crop; on the whole the prospects are much better than last year and fully up to an average. Corn is in good average condition and is growing favorably; a little weedy in some western counties, and a little apprehension of chinch bugs in the south. Oats promise a large yield in the southern and fair in the northern part of the State Timothy, pasture, Potato and minor crops generally are in good condition. Corn and Oats going to market a little more freely.

In Iowa all crops progressed favorably the past week Corn is fully up to an average condition; is a little late, but clean and healthy and the acreage is large Oats in some counties are somewhat thin and head short, while in others they are very promising, on the whole, about an average yield may be expected Hay promises a good crop, although not as heavy as last year's crop. Minor crops generally favorable. Not many Hogs or Cattle feeding Not much old Corn or Oats on hand

In Missouri Wheat harvest was hindered by excessive rains; crop is ready to harvest in most of the State, some complaint of rust; heads are generally well filled In some western counties the yield will be small, but generally it will be fair to very good Corn is late but making good growth; it has been too wet for proper cultivation. Oats crop quite variable; rains have been unfavorable for it Hay crop good.

In Kansas more rains the past week have been unfavorable for crops, especially on bottom lands. However, except in the western counties, Wheat prospects are good, and harvests are hindered by the wet weather Corn is weedy, but is in fair condition, notwithstanding the excessive rains. Oats crop will be good in most counties.

ILLINOIS CROP REPORT.

SPRINGFIELD June 30. —The following crop bulletin was issued by the State Board of Agriculture to-day

"Reports dated June 20 show improvement of 6 per cent in the condition of Winter Wheat since the last report of May 1. In both the northern and central divisions of the State the improvement was 3 per cent, but in the southern division it amounted to 10 per cent.

"Wheat, like all other vegetation, is backward, and harvesting has not commenced. Hessian fly is reported in Wheat in Adams, Crawford and Effingham Counties, rust in McLean County, and chinch bugs in southern counties.

"Prospects for the Oat crop are much more encouraging than on May 1, the condition being 89 per cent of a seasonable average, which is a gain of 11 per cent since the last report.

"The area in Corn is about as large as in 1903. There is a deficiency of 2 per cent in Southern Illinois and 1 per cent in Central Illinois, but there is no deficiency in Northern Illinois The June 20 condition is more promising than a year ago, being 85 per cent of a seasonable average in Northern, 86 in Central, and 88 in Southern Illinois. In spite of cut worms, grubworms, root lice and other hindrances, the condition of the Corn crop is very encouraging"

THE WEATHER CONDITIONS.

Raining in Kansas, 01 at Dodge and .20 at Wichita. Clear balance of Southwest. Showery in Ohio Valley. Cloudy and cool Northwest; cloudy West Warmer in Canadian Northwest.

Indications generally fair, but with more or less cloudiness over this district. Little change in temperature, though tendency to warmer in Northwest.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, June 30.]

There has been a further moderate reduction in the Hog movement during the past week. Western packing returns for the week amounted to 440,000, compared with 460,000 the preceding week and 490,000 two weeks ago. For corresponding time last year the number was 465,000 and two years ago 395,000. From March 1 the total is 7,225,000, against 6,825,000 a year ago—an increase of 400,000. The quality of the receipts is mostly fair. Prices for Hogs have been moderately higher than the preceding week, but at the close the average of prominent markets is about $5 15 per 100 lbs, compared with $5 15 a week ago, $1 90 two weeks ago, $5 80 a year ago, $7 55 two years ago, and $5 90 three years ago.

The speculative Provision market was fairly active Early in the week a strong tone prevailed and prices were advanced, based on a decrease in the receipts of Hogs and higher prices for them. In the latter part of the week there was more disposition to sell, and the advanced prices were not supported to the close. Foreign markets were firmer. Domestic markets steady. Merchants in manufacturing districts purchased more freely. The export clearances of Product were fair, but show a decrease compared with the preceding week, but an increase over the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.

ITEMS OF GENERAL INTEREST.

The Pittsburg Oil and Gas Company has declared a dividend of 2 per cent, payable July 15. Books close June 30 and reopen July 16.

Representatives of the Lake Lines Association and traffic officials of the Eastern railroads met in Chicago, Thursday, and decided to extend rates on Grain products, which expired with the month, until Sept 30. No action was taken on the question of differentials, the old rate of 2c per 100 lbs in favor of the lake lines being allowed to stand.

An easier feeling developed during the past week, and prices fell off ¼c. However, trade was good, and dealers have been able to keep sold out whenever they were willing to accept current quotations. The demand was chiefly for speculative purposes and liberal quantities have been placed in storage. Local consumption has been good and some lots were taken on shipping account. While the demand has been good, buyers did not snap up the offerings so eagerly as a few days ago, but insisted on the concessions noted, with the tendency more in buyers favor. Some little export business was reported, and while larger than last year has nevertheless been of a limited character and not sufficient to have any bearing on the market. However, there has been considerably more Butter exported from Montreal than last year, and with slightly lower prices a large movement may develop here.

The receipts have continued liberal, exceeding those of last week, and also the arrivals of last year, and dealers do not expect the flush of the receipts until some time in July.

To-day the market is ruling steady. Demand only moderate—some of the buyers off the market to-day on account of the Fourth, many parties leaving the city.

Extras in Creameries in moderate demand and quotably 17¾c.

Firsts in Creameries are quotably 16@16½c, and meeting with fair sale.

Seconds in Creameries are quiet and quotable at 13½@14½c.

Thirds in Creameries quotable at 12@13c.

Imitation Creameries in light supply and in light demand. Quotably about 15c.

Process Butter (renovated) is quotable at 14c per lb.

Ladles are quiet. Offerings moderate. Demand light. No. 1 quotably about 12@12½c and not selling.

Dairies are steady. The demand is good and offerings are fair. Fine makes quotably 16c. Firsts are quotable at 13c: buyers little slow to take hold of these. Seconds or such goods as lack flavor and not of uniform color are quotably 12c—occasional lots sell in with packing stock.

Packing stock is in fair supply and ready sale. For nice, fresh, sweet stock 11@11½c was readily paid. Rancid and stale stock quotably 7@8c.

DRESSED HOGS—A few are being received and they meet with moderate sale. Clean, bright Hogs will sell. If dirty and unattractive they are hard to sell.

Per 100 lbs—
Choice, smooth, clean, straight stock, medium weights .... $5 00@....
Very heavy .... @4 50
Pigs, 50@75 lbs weight .... 4 50@5 00
Staggy crippled, and sows .... @3 00

DRESSED LAMBS—The offerings were light and the demand also limited.

Yearlings pelt off, poor to choice, per lb. 3@ 6
Mutton, pelt off, poor to good, per lb .... 3@ 5

BEANS—Choice Pea Beans are steady. Demand is fair and supply small. Stock deteriorated in quality or condition, due to moisture in the Beans, rules very weak and irregular in value. Considerable stock of this kind in sight and holders anxious to sell. Common of all kinds dull. Very few open market offerings. Red Kidney Beans remain scarce and firm.

Quotable as follows:
Pea Beans—
Hand-picked, choice .... $1 68 @.....
Off color .... 1 50 @1 60
Damp and deteriorated in quality 1 40 @1 50
Screened and low grades .... 1 10 @1 40

Red Kidney, per bu, choice hand-picked .... 3 25 @.....
Under grades, irregular, down to .. 1 50 @.....
Limas, California, per 100 lbs .... 4 12½@.....

CHEESE—A very strong market quoted for American makes. There has been a fair advance in prices the last few days. It has been due to higher prices prevailing at the recent factory sales, where speculative demand or demand for storing has absorbed the offerings. In the Eastern dairy sections as well as in the Western prices have advanced.

NEW GOODS—FULL CREAM.

Receipts Apr. 1, 1899, to July 8, 1899 .. 830,915 "

The market during the week has held up firmly and prices show slight gains over last week. Fine Eggs have been looked for and met with a better demand. Receivers of desirable lots found it much easier to make sales and the market has been kept clear of stock. The demand has been chiefly of a local character, consumption being good, and some Eggs were placed in storage, besides which, however, a fair demand existed to fill orders coming from interior local points. But the improvement was entirely for fine Eggs, the poorer lots remaining dull and neglected.

To-day there was no change to note in the market. Fine Eggs sell well and in moderate supply. Poor Eggs are dull.

Fresh Eggs at mark, as received, cases returned, cover a wide range and are quotable at 13½@14½c per dozen, depending on quality. Only fine Northern bring top figure. Buyers discriminate against Illinois and Missouri. Arkansas, Kentucky and Tennessee quotably about 1@2c less.

Fresh Eggs at "mark" general receipts, new cases included, quotably 14@14¾c, and shipping cases included at 13¾@14½c. Missouri and Illinois are discriminated against—only Northern stock brings top figures. Kentucky, Arkansas and Tennessee stock is about 1@1½c discount.

"Firsts" are quotably about 15c. This classification means fresh-gathered Eggs packed in new white wood cases, unless otherwise specified, shall be reasonably clean, of good average size, and shall contain 45 per cent fresh, reasonably full, strong, sweet Eggs, from May 15 to Feb. 15. The balance other than the loss may be defective in strength and fullness, but must be sweet. There may be a total average loss of two dozen per case, but if the loss exceeds this amount by not over 50 per cent the Eggs shall be good delivery upon allowance of the excess.

"Prime Firsts" are quotably 16c per doz. To meet this classification the Eggs must be fresh gathered, be packed in new white wood 30-dozen cases, unless otherwise specified, shall be reasonably clean, of good average size and between May 15th and Oct. 31st shall contain 65 per cent of fresh, reasonably full, strong, sweet Eggs; the balance, other than the loss, may be defective in strength and fullness, but must be sweet. There may be a total average loss of one dozen per case, but if the loss exceeds this amount by not over 50 per cent the Eggs shall be good delivery upon allowance of the excess.

"Extras" are quotably 18c. This is a very high grade of Eggs, put up by some of the city merchants to meet the requirements of a particular high class of trade. It requires going through a good many cases to get one case up to this standard, as nothing but large, full, strictly fresh-laid Eggs are taken.

Dirties in good supply and demand light. Quotably 12@12½c for general run.

Seconds, including small, shrunken and dirty and cracked, not leakers, quotable at 10@11½c per doz depending on quality. Some lots coming musty which sell for less than quotations.

FRESH FISH—Are moderate sale. The receipts of inland lake and river Fish are small.

Black Bass, per lb .... 13 @14
Carp and Buffalo .... @ 1
Pike, per lb .... 6 @ 7
Pickerel .... 4 @ 4½
Perch .... 3 @ 4
Sun Fish .... @ 2
Eels .... 7 @ 8

FROG LEGS—The receipts were fair. Demand fair for choice, fresh of good size, but small not wanted. Grassers generally reported dull.

Bull Frogs, extra large, per dozen .... $ @1 25
Medium .... 50@1 00
Grassers, large .... 12@ 15
Medium .... 6@ 8
Very small not wanted.

POULTRY—Live—The market was without change from yesterday, excepting that Spring Chickens were off another cent from top figures.

There was a fair supply on sale, comprising express receipts and some left over from yesterday. The demand was only moderate, but dealers hope to be able to clean up all right.

Live Turkeys met with moderate sale at the quotations and supply light.

Live old Chickens. Fowls were in fair supply and in moderate demand. Light weights preferred, and market steady.

Spring Chickens in good supply. The demand was only moderate and rather more stock on sale than needed.

Live old Ducks met a moderate demand at the quotations. Spring Ducks, unless large, say 3 lbs and over were very dull.

Live Geese are very quiet. Very few are being received. Some little demand for young Geese if large.

Turkeys, old or young, good .... $ 10 @ 11
Poor thin stock .... @ 8
Chickens, Fowls, light-weights .... @ 10
Fat heavy Hens .... @ 9½
Roosters .... @ 6
Spring Chickens, 2-lbs or over .... @ 16
About 1½-lb average .... @ 14
Small, 1¼ lbs and under .... 12½@ 13
Ducks, general receipts, old .... @ 8
Young Ducks, per lb .... 12½@ 13

Geese, old, per doz, poor to good .... 4 00 @6 00
Plucked, very poor .... @3 00
Young, small to good size .... 4 00 @6 00

Iced Poultry—There was a little doing and Iced Poultry was quiet. The offerings were not large as dealers worked hard yesterday to get rid of their holdings, well knowing that there would be very little trade to-day and none on Monday.

Turkeys, mixed weights .... @11
Straight Hens .... @13
Chickens, mixed weights, scalded .... @ 9½
Mixed stock, dry picked .... @ 9½
Off in condition, scalded or dry picked 7 @ 8

POTATOES—Old—Offerings on track are small and demand limited at 60@75 as to condition.

Potatoes—New—Arrivals by car loads compare as follows:

	This week.	Last week.	Last year.
Monday	70	132	30
Tuesday	35	63	5
Wednesday	30	48	12
Thursday	23	37	16
Friday	12	17	26
Saturday	40	15	..
Total, 6 days	210	312	89

An easier market was noticeable. Offerings were larger and holders more anxious to sell. Buyers were indifferent. There will be no business until Tuesday. Large offerings are expected then and lower prices are looked for.

The bulk of the arrivals were barreled stock. All showed good quality and were clean. Tennessee red sold in straight cars on track at $3 15@3 50, and a car of Virginia sold at $3 60 delivered early in the day, and five cars at $4 50. Loads were offered later at $3 50 delivered.

Bulk stock sold at $1 35@1 40 for choice red in car lots, and some might have been secured for less. Poor, soft and very dirty was slow at low prices.

STRAW—Rye Straw quotable at $9 00@11 00. Wheat Straw at $6 50@7 00. Oat Straw at $6 50@7 00.

TAME PIGEONS—The receipts are quite liberal and the demand for old Birds only moderate. Squabs in large supply. Those just ready to leave the nest, full feathered, are the most desirable. They are fatter before they commence to fly. However they should not be taken too young, as they must be feathered to make a good appearance.

Quotable:
Live, old, per doz, good flyers .... $....@1 15
Dead, old, per doz .... @ 90
Live Squabs, thin and poor .... 75@1 00
Dressed, fat Squabs, large .... @2 25
Medium .... 1 50@1 75
Thin .... 75@1 00
Feathered Nestlings .... @2 00

VEAL—The market was quiet. There were only small offerings and only a very light demand. Weather cool, which was of some help to the market.

Good carcasses over weight—too heavy—were especially slow, as they came in competition with Stock Yards Calves.

Quotations for Calves in good order were as follows:

50@60-lb weights .... 5½@ 6
50@80 lbs, thin, bony .... 5½@ 6
65@75-lb weights, according to quality .... 6 @ 7
85@120-lb weights, fair to good kidneys .... 7 @ 7½
Choice bright, fat, white kidney .... 7½@ 8
150@200 lbs, good, meaty .... 5 @ 6
Very coarse, heavy .... 4 @ 5
75@250 lbs, coarse Hay or grassers .... 4 @ 5

BERRIES.

BLUEBERRIES—There were only small arrivals; they were from Wisconsin. Cases sold very fairly; some in small baskets were slow.

Cases, 16 quarts, usually .... $2 00@....
A few fine quoted .... 2 25@....
Baskets, 8 quarts .... @1 00
No sales of latter as yet.

BLACKBERRIES—Only a small quantity came in. They sold well. A shade better prices prevailed. Some in 16-quart cases Illinois were rather soft, this was about the only complaint.

Cases, 24 quarts
Early Harvest, Illinois, choice .... $2 00@2 25
A few quoted a trifle over.
A few soft .... 1 25@1 75
Cases, 16 quarts—
Early Harvest Illinois, soft .... 1 25@....

BLACK RASPBERRIES—Early there was a good demand with few offered. Some came from Michigan and sold well. The few Illinois were soft. Later, there came a fair run from Indiana; by that time trade was well over and they ruled quiet and easy.

Cases, 24 pints
Michigan .... $1 75@2 00

GOOSEBERRIES—Met with very good sale and ruled steady.

Cases, 16 quarts—
Small Berries to choice, large .... $1 00@1 15

RED RASPBERRIES—There was a good market. They cleaned up nicely. A shade better prices were realized. Receipts fair from Michigan, but decreasing from the South.

Cases, 24 pints—
Illinois, choice, sound, bright .... $2 00@2 25
A few fancy Millers quoted shade over.
Soft ranged down to .... 1 50@....
Indiana, nice Brandywines .... 2 00@....

Michigan, choice, large, dry, bright .... 2 00@....
Some fine selections .... 2 25@....
Undersize Berries .... 1 75@1 65

STRAWBERRIES—There was a brisk trade early. Good Berries sold well and ruled firmer. Quality showed some improvement, and still there appeared in the arrivals some very common Berries.

Receipts from Michigan, were 10,000 cases by boat and 1 car. There were also some small lots received.

About 150 cases came up from Ludington, slowly before 11 o'clock: that was late, the trade was over. These Berries also were small; they were dull and easy, no prices established.

One boat from Racine arrived late. These Berries did not meet with so good sale or rule so firm as those which came in early.

Quoted as follows:
Cases, 16 quarts—
Across the lake stock mainly .... $ 75@ 85
Some very common .... 65@....
Selections .... 90@1 00

MELONS.

CANTELOUPE—Remain dull. The feeling was easy and prices covered a wider range.

Barrels, Louisiana .... $1 50@2 50

GEMS—Market was quiet and without special change. Local demand was fair and there was a moderate business done on shipping account. Offerings of Californias and Georgias were liberal and there was also a fair supply of Texas.

Californias, crates, standard, repacked. $3 50@4 00
Some quoted shade higher.
Pony crates, repacked .... 2 50@3 00

CHERRIES—Sour Michigan had a good trade, and prices widened to the outside of recent quotations. Receipts were good.

A few Southern were received. They are past their prime and do not bring as much in proportion as Michigan.

A few Black Sweet offered. When large and nice they were good sale. Small were slow.

White Sweet were in fair supply. They were slow owing to the competition with Californias.

PEACHES—The market was slow and depressed. Arrivals the last few days have been heavy. To-day there were about 17 fresh cars of Texas reported on the market, a good many also were held over from yesterday. A good part of the trade bought yesterday in anticipation of to-day's needs and had enough on hand. Even at at shaded prices sales were not easily effected, and indications are that a good portion of the offerings will remain unsold. Most of the Peaches were good, but as usual there were some that were specked.

Offerings of Alabama were also fair, and they shared in the weakness.

Since freestone Peaches were so plentiful and reasonable, anything in the way of small common or clings were hard to sell; in fact there was no regular market and holders had to look to peddlers for sales.

PEARS—There were few arrivals of small green Pears in ⅓ bu baskets. Trade has not yet started in this line, and the stock not being desireable, there was no regular market.

PLUMS—Holders naturally were rather anxious to sell not wanting to hold Plums over, as Monday there will no market. The feeling in the market was an easy one, especially for small red, also for wild Goose when not extra fine. Cases of large Plums met with fair sale.

HOW TO PACK APPLES.

It is very essential that Apples should be properly prepared for packing, in order that the best results may be obtained and it is with this end in view that the following suggestions are submitted:

Country shippers and packers of Apples should make it a point to pack their Fruit honestly; that is, have the Fruit run alike all through the barrel. Do not endeavor to deceive consignee by placing good, sound, large Fruit on the top and bottom of the barrel, and fill in the middle with a lot of gnarly, wormy and decayed Fruit. It does not pay. The deception is easily detected upon investigation, and merchants do not care to have fraud practised upon them, neither do they care to practise it upon their customers.

Full regulation-sized barrels should be used. Take the barrel, one head out, nail the hoops, and break off the ends of the nails at the inside; place a layer of sound, large Apples, and if varieties run smooth, bright, healthy, as closely as possible, stems downward, on the lower end, then fill up a basket full at a time, throwing out small wormy, gnarly and windfall Apples, and *shaking the barrel* down after each basketful until it is full up to the top of the rim or two inches above the rim, depending on variety and tenderness of Fruit; place the head squarely on the Apples, and with a screw or lever press force it into place and nail securely. Turn over the barrel and mark name of Apple with red or black crayon pencil. *Bear in mind* that, to be shipped safely, Fruit must be packed *tight*, so prevent rattling or bruising.

In shipping Apples the first of the season—early varieties—shippers should see that openings are cut on the side of the barrels and also in both heads to insure free circulation of air, which will greatly help to bring Apples through in good condition during warm weather.

A meeting of the Grain Inspection Committee, the Warehouse Committee of the Board of Trade and the Warehouse Commissioners of Illinois was held, Wednesday afternoon. The management of the Grain Inspection and sampling department was discussed, and it was decided to appoint a committee to take charge of the new department and formulate rules for its working.

TO SHIPPERS OF LIVE POULTRY.

Commission merchants would like to call attention of shippers to a few points. Shippers should see that the coops are in good condition before using, so that they are not liable to come apart while in transit, as they are roughly handled sometimes The coops should also be high enough to allow whatever kind of Poultry is shipped room enough to stand up. Low coops should not be used, it not alone being cruel, but a great deal of Poultry is lost every year by suffocation. For Turkeys higher coops than for Chickens should be used.

Filling of Coops—Coops may be loaded heavier in cold than in hot weather. Do not overcrowd the coops Putting too much stock in a coop at any time is wrong, but in hot weather especially do not crowd too much stock into a coop. This should be carefully attended to in order to prevent any more shrinkage than possible Coops often arrive with a good deal of dead stock. Do not blame the commission merchant for heavy shrinkage or Poultry smothered in transit through carelessness in overcrowding coops.

In hot weather do not put more than 100 lbs of live old Hens in a regular coop; in cold weather about 120 lbs in a regular coop. Spring Chickens, Spring Turkeys about 60 to 80 lbs and large 70 to 90 lbs.

Keep different stock seperate as much as possible. If a shipper has sufficient stock to fill coops, it is best to ship the Hens, Spring Chickens, Roosters, Turkeys, Ducks and Geese seperately. Of course, if a party has not enough stock of each kind to fill a coop seperately, mixed coops can be sent.

Spring Chickens weighing less than one pound should not be shipped as they become a drug on the market. Pound and one-half to two pound Chickens sell best, and taken in the season over two pounds are preferred. In the early spring, or when Chickens first come in, some small Chickens will sell but as soon as Chickens begin to be plentiful then the small ones are not wanted. Later in the summer when Chickens are brought to place in freezer one and one-half to two pounds are preferred, so take the pains to have the Chickens, or as near as two pounds as possible, sells best.

Attention is also called to the fact that dark feathered Ducks are not as desirable as the white-feathered, chiefly for the reason that they do not dress out as white and clean as the white-feathered stock.

Poultry should be shipped so as to arrive on the market from Tuesday to Friday. Receipts generally increase toward the end of the week, and there is enough carried over stock on hand Saturday to supply the demand. Merchants, rather than carry stock over Sunday, would sell at a sacrifice, as the stock, when in coops, loses considerable in weight by shrinkage, and does not appear fresh and bright. Besides Monday is usually a poor day to sell Poultry.

Take with the name of the commission merchant to whom the shipper should be tacked on the end of the coops. Tack two tags, one on each end, so that if one gets destroyed the other is likely to remain all right.

Never tack the tag on the tops of the coops.

Be sure and write your name and address on the tag. Your name alone over the door, while it may be sufficient, as the commission merchant receiving your shipment could not tell to whom or where to send the pay for the stock.

HOW TO DRESS CALVES.

Calves from three to six weeks old, and weighing about one hundred pounds, or say from eighty to one hundred and twenty pounds, are the most desirable weights for shipment. The head should be cut out, so as to leave the hide of the head on the skin. The legs should be cut off at the knee joints. The entrails should all be removed, excepting the kidneys; the liver, lights and heart should be taken out. Cut the carcass open from the neck through the entire length—from head to bumgut if this is done they are not so apt to sour and spoil during hot weather. Many a fine carcass has been spoiled in hot weather because it was not cut open. Don't wash the carcass out with water, but wipe out with a dry cloth. Don't ship until the animal heat is entirely out of the body, and never tie the carcass up in a bag, as this keeps the heat in, causes bruising, and makes the meat more liable to become tainted.

It is very essential that the directions for dressing Calves is followed, especially in regard to letting the Calves cool off properly before shipping in hot weather, as hundreds of Calves are received in bad order and sold for not much more than charges and some do not bring that. Numerous carcasses are also condemned by the health officers. They should hang up 6 to 8 hours or over night in an airy place to properly cool off before shipping.

Calves under fifty pounds should not be shipped, and are liable to be condemned by the health officers as being unfit for food. Merchants, too, are liable to be fined, if found selling these slunks, for violation of the law. Very heavy Calves, such as have been fed on buttermilk, never sell well in our market—they are neither Veal nor Beef.

Fasten the shipping tag with your name and address written plainly thereon to the hind leg.

The best selling days for Calves are Tuesday, Wednesday, Thursday and Friday morning. The first and last days of the week there is not much demand, and after Friday morning—that is, Friday afternoon and Saturday—buyers generally have their wants supplied.

Of course there is some demand every day, but usually the best days to sell Calves are Tuesday, Wednesday, Thursday and Friday morning.

THE FLOUR PRODUCTION.

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city.

The Minneapolis Flour output last week increased 14,000 brls. Seventeen mills were running to-day, and they were grinding at the rate of about 50,000 brls per day. However, several of them are likely to be shut down Friday or Saturday, so that the week's production will probably fall considerably short of 300,000 brls. For the same week in 1903 the output was 280,180 brls.

When one takes into account the mills as to trade in Flour during last week was somewhat varied. One large company early in the week made fair sales, all domestic, and averaged a moderate business for the whole week. Other mills generally complain of dullness, experiencing a very dull trade. Nevertheless, about all gos in shipping directions freely, and the amount of Flour now on the books is comparatively small.

Export trade received little attention. It is out of the question to sell Patent abroad, except as a heavy sacrifice, and millers are generally confining attention to domestic markets Clears are duller than ever. Domestic markets which were previously taking this Flour seem to no longer consider it a necessity. The main result is that foreign markets are turned to as an outlet, and to make sales, very low prices have to be accepted. Holland was reported unwilling to pay over 14s 6d, which is quite far off.

The mills are holding Patent at about the same price as a week ago, and quotations of Minneapolis and outside mills now range at 84 70@4 80 per 196 lbs in wood f. o. b. Minneapolis.

The range of Eastern prices to-day (June 28) asked by Minneapolis and outside mills for Patent in wood was: Boston rate points, $5 20@5 40; New York rate points, $5 20@5 50; Pittsburg rate points, $5 10@5 35; Baltimore rate points, $5 20@5 40; Philadelphia rate points, $5 25@5 50; Albany and Syracuse rate points, $5 25@5 50; Rochester and Syracuse rate points, $5 25@5 50; Buffalo rate points, $5 1 @5 35; Michigan, $4 85@5 10 in sacks; Iowa, Illinois and Wisconsin, $4 80@5 05 in sacks; Missouri points, $4@4 90 in sacks.

On the part of millers, the desire to see the last of June Flour in June seems to be unanimous. As one of the *Northwestern Miller* correspondents expresses it: "While they examine that June with the month of bright flowers, blushing brides and lovely weather they hope that they may never see its like again"—if there is to be a repetition of the unequal Flour trade of that June week. With prospects for sufficient Wheat for milling needs during the coming months and prices that will allow the miller to profit it at some small margin, the outlook is perhaps improving, though there is nothing in the present situation to warrant buoyant hopes or spirits. All eyes are on the Wheat crop, and in the latter letter belt too much rain seems to be the only bogie. Last reports state that heavy rains have fallen since Sunday in parts of the Southwest where harvesting was due to begin Monday.

MONEY CIRCULATION OF THE WORLD.

The per capita circulation of the world, as estimated by the Director of the Mint, is $9 47, and it is being increased at the rate of about $1 per head annually, the production of Gold. It is estimated that the annual Gold production is at least $250,000,000. The United States and France have the largest amounts of Gold per capita, Switzerland in money among the nations of the world. The Director of the Mint estimates the population of the world at 1,358,600,000, the amount of Gold in circulation at $5,382,600,000, the Silver $4,000,000 and paper money $2,933,500,000 The total money, according to the estimate, is $12,185,100,000.

The circulation per capita varies greatly in different countries, depending largely on the quality of the money. The latest estimates of the per capita circulation are:

Germany.....	$20 48	Straits Settlem'ts	$18.25
Greece.....	21 00	Bulgaria.....	1.32
Spain.....	21.10	India.....	2.02
Japan.....	23.37	Peru.....	2.19
Australia.....	24.49	China.....	2.27
South Africa.....	25.33	Servia.....	3.24
United Kingdom	29.09	Japan.....	3.33
South America.....	30.43	Egypt.....	3.71
Siam.....	31.20	Mexico.....	3.76
France.....	39.32	Roumania.....	3.86

The per capita circulation of Gold is more than three times the world's average in the United States and the Bank of England.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, June 29.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth, together with that of 59 "outside mills" with a daily capacity of 30,580 brls, from Sept. 1, 1903, to June 18, 1904:

	1903-04		1902-03	
	Flour, brls.	Wheat, bus.	Flour, brls.	Wheat, bus.
Minneapolis.....	11,794,055	53,073,000	13,866,450	62,129,000
Duluth.....	885,165	3,983,000	1,398,810	5,842,000
Outside mills....	5,689,945	25,606,000	5,474,705	24,635,000
Totals.....	18,379,175	82,661,000	20,579,965	92,606,000

These figures represent the approximate consumption of 9,947,000 bus less Wheat this year than in 1902-03. This has occurred from the mills of Minneapolis and Duluth turning out 2,425,780 brls less Flour, equal to 10,916,000 bu of Wheat, than last year. In contrast, the outside mills have increased their output to the extent of 215,240 brls, or equal to 969,000 bu of Wheat.

FLAX CROP CONDITIONS.

[From the Minneapolis Market Record.]

The crop news regarding Flax has rarely been in a more uncertain condition. This is largely owing to the fact that in making estimates of total acreage it is necessary to take into consideration the importance, as a Flax-raising point, of the station making the report. And there is very little available data on that point.

Whether a station ships two cars of Flax or a hundred or more means something, and, on investigation, it is found that a great many stations that are used in making averages have shipped less than five cars during the entire year.

The *Record* is doing the best it can in trying to get an accurate idea of the present crop area, but we don't care about offering any new estimates just now In the meantime the crop looks good everywhere, although in many places it is not over six to eight inches high Ward County, Dakota, as was shown June 28, th it was in blossom

ITEMS OF GENERAL INTEREST.

The Coleman Cotton Mills at Concord, N. C., has failed and was bid in, Tuesday, by the mortgagees for $10,000

The National Biscuit Company has closed the Aurora, Ill., plant, owing to the usual midsummer dullness.

The Georges Creek Coal and Iron Company has declared a semi-annual dividend of $3 0 a share, payable July 6.

A New York banking firm have purchased $5,000 4 per cent thirty-year water bonds at 108.850 from the City of Trenton, N. J.

Managers of the syndicate handling the issue of $37,000,000 New York City bonds issued recently have taken up more than from 10% to 15%.

An Eastern banking firm, Wednesday, were awarded the $1,000,000 3½ per cent fifty-year Connecticut River bridge bonds of Hartford, Conn., at 102 43.

The $112,000 one-year loan of Norfolk County, Massachusetts, was awarded, Tuesday, at 3.84 per cent discount. The loan will be payable July 1, 1905.

A dividend of 3 per cent on the capital stock of the Tempie Iron Company will be paid July 1 to holders of certificates of beneficial interests of record June 30.

A dividend of 1¼ per cent will be paid on the stock of the Consolidated Traction Company of New Jersey on July 15. Books close June 30 and reopen July 16.

Directors of the Commercial National Bank, Chicago, have declared the regular quarterly dividend of 3 per cent, payable July 1 to stockholders of record June 30.

The directors of the American Trust and Savings Bank, Chicago, Tuesday, declared the regular semi-annual dividend of 3 per cent, payable July 1 to stockholders of record June 30.

Gossip from New York is that attorneys are working every day on a plan to consolidate the Metropolitan Street Railway, the Metropolitan Securities Company and the Interborough Company.

The Osceola Consolidated Mining Company has declared a dividend of $1 00 per share. The last previous dividend was $1 00. The dividend is payable July 28. Books close July 7 and reopen July 18.

The Standard Steel Company of Des Moines, Iowa, capitalized at $2,000,000, has called a meeting of its stockholders at East Orange, N. J., on July 11, to sanction the rounding up of the company's affairs.

It is reported on what is called "good authority" that provision has been made for payment of the July interest on the bonds of both the Chicago Terminal Transfer Company and the Mexican Central.

The directors of the E. W. Bliss Company have declared the regular quarterly dividend of 2½ per cent on the common stock and 2 per cent on the preferred, payable July 1. Books close June 25 and reopen July 1.

The American Tobacco Company has declared the regular quarterly dividend of 2 per cent on its preferred stock and a dividend of 3 per cent on common stock, payable Aug. 1. Books close July 15 and reopen Aug. 2.

The Cleveland, Chicago, Cincinnati and St. Louis Railway Company has declared the regular semi-annual dividend of 2 per cent on the common stock, payable Sept. 1. Books close Aug. 19 and reopen Sept. 2.

"Demand has been better during the past ten days," said an officer of the Republic Iron and Steel Company. "The increase has not been large, but it is a general one, and has applied to nearly all kinds of product."

The Linden and Nonotuck mills of the American Writing Paper Company, employing 1,000 persons, will shut down for a two months' period on July 1. It is authoritatively stated that the writing paper trust will close other mills.

"The gross earnings of Brooklyn Rapid Transit for the first twenty days of the present month were close to $160,000 over last year, and it is thought the estimated increase of $175,000 for the month is very conservative," says the Brooklyn *Eagle*.

A New York dispatch says: "So far as can be learned, there will be no opposition to the proposed issue of Southern Pacific preferred. J. R. Keene will be in Chicago when the directors meet, and say they do not know of anyone else who will bring indunction suits or take other legal steps."

The exports of Flax Seed from India from April 1 to June 9 were shipments of 1,382,300 bus this year, 182,300 bus last year, and 138,925 bus in 1902, and as this year's crop is officially estimated at 77,000 tons more than that of 1903, the quantity remaining in India was 95,000 tons more than at this time last year.

It is reported that the United States Steel Corporation will probably increase its output of finished products 50 per cent during July and August. The Duquesne, Edgar Thomson and Homestead works of the Carnegie Steel Company will be run all summer, as orders have come in enough orders to keep them actively at work.

The G. A. Fuller Company has filed a certificate reducing its authorized issue of capital stock from $20,000,000, of which $15,500,000 is outstanding, to $3,000,000. The United States Realty and Construction Company on Oct. 1, 1902, owned $9,00 ,000 of the $10,000 0 0 common and $4,998,600, of the $5,000 0 0 preferred.

A settlement as to wages to be paid for the year beginning on Friday has been practically agreed to by the committees on the Amalgamated Association of Iron, Steel and Tin Workers and the American Sheet and Tin Plate on the basis of the present scale, which is 18 per cent lower than the original scale.

The regular semi-annual dividend of 4 per cent upon the preferred stock and an interim dividend of 1¼ per cent upon the common stock of the John D. Rockefeller Company have been declared. The business of the company for the half year is said to have been considerably larger than even that of 1901 and 1902. Dividends are payable July 15.

A Boston dispatch says: "A quiet trade prevails in the Wool market, with a quiet demand from manufacturers. Old Wools are almost sold out and buyers in need of supplies are forced to purchase New Wools at full prices. Choice Fleece Wools the trading is slow, with prices mostly nominal."

As Des Moines man takes an optimistic view of Iowa's crop prospects and says: "Corn is growing nicely, good color, and as a rule clean. Saw some fields being laid by. Oats are heading out; short straw and thin stand. Have not noticed anything to change my opinion as to prospects in this State. A continuance of good weather is all that we need now."

A Carroll, Iowa, message, Wednesday, said: "Corn prospects in this vicinity are not as good as a week ago. Corn has made very little growth this week owing to cold nights. Don't think it is anything serious, but it is time Corn was getting some rapid growth. A late crop, you know, is in danger of an early frost. The color in low places is getting yellow."

WEATHER BUREAU REPORT.

The Weather Bureau weekly crop report, issued at noon to-day, is as follows:

Spring Wheat—In the northern portion of the Spring Wheat region cool weather has checked rapid advancement of Spring Wheat, which, however is generally doing well. Over the southern portion of the Spring Wheat region the reports indicate an improvement over previous week. An improvement is also reported from Washington, but in Oregon the crop is heading short and light yields are expected.

Winter Wheat—Harvest has made slow progress in Missouri and Kansas: damage to Wheat in shock is reported from the first-named States. Complaints of rust also have been received from portions of Missouri and from Nebraska and Kansas. East of the Mississippi River better harvesting weather has prevailed, and this work as a whole has advanced satisfactorily having begun in the Upper Ohio Valley Winter Wheat harvest has begun in Oregon and will soon begin in Washington

Corn—In Nebraska and Kansas, Corn has grown well, but in the central and eastern portions of the Corn belt growth has been slow as a result of cool weather. Except in portions of Nebraska, Kansas and Missouri where fields are weedy, the crop is in a good state of cultivation

Oats—The general outlook for Oats is promising, but this crop has suffered from excessive moisture on low lands in Minnesota and in portions of Missouri, Nebraska and Oklahoma. East of the Mississippi River harvesting has made good progress. In the more southerly districts to Westward, work has been interrupted by rains in Missouri and Southern Kansas.

ITEMS OF GENERAL INTEREST.

New York Exchange 10c premium.

Documentary Sterling steady at 484¾.

Chicago Bank Clearings to-day, $33,523,840.

The stock of Flax Seed at Minneapolis on July 2 was reported at 213,397 bu, against 234,283 bu for the week previous—a decrease of 20,886 bu. Stock last year, 721,615 bu.

The receipts of Wheat at Liverpool during the past three days were 248,000 bu, of which 40,000 bu were American. Receipts of Corn, 144,000 bu, of which none were American

Stocks in New York were well absorbed and made fair gains New York Central, Atchison and Reading showed the best advances There was no selling pressure. Money 1⅛ per cent.

Cotton in New York was depressed by the "bearish" Government report, showing 88 or 5 points over June. New crop futures were sold freely by the South. Closing prices were at losses of 11@14 points.

The Illinois crop report says: "Good crop of Wheat is being harvested in the central and southern districts. Some complaint of rust, but the quality of the Grain is generally believed to be good."

The July report of the Chief of the Bureau of Statistics of the Department of Agriculture makes the present average condition of Cotton 88, against 83 last month, 77 1 at this time last year, and 84.7 in 1902.

Stocks of Wheat in public warehouses in Liverpool reported at 3,320,000 bu, against 3,240 000 bu one week ago and 2,408,000 bu one year ago Stocks of Corn reported at 770,000 bu, against 858,000 bu one week ago and 257,000 bu last year

On the reverse page will be found the detailed report of the visible supply of Grain. Compared with the previous week there were decreases of 597,050 bu Wheat, 431 000 bu Oats, and 16,000 bu Rye, and an increase of 843,000 bu Corn and 11,000 bu Barley.

Local Securities were slow, with prices mostly lower. The losses were not extensive and on Biscuit were mostly recovered. Quaker Oats preferred, Milwaukee Brewing preferred and West Chicago Railway made fair advances Street's preferred lost 1⅜

H L Nicolet, Esq., commercial editor of the Kansas City *Star*, has made a careful estimate of the Winter Wheat crop of Kansas from correspondence received last week. The area is placed at 4,340 000 acres, and the yield at 82,500,000 bu, compared with 5,000,000 acres and a yield of 93,000,000 bu in 1903. Since that time some damage reports have been received and the estimates may have to be reduced 10,000,000 bu—depending on clearing weather.

REVIEW OF TO-DAY'S MARKETS

FLOUR—Market quiet, but undertone steadier. Sales moderate

WINTER WHEAT—Remains quiet. Demand light and very little business doing Prices are little better than nominal No 2 Red in store nominally 98c@$1 00, and fresh arrivals free on board quotably about $1 00@1 02. No 3 Red fresh receipts free on board steady, with sales at 97½@98c. No. 2 Hard fresh receipts free on board ranged at 90@94c. No. 3 Hard fresh receipts quotable at 82@90c.

SPRING WHEAT—Very little doing and market quiet and firmer Receipts continue very light. No. 1 Northern in store quotably 8½@9c over old July, and ranged at 95½@97¾c. and fresh arrivals free on board quotably 97@98c No 2 Northern fresh arrivals quotably 93@96c No 3 Spring fresh receipts free on board quotably 85@97c. No. 4 Spring quotably 65@90c for poor to choice.

REGULAR WHEAT—Just a fair trade, mainly local and professional, with a stronger feeling, the close showing new July up 2@2¼c and new September 1⅜@1⅝c better Wet weather in both the Spring and Winter Wheat belts, "bullish" foreign statistics and sharp advance in both the English and Continental markets were the principal "bull" helps. Map showed excessive rains where harvesting was under way and local thunderstorms were predicted Local "shorts" covered freely and buying September for Northwest account was a conspicuous feature Liverpool quoted spot steady to 1½d higher and futures ⅜@1⅜d higher. Stocks there, 3,320,000 bu increased 80,000 bu last week. London came 2⅛@2⅛d higher and cargoes on passage were held 3d higher Paris advanced 1⅛@2¼c and Antwerp was up 1¼c Berlin gained ¾c and Buda Pesth 2⅜c. Quantity on ocean passage decreased 3,976,000 bu to 45,192,000 bu, compared with 31,6?0,000 bu last year World's shipments smaller 7,312,000 bu, previous week, 9 298 000 bu; year ago 2 600,000 bu The visible decreased 597 000 bu, last year decreased 1,489,000 bu Total is now reported 11 055 000 bu in 1903 15,970 000 bu, and in 1902, 19 125 000 bu Local public stocks decreased [illegible] bu last week, to 1,3?5 000 bu, compared with 2 457,000 bu last year. Ohio report 59 per cent against 54 June 1 and 84 per cent one year ago English visible increased 212,000 bu, last year increased 2,214,000 bu Private cables stated that French crop estimates were being reduced the yield being less than expected More rain was said to be needed in India. The absence of outside trade or public interest was a late feature and acted against the market Kansas crop was estimated at 80 000 000 bu by a local statistician who recently went over that State. The large receipts predicted Friday for the Southwest failed to materialize Exports were moderate, and 16 loads of Manitoba Wheat were worked direct by local exporters. At the seaboard 12 boat loads were accepted English farmer's deliveries last week were 168,000 bu at 79¾c. St. Louis reported spot new Wheat selling at 98½c@$1 00, and 5,000 bu sold to arrive, July delivey, at 87c Government weekly crop bulletin was rather "bullish" on position of Winter Wheat. Cash sales here limited Receipts at Duluth 52 cars and at Minneapolis 812 cars, a total of 864 cars, against 222 cars July 1, 308 cars a week ago, and 156 cars last year. Local receipts included 19 cars Winter, none Spring 6 cars mixed, a total of 25 cars, against 35 cars last year. Included in the above was no car contract grade. There was 2 cars and no bu taken from unlicensed elevators The estimated receipts for to-morrow are 15 cars. Withdrawals to-day were 23,900 bu. Receipts at Western points were 835,935 bu, against 279,185 last year At Eastern points 137,815 bu, against 64,879 last year. Shipments from Western points were 423,055 bu against 458,560 last year, and from Eastern points 19,276 against 34 355 last year Shipments of Flour were 28,796 brls. Exports of Wheat in Flour were equal to 142,868 bu

OATS—Were weak and ⅛@⅜c lower early, the latter on July, but reacted and closed at a net gain of ⅛c. Trading was moderate. July was sold freely early, but advanced ¾c from the low point. Deferred futures held steady, only moving ⅜c all day. The strength was mainly in sympathy with other Grains. Crop prospects were less favorable. The visible supply decreased 431,000 bu and local stocks decreased 131,000 bu and are 472 000 bu in public houses. Receipts were 351 cars with 195 cars estimated to-morrow. Withdrawals were 79,400 bu. Seaboard clearances were 61,000 bu. Cash sales were 75,000 bu Car lots to go to store were ½@2c lower. No. 3 White sold at 36¾@38¾c. Standard at 39c. Standard in store sold at 38½@39½c as to location and closed at 38½@39c

Oats by sample were slow and ½@2c lower, although the tone was better at the close, due to the advance in futures Offerings were liberal Sales on track and free on board: No Grade at 3?c No. 4 at 31½c. No. 4 White at 33@38c No. 3 at 34⅜@36¾c. No. 3 White at 35½@40c Standard at 39½@39¾c. No. 2 at 35@37c Billed through. No 4 at 32@31c No. 4 White at 35@37¼c No 3 at 34½c No. 3 White at 37½@38½c. Future Deliveries of Contract Oats—Were unsettled and closed higher

JULY—Sold at 36¾@37¼c Opened at 37¼c sold to 36¾c, to 37⅛c, to 37¼c at close

SEPTEMBER Moderate trading. Sold at 31¾c and at 32@32⅛c. Opened at 32@32⅛c sold to 31¾c, to 32c at the close

DECEMBER Sold at 32⅛@32½c and at 32¾c. Opened at 32⅝c, sold at 32¾c, to 32⅜@32½c, to 32⅝@32¾c at close.

MAY—Sold at 31⅛@34¼c. Closed at 34¼c

RYE Ruled firm to-day and prices a shade better. Only two cars received. There were no withdrawals from store here and no export clearances from the seaboard No 2 in store or fresh receipts nominally about 6?c No 3 fresh receipts free on board nominally 57@60c No 4 sold at 50c.

Future Deliveries of No. 2 Rye—Quiet and firm. July 5?c bid September sold at 55c and closed with 5?c bid

BARLEY—Little was done. There was only a very small malting demand and practically no demand for mixing. No high grade Barley offerings Fourteen cars were inspected in. Visible supply increased slightly last week and it remains considerably larger than a year ago. Values on some grades were purely nominal Screenings were quotable at 25@34c for poor to good; very choice possibly a trifle over. Feed Barley, common, dirty or musty down to 25@28c sweet, good color, thin, perhaps 30@35c. Malting, low grade, was quotable 37@41c, fair to good, sound, 42@47c good color, 48@52c, and fancy above

SEEDS—The feature of the market was a sudden sharp advance in Flax prices The market for Grass Seeds ruled quiet and was not materially disturbed; the only business done was the sale of a few cars of September delivery Timothy

Timothy—Was about steady for the contract grade with a little more interest in new crop or September delivery. Cash Seed perhaps steady for better grades, but none of good quality or better offered There was some common rough Seed on sale This was dull and the few bids received were not satisfactory Contract spot or July nominally $2 90 September sold at $3 15 Country lots quotable at $2 00@2 75 for low grade to fancy, choice about $2 65@2 70, fair to good Seed $2 45@2 65 and rough at $2 25@2 40.

Flax An advance of 4@4½c is something quite unusual for such a market as has lately been witnessed but such a change occurred to-day. It was due to a short up-turn in values in the Northwest. In this section a higher market is said to have been caused by reported large decrease in acreage and not very good reports from some sections No business done aside from sales of a few cars of the lower grades. Nothing else was offered. There were larger arrivals here, 5 cars, also 99,469 bu by lake, a total of 103 719 bu, with an output of 5 cars or 5,175 bu. Minneapolis got 37 cars to-day and Duluth 74 cars. Local stock last week decreased 5,827 bu, and was 18,374 bu, compared with 67,291 bu a year ago. No 1 Northwestern or No. 1 from the Northwest was $1 12, and a sale made No. 1 salable at $1 06 Rejected was quotable at $1 00@1 05 and No Grade sold at $1 00 July was $1 06 bid and $1 08 bid for September; latter held at $1 10.

Clover—Inactive and nominal None whatever on sale Market also without demand. No change quotable. Contract spot Seed about $10 75. Country lots, common to choice, $7 00@10 00; fancy above, mixed with Buckhorn or other weed Seeds, $6 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good $8 50@9 50.

HOG PRODUCTS—Considerable interest was manifested in Hog Products, and the market was rather active in a speculative way. Strength in the Grain markets and moderate Hog supply, with prices higher at the Yards, encouraged some buying. Outside orders were larger, and chiefly on the buying side, while local trading was active. Some realizing by holders of moderate quantities. Market opened strong, with a good miscellaneous demand, and prices ruled higher on all the leading articles At the advance there was considerable realizing, and prices receded to inside figures. At the reduction there was a fair inquiry for moderate quantities, and prices rallied to medium figures, with light trading, and closed rather steady. Receipts of Hogs at the principal Western packing points were estimated at 53,500, compared with 83 500 one year ago Foreign markets were stronger, and Liverpool quotations were advanced 1s on Backs and 3d on Lard Domestic markets quiet Stocks on hand about as anticipated Receipts were fairly large—of Lard and Meats about 61 cars. Shipments were good of Lard and Meats about 228 cars Shipping demand was moderate and offerings were only fair. Sales not very large, and prices well supported. Exports for the week, compared with the corresponding week in 1903, exhibited a decrease of 490 brls Pork, and increases of 2,320 000 lbs Lard and 5 121 boxes Meats

Mess Pork—Trade was fairly active in Mess Pork, and the feeling was somewhat unsettled Supply exhibited a reduction of 3,200 brls during June. Offerings were fair, and the demand was moderately active At the opening, prices were 5@10c higher, with fair miscellaneous buying Later, a weaker feeling was developed and prices receded 20@25c, with considerable realizing on the receding scale At the reduction, the demand improved, and prices rallied 12½@15c, and closed steady Shipping demand was light and offerings were small. Cash lots were quotable at $13 05@13 10.

JULY—Demand light and offerings were small. A few trades were made at $13 02½@13 07½ and closed steady at $13 07½.

SEPTEMBER—Offerings were moderately free, and the demand was fair. Sales were made at $13 10@13 35 Opened at $13 30 to $13 35, sold to $13 10, to $13 15, to $13 10, to $13 17½, to $13 15, to $13 22½, to $13 20, $13 22½, to $13 20, to $13 25, to $13 22½, and closed steady.

OCTOBER—Quiet with small sales at $13 20

Lard—A fair trade was reported in the Lard market, and the feeling was somewhat unsettled Offerings were fair, and the demand was moderately active. Supply increased about 36,500 tcs during June, and the world's supply estimated at 32,000 to 60 000 tcs larger. Market opened rather firm, and prices were 2½@5c higher, but an easier feeling was developed, and prices settled back 5@7½c Toward the close, the feeling was stronger but quiet, and prices rallied 2½@5c, and the market closed comparatively steady Demand on shipping account was rather light with no particular pressure to sell. Cash lots quotable at $7 12½@7 15 Loose lots in small request with limited offerings Prices steady at about 65c discount on September figures Leaf Lard in moderate request and offerings were small Prices were quotably steady at $8 25 Neutral in only limited demand with fair offerings Prices quotably steady at $7 25@7 37½ for No. 1, and $7 00@7 12½ for No. 2.

JULY—Quiet and quotable at $7 15.

SEPTEMBER—In rather good demand and offerings were fair Sales were made at $7 25@7 32½ Opened at $7 30 to $7 32½, sold to $7 25, to $7 30 to $7 27½, and closed steady.

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, June 21.]

United Kingdom—The weather in the United Kingdom is generally favorable for crops, but there is not heat enough to force rapid growth, and all indications point to another late harvest, although not such a miserable affair as we had last year, it may be hoped. Wheat is making slow but steady progress, and the spring cereals continue to receive favorable notice. Fine, warm weather is now wanted to secure the Hay crop and bring cereals to maturity; the rains of last week were well received, however, for they helped most crops and hurt the Hay but little. Supplies of English Wheat keep moderate or small and prices continue low.

Russia—The Winter Wheat crop is officially reported to show under-average condition and the acreage is short; on the other hand Spring Wheat, which is much the more important crop, shows good condition. Our correspondents report that conditions throughout the Southern belt and in the Centre are generally favorable, although rain is wanted for the Oats crop. Shipments continue on a liberal scale.

Roumania—Latest reports have little that is favorable to say of the Wheat crop. Estimates of the likely outturn usually vary from 50 to 60 per cent of last year's crop of 72,000,000 bu, but one report gave two-thirds of the crop as lost. Rains now cannot do any good to Wheat, but may do much harm; on the other hand, a general downpour is urgently needed for Corn, other spring cereals and fodder crops. A telegram received today from our Braila correspondents says that heavy rains fell on Sunday night between Bucharest and Buzeu, which latter town is about sixty miles from the former in a northeasterly direction. The interior movement of Grain continues to decrease and consists mostly of Corn; exports last week were of fair size.

Bulgaria—Reports continue of a favorable nature.

Austria-Hungary—For Hungary the officials have raised their estimate of the Wheat crop by roundly 8,000,000 bu, making the crop some 32,000,000 bu less than last year's. The text of the report says that further improvement is improbable, but deterioration possible. Reports of the Austrian crops are favorable.

Argentina—We have a cable advice this day saying that a little rain has fallen and more is likely, also that there has been light frost. The rain will be extremely welcome, for moisture is badly wanted for the new Wheat and Flax Seed seedings. Only small quantities of Wheat are arriving at the ports, and shipments last week were quite moderate.

Australasia—Mail advices from Australia continue to mention light rains, but there is so far no mention of the abundant, general rain which growers want. New Zealand advices confirm the news that a part of the crop of the South Island is unfit for milling owing to weather damage, but some of the largest producing districts have fine crops of good quality.

India—The abundant supplies from the last harvest continue to be freely offered at low prices. Shipments are large from Kurrachee, but smaller from the other ports.

France—Weather reports are again generally favorable, and although complaints have not entirely ceased, prospects are still considered as indicating a large crop. Supplies of native Wheat last week were somewhat less plentiful, and it is believed that some farmers have now sold out. Prices of good qualities were maintained, but other sorts declined about 6d per quarter.

Italy—Reports concerning the crops of Central and Upper Italy continue favorable, but in the south and Sicily dry weather has damaged both Wheat and Corn. Harvesting of Wheat has commenced in Southern Italy, and this crop (including Sicily) is fairly important, amounting in a good year to 56,000,000 to 64,000,000 bu.

Spain—Our Barcelona correspondent writes that severe hailstorms have caused serious damage to the crops in quite a number of provinces.

Belgium and Holland—The weather is about normal and there are no complaints concerning the crops.

Germany—Berlin reports some rain fell towards the end of last week, but we have, as yet, no word as to the extent of the fall. Rain is urgently wanted for spring cereals and root crops, and there is now some mention of Wheat needing rain, the Rye crop is probably too far advanced to benefit by any rain that may fall now. In some parts supplies of native Wheat are very short—practically exhausted in fact.

North Africa—Reports concerning Wheat continue favorable, but in some parts rains have spoiled the color of Barley.

THE WEATHER CONDITIONS.

Extreme Northwest, .20 inch rain at Winnipeg; Northwest, showery; West, North Platte, 1.02 inches rain; Southwest, light but fairly general rains; Ohio Valley, rains general; 98 at Indianapolis. There were general and heavy rains Southwest on the 4th, and general but more moderate on the 3d.

Local thunderstorms and showers are predicted for most of the Southwest to-night or to-morrow. In its official forecast the Weather Bureau says: Indications are for scattered showers in this forecast district, although it is not certain they will reach this immediate section. Temperature changes will be slight.

ITEMS OF GENERAL INTEREST.

The Rock River Cotton Company's factory, Janesville, Wis., was destroyed by fire, Monday. Loss, $35,000; insured.

French crop news is still generally favorable. Harvesting is expected to commence in the extreme south about July 1.

The cereal crops of Norway are reported to have obtained a good start; prospects for the Hay crop, however, are not favorable.

The new issue of stock by the Hibernian Banking Association, Chicago, has been all subscribed and was fully paid for and issued July 1.

Business failures in the United States and Canada for the past week were 260, against 259 the previous week and 222 for the corresponding week last year.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to June 18 have amounted to 4,4 8,000 bu, against 4,900,000 bu in the previous year, and 2,312,000 bu in 1901-2.

The Delaware, Lackawanna and Western Railroad Company has declared the regular quarterly dividend of 1¾ per cent, payable July 20. Books close July 2 and reopen July 20.

Bank Clearings of the leading financial centers of the United States for the past week aggregated $1,821,549,613, a decrease of 20.8 per cent compared with the corresponding week last year.

The monthly statement of the Director of the Mint gives the coinage executed at the mints of the United States in June as follows: Total Gold, $14,844,000; total Silver, $842,141; total coinage, $15,403,639.

The shipments of Flax Seed from India from April 1 to date amounted to 6,550,000 bu (Calcutta 4,080,000 bu and Bombay 2,480,000 bu), against 7,186,000 bu last season (Calcutta 4,176,000 bu and Bombay 2,960,000 bu), and 7,682,000 bu in 1901-2 (Calcutta 4,872,000 bu and Bombay 2,816,000 bu).

The receipts of Flax Seed at Bombay for the week ended June 2 amounted to 10,367 tons, against 9,020 tons in the previous week and 5,419 tons in the same week last year. The total receipts at Bombay from Jan. 1 to June 2 amounted to 124,083 tons, against 106,759 tons in the same period last year.

Average weight of Live Stock at Chicago for months mentioned follows:

	June, 1904.	May, 1904.	June, 1903.	June, 1902.	June, 1901.
Hogs	231	214	231	228	231
Cattle	1,068	1,015	1,062	961	1,000

Documentary Sterling strong at 484¾.

Chicago Bank Clearings to-day, $32,972,930.

No 2 Red Winter Wheat sold in Kansas City to-day at 91c

Paris cables say, "Weather in France fine. Forecast: north cold; south, hot"

Deliveries on July contracts to-day were 200,000 bu Corn and 750 brls Mess Pork

Reported that no Wheat and 80,000 bu Corn were taken at the seaboard to-day for export.

Average cost price of Hogs at Chicago, Tuesday, was $5 47, against $5 36 Saturday, $5 34 a week ago, and $5 63 a year ago.

Ten packers purchased 19,200 Hogs to-day; shippers, 5,500; left over, 2,000. Market closed strong. Top price on Hogs, $5 67½.

Estimated receipts for to-morrow: Wheat, 6 cars; Corn 65 cars; Oats, 42 cars; Rye, 2 cars; Barley, 8 cars; Hogs, 18,000.

Missouri report gives average yield of Wheat 13 bu—very doubtful—and 41 per cent of crop harvested. Condition of Corn 75, against 74 one year ago

Local Securities were more generally traded in and made substantial gains on most Stocks, which were well held Metropolitan Elevated common advanced 1 point, and Can preferred was ¾ higher.

The Duluth *Commercial Record* claims that the Wheat area of North Dakota will be 900,000 acres larger than last year. Increase in area of all Grain about 1,200,000 acres, of which 400,000 acres are new land and 800,000 acres abandoned by Flax.

Last year, with a condition of 53, Missouri averaged 10½ bu of Wheat per acre, and now with a condition of 85, only 13 bu is given. A full crop in Missouri is about 20 bu per acre. Every one knows that Missouri has a good crop this year, and the report looks farcical.

Cotton in New York reflected the unexpected advance in Liverpool. The latter came from the burning of 8,000 bales and damaging of 3,000 bales at Bremen. "Shorts" led the buying and prices moved up readily. Closing sales were at gains of 10@14 points.

Bradstreet's report of the available supply for the past week shows the following changes:

	1904. bu.	1903 bu.
Wheat east of Rockies	Dec. 1,669,000	Dec. 1,768,000
Europe and afloat	Dec. 4,000,000	Dec. 1,300,000
Total	Dec. 5,669,000	Dec. 3,068,000
Corn	Dec. 5,000	Inc. 1,685,000
Oats	Dec. 641,000	Dec. 101,000

Stocks in New York were advanced by the attitude of London traders. They bought over 50,000 shares of various Stocks. Grangers, Pennsylvania and Northern Securities were all bought freely, many on Western orders. The latter were in the face of reduced crop estimates in the Southwest. Closing prices were at gains of ¼ to 3 points—the latter on Consolidated Gas. Money 1⅛ per cent.

H. L. Nicolet, Commercial Editor of the Kansas City *Star*, wires: "I think there is no question but that the heavy rains in Kansas the last few days cut the crop down 15,000,000 to 20,000,000 bu. This is the opinion of the two largest line elevators here. I would not put Kansas over 70,000,000 bu. Missouri is badly hurt and I do not think will go over 32,000,000 bu. Rough reports do not make Nebraska over 35,000,000 bu on the present basis. Most of the Kansas Wheat is dead ripe and greatest part of the best Wheat area had two to three inches of rain last night on top of fields already soaked."

NEW WINTER WHEAT.

Four cars of new Winter Wheat were received from Missouri to-day, and inspected No. 2 Red. Last year, first car was received on July 7, from Central Illinois, inspected No. 3 Red and sold at 78c.

NO WEEKLY REVIEW.

Owing to a short week and two holidays, there will be no weekly review of the Grain and Provision markets on Saturday next.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market was reported firm, with a moderate local and domestic demand.

WINTER WHEAT—Ruled firm and prices were quotably 1c higher—possibly for some grades 2c higher. Demand fair and confined to fresh arrivals. Some new Wheat received to-day No 2 Red in store quotably 98c@$1 00, and fresh arrivals, part car, sold at $1 02 free on board No 3 Red, hard variety, sold at 97c and was quotably 97c@$1 00, outside for choice soft No. 4 Red fresh receipts free on board, choice car sold at 98c. No Grade Red sold at 55c. No. 2 Hard fresh receipts free on board quotable at 92@96c, with a sale at the river at 95½c. No. 3 Hard sold at 91c, and ranged as low as 81@85c for ordinary.

SPRING WHEAT—There was a light demand and the market ruled firm, with prices about 1c higher. No. 1 Northern in store quotable at 8½@9c over old July and ranged at 97¼@98⅞c, and fresh arrivals free on board quotable at 97¼@99c. No. 2 Northern fresh arrivals quotable at 94@96c. No. 3 Spring fresh receipts free on board sold at 90@94c. No. 4 Spring quotable at 65@90c for poor to choice.

REGULAR WHEAT—A good trade, better than in several weeks past, and the feeling was again stronger. Closing prices showed new July up ⅜c and the September ⅜c higher. Commission houses were good buyers of September, while the early offerings were very moderate. Map again showed excessive rains in the West—3.20 inches at Wichita, 2 32 at Kansas City and .80 at Concordia—and showery, unsettled conditions were predicted and was the principal "bull" influence. Realizing followed the early upturn, the arrival of four cars of new No. 2 Red being something of a factor. The market, however, was strengthened to some extent by the *Bradstreet's* figures, showing a decrease in the world's available supply of 5,669,000 bu, against 3,068,000 bu decrease same week in 1903. Liverpool spot was quoted steady to ⅛d higher and futures unchanged to ⅛d better London was ⅛@⅜d higher. English country markets were 6d higher. *Mark Lane* quoted foreign Wheat 3d@6d higher. Cargoes on passage 3d better Paris was down ⅛c and Antwerp up ⅝c Buda Pesth was ⅝c lower and Berlin was quoted ⅞c higher Duluth reported a more active and general demand for cash from the East, and the Missouri State report indicated a smaller yield than generally anticipated. The Kansas City *Star* reduced its estimate on the Kansas crop to 70,000,000 bu. Primary receipts 82,000 bu smaller than a year ago Exports were limited, and about all in Flour, and no boat loads accepted at the seaboard. Stocks here in all positions were reported 2,569,000 bu, against 4,276,000 bu last year. Contract stocks decreased 17,810 bu, to 657 514 bu, compared with 1,949,773 bu same date in 1903. Minneapolis wired stocks there had decreased 30,000 bu the past four days. A sale of 5,000 bu No. 1 Northern was reported here at 98¼c.

Minneapolis wired: "No change reported in crop situation; to insure a good crop we need dry, warm weather from now on." Reports from Southern Indiana were decidedly "bullish." Private cables to-day denied damage to the French crop Selling for the Northwest was a late feature. Receipts at Duluth 51 cars and at Minneapolis 111 cars, a total of 162 cars, against 864 cars yesterday, 199 cars a week ago, and 135 cars last year. Local receipts included 14 cars Winter, 1 car Spring, 3 cars mixed, a total of 18 cars, against 16 cars last year. Included in the above was 2 cars contract grade There was 1 car and no bu taken from unlicensed elevators The estimated receipts for to-morrow are 6 cars. Withdrawals to-day were 57,000 bu. Receipts at Western points were 303,733 bu, against 385,002 last year. At Eastern points 67,136 bu, against 100,180 last year Shipments from Western points were 260,668 bu, against 280,810 last year, and from Eastern points none, against 17 118 last year. Shipments of Flour were 6,305 brls. Exports of Wheat in Flour were equal to 27 962 bu

CORN—A better trade and stronger undertone, the close showing July up ¼@⅜c while September gained ⅜@½c and December ⅝c. Commission houses were good buyers of September and December and May was wanted by Provision interests. Receipts were only 273 cars, 16 cars grading, against 216 cars and 11 cars respectively, last year, and but 65 cars estimated for to-morrow. Weather map showed too much rain in parts of the West, and showery, unsettled conditions were predicted. Wheat, too, was stronger and proved a "bull" help. Cables were firm. The Missouri State report made condition 75 per cent, against 74 last year. Liverpool quoted spot unchanged and futures steady to ⅛d higher. Cargoes on passage were held 1½d higher Southwestern markets were strong. There was 09 cars and 92,625 bu contract switched from private to public elevators. Local arrivals were 256,000 bu and shipments 485,000 bu. Exports 99,000 bu and 8 boat loads accepted at the seaboard. Western receipts were 393,000 bu, last year 608,000 bu. Shipments 562,000 bu and 269,000 bu respectively Stocks here in all positions were reported 6,685,000 bu, against 7,340,000 bu same date in 1903. Contract stocks increased 790,880 bu last week and now include 2,613,400 bu, against 2,459,430 bu one year ago. *Bradstreet's* decreased 5,000 bu, against 1,685,000 bu increase same week in 1903. Shipping demand reported moderate and sales 100,000 bu. Car lots were in small supply and in good demand. Feeling stronger and prices ½@1c higher. Sales almost exclusively by sample No 2 closed at 49c and No 2 Yellow at 50½c. No. 3 closed at 48¾c and No. 3 Yellow at 50c. No. 4 sold at 44c and No Grade at 47½@49c.

Corn by sample—Was in good demand and offerings were small. Feeling stronger and prices ½@¾c higher Sales on track and free on board: No Grade sold at 40@44c No 4 at 43@49½c No. 3 at 49@50c. No. 3 Yellow at 49½@50¾c No. 2 at 49¾c. No. 2 Yellow at 50½@51c. No 3 White at 49c. No. 2 White at 49¼c. Billed through: No Grade at 42c No. 4 at 43@48c No. 3 at 47½@48c No 3 Yellow at 49@50c. OATS—Were more generally traded in, advanced ½@1c and closed at almost the top, with gains of ½@¾c, July leading There was good selling of September and purchases of July, which helped to make the latter strong. Wet weather West and predictions of unsettled conditions, combined with the strength in other Grains, assisted in starting the buying and advance. Predictions of small arrivals were a good help Arrivals were 211 cars, with 42 cars expected to-morrow Withdrawals were small. Stocks in all positions decreased 52,000 bu and are 1,296,000 bu Contract stocks decreased 120,654 bu and are 118,000 bu Seaboard clearances 32 000 bu. Cash sales were 40,000 bu Car lots to go to store were steady to 1½c higher. No. 4 White at 34c No 3 White sold at 37½c. Standard in store closed about 39c.

Oats by sample were steady for mixed and firmer to 1½c higher for white. Offerings were greatly reduced and the demand improved. Sales on track and free on board: No Grade at 35c No. 4 at 32½@34½c. No. 4 White at 30@37c. No. 3 at 34@36½c. No. 3 White at 37½@40½c. Standard at 39½@40½c. No. 2 at 35¾@36½c. Billed through: No. 4 at 30@33½c. No 4 White at 35½@36½c No 3 at 33½c. No. 3 White at 36½@38¼c. Standard at 38¼@40½c. No. 2 at 36c At the river No. 4 White at 30@36c. No. 3 at 33@34c. No. 3 White at 36@37½c.

Future Deliveries of Contract Oats—Were more active and higher.

JULY—Active. Sold at 37⅛@37¼c and at 38¼c. Opened at 37¼c to 37⅜c, sold at 37⅛@37¼c, to 38¼c, to 38c at close.

SEPTEMBER—Active. Sold at 32@32½c. Opened at 32⅛c to 32¼c, sold to 32c, to 32½c, to 32⅜@32½c at close.

DECEMBER—Active. Sold at 32¾@33⅛c. Opened 32¾c to 32¾@32⅞c, sold at 32¾c, to 33⅛c, to 33c at close.

MAY More trading. Sold at 34½@34¾c. Opened at 34½c; closed at 34¾c.

RYE—Was again firm and for July 1c higher price bid than yesterday. Demand moderate and offerings light. No trading in future delivery and only a few cars of fresh receipts dealt in. One car was received There were no withdrawals from store here and no export clearances from the seaboard. No. 2 in store nominally about 65c, and fresh arrivals quotably at 65@69c with sale of one car choice white at 69c No. 3 fresh receipts sold at 53@60c

Future Deliveries of No. 2 Rye—Quiet and firm. No trading July 59c bid and September 55c bid

BARLEY—Was very weak and dull. Only one or two buyers for malting Barley on the market The advantage was all on the side of buyers Bids were reduced and sellers could do nothing but accept. Offerings were mainly of common to good malting, no fancy on sale There was some trading in Screenings over the late range of prices Feed Barley inactive, neglected, and apparently little offered It was a dull, quiet, easy market Receipts 15 cars. Sales of Screenings were made at 28@36c for poor to choice. Feed Barley common, dirty or musty quotably down to 30@35c, sweet good color, thin, perhaps 30@35c. Malting low grade was quotable 37@40c, fair to good, sound, 42@45c; good color, 48@50c, and fancy above.

SEEDS—A firmer feeling prevailed in the case of Timothy, and Flax was unmistakably better showing several cents advance. The rest were nominally unchanged

Timothy Some rather common rough Seed held over was all that was offered on the cash market. It was sold at a figure better than was bid for it yesterday For September the late sale price was bid and a shade more was asked for it. The market showed evidences of firmness and some little improvement Crop advices from the Northwest were said to be slightly unfavorable. Contract spot or July nominally $2 90@2 95. September was $3 15 bid and $3 25 asked Country lots quotable at $2 00@2 75 for low grade to fancy choice about $2 65@2 70, fair to good Seed $2 45@2 55 and rough at $2 30@2 40.

Flax—There was a further advance of 4c for old crop Flax It offered without any business being done There was an entire absence of offerings The advance was again based on a liberal upturn in the Northwestern markets From the little gossip heard there seems to be no doubt but what in the Northwest the acreage is much smaller this year than last and it also was stated that in some quarters the plant was looking yellow, not vigorous, due to excessive moisture. In new crop Flax, September delivery, there was 2c more bid. This has been at a premium over old crop, but is no longer so, prices having been brought together by old crop advancing Only one car, or 850 bu, received, none taken out Minneapolis got 8 cars and Duluth 86 cars No 1 Northwestern or No 1 from the Northwest was $1 18 bid, and No 1 salable at $1 10 Rejected was quotable at $1 04@1 09. July was $1 10 bid, and $1 10 bid for September.

Clover—Inactive and nominally unchanged. Contract spot Seed about $10 75. Country lots, common to choice, $7 00@10 00; fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 00, poor, cleaned out of Timothy, very foul, down to $3 00@6 00 Fair to good $8 50@9 50.

Other Seeds Hungarian and all kinds of Millet at present nominal; no quotations obtainable. No offerings and demand absent on the open market. A little Buckwheat still selling and this quotable at $1 55@1 60 for good.

HOG PRODUCTS—An unsettled and rather an easy feeling prevailed in Hog Products during the greater portion of the session Outside and local packers were inclined to sell fair quantities, and holders of moderate lots were disposed to realize. In a general way the market lacked general support, and prices declined materially on all the leading articles From the inside figures reached there was a fair rally on buying of a few lots by "shorts" Market closed rather steady around medium figures. Hogs were in fair supply and prices were higher, and the Grain markets were stronger, but these features had little effect Receipts of Hogs at the leading Western packing points were estimated at 71,000 compared with 92,000 one year ago Foreign markets were quiet and rather steady. Hams were quoted 6d lower Domestic markets were quiet and rather steady. Receipts of Products were good of Lard and Meats about 28 cars. Shipments were fairly large—of Lard and Meats about 130 cars. Demand on shipping account was somewhat improved, but mainly for small lots. Offerings were moderate. Sales were slightly larger, and prices were fairly well supported.

Mess Pork—Trade was fairly active in Mess Pork, and the feeling was easier. Holders were anxious to realize, and packers sold moderately Demand was only fair, and mainly from "shorts" Trading almost exclusively in September contracts. Market opened rather steady, and a few sales were made at 2½c advance With considerable pressure to sell a weaker feeling was developed, and prices irregularly declined 30@35c on the whole range Toward the close, rallied again 10@15c, and the market closed steady Shipping demand was light and offerings were moderate. Cash lots were quotable at $12 85@12 90.

JULY—Small sales at $12 85@12 90, and closed quiet at $12 85

SEPTEMBER—Offerings were rather free, and the demand was fair. Sales were made at $12 90@13 25 Opened at $13 25, sold to $12 95, to $13 02½, to $12 95, to $12 97½, to $12 90, to $13 00, to $12 97½, to $13 05, to $13 00, and closed steady.

Lard—Only a fair business was transacted in the Lard market, and chiefly in contracts for September. Offerings were fairly liberal, and the demand was moderate Feeling was rather easy during the greater portion of the session Foreign advices were unchanged Market opened rather steady, and a few trades were made at 2½c advance Later, there was considerable pressure to sell, and prices irregularly receded 12½@15c Toward the close, the feeling was steadier, and prices rallied 5@7½c, and the market closed steady at about medium figures Demand on shipping account was rather light with no particular pressure to sell. Cash lots quotable at $7 05@7 07½ Loose lots in small request with limited offerings. Prices steady at about 60c discount on September figures. Leaf Lard in moderate request and offerings were small Prices were quotably steady at $6 25. Neutral in only limited demand with fair offerings Prices quotably steady at $7 25@7 37½ for No 1, and $7 00@7 12½ for No 2

JULY—Called for sparingly and offerings were light A few trades made at $7 05@7 12½, and closed steady at $7 05

SEPTEMBER Offerings were free and the demand was fair. Sales were made at $7 15@7 30 Opened at $7 30, sold to $7 20, to $7 22½, to $7 17½ to $7 20, to $7 15, to $7 22½, to $7 17½@7 20 and closed steady.

NOVEMBER—Quiet with small sales at $7 20

Short Rib Sides—A fairly good business was reported in Short Rib Sides and the feeling was unsettled. Offerings were rather free, and the demand was only fair Market opened rather steady at about the closing figures of Tuesday, but a weak feeling prevailed, with considerable realizing, and prices receded 12½@15c on the whole range. Toward the close, rather more steadiness was manifested, and prices rallied 7½@10c, and the market closed steady Shipping demand was moderate, and the demand was only fair Cash lots quotable at $7 37½@7 50 according to weight

JULY—Demand rather light, and offerings were fair Sales were made at $7 45@7 47½, and closed quiet at $7 47½.

SEPTEMBER—Offerings were rather free, and the demand was fair. Sales were made at $7 62½@7 77½. Opened at $7 77½, sold to $7 70, to $7 72½, to $7 65, to $7 67½, to $7 62½, to $7 70@7 72½, to $7 70, and closed steady

OCTOBER—In fair request and offerings were not very large. Sales were made at $7 67½@7 82½ Opened at $7 80@7 82½, sold to $7 67½, to $7 77½ to $7 75, and closed steady.

Other Meats—Trade was fairly active and feeling comparatively firm. Offerings not very large and the inquiry was not very urgent. Exporters rather backward and the home demand was only fair. Green Meats in moderate supply with a fair inquiry, and prices ruled steady. Pickled Meats in moderate request and prices ruled steady. Dry Salted Meats were in fair demand, with moderate offerings, and prices ruled steady Smoked Meats called for in moderate quantities, and prices were unchanged Closing prices ranged as follows:

ILLINOIS CROPS IN GOOD SHAPE.

SPRINGFIELD, July 5.—Weekly crop bulletin for the week ending July 4: The week was generally favorable for farming operations, except in the southern district, where the heavy rains interfered The growth of Corn has not been rapid, but its condition is good. Cultivation continued throughout the week and a large proportion of the crop is laid by.

Further improvement in the condition of Oats is reported, and a full average crop is now expected. A good crop of Wheat is being harvested in the central and the southern districts. Although there is some complaint of rust, the quality of the Grain is generally excellent. In the northern district it is thin and rusty, but well headed. The harvest was delayed by rains in the southern portion when it was about half done.

The meadows are in excellent condition. The Fruit outlook, except for Berries and Grapes, is very discouraging. Apples continue to drop, and many trees are bare of Fruit. The Potato crop is good, except in the northern district, where the late varieties have not had sufficient moisture.

THE WEATHER CONDITIONS.

There are light rains extending as far north as St Paul and to .54 inches at Huron, S. D., but clear above that and in the Canadian Northwest. Ohio Valley showery

Indications are for a continuation of showers in the Middle States and Southwest, but they will probably terminate in the Southern Lake Region. Temperatures will be lower in this section.

ITEMS OF GENERAL INTEREST.

Pennsylvania Railway net earnings for May decreased $383,600. From Jan. 1 decreased $2,760,800.

Stock of Flour in St. Louis July 1, 1904, 46,100 brls. against 50,450 brls June 1, and 37,880 brls July 1, 1903.

The output of the St. Louis Flour mills for the past week was 37,700 brls, against 43,500 brls for the previous week.

The San Francisco *Commercial News* estimates that the crops on the Pacific Coast will require 42,000 000 sacks.

The Dominion Government will erect a $1,250,000 Grain elevator at Port Colborne, Ont. It will be ready for use next spring.

Several of the New York savings banks announce that they will raise the rate of interest paid depositors to 4 per cent.

The assignment of J. S. Harris, of James S. Harris & Co., was announced on the New York Consolidated Stock and Petroleum Exchange today.

American Car and Foundry Company reports net earnings for the fiscal year ended April 30 as $5,585,000, a decrease of $2,851,000 as against last year.

The stock of Flax Seed at Duluth on July 2 was 5,936,000 bu. compared with 6,202,000 bu the previous week—a decrease of 266,000 bu. Stock last year, 2,933,454 bu.

The average weight of the Hogs received at Chicago last week was 224 lbs, against 221 lbs the previous week, 231 lbs the corresponding week in 1903, and 227 lbs in 1902.

The Duluth *Commercial Record* cites as an instance of the incorrectness of assessors' returns of an area of 92,555 acres and a yield of 1,100,000 bu of Wheat, while the shipping points in the same district shipped 2,300,000 bu.

While the treasury books show a deficit of $41,000,000 for the year, Secretary Shaw reports there would have been a surplus of $13,000,000 but for the Panama Canal payment and the loan to the St. Louis exposition.

An official crop bulletin for Austria giving conditions in mid-June, reports that unfavorable weather and rust have lowered the condition of Wheat and Rye, while spring crops have suffered rather severely from want of rain.

A recent German consular report from Milan gives a generally favorable account of crop conditions in Upper Italy, but mentions some damage to Wheat from weeds and hailstorms, while Corn was in need of rain at date of report.

The Fidelity Savings Association, Denver, Colo., went into the hands of a receiver, Friday. Liabilities are placed at $1,000,000. The president and manager of the institution says: "Our liabilities may be $1,000,000, but I think our assets will balance them."

This indicates an increase of about 1,125,000 bu over the estimate one month ago—about 17,540,000 bu on State report of area, and 16,525,000 bu on Department of Agriculture report. Harvesting in southern part of State. Corn uneven, but making growth.

Elevated Railway traffic in Chicago during June was distinctly poor. The West and South Side lines showed decreases over last year, owing to the absence of the usual baseball and racing crowds. The Northwestern Elevated recorded a small gain, the poorest of the year. Unseasonable weather and dull business were partly the cause of the small traffic.

That the trust era has come to a standstill is shown by the listings of new stocks on the New York Stock Exchange During the last six months there were listed only $41,527,300, compared with $290,957,435 for the same period in 1903, $315,853,890 in 1902 and $1,273,587,575 in 1901. In the first six months of the year there were issued $193,144,560 in bonds for new capital, which exceeds any period for ten years.

The board of directors of the Lehigh Valley Railroad Company, Wednesday, declared a dividend of 10 per cent on the preferred stock and 1 per cent on the common stock. These are the first Lehigh Valley dividends in eleven years. The dividend on the common stock is semi-annual, while the 10 per cent dividend is annual. The last dividend on Lehigh Valley, which was paid in 1893, was on a basis of 10 per cent annually. The capital stock of the road consists of $106,300 of preferred shares and $40,834,000 of common stock.

Despite several suspensions of payments by industrial companies and occasional omissions by railroads, the total of July dividends apparently will fall but little below the record figures of last summer, while it runs slightly ahead of the total for last January. Dividend payments due July 1 are estimated at $58,500,000, and interest payments at $76,150,000 The only noteworthy feature of the statistics is a decline of over $3,000,000 in payments by industrial concerns, as compared with July, 1903. This is accounted for, however, by the suspension of dividends on the common stock of the United States Steel Corporation.

The earnings of the American Straw Board Company thus far this year are slightly in excess of the earnings of the company for the same period last year. Last year it was almost impossible to get Straw in sufficient quantity to operate until about June. There was a large amount of orders on the company's books, but the Board could not be turned out in sufficient quantity to make good earnings. This year there is plenty of Straw, and the manufacturing conditions are excellent, but the orders are lacking. The mills are shut down the greater part of the time. The last half of last year the earnings were large, but the prospects are that they will be very small this year, unless the market improves to an unexpected extent.

Broomhall's weekly foreign crop summary says: "United Kingdom Condition of crop is only maintained; no improvement occurred. France—Poor harvesting results reported from the south. In the center, the plant is thin and short ears are complained of. In the north there is promise of an excellent crop. Germany—A good crop is expected. Hungary—Crop prospects improving slightly. Roumania—Estimates on Wheat crop now somewhat larger, but quality is variable. In some parts Corn wants more rain. Bulgaria—Reports are favorable. Russia—In Southeast and center Winter Wheat and Rye crops good; cutting commenced. Spring crops middling to poor. India—Moderate rains have fallen. Markets there remain firm. Plenty of time for Wheat seeding, but recent drouth has affected native food crop. North Africa Some estimates of Wheat crops have been reduced 15 to 20 per cent, owing to damage by unfavorable weather during harvest."

The minimum rate of discount of the Bank of England remains unchanged at 3 per cent.

A Kansas City message says. "No Hog and Cattle market here to-day on account of high water."

Ten packers purchased 22,100 Hogs to-day: shippers, 5,000: left over, 3 500. Market closed firm at decline.

Reported that 40,000 bu Wheat, 16,000 bu Corn and 30,000 bu Oats were taken at the seaboard today for export

Stocks of Hog Products at Chicago estimated at 49,000 brls Mess Pork, 129,750 tcs Lard, and 22,100,000 lbs Short Rib Sides

Deliveries on July contracts to-day were 100,000 bu Corn, 600 brls Mess Pork, 250 tcs Lard, and 150,000 lbs Short Rib Sides.

Estimated receipts for to-morrow: Wheat, 5 cars; Corn, 123 cars: Oats, 62 cars; Rye, no cars; Barley, 11 cars, Hogs, 14,000.

The floods in Kansas City are getting serious. Dispatches from there say there is four feet of water in the Midland Elevator.

Baltimore wired, Wednesday: "Not a bushel of new Wheat sold on this crop for export from Baltimore. This beats the record."

London *Times* gives the condition of Wheat in the United Kingdom at 82, compared with 81 last year, and a ten year's average of 93.4

Local Securities were more generally traded in and averaged ¼ to ½ higher on most shares. Quaker Oats preferred advanced 2 points.

Kentucky State report makes condition of Wheat 79, compared with 67 one month ago, and 75 one year ago Condition of Rye 83, and of Oats 85.

Cotton in New York advanced mainly in sympathy with Liverpool, which gained 5 to 14 points, Closing prices were at gains of 35@40 points on near and 18@18 points higher on deferred deliveries.

Liverpool people who have of late reported their extreme indifference to seeking supplies from America cabled, Wednesday: "Europe will be obliged to look to America for larger supplies of Wheat."

Average weight of Hogs received at Chicago the first six months of this year 209 lbs, against 218 lbs the same period a year ago. Receipts the first half of this year 4,043,123, or 239,852 more than a year ago.

The July report of the Department of Agriculture will be issued on Monday next at 4 p m. It will give the area and condition of Corn, the condition of Wheat, Oats, Rye, Barley and Flax, and the quantity of Wheat in farmers hands.

Broomhall's Liverpool cable says: "Wheat opened quiet and unchanged, but later steadied ⅛d for September on disappointing Missouri crop report and talk of unfavorable weather in South Russia. Corn market opened and continued unchanged. Trade neglected."

The Northwestern Railway's weekly crop report on the three Northwestern States says: "Conditions are extremely favorable for all Grains. Farmers in the midst of the largest Hay harvest ever known. The one damage is that of too much moisture. Small Grain in Minnesota as heavy as it can stand without falling."

The Cincinnati *Price Current* reports the packing of the West for the week at 420,000 Hogs, compared with 440,000 for the week previous and 405,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 7,645,000 Hogs, compared with 7,230,000 for the corresponding time last year—an increase of 415,000 Hogs.

Average price of Hogs at Chicago, Wednesday, was $5 56, being $1 02 higher than the low day of the year, which was May 25. The average was also 4c higher than a year ago, being the first day in over a year when the average was higher than the corresponding day a year ago. Average a week ago $5 22, a month ago $4 71, and a year ago $5 52.

Stocks in New York were active and closed weak and lower. Prices in the morning were up fairly, but sold off on heavy realizing of profits by the largest buyers of yesterday There was a good absorption of Stocks, but substantial declines were recorded, especially Union Pacific, Southern Pacific and Missouri Pacific. Money 1⅛@1¼ per cent.

The Cincinnati *Price Current*, in its weekly crop summary, says: "Moderate variations for better or worse in Wheat condition. Aggregate position not essentially changed. Serious damage to matured Grain in West apprehended if rains continue Corn condition not much changed: about an average. Oats a little more promising than previously indicated."

A slight increase in the demand for money is reported by officials of some of the Chicago banks. The change is hardly enough to be noticeable, however, and is not considered significant other than it suggests conditions are growing better instead of worse, as has been the case for some time past. Banks are holding rates at 4½ per cent, with some loans being made as low as 4 per cent.

REVIEW OF TO-DAY'S MARKETS

FLOUR—Demand about all local and domestic, and sales very moderate in the aggregate. Prices firm

WINTER WHEAT—Ruled firm and prices again quotably about 1c higher Limited offerings prevented trading. No. 2 Red in store quotably $1 00@1 02, and fresh arrivals free on board quotably $1 02@1 04. No 3 Red fresh arrivals free on board 97c@$1 02. No. 2 Hard fresh receipts free on board quotable at 90@96c and No 3 Hard at 85@91c. No. 4 Hard sold at 72c.

SPRING WHEAT—There was a light demand and the market ruled firm, with prices about 1c higher. No. 1 Northern in store quotable at 8½@9c over old July and ranged at 98@99⅞c, and fresh arrivals free on board quotable at 99c@$1 00. No. 2 Northern fresh arrivals quotable at 95@97c. No. 3 Spring fresh receipts free on board quotably 85@93c No 4 Spring quotable at 65@90c for poor to choice.

REGULAR WHEAT—Another active day was witnessed in this market, the trade gradually bradening and was of good volume. The feeling was a continuation of that manifested yesterday and still higher prices were recorded, most of which was maintained, the close showing new July up 1¾c and new September 1¼@1⅝c higher. The wet weather was again the chief "bull" incentive, and "shorts" covered freely. Locals, too, reinstated line liquidated yesterday. The map showed additional rains in Kansas and Missouri: .56 at Wichita and still raining, .44 at Kansas City and raining, .25 at Oklahoma City Valentine 1.42 and North Platte, .95. There were also general rains in Nebraska but no precipitation in the Northwest Showery unsettled conditions were generally predicted for the Winter Wheat belt Kansas City advices much more numerous, about all of one tenor, and were sensationally "bullish" Kansas City wired the strength there was due to continued rains and good country buying Minneapolis wired: "From a most reliable source we are informed Wheat in the Red River Valley is in poorer condition now than at any time since 1891, and a great deal of it will be abandoned" A former member of the Board of Trade, with large farm interests in Kansas, wired as follows from Newton. "The Wheat crop is damaged by rain, but hard to say how much. Crop is about half harvested so far, and if weather clears up we will save the bulk and have a good crop" The *Price Current* claimed the aggregate position was not essentially changed as yet, but serious damage to matured Grain in the West apprehended if the rains continue. Liverpool quoted spot steady to ⅛d higher, and futures unchanged to ⅛d higher. London came ⅛d lower to ⅜d higher. Paris was up ½@¾c and Buda Pesth ¾c higher Berlin declined ¼c and Antwerp was unchanged Liverpool was affected to some extent by unfavorable crop advices from Southern Russia. The London *Times* estimated the condition of Wheat in the United Kingdom at 82 per cent on July 1, against 88 last year and a ten-year average of 93 4. There was some buying of September for foreign account part of which was said to be for the Continent Paris cabled "Crop is much smaller than last year," and another read 'Prospects below an average: stocks in France large" The DAILY TRADE BULLETIN reported the world's supply of Breadstuffs July 1, 123 000,000 bu, compared with 142,000,000 bu June 1 and 103,000,000 bu July 1 one year ago. Decrease during June 19,300,000 bu, against 16,842,000 bu decrease in June, 1903. Receipts in the Northwest 22 cars larger than last year, but primary movement 67 000 bu smaller. Kentucky State report made condition 79 per cent, against 67 per cent June 1 and 75 per cent one year ago. Minneapolis stocks reported decreased but 80,000 bu in past three days. Duluth sold 30,000 bu No. 1 Northern to go to Eastern mills Exports were again small, and only 5 boat loads accepted at the seaboard. The Secretary of the Kansas Grain Dealers' Association estimated that the crop in Harper, McPherson, Reno and Sumner counties had been damaged 50 per cent. Argentine shipments this week are estimated at 1,200,000 bu Receipts at Duluth 19 cars and at Minneapolis 143 cars, a total of 162 cars, against 162 cars yesterday, 149 cars a week ago, and 135 cars last year. Local receipts included 5 cars Winter, 1 car Spring, 2 cars mixed, a total of 8 cars, against 16 cars last year. Included in the above was 16 cars contract grade. There were 4 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 5 cars. Withdrawals to-day were 10,000 bu. Receipts at Western points were 219,547 bu, against 287,149 last year. At Eastern points 23,123 bu, against 77,148 last year. Shipments from Western points were 229,914 bu, against 185,790 last year, and from Eastern points none, against 66,602 last year. Shipments of Flour were 2,142 brls. Exports of Wheat in Flour were equal to 9,644 bu.

Future Deliveries of Regular Wheat—Good trade and prices higher.

CORN—A very good trade and a further advance was scored in this market, the close showing the July ¾c higher, while the September gained ⅝@¾c and the December ⅝@¾c better. The small receipts, wet, cool weather, with more moisture indicated, together with the advance in Wheat, all combined to create a "bullish" feeling. Receipts were only 70 cars, with two cars contract, against 270 cars last year, when 27 cars were up to the speculative grades For to-morrow 123 cars are estimated. Map showed further and heavy rains West. "Shorts" covered freely at the start and commission house buying was of good character. Early offerings were very moderate At the advance several of the recent prominent buyers liquidated and prices settled slightly. Liverpool spot unchanged, futures steady to ⅛d higher Argentine shipments are estimated at 2 000,0 0 bu The *Price Current* stated there was no material change in the crop outlook. Southwestern markets were firm. Primary receipts 378,000 bu last year 325 000 bu. Shipments 411 000 bu and 555,000 bu respectively. OATS—Were advanced in sympathy with other Grains and on wet weather Southwest and in Ohio Valley There was a larger and more general commission house trade and active covering by "shorts" Profit taking by the largest holders was a feature, but it failed to check the advance Prices at their best were up ⅞@1¼c, and finished with gains of ⅜@¾c. Cash demand was good and sales of 125,00 bu were made. Standard bringing 1¼c over July in store. Small receipts—28 cars—with 62 cars estimated for to-morrow, were also a strengthening factor. Withdrawals were 3,150 bu and seaboard clearances 17,000 bu Car lots to go to store were ½@1½c higher. No 4 White sold at 33c No 3 White at 39¾c Standard at 39½c, and closed at 40c asked.

Oats by sample were in better demand with offerings small Prices advanced ½@1½c and the market cleaned up. Sales on track and free on board. No. 4 at 35½c. Future Deliveries of Contract Oats Were active and higher.

JULY—Active Sold at 38⅛@39⅛c. Opened at 38⅛c to 38⅜c, sold to 39⅛c, to 38¾c at close.

SEPTEMBER—Increased trading Sold at 32⅜@33c and at 33c Opened at 32½c to 32⅝c sold to 32⅜c, to 32½c, to 33c, to 32¾c at close.

DECEMBER Sold at 33⅛c and at 33¾@33⅞c Opened at 33⅛c to 33¼c, to 33¾@33⅞c, to 33⅝@33¾c at close.

MAY—Sold at 35⅛c and at 35⅛@35¾c; closed at 35⅝c

RYE—Ruled firmer and 1c higher prices bid. Trading very light Some demand existed, but offerings light The few cars of fresh arrivals met with ready sale for domestic manufacturing purposes. There were three cars received No withdrawals from store here and no export clearances from the seaboard. No. 2 in store nominally about 65c and fresh arrivals free on board quotably 6x@68c. No. 3 fresh receipts free on board sold at 58c and was quotable at 53@60c for common to choice.

Future Deliveries of No. 2 Rye—Quiet and firm. For July 60c was bid and for September 58c was bid or 1c above yesterday's bid prices.

BARLEY—There was reported a fair inquiry for Screenings and low grade Barley. This class of goods salable to mixers and quotably steady at late prices. Offerings were exceedingly limited. Very few cars of malting Barley on sale and demand equally limited for them. Market so very quiet to-day that for most grades values were nominal. Only 2 cars inspected in. Market for Screenings quotable at 28@37c for poor to choice. Feed Barley, common, dirty or musty quotably down to 28@30c; sweet, good color, thin, perhaps 31@37c. Malting, low grade, was quotable 37@40c; fair to good, sound, 42@45c; good color, 48@50c, and fancy above

SEEDS—Timothy was again strong, with a little more interest, and new crop Seed a shade better. There was a further advance in Flax prices. Other lines nominally unchanged.

Timothy—There were several buying orders for September delivery on the market, and after $3 20 or 5c advance had been paid, that figure remained bid, but no more on sale under $3 25. In the market for old Seed little was done, a few small cash lots sold at $2 17½@2 70 for poor to a high grade Market for old Seed quotably steady to firm and unchanged. Contract spot Seed nominally $2 95. Country lots quotable at $2 00@2 75 for low grade to fancy, choice about $2 65@2 70, fair to good Seed $2 45@2 55 and rough at $2 30@2 40.

Flax—There was a further advance in prices. It was not so important as that of the preceding couple of days; it amounted to 1½@2c improvement over yesterday's prices. The advance of today, like that which has preceded it, was due to higher prices in the Northwest. A couple of cars of cash Seed were sold; nothing else was done. Two cars or 1,700 bu were received and none taken out Minneapolis got 10 cars and Duluth 30 cars. No 1 Northwestern or No. 1 from the Northwest sold at $1 17½, and No. 1 salable at $1 12. Rejected was quotable at $1 06@1 11. July was $1 12 bid, and $1 13 bid for September with $1 14 asked.

Clover—Nothing doing; no offerings; prices nominal. Contract spot Seed about $10 75. Country lots, common to choice, $7 00@10 00; fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good $8 50@9 50.

Other Seeds—No quotations at present on the regular market for Hungarian and all kinds of Millet. Buckwheat still quotable at $1 55@1 60 for good. Mustard at 90c@$1 10.

HOG PRODUCTS—A fairly good speculative trade was reported in Hog Products, and the feeling was somewhat unsettled. The receipts of Hogs were larger than generally anticipated and prices ruled lower, which encouraged rather free offerings of Products, and lower prices were accepted. An increase in the packing of the West of 15,000 Hogs for the week, compared with the corresponding week in 1903, also had a weaking influence About the middle of the session the market manifested considerable strength in sympathy with the firmness in the Grain markets and the decline in prices was recovered "Shorts" bought moderately Market closed rather steady around outside figures Trading chiefly in September contracts Receipts of Hogs at the leading Western packing points were estimated at 73,200 compared with 64,000 one year ago Foreign markets were steady for Meats at unchanged prices, while Lard was quoted 3d lower Domestic markets were steady Receipts of Products were good of Lard and Meats about 31 cars. Shipments were moderate—of Lard and Meats about 57 cars. Shipping demand was moderate and offerings were only fair. Sales somewhat limited and prices without material change.

Mess Pork—Trade was moderately active in Mess Pork, and the feeling was somewhat unsettled Offerings were fair, and the demand was rather active Trade chiefly in September contracts Market opened rather easy at 10c decline, and a further reduction of 5c followed. Later, a stronger feeling was developed, with fair miscellaneous buying and prices rallied 20@22½c, and the market closed rather steady Shipping demand was light and offerings were small. Cash lots quotable at $12 90@13 00.

JULY—Sold sparingly at $12 80, and closed nominally at $12 90.

SEPTEMBER—Offerings were fair and the demand was moderately active. Sales were made at $12 85@13 07½. Opened at $12 90, sold to $12 85, to $12 92½, to $12 87½, to $13 00, to $12 97½, to $13 07½, to $13 02½, to $13 05, and closed steady

OCTOBER Quiet and sold sparingly at $13 05@13 07½ and closed at $13 07½.

JANUARY Quiet and sold sparingly at $12 80.

Lard—Rather a good business was transacted at the Lard market. Market opened with a little pressure to sell, while the demand was light, and prices were 5@7½c lower, which was followed by a further reduction of 2½@5c. At the decline, the demand improved, and prices rallied 7½@10c, and the market closed comparatively steady around outside figures Foreign markets were slightly lower Demand on shipping account was rather light with no particular pressure to sell Cash lots quotable at $7 05@7 07½ Loose lots in small request with limited offerings. Prices steady at about 60c discount on September figures Leaf Lard in limited request and offerings were small Prices were quotably steady at $6 25. Neutral in only limited demand with fair offerings. Prices quotably steady at $7 25@7 37½ for No. 1, and $7 00@7 12½ for No. 2.

JULY—Rather quiet and sold sparingly at $7 02½@7 07½, and closed at $7 05@7 07½.

SEPTEMBER Offerings were fair, and the demand was moderately active Sales were made at $7 10@7 20 Opened at $7 12½ to $7 15, sold to $7 10, to $7 12½, to $7 10, to $7 20, to $7 17½@7 20, and closed steady

OCTOBER Quiet and sold sparingly at $7 20@7 22½, and closed at $7 22½.

JANUARY—Quiet and steady, with small sales at $6 85

Short Rib Sides—A fairly good trade was reported in the market for Short Rib Sides, and the feeling was somewhat unsettled. Offerings were fair, and the demand was moderately active. Early, the feeling was rather easy, with opening trades at 5c decline, and a further reduction of 5c was submitted to Later, a stronger feeling was developed, with fair miscellaneous buying, and prices rallied 7½@10c, and the market closed rather steady. Shipping demand was light, and offerings were moderate. Cash lots quotable at $7 37½@7 50 according to weight.

JULY—Quiet, with small sales at $7 42½@7 50, and closed at $7 50

SEPTEMBER In fair request, and offerings were moderately free Sales were made at $7 60@7 70. Opened at $7 65, sold to $7 70 to $7 62½@7 65, to $7 62½, to $7 70, to $7 67½, t ... and closed steady

OCTOBER Offerings were moderate and the demand was only fair Sales were made at $7 65@7 75. Opened at $7 65 to $7 67½ sold to $7 75 to $7 72½@7 75 and closed steady.

Other Meats—Trade was only moderate and feeling comparatively firm. Offerings not very large and the inquiry was not very urgent Exporters rather bought and the home demand was only fair ... deals in moderate supply with a fair inquiry, and prices ruled steady Pickled Meats in moderate request and prices ruled steady Dry Salted Meats were in fair demand, with moderate offerings and prices ruled steadier Smoked Meats called for in moderate quantities and prices were unchanged Closing prices ranged as follows

THE FLOUR PRODUCTION.

MINNEAPOLIS, July 6.—The *Northwestern Miller* reports the weekly Flour output at milling centers for two weeks, with comparisons, as follows:

	July 2. Barls. 1904.	June 25. Barls. 1904.	July 4. Barls. 1903.	July 5. Barls. 1902.

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

*Flour made by mills outside of St. Louis, but controlled in that city.

There was an increase in the Minneapolis Flour output last week of 33,000 brls. This week the production promises to be very much smaller. Aside from the mills all being idle one day for Fourth of July, a smaller capacity is in operation. There were only fourteen mills in motion to-day, and with the addition of another to-morrow, the output for the week is likely to approximate 230,000 brls. For the same week in 1903, it was 269,710 brls.

So far as trade was concerned, the week was far from satisfactory to Minneapolis mills. A good deal was that the output was sold. Buyers continue to watch the September price of Wheat and compare it with that of spot Wheat, and with some 15c per bu difference, there is little incentive for them to buy Flour at current values, except as it may be necessary for actual needs. Therefore what Flour is bought is taken in small lots for a consumptive trade. Competition between millers is perhaps keener than it has been, and reports are current that prices are being shifted in a grievous way. Here and there are mills which are represented to be even under the enough to sell for deferred shipment, basing prices on September Wheat, and taking the chances of lower offal and higher freight rates. During the week, millfeed has declined 50c@$1 00 per ton, and millers are compelled to ask proportionately more for Flour.

The price of Patent Flour has changed little. Minneapolis and outside mills quoting it in car lots at $4 75@5 00 per 196 lbs in wood.

OUTLOOK FOR COTTON.

The monthly report of the Chief of the Bureau of Statistics of the Department of Agriculture will show the average condition of Cotton, June 25 to have been 88 as compared with 83 on May 26, 1904, 77.1 on June 25, 1903, 84.7 at the corresponding date in 1902 and a ten-year average of 85.

The following table shows the condition by States on June 25 in each of the last three years, with the respective ten-year averages; also the condition on May 26 in 1904:

THE WEATHER CONDITIONS.

Rains heavy and general again West and Southwest—06 to .56 in Kansas, .01 to 1.42 in Nebraska, .16 to 4.10 in Missouri, 1.30 at Indianapolis. Rainy in the Ohio Valley. Clear in the Northwest; frost and temperature of 42 at Cheyenne, Wyo.

Indications are that unsettled weather will continue over the Central Valleys and the Southwest, with showers and but little change in temperature. Generally fair Northwest.

ITEMS OF GENERAL INTEREST.

The New York and New Jersey Telephone Company has declared the regular quarterly dividend of 1½ per cent, payable July 15 to stockholders of record July 5.

The wife and Nashville made a small decrease in its May net earnings, but the net for five months shows an increase of $130,000, or more than 3 per cent.

During May last the net imports into Holland included 1,488,000 bu Wheat and 115,000 sacks Flour. The net import of the two articles in the ten months ending May was 15,672,000 bu, compared with 14,668,000 in the corresponding period of last season.

The directors of the Continental National Bank, Chicago, have declared the regular quarterly dividend of 2 per cent, payable July 1 to stockholders of record June 30. The earnings of the bank for the half year are stated to be very satisfactory, considering the poor money market.

Directors of the Central Trust Company of Illinois, Chicago, Tuesday, declared the regular quarterly dividend of 1 per cent payable July 1 to stockholders of record June 28. The earnings of the bank for the year ending June 30 have been at the rate of 6 per cent on the $1,000,000 capital stock.

The Boston and Northern and the Old Colony Street Railway companies have each sold at private sale to investors $1,000,000 par value of the new 4 per cent fifty-year bonds recently authorized by the railroad commissioners. It is understood that the price was slightly under par.

The fiscal year of the Central Trust Company of Illinois, Chicago, ended June 30. For the year the bank will show earnings of substantially $240,000, or 6 per cent on the $4,000 000 capital stock. Deposits have grown about $1,000,000 in the year, and in general the bank has made rapid progress.

At a meeting of the board of directors of the New York, Ontario and Western Railroad Company held, Wednesday, in New York the subcommittee, to which the matter referred, presented a report declaring the advisability of dissolving the voting trust, and the board sustained the report.

The Lyons, Kan., correspondent of the DAILY TRADE BULLETIN under date of June 28 says: "Wheat in this section now ready to cut No damage yet on account of wet weather. Ground little too wet for harvesting this morning. Binders will start with high land this afternoon. Weather clear and cool."

At a meeting of the board of directors of Street's Western Stable Car Line, Thursday, a quarterly dividend of 2½ per cent on the preferred stock, for June 30, 1904, on the common stock outstanding, was declared, payable July 25, 1904, to stockholders of record Transfer books will close on July 15 and reopen July 25, 1904.

The Crucible Steel Company has closed a transaction whereby it sells to the Pennsylvania Railroad Company for $75,000 cash the land formerly occupied by Howe, Brown in Pittsburg. With the cash, together with the $1,000 000 recently received, places the company in better financial shape than it has been in in eighteen months.

Railway building in the United States during the first six months of this year shows falling off in comparison with corresponding periods in 1902 and 1903. Increased operating expenses and decreased trade, recently noted, have had an effect, together with the continued stringency in the money market, furnish the explanation.

A New York dispatch says: "United States Steel Corporation officials are being led by well informed opinion that the earnings for the June quarter will be very little less than $40 000 00 net Some falling off is anticipated in the September quarter, which is usually a poor one, but the general doubt that business is much better than Steel officials hoped for at the beginning of the year."

The treasury bureau of statistics publishes the following figures, showing the exports and imports of Copper during May and during the eleven months ending with May, for the past two years:

	1904.	1903.
May exports	23,382,826	20,510,127
Eleven months, exports	$84,562,518	$80,491,851
May imports	11,370,613	13,010,275
Eleven months, imports	130,281,640	130,285,116

Mark Lane Express of June 20 says: "The growth of the Wheat plant is steady, without being fast. The rather chilly nights of May, July and June were a verse to the orchards, but did no harm to Wheat. The late-sown Wheat looks better this season than the early sown, and Spring Wheat where sown has come on so splendidly well that farmers wish they had sown a good deal more of it."

The new stock of the Chicago Savings Bank has been all subscribed by the stockholders of the bank, without any of it being taken by the underwriting syndicate which stood ready to purchase any share not subscribed for at the first instance by the stockholders. There were applications for several hundred shares made in excess of the amount offered to the stockholders. The money has all been paid in and the new stock was issued July 1.

A telegram from Tarentum, Pa., says: "The National Bank of Tarentum opened, Tuesday, at 8:30 o'clock, half an hour ahead of time, and discovered. The bank officials say that a bookkeeper employed in the bank is short $2,000 in his accounts, which is covered by his bond. No deposits were withdrawn."

Suit was brought in the Circuit Court of Franklin County, Ohio, Thursday, by Attorney General Ellis to oust the so-called Fish trust of the great lakes, which is commercially known as the Booth & Co.'s of Chicago, from its charter in Ohio. The suit is brought under the Valentine anti-trust law. The Attorney General charges that the company has purchased the business of its competitors, now controls 90 per cent of the fresh water Fish business carried on from the Mississippi to Buffalo. It has been in operation for four years.

Bertholm of June 21 says: "In France the crop reports are rather conflicting. The *Petit Journal*, of Paris, says that all is favorable except in the south, but some commercial authorities expect the crop to be much less than last year, notwithstanding the recent favorable official report for May 2. France imported for consumption, during May, 520,000 bu, against the total since Aug. 1, 6,920,000 bu, against 10,480,000 bu last season, and 6,120,000 bu in 1901 2. Stocks 'in bond' on June 1 were 1,704,000 bu, against 1,432,000 bu last month, and 2,036,000 bu last year."

Dornbusch's Buda Pesth correspondent writing under date of June 18 says: "The Flour market was fairly active in the provinces, dealers at last abandoning their reserve. Bohemia is reserved, as the parity for Wheat is much lower there than on our market, thus enabling millers there to sell inferior qualities at a very low price. Export business has been quiet, and it is feared that the trade with Brazil will be influenced by the preferential tariff which the United States have succeeded in obtaining. Stocks have been reduced somewhat in consequence of the restricted output. Mill feedingstuffs are firm."

The New Jersey State Board of Assessors filed with the State Comptroller, June 28, a preliminary list of the assessment that has been made against corporations chartered under the laws of that State. The list consists of upward of 8,000 companies against which assessments are made aggregate of $4,436,919 in taxes This preliminary list contains practically all of the companies assessable. Corporations organized under the laws of New Jersey are required to pay a franchise tax of a tenth of 1 per cent on their issued stock up to $3,000,0.0; one twentieth of 1 per cent on the stock exceeding $3,000,0.0 and not exceeding $5,000,000, and $50 00 on each million in excess of $5,000,000.

The directors of the American Car and Foundry Company met in New York, Thursday, and passed the dividend on the common stock for the quarter ending June 30. The action on the 1903 was on a 1 per cent dividend basis, was in February of this year reduced to 2 per cent. The passing of the dividend is due to trade conditions, which show much depression. The output of cars is 35 per cent below that of last year, and the company's general business shows a falling off of 30 per cent. The directors stated that unless the conditions as outlined no other course remained than the passing of the dividend on the common shares. The regular quarterly dividend of 1¾ per cent on the preferred stock was declared.

By an order promulgated in March by the Secretary of Agriculture, it is required that all Cattle West of the Mississippi River intended for shipment shall be "dipped" under the preparation prescribed by the department for the purpose of absolutely exterminating the skin disorder known as the mange, which has existed to a limited extent for many years in the West. As it has been found impossible to make necessary preparations and round up and dip the Cattle within the limited time allowed, numerous petitions have been received for departmental relaxation of the order. Friday a delegation appeared before the Secretary of Agriculture and later called on the President, requesting that the order be so modified as to otherwise limit the time of dipping before shipment and in lieu thereof to institute rigid government inspection at the point of shipment before the Cattle are loaded on the cars.

Northwestern and Eastern railroads have agreed to continue indefinitely the lake and rail basis of rates made a month ago for all rail shipments of Grain through Minneapolis and Duluth to the Atlantic seaboard. The original agreement covered Flour shipments as well as Grain, but now the normal rates will be charged on all rail shipments of Flour. Rates from Chicago over the Missouri River gateways the railroads have canceled the lake and rail basis of rates for all rail shipments. Dealers in Grain at Chicago and at Missouri River points have the railroads are discriminating in favor of Minneapolis and Duluth on Grain shipments to the extent of about 2c per 100 lbs. Some of the railroads are inclined to make relatively as low rates from Chicago, Omaha and Kansas City as are made on Grain from Minneapolis and Duluth. Traffic officials of Western lines will meet at Chicago this week to consider the matter.

The *Modern Miller* says: "Special reports as to what effect rains had on the crop in the Winter Wheat territory show that the situation is the worst west of the Mississippi River in Missouri, Kansas and Nebraska and the Territories. Threshing is delayed in Texas, but the damage to the crop is slight. In most of the country west of the River cutting has been suspended by rain, and damage by rust is reported. Kansas has been the worst sufferer. Most of the correspondents say that a continuance of rain means serious loss East of the River, and in the Southeast, the harvest is delayed, but little if any damage is indicated. Tennessee reports most of the Wheat cut, but that some is sprouting in shock."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market quiet and steady. No material change in situation

WINTER WHEAT—There was a fair milling and shipping demand for the car lots of fresh arrivals and early prices were 1c higher, but the closing was easier Receipts small. No. 2 Red in store nominally $1 00@1 02, and fresh arrivals of new free on board sold at $1 00@1 01, with old quotably $1 02@1 04. No 3 Red choice old sold free on board at $1 03 and ranged down to 98c. No. 2 Hard fresh receipts free on board quotable at 92@97c. No 3 Hard fresh arrivals free on board quotable at 85@92c

SPRING WHEAT—Was steady. A moderate demand existed, and early in the day No 1 Northern was nominally higher, but the closing was about the same as yesterday. Millers and shippers were taking the fresh arrivals. No. 1 Northern in store nominally 98¾c@$1 01, and fresh arrivals free on board quotably $1 00@1 02. No. 2 Northern fresh arrivals quotably 95@97c. No. 3 Spring sold at 95c and was quotable at 85@95c No. 4 Spring sold at 68½c and ranged at 65@90c.

REGULAR WHEAT—A large trade and active broad market, with closing prices ⅛@¼c lower for new July and ⅜@½c easier for new September. There was a rush to buy at the start, with more doing for outside account—rains, cables, and foreign news being chief "bull" incentives. At the advance large quantities of "long" property came out and prices gradually settled back. Liverpool quoted spot ½@1d higher, and futures ⅝@⅞d higher Receipts there past three days 408,000 bu. London was ⅜@⅝d higher Cargoes on ocean passage firm, with bids 1½d better than yesterday. English country markets strong and fully 6d to 1s higher. Paris was up 1¼@1½c, and Antwerp 1¼c higher. Buda Pesth advanced 1¾c and Berlin ⅝c.

A private Paris estimate made the French crop 15 per cent less than last year, or 310 761,060 bu, against 365,601,000 bu. Rostoff-on Don, Russia, cabled that complaints regarding the crop were being received and condition of Spring Wheat below an average and the weather unfavorable. The weather map showed the rainfall covering a wider area than the previous twenty-four hours, heavy all over Kansas, Nebraska and Oklahoma. Concordia, 1.04, Kansas City, 1.20; Sioux City, 1 88; Wichita, .68, and still raining at many places at 8 A M Local thunderstorms were predicted for Kansas and scattered showers for Missouri, Nebraska, Illinois, Indiana, Minnesota and South Dakota Generally fair for North Dakota. Kansas City wired that the commercial editor of the Kansas City *Star* claimed the soft Wheat in the Southwest was badly damaged. Injury in Kansas equal to 30,000,000 bu possibly 40 000,000 bu It is said the Wheat should have been cut three weeks ago Wichita reported 40 per cent damage. Winona, Minn., wired. "Crop outlook bad; raining everywhere and must stop at once or be serious damage." Argentine shipped 912 000 bu, making 67,576,000 bu since Jan 1, against 48,458,000 bu last year. Visible there 3,340,000 bu; previous week, 2 904,000 bu; year ago, 3,753,000 bu Argentine markets were cabled as firm, with a good demand for export Further fine rains were reported there and outlook for new Wheat seedings improved *The Orange Judd Farmer* estimated condition of Winter Wheat July 1 78 2, indicating 376,000,000 bu; Spring Wheat 91,7 per cent indicating 300,000,000 bu. Report did not take in the damage by rains since first of month. Primary receipts were 152,000 bu smaller than a year ago, but the exports were light and total for the week but 879,000 bu, against 2,380,000 bu same week in 1903. New York wired that while cables were better all around they were still about 2c out of line. At the close 12 boat loads were reported accepted Duluth reported a good cash demand. *Modern Miller* was not as "bullish" as anticipated. An official Italian crop bulletin dated June 30 stated that harvesting returns were generally below expectations. Kansas City and St. Louis received 25,000 bu, against 119,000 bu one year ago. Minneapolis reported Flour sales for export, the first in some time and Duluth sold 86,000 bu No. 1 Northern for shipment. Receipts at Duluth 29 cars and at Minneapolis 110 cars, a total of 139 cars against 163 cars yesterday, 222 cars a week ago, and 134 cars last year. Local receipts included 3 cars Winter, 1 car Spring, 5 cars mixed, a total of 9 cars, against 9 cars last year. Included in the above was 1 car contract grade. There were no cars and no bu taken from unlicensed elevators The estimated receipts for to-morrow are 10 cars. Withdrawals to-day were 13,9 0 bu Receipts at Western points were 167,638 bu, against 319,930 last year. At Eastern points 29,860 bu, against 65,227 last year Shipments from Western points were 120,530 bu, against 153,858 last year, and from Eastern points 1,120 bu, against 4,070 last year. CORN—A good trade, higher prices ruling early, but a reaction followed, and the close was ⅜@½c lower for July, while the September lost ¾@⅞c and December ⅞@1c. The early strength was attributable chiefly to the weather, small receipts, and further rise in Wheat values Commission houses were more conspicuous on the buying side at the start, the demand being supplied chiefly by local traders with profits in sight and Provision specialists. Heavy realizing followed and the close was weak Receipts were 119 cars, with 8 cars contract, against 352 cars last year, when 27 cars graded, and 137 cars are estimated for to-morrow. Heavy rains were reported West, and cloudy, unsettled conditions indicated. Liverpool quoted spot steady to ¼d higher and futures ¼@⅜d higher. Receipts there the past three days, 280,000 bu, and none from America. Argentina shipped 2,330,000 bu, making 27,513,000 bu since Jan. 1, compared with 17,834,000 bu for the same period in 1903. Visible there is now 3,592,000 bu, previous week, 3,352 000 bu; year ago, 2,668,000 bu Western receipts, 237,000 bu; last year, 493,000 bu. Shipments 144,000 bu and 461,000 bu, respectively. The *Orange Judd Farmer* estimated the Corn area at 93,800 000 acres increase 2.6 per cent over 1903—and condition July 1, 89.2 per cent, against 84 last year and 92 in 1902 Condition about an average for a series of years. Local arrivals 189 000 bu and shipments 61,000 bu. Fifteen cars and 28 000 bu contract were switched from private elevators. Exports, 53,000 bu; for the week, 613,000 bu, against 1,525,000 bu last year. Shipping demand moderate and sales 50,000 bu. At the seaboard 4 boat loads were accepted. Car lots were in good demand and small supply Prices were steady. No 2 closed about 49¾c. No. 2 Yellow sold at 52c and closed at 51½c. No. 3 closed about 48c. No. 3 Yellow sold at 51c to arrive and closed at 51c. No 4 sold at 48¾@50c.

DECEMBER—Sold at 45¾@45⅞c and 47¼c. Opened at 47c to 47¼c, and sold at 47⅛c, to 47c, to 47¼c, to 46⅜c, to 46½c, to 46⅛c, to 46⅜c, to 46¼c, to 46½c, to 46c, to 46⅛c, to 45¾@45⅞c, to 45⅞c, and closed at 45⅞c asked.

MAY—Sold at 45¼@46⅝c. Opened at 46¼c to 46⅝c and sold at 45⅝c, to 45¾c, to 45¼c, and closed at 45¼c.

OATS—Were stronger and ¼@½c higher early, but reacted and closed unchanged to ¼c lower. Trading was good and mainly in September. The action of prices was influenced by the weather and by other Grains. Rain was reported over the Northwest and West, extending well into the Southwest. The *Orange Judd Farmer* report made the condition 90.7, against 90.1 a month ago The crop is late and harvest delayed by rainfall The yield is estimated at 900,000,000 bu, or 75,000,000 bu to 100,000,000 bu more than last year. Cash sales here 100,000 bu, and 25,000 bu at New York. Arrivals were 74 cars, with 84 cars estimated for to-morrow. Withdrawals were 2,500 bu. Seaboard clearances 35,000 bu. Car lots to go to store were steady to 1c higher, but lost the advance No 3 White sold at 41¼c. Standard in store sold at 39¾@40c and closed at 39½@39¾c.

Oats by sample were 1c higher for some grades early, but closed with the advance lost. The late weakness was in sympathy with futures. Sales on track and free on board No Grade at 35@36c. No. 4 at 35@35½c No. 4 White at 34@38c No 3 White at 38@41½c. Standard at 40@42½c No. 2 at 37½c Billed through No. 4 at 32@33½c No. 4 White at 38@38½c No. 3 at 36¼@37c No. 3 White at 40@40½c. Standard at 41@41½c At the river: No 4 White at 33½@37½c No 3 at 35c. No 3 White at 37½@39½c.

Future Deliveries of Contract Oats—Were higher early and reacted

JULY—Moderate trading. Sales were at 38¾@39¼c. Opened at 39¼c, sold to 38¾c, and closed there.

SEPTEMBER—Active. Sold at 32½@33¼c. Opened at 33c to 33¼c, sold to 32½c, and closed there.

DECEMBER Sold at 33⅝@34c. Opened at 33⅞c to 34c sold to 33⅝c, and closed there.

MAY Sold at 34⅞@35⅝c Opened at 35⅝c, and closed at 34⅞c

RYE—Was quiet—in fact not a transaction in cash occurred and very little doing futures. Feeling firm and prices 2@3c higher. The rainy weather and higher other Grain markets accounted for the advance There were no receipts and no withdrawals from store here. No export clearances were reported. No 2 in store nominally 65@68c, and fresh arrivals free on board nominally 65@68c. No. 3 nominally 55@60c

Future Deliveries of No. 2 Rye—Quiet. July nominally 63c. September sold at 59c and closed at 59c asked.

BARLEY—The market was about steady. A moderate demand reported for low grades, for mixing goods Offerings small. Prices irregular on account of difference in quality, but no change quotable Malting demand limited, and the same was true of the offerings. The few cars appearing were salable No change in prices quoted Fourteen cars inspected in Screenings quotable at 25@37c for poor to choice. Feed Barley, common, dirty or musty quotably down to 28@32c, sweet good color, thin, perhaps 35@37c Malting, low grade was quotable 37@40c; fair to good, sound, 42@45c, good color, 48@50c, and fancy above

SEEDS—Little trading New crop Timothy weakened somewhat, and that was the only change noted Flax remained steady, but very quiet, and other lines were nominal

Timothy—There was a reaction from yesterday's advance in the case of September and that was about all there was in the way of news or interest Some cash Seed offered did not meet with a satisfactory bid and was carried over September delivery sold at $3 15 and was offered at that being 5c easier. Spot Seed about nominally unchanged Contract grade nominally $2 95 Country lots quotable at $2 00@2 75 for low grade to fancy, choice about $2 65@2 70, fair to good Seed $2 45@2 55 and rough at $2 30@2 40

Flax—There was no change to-day. Late advanced prices were maintained A sale of No 1 cash was made, and that appeared to be all there was offered. Only 2 cars or 1,810 bu received and 1 car or 681 bu taken out. Minneapolis got 12 cars and Duluth 26 cars. No 1 Northwestern or No. 1 from the Northwest was quotably $1 17½, and No. 1 sold at $1 12 Rejected was quotable at $1 06@1 11. July was $1 12 bid, and September nominally $1 13@1 14.

Clover—Nothing new could be quoted. No Clover on sale; no business doing and prices nominal. Contract spot Seed about $10 75. Country lots, common to choice, $7 00@10 00; fancy above; mixed with Buckhorn or other weed Seeds, $6 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good $8 50@9 50

Other Seeds—Small lots of poor Mustard was all that came on sale. Market nominal for Hungarian and all kinds of Millet. Buckwheat quotable at $1 55@1 60 for good. Mustard at 90c@$1 10; poor down to 50@60c.

HOG PRODUCTS—Rather a good business was transacted in Hog Products in a speculative way, and the undertone to the market was rather easy. Outside orders were moderate, and local trading was fair. Offerings were rather free from miscellaneous sources, and the demand was only moderate, and chiefly from "shorts." Market opened rather steady, but the pressure to sell developed an easier feeling, and prices receded moderately on all the leading articles Toward the close the feeling was stronger, and prices improved slightly, and closed steady September contracts attracted most attention. Receipts of Hogs at the leading Western packing points were estimated at 74,800, compared with 63,500 one year ago Foreign markets were quiet and steady at former figures Domestic markets were steady Receipts of Products were good—of Lard and Meats about 47 cars. Shipments were rather light of Lard and Meats about 81 cars. Demand on shipping account was moderate, and offerings were fair. Sales were not very large, and prices were unchanged

Mess Pork—Only a fair trade was reported in Mess Pork, and the feeling was a little unsettled. Offerings were fairly liberal and the demand was moderate. Market opened rather steady at 5@7½c decline, but rallied again on the filling of a few orders. Later, the feeling was easy, with some pressure to sell and prices irregularly declined 17½@20c. Toward the close, the feeling was steadier, and prices rallied 2½@5c, and closed rather steady Very little demand for shipment, and offerings were small. Cash lots were quotable at $12 70@12 75.

JULY—Demand light and offerings limited. A few trades were made at $12 67½@12 75, and closed steady at $12 70

SEPTEMBER—Offerings were rather free, and the demand was fair. Sales were made at $12 85@13 05. Opened at $12 97½, sold to $13 05, to $12 95, to $12 97½, to $12 87½, to $12 92½, to $12 87½, to $12 92½, to $12 85 to $12 92½, and closed steady

OCTOBER—Quiet and sold sparingly at $12 97½.

Lard—Trade was fair in the market for Lard and the feeling was easier. Foreign advices were unchanged, and receipts were fair Stocks on hand are gradually enlarging. Offerings were rather free and the inquiry was only fair Prices on the whole range ruled 10@12½c lower, and the market closed steady around inside figures. The demand on shipping account was rather light with no particular pressure to sell. Cash lots quotable at $6 92½@6 95 Loose lots in small request with limited offerings Prices steady at about 60c discount on September figures Leaf Lard in limited request and offerings were small Prices were quotably steady at $6 12½@6 25. Neutral in only limited demand with fair offerings Prices quotably steady at $7 12½@7 25 for No. 1 and $6 87½@7 00 for No. 2.

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, July 7.]

The past week was rainy and moderately below the average in temperature over most of the Corn and Winter Wheat sections Where the Wheat is already mature, harvest was delayed some by the rains but not seriously so except in Kansas and Western Missouri In this area there is apparent much uneasiness and apprehension that unless this rainy spell ceases very soon, serious losses will result to the matured but unharvested Grain. Further slight damage by flooding and by rust has been reported, but not enough to affect the aggregate condition materially. East of the Mississippi River late reports of the progress of the crop are more variable than previously, there being some complaints either of insects or rust affecting the Wheat, but these complaints are still the exceptions to the general tenor of favorable maturity of the Grain. On the whole, while the week's correspondence reflects moderate variation in condition in some localities, for better or worse, the aggregate position has not been essentially changed but cessation of heavy rains in the West is necessary to maintain the present promise.

Latest advices from the Spring Wheat States indicate the crop is making fairly good progress. Copious rains have fallen everywhere except portions of Eastern South Dakota and Western Minnesota In other portions of the belt it is believed that the crop would do best without more rain for a week or two, and with moderately warm weather. Although the crop generally is in good condition, much of it is weedy.

The Corn crop is having ample moisture for growth, but the temperature has not been warm enough to make it develop rapidly, and the condition of the crop is about as previously reported; it is weedy in Kansas and Missouri, but elsewhere fields are clean, the stand is about up to the average, and the color is good, although the crop is still backward, there are possibilities of a heavy crop

The Oats crop seems to have been favorably affected by the recent cool, wet weather, for though there has not been much change in the condition of the crop, reports on the whole are a little more promising than previously and the indications are that a good average crop will be harvested if favorable weather prevails in the future. Along the Ohio River Valley the prospects are especially favorable, the condition being above the average.

Pastures generally are in good condition, and Live Stock is doing well The Hay crop promises to be a very even one: there is no extensive area where the crop is especially heavy, and there is no area of serious shortage; on the whole there will be a fairly good Hay crop.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, July 7.]

There was a moderate movement of Hogs the past week The total Western packing was 420,000, compared with 440,000 the preceding week and 480,000 two weeks ago For corresponding time last year the number was 455,000 and two years ago 360 000 From March 1 the total is 7,615,000, against 7,230 000 a year ago—an increase of 415,000 The quality of the Hogs ranged from fair to good Prices are higher, and at the close the average for prominent markets is about $5 40 per 100 lbs, compared with $5 15 a week ago, $5 15 two weeks ago, $5 60 a year ago, $7 70 two years ago, and $5 90 three years ago

The speculative Provision market was fairly active the past week and prices had an upward tendency The strength in the Grain markets, and the moderate receipts of Hogs, with higher prices for same, were the leading influences affecting trading Foreign markets were stronger. Reports of stocks of Meats were about as expected The export clearances of Product were fair, but there was a slight decrease compared with the preceding week Compared with a year ago a decided increase is shown.

The stocks of Cut Meats at centers making monthly returns show the comparisons as to totals, in pounds, according to Cincinnati *Price Current* compilations, as follows.

	July 1, 1904.	June 1, 1904	July 1, 1903.

Of Corn there is 210,331 bu, including 184,530 bu No. 2. Oats, 83,178 bu Standard and 26,037 bu No. 4, and Rye, 34,210 bu,

Not since August, 1900, have monthly sales of Stocks on the New York Stock Exchange been so small as during the month of June just ended, the total share transactions amounting to but 4,706,450, as compared with 4,005,854 shares in August four years ago The smallest previous June transactions were in 1894, when but 3,581,000 shares were traded in. During May of this year but 5 159 822 shares were traded in; April, 6,048,732 shares; March, 11,418,072 shares; February, 8,576 484 shares, and January, 12,275,711 shares.

The Kansas City correspondent of the *Northwestern Miller*, writing under date of July 4, says: "There were rains over nearly all of Kansas last week. The effect on the ripening and ripened Wheat is as yet indeterminate, but it is certain to be of some importance in the total of the crop and in the general average of quality. So far, there is no reason to regard the injury as of special moment if it is regarded in connection with the crop as a whole. In certain sections the injury done will be felt by the farmer and by those who handle the crop. The rains came at a most unfortunate time, just as Wheat cutting was in progress or was about to begin "

"There was sufficient warmth and sunshine during the week to maintain a healthy and vigorous growth of Corn and other cereal crops," says J. R. Sage in the Iowa crop bulletin "Conditions were better, especially for Oats, Spring Wheat and Barley, than would have been the normal heat and moisture of the first of July. The small Grain crops are now generally free from rust, and though short in straw the heads are filling well, giving promise of a fair yield of well developed Grain. The Corn crop made fairly good progress, being generally well cultivated, and many of the most advanced fields have been laid by in good condition as to size and vigor of plant. The stand is materially below a perfect stand, or 100 per cent, and this has been measurably true of every Corn crop grown in the State in the past twenty years. The final output of the crop, whether it shall be up to or below the actual average of the past decade, depends wholly upon future weather conditions."

The Winnipeg correspondent of the *Northwestern Miller*, writing under date of July 4, says: "The condition of the Wheat crop in Manitoba and the Northwest Territories of Canada continues highly favorable. Rains are frequent and copious enough for even the driest sections and there are no complaints from any district of lack of moisture. There is also a good account to render of the temperature, which has kept up to the normal summer level with an occasional hot day throughout the greater part of June. The condition of the crop is all and more than could be expected. It will be remembered that the date of most of the sowing was a late one in nearly every district, as a result of which the Wheat started its growth anywhere from 15 to 20 days behind other years. Most of this lost time has now been made up and with continued warm weather it will all be made up before the end of July. Competent observers say that the crop will begin to head out about July 12. There is an abundant growth of straw."

Hester's statement shows world's visible supply of Cotton 1,941,693 bales, against 2,061,509 bales last year.

Nine packers purchased 16,100 Hogs to-day; shippers, 2,500; left over, 2,500. Market closed steady at the decline.

Chicago Bank Clearings for the week were $158,160,696, against $172,792,817 for the corresponding week in 1903.

Estimated receipts of Hogs at Chicago for next week 125,000. Receipts for the corresponding week last year were 133,728.

Estimated receipts for Monday: Wheat, 8 cars; Corn, 164 cars; Oats, 100 cars; Rye, 2 cars; Barley, 18 cars; Hogs, 39,000.

Average cost price of Hogs at Chicago, Friday, was $5 44, against $5 49 Thursday, $5 56 Wednesday, $5 47 Tuesday, $5 33 a week ago, and $5 53 a year ago.

Business failures in the United States and Canada for the past week were 218, against 200 the previous week and 218 for the corresponding week last year.

Broomhall estimates the world's shipments of Breadstuffs this week at 7,200,000 bu, and predicts there will be a moderate decrease in the quantity on ocean passage.

The receipts of Wheat at Minneapolis and Duluth for the past seven days were 1,469 cars, compared with 1,149 cars one week ago and 1,487 cars one year ago.

English visible supply of Wheat decreased 1,233,000 bu, compared with an increase of 212,000 bu last week, and an increase of 208,000 bu the corresponding week last year.

The stock of Flax Seed at Minneapolis on July 9 was reported at 140,054 bu, against 213,397 bu for the week previous—a decrease of 73,383 bu. Stock last year, 724,364 bu.

Arrivals of Breadstuffs in the United Kingdom for the week were about 3,200,000 bu, compared with 4,000,000 bu last week, and 4,200,000 bu for the corresponding week in 1903.

The receipts of Hogs at the leading Western markets during the past seven days were about 352,000, against 332,000 the previous week, and 452,000 for the corresponding time in 1903.

Bank Clearings of the leading financial centers of the United States for the past week aggregated $1,865,589,705, a decrease of 5.6 per cent compared with the corresponding week last year.

Local Securities were slow and irregular. Milwaukee Brewing preferred declined 1½, Metropolitan ½ and Biscuit preferred ¼, while Can preferred advanced ¾, common ⅛, and Biscuit common ¼. Other Stocks neglected.

A Chicago operator wired from Newton, Kas.: "Weather clear. No indication of rain since my last dispatch. If this weather holds we will harvest double the amount of Wheat we did last year and fine quality. Corn tasseling out, growing fine."

Included in the shipments of Meats from Chicago for the past seven days were about 199,000 pcs of Hams, 63,000 pcs of Shoulders and 164,000 pcs of Sides. For the corresponding time last year the shipments were about 258,000 pcs of Hams, 42,000 pcs of Shoulders and 232,000 pcs of Sides.

The following table exhibits the number of Hogs estimated packed from March 1 to date in this city as compared with the returns of previous years:

1904	1,968,000	1901	2,276,000
1903	2,246,000	1900	2,1 0,000
1902	2,103,000	1899	2,197,000

The receipts of Flour and Grain at Chicago for the past seven days were equal to 3,622,000 bu and the shipments were equal to 3,607,000 bu. For the corresponding week in 1903 the receipts were equal to 5,789,000 bu and the shipments to 5,110,000 bu. These figures are supposed to include the through shipments of Flour.

Stocks in New York were irregular, with fair trading, 171,000 shares being handled. Crop reports were more favorable, and the bank statement was not of a character to cause operations on either side. Net changes were for the most part small. The only significant advances were in Reading common and Pennsylvania.

The weekly statement of the New York banks shows the following changes: Decreases—Reserves on all deposits, $87,575; Reserves, less United States deposits, $78,625; Legal Tenders, $2,519,300; Circulation, $41,200. Increases—Loans $3,263,300; Specie, $3,722,100; Deposits, $5,161,500. Banks hold $30,017,725 in excess of legal requirements.

Export clearances for the past seven days from Boston, New York, Philadelphia, Baltimore, Newport News, New Orleans, and Galveston included 63,000 brls of Flour and 15,000 bu Wheat, against 81,000 brls of Flour and 241,000 bu of Wheat the preceding week, a decrease of 18,000 brls of Flour and a decrease of 126,000 bu of Wheat. For the corresponding week last year the exports were 210,000 brls of Flour and 355,000 bu of Wheat.

The *Mark Lane Express* of June 27 says: "Farmers speak very hopefully of their growing Grain. The Wheat is still decidedly backward, but its progress has been very healthy, and good quality is probable even if bulk be not very heavy. The late start of Barley was most unlucky, as otherwise the promise to-day would have been first rate. Oats are the one crop which gives a fair promise of both quantity and quality, nor is this hope restricted to England. The Scotch and Irish reports are likewise excellent. Spring-sown Beans and Peas are more promising than the late autumnal sowings."

The secretary of the Chicago Great Western Railroad Company has issued the following statement: "The fiscal year of this company ended June 30, but its accounts of earnings and expenses for the year cannot be made up until the first week of August, and the question of a dividend on the preferred 'A' stock will be considered at the first meeting of the directors held after that time. The statement is made in answer to many stockholders who cannot understand the delay in the declaration, and who sought for news on the subject." Since 1899 the company has paid 5 per cent on its preferred "A" stock in semi-annual payments in January and July. The debentures carry a 4 per cent rate of return, but nothing is paid on the preferred "B."

The London *Times* of June 28 says: "Midsummer weather of the most enjoyable character was experienced last week in nearly all parts of the country. Towards the close of the period, however, the atmosphere became less settled, and there was enough rain to stop the Hay carts. At the middle of the week the heat was great, and country roads were reduced to a very dusty condition. The principal work on the farm was Hay making, and it is satisfactory to know that a considerable bulk of Hay of excellent quality has been safely got into stack. Farmers in general are not jubilant as to the prospects of field crops, and only a moderate harvest, and that a late one, is looked for unless some profound change should take place in the weather. The cold nights have by their cumulative effect exercised a retarding influence, notably in the case of the Wheat crop, the acreage of which, however, is exceptionally small. Potato disease has already appeared in the southwest of England."

REVIEW OF TO-DAY'S MARKETS

FLOUR—Market is quiet, with no special change in prices.

WINTER WHEAT—There was some milling and shipping demand for fresh arrivals and the feeling was firm. Offerings very light. The No. 2 Red in store is in strong hands and practically off the market and quotably $1 04@1 05, with car lots fresh arrivals new free on board quotably about $1 01@1 02. No 3 Red fresh receipts free on board quotably 97@99c for new and $1 00@1 03 for old. No. 2 Hard fresh receipts free on board quotably 93@96c. No 3 Hard fresh arrivals free on board quotably 85@90c and at the river sold at 85½c.

SPRING WHEAT—Was steady and met with some milling and shipping demand. Offerings limited. Receipts very small. No 1 Northern in store was quotably about 98c@$1 00, and fresh arrivals free on board at 98½c@$1 01. No 2 Northern fresh arrivals free on board sold at 98c and quotable at 96@98c. No. 3 Spring fresh arrivals quotable at 86@95c for ordinary to choice. No. 4 Spring quotable at 65@90c for poor to choice.

REGULAR WHEAT—The trade was rather good, but volume smaller than yesterday. Feeling was somewhat unsettled and the close 1@1⅛c lower for new July and unchanged for new September. The start was lower, due to the improved weather conditions, but rallied temporarily on the foreign news. Later, offerings increased and again settled back. At the decline local professionals gave the market fair support and there was buying for Southwestern account. The map showed the area of bad weather had shifted to the Ohio Valley. Heavy rains were reported there and temperatures high. Light rains reported in Missouri and Eastern Kansas. Clear in the Northwest. Indications are for partly cloudy and warm, sultry weather over Western sections and Mississippi Valley and scattered showers in Ohio Valley and lake region. Newton, Kan., wired: "Weather clear; no indications of rain. If the weather holds we will harvest double the amount we did last year and fine quality." The commercial editor of the Kansas City *Star* was reported out with an estimate of 20@25 per cent damage in Kansas and making total 65,000,000 bu. Liverpool quoted spot steady, and futures ⅛@¼d lower. London came unchanged to ⅛d lower. Paris was strong and up 1¾@3c. Buda Pesth declined ¼c, and Berlin was ⅛c higher. Private Liverpool cable read: "Wheat opened weak; now firm, with smaller supplies expected. India shippers are repurchasing here." *Broomhall* cabled that Liverpool was steadied by firmer India and Australian offerings and reduced estimates on the French crop. *Broomhall* estimated world's shipments at 7,200,000 bu, and predicted some decrease on ocean passage. Imports into the United Kingdom this week 3,200,000 bu; last week 4,000,000 bu, and 4,200,000 bu last year. Receipts in the Northwest this week were 1,469 cars, against 1,149 cars last week and 1,487 cars one year ago. Primary receipts 1,827,000 bu, previous week 1,579,000 bu; year ago 2,578,000 bu. Local weekly receipts 94,000 bu, shipments 216,000 bu. Stocks at Duluth were expected to show but little change, and Minneapolis decrease 6,000 bu. Kansas City and St. Louis received 18,000 bu; last year, 98,000 bu. Duluth reported the sale of 35,000 bu No 1 Northern. Exports were limited and 8 boat loads were accepted at the seaboard. Minneapolis wired: "Kansas dealers who sold Wheat for July shipment to come here are trying to cancel their trades as best they can." English farmers' deliveries were 104,000 bu at 80½c, against 162,000 bu last month at 79¾c. The English visible decreased 1,233,000 bu against 208,000 bu increase in 1903. A Michigan report was at hand estimating yield 9 bu to acre and crop 6,400,000 bu. Receipts at Duluth 18 cars and at Minneapolis 124 cars, a total of 142 cars against 133 cars yesterday, 222 cars a week ago, and 191 cars last year. Local receipts included 2 cars Winter, 2 cars Spring, 2 cars mixed, a total of 6 cars, against 14 cars last year. Included in the above was no car contract grade. There were 8 cars and no bu taken from unlicensed elevators. The estimated receipts for Monday are 8 cars. Withdrawals to-day were 27,8 0 bu. Receipts at Western points were 181,449 bu, against 332,057 last year. At Eastern points 59,496 bu, against 115,121 last year. Shipments from Western points were 160,271 bu, against 273,089 last year, and from Eastern points no bu, against 22,572 last year. Shipments of Flour were 11,151 brls. Exports of Wheat in Flour were equal to 50,179 bu.

Future Deliveries of Regular Wheat—Fair trade, and after higher opening, closed weaker.

SEPTEMBER—Old Style—Sold at 84¾@85⅝c. Opened with sales at 85c to 85¼c, sold to 85⅜c, to 85¼c, to 85⅜c, to 84¾c, to 85c, to 85¼c, to 84⅞c, to 85@85⅛c, and closed at 85@85⅛c.

SEPTEMBER—New Style—Sold at 83⅝c and at 84⅛@84½c. Opened with sales at 84@84⅛c to 83¾c; sold to 83⅞c, to 84¼@84⅜c, to 84¼c, to 84⅜@84½c, to 84c, to 84¼c, to 83⅝c, to 84c and closed at 84c sellers.

DECEMBER—Sold at 83¼@84¼c. Opened with sales at 83⅝c to 83⅞c; sold to 84¼c, to 83⅜c, to 83½c, to 83¼c, to 83½c, to 83⅜c, to 83⅝c, to 83⅜c, to 83½c, and closed at 83½c.

MAY—Sold at 85⅛@86⅛c. Opened with sales at 85⅛c to 85¼c; sold to 86⅛c, to 85⅛c, to 85⅜c, to 85¼c, and closed at 85¼c.

CORN—A moderate trade and weaker feeling was manifested, the close showing a loss of ⅜@½c and ⅞c. There was further liquidation by local "longs" at the start, the improved weather being the main influence. "Shorts" were the principal buyers. Map showed clearing conditions West with higher temperatures and cloudy, sultry conditions were predicted. Receipts were 125 cars, 10 cars passing contract, against 209 cars and 76 cars respectively last year, and 164 cars are expected Monday. Liverpool quoted spot steady to ⅛d higher and futures unchanged to ⅛d lower. Cargoes on passage firm, with bids 1½d higher. Newton, Kansas, wired: "Corn tosseling out and growing fine." Local weekly receipts were 1,527,000 bu, and shipments 1,967,000 bu. Primary receipts this week were 2,035,000 bu, against 2,656,000 bu last week and 3,957,000 bu one year ago. Local arrivals 175,000 bu, and shipments 319,000 bu. There were 30 cars contract switched from private to public elevators. Exports were 54,000 bu, last year 62,000 bu, and 2 boat loads were accepted at the seaboard. Local shipping demand moderate and sales 190,000. Car lots were in fair demand and moderate supply. No. 2 closed at 48¾c and No. 2 Yellow at 51c. No 3 sold at 48¾c, and closed at 48½c. No. 3 Yellow closed at 50½c. No. 3 White sold at 49c. Charters 230,000 bu at ¾c.

Corn by sample—Demand fair and offerings moderate. Feeling weaker and prices anywhere from ½c to 2c lower, with decline mostly on the low grades. Sales on track and free on board: No Grade sold at 43c. No 4 at 45@50c. No. 3 at 48½@49¼c. No. 3 Yellow at 50@51c. No. 2 Yellow at 50¾@51¼c. No. 3 White 49@49¼c. Billed through: No. 4 at 46½@49½c. No 3 at 47½@48c. No 3 Yellow at 49¾@50¾c. No. 2 Yellow at 49¾c. No 3 White at 48c. No. 2 White at 48¾c.

Future Deliveries of No. 2 Corn—Fairly active and weaker, closing ⅜@½c to ⅞c lower.

JULY—Sold at 48¼@49c. Opened at 48⅝c to 48½c, and sold at 49c, to 48¼c, to 48⅝c, and closed at 48⅝c asked.

SEPTEMBER—Sold at 48¾@49⅜c. Opened at 49¼c to 49c and sold at 49⅛c, to 49⅜c, to 49@49⅛c, to 49⅛@49¼c, to 48¾c, to 49c, to 48¾c, to 48⅞c, to 48¾@48⅞c, and closed at 48¾@48⅞c bid.

DECEMBER—Sold at 45@45⅞c. Opened at 45⅞c to 45½, sold at 45⅝c, to 45¾c, to 45⅝c, to 45½c to 45c, to 45@45⅛c, and closed at 45@45⅛c bid.

MAY—Sold at 44⅝@45⅛c. Opened at 44⅞c to 45c, and sold at 45⅛c, to 44⅝@44¾c, to 44¾c, to 44⅝c, to 44½c, to 44⅝c, and closed at 44⅝c.

OATS—Were liberally traded in and averaged lower. Prices receded ¼@⅝c and closed at about the bottom. The break was in sympathy with other Grains and on clearing weather. Local "longs" were good sellers and several of the largest "shorts" did most of the buying. Cash sales were 100,000 bu. Arrivals were 76 cars, with 100 cars estimated for Monday. Withdrawals were 37,750 bu. Car lots were steady to 1c lower. Standard in store sold at ⅝c over July and closed about 39¼@39½c.

Oats by sample were in fair demand and prices steady to ½@1c lower. Supply was moderate. Sales on track and free on board: No 4 at 35c. No. 4 White at 37@40½c. No 3 at 35½@36c. No 3 White at 38@40c. Standard at 40¼@41½c. No 2 at 36@37c. Billed through: No. 4 at 32@35c. No. 4 White at 37@39c. No. 3 at 35½@38c. No 3 White at 39½@40¾c. Standard at 40¼@41c. No 2 at 35c. No 2 White at 41½c. At the river: No 4 White at 35½@38c. No 3 White at 37@39½c.

Future Deliveries of Contract Oats—Were weaker and lower.

JULY—Sold at 38½@38¾c. Opened at 38½c, sold to 38¾c to 38½c at close.

SEPTEMBER. Fair trading. Sold at 32⅛@32¼c and 32½c. Opened at 32¼c to 32⅜@32½c; sold at 32½c, to 32⅛@32¼c, to 32¼@32⅜c at close.

DECEMBER.—Sold at 32⅞@33c and at 33⅜c. Opened at 33¼c to 33⅜c; sold to 32⅞@33c, to 33c at close.

MAY—Sold at 34⅛@34¾c. Opened at 34⅝c to 34¾c, to 34⅛c, to 34¼c at close.

RYE—Quiet and uninteresting market to-day. There was no special desire to trade and the extent of the business was the selling of a car of fresh receipts. Only one car was received and there were no withdrawals from store here and no export clearances from New York. No 2 in store nominally 63@65c, and a car of fresh receipts on track sold at 69c. No. 3 quotable at 54@60c, depending on the quality.

Future Deliveries of No. 2 Rye—Quiet and neglected. July nominally about 63c. September 56c bid and 58c asked.

BARLEY—Was about steady on the whole. Some feed Barley reported sold for a shade more than has been obtainable heretofore; some sales quoted at 1c advance. Only small offerings of mixing goods and there was enough demand to take all. Malting Barley in very small supply. There was some demand and market steady. Six cars inspected in. Screenings quotable at 28@37c for poor to choice. Feed Barley, common, dirty or musty quotably down to 30@33c, sweet, good color, thin, perhaps 35@38c. Malting, low grade, was quotable 38@40c; fair to good, sound, 42@45c, good color, 48@50c, and fancy above.

SEEDS—There were no changes to-day. All lines ruled quiet; cash offerings of all kinds extremely light.

Timothy—This market ruled about steady. There was no essential change. September delivery unchanged, with a couple of cars sold at $3 15. The market closed at $3 10 bid and $3 20 asked. Some cash Seed of good quality sold at $2 70. The cash market appeared to be rather strong. Contract spot or July delivery nominally $2 95. Country lots quotable at $2 00@2 75 for low grade to fancy, choice about $2 65@2 70, fair to good Seed $2 50@2 60 and rough at $2 30@2 45.

Flax—Was entirely nominal. The market was devoid both of regular demand or offerings, and no interest in futures was shown. It was in fact a neglected market. Only 1 car (1 850 bu) came in and 1 car or 1 438 bu taken out. Minneapolis receipts 15 cars and Duluth got 2 cars. No 1 Northwestern or No 1 from the Northwest was quotably $1 17½, and No 1 at $1 12. Rejected at out $1 07@1 11 depending on quality. July was $1 12 bid, and September nominally $1 1 @1 11.

Clover—Was quotable firm. None coming on sale. Contract spot Seed about $10 50@11 00. Country lots, common to choice, $7 00@10 25, fancy above mixed with Buckhorn or other weed Seeds, $6 00@8 00, poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good $8 75@9 75.

Other Seeds—Market remains nominal for Hungarian and all kinds of Millet. Buckwheat quotable at $1 55@1 60 for good. Mustard at 9c@$1 10; poor down to 50@67c.

HOG PRODUCTS—Trade was only fair and the undertone to the market rather easy. Offerings were not very large, and the general demand was moderate. Outside orders were moderate, and local trading was somewhat limited. Prices ruled lower on all the leading articles, and the market closed steady around medium figures. Trading mainly in September contracts. Hogs in larger supply than generally anticipated and prices ruled lower, and the Grain markets were rather easy, and this encouraged moderate selling. Good supply of Hogs anticipated the coming week. Receipts of Hogs at the leading Western packing points were estimated at 43,700, compared with 42,500 one year ago. Foreign markets were quiet and unchanged for Meats, while Lard was dull and 6d lower. Domestic markets quiet. Receipts of Products were good—of Lard and Meats about 27 cars. ITEMS OF GENERAL INTEREST.

Refined Sugars are 5 points higher at 4.95 net, less 1 per cent.

The Big Four Railway Company has borrowed $500,000 on car trust notes for four years.

The Daly West Mining Co. has declared its regular monthly dividend of 4 per cent a share.

Rock Island system net earnings for April decreased $610,156. For May decreased $75,919.

The United States sold $103,000,000 worth of Breadstuffs abroad last year, an increase of $6,000,000 over the best previous year.

The United States Realty and Improvement Company has applied to the New York Stock Exchange to list $13,508,000 5-year convertible debentures of 1924 and $15,494,000 capital stock.

The regular quarterly dividend of 1¼ per cent on the first and second preferred stocks and the common stock of the Pacific Coast Company are payable Aug. 1. Books close July 14 and re-open Aug. 1.

The Huntington and Broad Top Mountain Railroad and Coal Company has declared a dividend for half year of 2½ per cent on preferred stock. A reduction of 1 per cent from previous payment. No dividend declared on common.

Application has been made to the New York Stock Exchange to list $10,000,000 additional common stock of the Wabash Railway Company. Application has been made to the Stock Exchange to list $1,000,000 additional 50-year 4 per cent mortgage bonds of 1948 of the Baltimore and Ohio Railway Company.

Anthracite Coal production for the month of June, 1904, was 5,798,765 tons, compared with 5,436,497 tons in June, 1903, an increase of 392,268 tons. This tonnage is the second largest in the history of the anthracite region and is only 175,000 tons short of the record month of January, 1903, when the tonnage amounted to a little over 5,900,000.

The United States Rubber Company has declared a dividend of 1½ per cent on its paid stock from the net earnings of the company for the fiscal year beginning April 1, payable Sept. 15. Books close Aug. 31 to open Sept. 16. The net earnings of the company for the quarter applicable to dividends, June partly estimated amounted to $834,888 or nearly $500,000 in excess of dividend requirements.

It develops that the Hammond, Whiting and East Chicago Electric Railway Company recently increased its capital stock from $300,000 to $1,000,000. Of the new amount authorized $210,000 was sold. The proceeds were used to retire the company's issue of $100,000 5 per cent bonds, which fell due on March 1, 1904, and to make improvements and betterments. The company is owned by the controlling interests in the South Chicago City Railway Company. Dividends at the rate of 1½ per cent are paid quarterly.

The Chicago *Inter Ocean* says: "Kansas City messages for three days have quoted Nocolet of the Kansas City *Star* as reducing crop estimates on Wheat each day. Thursday he estimated a loss in Wheat west of the Mississippi River at 30,000,000 bu. Yesterday he was quoted as placing the damage in Kansas alone at 30,000,000 bu. and probably 40,000,000 bu. The latter is 50 per cent of the crop. He also says Corn is bad. The tendency under present conditions after the excessive rains is to overestimate crop losses. One crop expert who has been in the field all week wired from Central Kansas that the situation was not as bad as many people tried to make out, and much of the Grain might be saved by favorable weather. Wheat that is standing, and reports indicate that not more than a third to one-half the crop has been cut, is really in better shape than that in the shock. It will dry out soon, and if it can be cut before it becomes too dry, a large percentage can be saved. In Northern Kansas not more than 10 per cent of the Wheat has been cut. Wichita people yesterday estimated that a third of the Wheat and a half of the Oats are in the shock. Shocked Grain dries out slowly after being thoroughly wet, and there is a loss of quality as well as quantity. Some of the worst reports come from sections in Kansas that practically raise no Wheat. Seven of the big counties in Kansas have about 23,000,000 bu. Sumner county having 5,000,000 bu. This is in the central part of the State, and has suffered some loss. Were the crop in these seven counties to be wiped out entirely, it would make the loss 28 per cent of the crop, figuring it at 80,000,000 bu."

A new plan is now said to be under consideration by the management of the United Box Board and Paper Company to take care of the payment of the $350,000 in bonds which come due on Jan 1 next, without the necessity of a general financial reorganization According to the report which comes to Chicago holders of the company's securities from New York sources, the scheme is being discussed of asking the holders of the $350 000 bonds to extend the time of payment for two more years. Special inducements are to be offered to the holders to make the extension As most of the holders of the bonds are stockholders in the company, there appears considerable likelihood that the scheme can be carried out.

Broomhall's special cable on foreign crop situation: "Russia—A semi-official crop report states Winter Wheat is generally below an average condition. It is bad in Southern Bessarabia (fifth largest Winter Wheat producer), and in Kherson (seventh largest), both of these provinces being in the Southwest. The condition is unsatisfactory in Poltava and Vitebsk, both being small producers. In the Southeast the condition is good this territory being of importance Elsewhere, the condition is unsatisfactory. Spring Wheat is generally of an average condition. It is bad and unsatisfactory in the same provinces as Winter Wheat, however, viz: bad in Southern Bessarabia (the ninth largest Spring Wheat producer) and in Kherson (the third largest) It is unsatisfactory in Poltava (eighth largest) and Vitebsk, a small producer. The condition is good in the eastern districts (which are large producers) and in the center, which is of moderate importance. The condition of Rye is above an average, while Oats and Barley are generally good Germany—Reports state that the rains are lasting too long for the good of the crops"

REVIEW OF TO-DAY'S MARKETS

FLOUR—Demand only moderate and prices steady.

WINTER WHEAT—There was a light milling and shipping demand for fresh arrivals and the feeling was steady. Offerings very light. REGULAR WHEAT—There was a good trade, the market gradually broadening, and the feeling was quite "bullish" closing prices showing the new July up 1⅜@1½c, while new September gained ⅞@1c. The start was easier on the better weather Southwest and lower cables Locals led in the selling, but at the decline the demand improved and offerings became smaller. Reports from the Southwest were decidedly "bullish," many being on the sensational order, and statistics also generally construed as "bullish" Many of the early sellers covered and there was buying both for the Southwest and Northwest. The map showed but little precipitation in the Southwest but heavy general rains in Nebraska and light general rains in North Dakota Showers were predicted for Illinois Indiana, Missouri, Kansas and Nebraska. Fair for North and South Dakota. The Kansas City *Star* said Kansas, Nebraska and Missouri had easily lost 30,000,000 bu of Wheat and so delayed harvest that the movement is sure to be in striking contrast with a year ago for three weeks to come Cairo, Ill., wired "Weather cloudy here; heavy rain Saturday night and showers yesterday. CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, June 28.]

United Kingdom—On the whole the agricultural papers are inclined to take a hopeful view of harvest prospects, but Wheat continues to receive most dispraise, the plant being generally too thin for favorable results, and the shortness of the acreage is now an old tale. In some parts on the East coast, the spring crops are actually suffering from want of rain, but we imagine the drouth must be very local for most districts have had some rain lately, quite enough to refresh vegetation generally but without doing any harm to the Hay, which is being secured in capital condition.

Russia—To-day's reports show that dry weather generally prevails throughout the South of Russia; the drouth has not been of long enough duration to be considered really serious, but should it last and be accompanied by great heat, the important spring crops—Wheat, Barley, Oats—might easily receive serious damage. Complaints of bad crop conditions continue to come from parts of Bessarabia and Kherson, but conditions generally along the Southern belt are fair, until we get to the Caucasus in the extreme Southeast, and there they are bad. The Wheat crop of the Caucasus last year was 77,00,000 bu. The export movement continues liberal, but the stocks at some of the chief ports are very small.

Roumania The latest estimate for the Wheat crop is 44,000,000 bu, compared with 72,000,000 bu harvested in 1903, while the export surplus is reckoned at 16,000,000 bu, against 40,00,000 from the last crop. Rains have improved the outlook for Corn, but more moisture is wanted. Arrivals at the shipping ports continue to decrease and the export movement is only moderate.

Bulgaria—Reports as to this crop continue favorable.

Austria-Hungary—Reports from Hungary are rather more favorable as regards Wheat, and the Corn crop has improved. In Austria crop conditions have been lowered by unfavorable weather.

Argentina—Our agent cabled last Friday that rain still holds off, but there is no cause for alarm yet. Supplies of Wheat to the ports are small, but shipments last week showed some increase.

Australasia—Further beneficial rains have been reported from the Australian States so it may be presumed the young crops are getting a fair start. Stocks of Wheat are still of good size.

India—Shippers are not offering so freely and prices are higher.

France—This country has now experienced a fortnight of favorable crop weather, and reports as to the condition of the standing crops are again very optimistic. Provincial markets report very dull trade, but prices are only occasionally 6d to 1s lower. The cutting of Rye and Oats has commenced in the South.

Italy and Spain Latest reports denote no change in the situation. In both countries now harvest should be getting into full swing.

Germany—Rains have relieved the drouth, but have not dispelled all fears of crop damage, although any complaints seldom refer to Wheat. The estimate of the Imperial Statistical Bureau for all Germany gives the condition of Winter Wheat on June 15, 82 per cent, against 84 per cent the month previous and 74 per cent in June, 1903. Rye is also slightly lower on the month, but unchanged from a year ago. Spring crops are 4 to 6 per cent lower on the month and generally rather lower than a year ago. It is to be noted that this report is based on returns sent in before the drouth was relieved which happened around the 18th inst. Supplies of native German Wheat continue very small.

Sweden—The crops are reported to be suffering from want of rain.

North Africa—There are some complaints of rains hindering the harvest, and that results are disappointing, but reports generally continue to indicate a large yield for all cereals.

THE WEATHER CONDITIONS.

Rains all over Nebraska and Iowa. Light rain at Dodge City, trace at Wichita, none in Missouri or Oklahoma. Clear in the Northwest and in the Ohio Valley. Warmer everywhere.

Indications are for generally fair weather over the district except there will be occasional thunderstorms in the Central Valleys. Moderate summer temperatures.

IMPORTS OF FLOUR AND WHEAT.

ITEMS OF GENERAL INTEREST.

Transfer books of the registered bonds of the Consolidated Tobacco Company will be closed July 20 for the payment of interest due on Aug. 1, and will be reopened on Aug. 2

The converter at the Joliet plant of the Illinois Steel Company closed Friday. The billet mill will close Sunday, and the rod mills closed several days ago. The suspension affects about 1,500 men.

The National Licorice Company, Friday, declared a dividend of only one-half of 1 per cent on its common stock, payable July 16. This is a reduction of one-half of 1 per cent from the previous declaration.

It is expected that the reorganization committee of the United States Ship Building Company will take steps immediately to carry out the new plan. The sale of the properties under foreclosure will take place in August.

A committee gives notice to holders of the first mortgage fifty-year 4 per cent Gold bonds of the Detroit Southern Railroad Company that at the instance of the holders of a majority of these bonds they have agreed to act as a committee to protect the interests of the bondholders. A protective agreement has been prepared.

Articles of incorporation were filed in the office of the Illinois Secretary of State, Wednesday, by the Kankakee and Moline Railway Company. The principal office is to be in Chicago and the capital stock is nominally $100,000. It is proposed to construct a railroad from Kankakee, Kankakee County, to Moline Rock Island County, Illinois.

For the first six days of July United States Treasury expenditures exceeded receipts by $6,500,000, and some talk is heard that the banks may be further called upon for funds to keep the Treasury working balance up to the mark. Banks now hold $116,000,000 Government money. The Treasury working balance has been reduced to $52,000,000.

The General Electric Company has bought the Allis Chalmers Company. It is also negotiating for the purchase of the National Electric Company of Milwaukee. The present value of the company's tangible property is reported as over $20,000,000. This includes plants, patents, and $10,000,000 in capital. The company has no bonded debt.

A party of Lincoln, Neb., in a message to a Chicago commission firm who inquired about damage in his territory, said: "Have canvassed the damaged territory by 'phone. It is confined to Southeastern Nebraska, and the crop ought not to be reduced in these fifteen counties, which promise an extra big crop, of over one-quarter. Outside of this area reports are not bad."

It is said that Adolph Segal of the Pennsylvania Sugar Refining Company, which has built a plant in Philadelphia, is negotiating for a combination of this company, the Knickerbocker Sugar Refining Company, which has built a small plant on the banks of the Hudson, and a new plant to be built in Hoboken by another company, with which Mr. Segal is identified.

Announcement is made that J. E. Borne, F. J. Lesman and D. G. Boissevain have formed a protective committee in the interests of the stockholders of the Detroit Southern Railway, which went into the hands of a friendly receiver. Deposits of both kinds of stock are asked on or before Aug 15. This committee is independent of the one formed in the interests of the bondholders.

The Knickerbocker Pulp Company plant at Plattsburgh, N. Y., owned by the United Box Board and Paper Company, has been sold to parties who are prominently connected with the United Company. It is stipulated the buyers shall not become competitors of the United in any shape or manner. It is said the buyers acquired the Knickerbocker plant through exchanges of certain stocks and bonds they owned.

Dornbusch's Buda Pesth correspondent writing under date of June 25 says: "The Flour market opened dull and inactive this week, but on expectation of a steady consumption as usual during the harvest period, buyers were disposed to make fair contracts, and millers were enabled to dispose of fairly large quantities. It is not improbable that an improvement has now set in which will be lasting. Prices have risen all round and close steady."

The stock listings for the half year, compiled by the New York *Financial Chronicle*, aggregate only about $11,600,000, contrasting with $291,000,000 in the same period of 1903 and no less than $1,273,000,000 for the first half of 1901. The total bonds listed amounted to $234,000,000, being from $88,000,000 to $162,000,000 less than the aggregates of the corresponding half of each of the three years next preceding. The bond issues representing "new capital" stand out conspicuously with the total of $193,000,000, as against $161,500,000 in 1901, the previous record for the decade.

Reported that 8,000 bu Wheat and 24,000 bu Corn were taken at the seaboard to-day for export.

Crop of Wheat in Northwest, according to July report of Department of Agriculture, about 209,000,000 bu.

Estimated receipts for to-morrow: Wheat, 4 cars; Corn, 120 cars; Oats, 56 cars; Barley, 4 cars, Hogs, 20,000.

Seven packers purchased 5,400 Hogs to-day; shippers 4,000; left over, 12,000. Market closed weak and very dull

Deliveries on July contracts to-day were 140,000 bu Corn, 5,000 bu Oats, 250 tcs Lard, and 100,000 lbs Short Rib Sides.

Average cost price of Hogs at Chicago, Monday, was $5 36, against $5 41 Saturday, $5 47 Tuesday of last week, and $5 35 a year ago.

Employes of the larger packing houses quit work at noon to-day, and a large number of Hogs, Cattle and Sheep remain in the pens unsold.

Top Cattle prices at leading markets, Monday, were: Chicago, $6 40; Kansas City, $6 00; Omaha, $6 00; St. Louis, $6 10, and St. Joseph, $5 80.

The receipts of Wheat at Liverpool during the past three days were 296,000 bu, of which 80,000 bu were American. Receipts of Corn, 58,000 bu, of which 40,000 bu were American

Cotton in New York was affected by stronger cables, a good spot demand, and by the Government crop bulletin showing too rapid growth. Prices were much higher, and closed with gains of 16@25 points.

Stocks in New York were stronger and made decided gains. London bought 5,000 shares. The big sellers of yesterday were the best buyers. Western Railway shares gained ⅛ to 1 point. Industrials were up ¼ to 1 point. Money, 1 to 1⅛ per cent.

Local Securities were unsettled. Most of the Industrials were weak and ⅛ to ⅜ lower. Chicago Telephone declined 3 points. The strong spots were Metropolitan Elevated preferred, which gained 2 points, and common ½ point. Carbon preferred advanced 1 point and City Railway 1⅞.

Bradstreet's report of the available supply for the past week shows the following changes:

Broomhall's weekly crop summary says: "United Kingdom—The recent wet has been forcing the Wheat crop, and harvesting may commence the last week in July France—The harvest is spreading rapidly. The great producing districts in the north still reporting sanguinely regarding the outturn. Germany—While the weather recently has been favorable in some portions, yet many eastern districts report a poor condition. Hungary—It is now certain the yield of Wheat will be deficient. Roumania—The Wheat harvest is now general and crop is yielding somewhat better than anticipated. A heavy rain of short duration has benefited Corn. Bulgaria—Reports still continue favorable. Russia—The Wheat crop is very irregular. Additional districts to those mentioned in our cable yesterday were sending poor reports. Our agent at Crimea cables that extremely hot weather interferes with the field work. Stocks are exhausted. The Crimea is a large producer India—Further desirable rains have fallen Portugal—Wheat yield will be very light and substantial imports will be required The average of the Wheat crop for the past ten years is 8,400,000 bu, while the imports of Wheat averaged 3,700,000 bu."

CORN YIELD IN SURPLUS STATES

The following table exhibits the estimated yield of Corn for 1904, as indicated by the July report of the Department of Agriculture, in what are known as the Corn surplus States, compared with the yield in the past two years:

WHEAT IN FARMERS' HANDS.

According to the Department of Agriculture report the quantity of Wheat in farmers' hands on July 1 was about 36,630,000 bu, compared with 49,500,000 bu one year previous.

INDICATED CROP YIELDS.

According to the July report of the Department of Agriculture the percentages indicate about 641,000,000 bu Wheat, 2,387,000,000 bu Corn, 820,000,000 bu Oats, 26,000,000 bu Rye, and 130,000,000 bu Barley. The report on Wheat was evidently compiled on returns dated July 1 or previous—before damage by rains was sustained

WEATHER BUREAU REPORT.

The Weather Bureau weekly crop report, issued at noon to-day, is as follows:

Spring Wheat—Has suffered slightly from rust over the southern portions of the Spring Wheat region, and is thin and weedy on low lands in Northern Minnesota The crop as a whole has advanced satisfactorily. It is now heading in North Dakota and Northern Minnesota. On the North Pacific Coast, Spring Wheat, especially late-sown, has suffered seriously from dry weather. In Oregon, much will be cut for Hay.

Winter Wheat—Has sustained great damage from continuous heavy rains in Nebraska, Kansas, Oklahoma and Missouri, where the unharvested Grain was seriously damaged by rust and lodging, and that in shock by moulding and sprouting. Harvesting was also greatly hindered by unfavorable weather in the districts east of the Mississippi River, where, however, the conditions were much less serious than in the States of the lower Missouri Valley. Harvesting continues under favorable conditions on Pacific Coast

Corn—Over the greater part of the belt Corn has made vigorous growth, but continuous rains have prevented cultivation and much of the crop is weedy In the northerly districts Corn is generally backward, but has advanced decidedly during past week In Middle Atlantic States, the crop has made excellent progress, and is in very promising condition.

Oats—In common with other Grains, suffered from excessive moisture in the lower Missouri Valley, but elsewhere this crop has made satisfactory progress, although rank growth is reported from portions of Minnesota and Ohio.

Cotton—Has grown rapidly throughout the belt Complaints of too rapid growth received from portions of central districts where the crop is suffering for cultivation. In portions of western districts, it is also in need of cultivation, and some shedding reported from portions of Texas and South Carolina. Over greater part of Texas and in eastern districts the crop is in good state of cultivation, and little damage from insects is reported.

REVIEW OF TO-DAY'S MARKETS

FLOUR—Market is quiet. Foreign bids still out of line, and sales limited to local and domestic account.

CORN—A fair trade and rather active market at times, with the feeling somewhat unsettled The close was unchanged for July, while September lost 1-16c December declined ⅛@¼c and May ⅛c. The start was lower on the better weather, present and prospective, and the Government report. Commission houses sold with considerable freedom and market for a time ruled weak "Bull" interests bought at the decline and "shorts" covered, causing a steadier tone. A feature was the selling of the forward deliveries by Provision specialists. Receipts were 254 cars, 20 grading, last year 300 cars, with 28 contract, with 120 cars estimated for to-morrow Government report made condition July 1 81 4 per cent, against 79 4 one year ago Area 91,894,000 acres, indicating a crop of 2,386,930,000 bu, against 2,244,176,000 bu in 1903. Yield in surplus States 1,479,000,000 bu, against 1,271,000,000 bu last year *Bradstreet's* decreased 32 000 bu; last year increased 444 000 bu The weekly weather crop bulletin stated Corn had made vigorous growth. Contract stocks increased 38,809 bu last week, and now include 2,753,210 bu, against 3,359,865 bu one year ago Liverpool spot steady to ¼d lower, and futures unchanged to ⅛d lower. Western receipts only 266,000 bu, last year 529,000 bu. Shipments 212,000 bu and 551 000 bu respectively. Local arrivals 253 000 bu shipments 175,000 bu Stocks here in all positions 5 315,000 bu—decrease last week 511,000 bu Stock a year ago 8,627,000 bu. Exports 174,000 bu and 3 boat loads accepted at the seaboard Shipping demand slow and sales 100,000 bu. Car lots were firm Demand fair, offerings smaller No 2 closed at 48¾c No 2 Yellow sold at 51c, and closed at 50¾c No 3 closed at 48½c. No 3 Yellow at 50½c, and closed at 50¼c

Corn by sample—Demand fair and offerings small. Feeling firm, and prices unchanged to ½c higher Sales on track and free on board No Grade sold at 86@47c. No 4 at 45@45½c No 3 at 49@49¼c. No 3 Yellow at 50@51c No. 2 Yellow at 51c No. 3 White 49@49¼c No 2 White at 49¾c Billed through: No Grade at 43½@45c No 4 at 47@48½c No 3 Yellow at 49½c No 2 at 48½@48¾c. No. 2 Yellow at 49½c No 3 White at 48c No. 2 White at 48¾c

Future Deliveries of No. 2 Corn—Moderately active and prices somewhat irregular, closing unchanged to ⅛@¼c lower

JULY—Sold at 48@48⅝c Opened at 48c and sold at 48⅜c to 48¼c, to 48⅝c to 48⅛c, to 48⅜c, to 48¼c to 48¼@48⅜c and closed at 48¼@48⅜c bid

SEPTEMBER—Sold at 48⅜@48½c and at 48⅝c. Opened at 48½c to 48⅝c, and sold at 48½@48⅝c, to 48⅝@48½c, to 48⅞c, to 48½c to 48¾c, to 48⅝c, to 48⅝@48¾c, and closed at 48⅝@48¾c

DECEMBER—Sold at 44½@44⅞c. Opened at 44¾c to 44⅞c, sold at 44½c, to 44⅞c, to 44½c, to 44⅞c, to 44⅝c, to 44¾@44⅞c, and closed at 44¾@44⅞c asked.

MAY—Sold at 43⅞@44¼c Opened at 44¼c, and sold at 44c, to 44⅛@44¼c, to 43⅞c to 44⅛c, and closed at 44⅛c bid.

OATS—Were stronger and closed ½c higher for July, but ⅛c lower for September and ⅛c off for May, December being steady. The market had a heavy undertone for the distant futures which was a surprise considering the advance in Wheat. There was no great trade either way. The Government crop report was "bearish," showing a crop of 820 000,000 bu or 8 000 000 bu more than a month ago The condition was 89.8, against 89.2 in June and 94.3 in July last year The weekly crop bulletin was less favorable, showing damage in the Southwest from recent heavy rains. Cash sales were 140 000 bu Arrivals were 154 cars with 56 cars estimated to-morrow Withdrawals were 15,671 bu. Seaboard clearances 23,000 bu Contract stocks decreased 61,435 bu and are 3,7 0 0 0 bu Car lots to go to store were steady Standard sold at 1¼c over July and closed at 40@40¼c

Oats by sample were in fair request and steady, with offerings small. Sales on track and free on board: No 4 White at 36@40c No 3 at 35@35½c. No 3 White at 38½@41½c. No 2 at 36½@37c Billed through. No 4 at 32@33½c. No. 4 White at 36½@39½c No 3 at 34@34½c No 3 White at 40@41c. Standard at 41½c No 2 at 35c. At the river No Grade at 29c. No 4 White at 37@38½c No 3 at 37½c No 3 White at 39@39¼.

Future Deliveries of Contract Oats—Were moderately traded in and prices irregular.

JULY—Sold at 38½@38⅞c. Opened at 38½c, sold to 38⅞c, and closed there.

SEPTEMBER—Fair trading. Sold at 31¾@32c. Opened at 31⅞c to 32c, sold at 31¾c, to 32c, to 31⅞@32c at close.

DECEMBER—Sold at 32½c and 32¾@32⅞c Opened at 32¾@32⅞c, sold to 32½c, to 32¾c at close.

MAY—Easy. Sold at 33¾@33⅞c, closed at 33⅞c

RYE—Ruled firmer, with only light trading. Receipts small and wet weather, it is claimed, interfered with harvesting. This tended to create firmness. Receipts only one car No withdrawals from store and no export clearances from the seaboard No 2 in store entirely nominal and quotably about 65@66c, and fresh receipts free on board about 66@67c No 3 fresh receipts free on board sold at 60@66c outside for choice No 4 sold at 53c.

Future Deliveries of No. 2 Rye—Quiet and shade better July nominally 63c. September sold at 56c, and closed at 56c bid

BARLEY—The market was almost bare of offerings A scattered car here and there A very mild demand existed Barley of all grades was salable, and yet there was no anxiety for it. The market was quotably very quiet and about steady Seven cars posted inspected in. Screenings were quotable at 28@37c for poor to choice Feed Barley, common, dirty or musty down to 30@33c; sweet good color, thin, at 35@38c. Malting, low grade was quotable 38@40c; fair to good, sound, 42@46c, good color, 48@50c, and fancy above

SEEDS—The market was devoid of trading and the reason for it was that offerings were absent. No changes developed

Timothy—September delivery was offered at $3 25 and $3 12½ bid, it probably would have been salable at the late quotation of $3 15 Market for old Seed nominally unchanged There was none whatever on sale. No change quotable. Contract goods, spot or July delivery nominally about $2 95. Country lots quotable at $2 00@2 75 for low grade to fancy, choice about $2 65@2 70, fair to good Seed $2 50@2 60 and rough at $2 35@2 45

Flax—There was an entire absence of offerings. Such a circumstance made it impossible for any business to be done. The market did not present anything that showed it to be in any way changed. Movement somewhat larger, but it had no influence whatever on the regular market Ten cars or 8,500 bu received and the same number of cars or 10,501 bu taken out. At Minneapolis the receipts were 10 cars and at Duluth 45 cars Nominal prices were as follows: No. 1 Northwestern or No. 1 from the Northwest quotably $1 17½, and No. 1 at $1 12 Rejected about $1 06@1 11, depending on quality. July salable at $1 12 and September held at $1 16, with $1 13 bid.

Clover—No business doing and no Clover offered. It was a nominally unchanged market Contract spot Seed about $10 75@11 00 Country lots, common to choice, $7 00@10 25; fancy above; mixed with Buckhorn or other weed Seeds, $8 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good $8 75@9 75

Other Seeds—A small lot of German Millet, rather common quality, sold at 85c—the first quotation in some time. Aside from this Hungarian and Millets remain nominal. Buckwheat quotable at $1 55@1 60 for good. Mustard at 90c@$1 10 poor down to 50@60c.

HOG PRODUCTS—The market for Hog Products attracted only moderate speculative attention, and the undertone was unsettled in a general way. Fears of labor troubles at the packing houses throughout the West encouraged a little buying, and the offerings were limited Outside orders were light, and local trading was moderate Prices ruled higher on all the leading articles early in the day, but receded again partially, and closed steady. Hogs were in fair supply and lower, as packers were buying sparingly The receipts at the leading Western packing points were estimated at 48 200, compared with 77 000 one year ago Foreign markets were quiet and Lard was quoted 3d lower. Domestic markets quiet Receipts of Products were good—of Lard and Meats about 28 cars Shipments were fairly good—of Lard and Meats about 128 cars Inquiry on shipping account was light and offerings were moderate Exporters out of the market and domestic demand moderate. Sales limited and prices varied slightly

Mess Pork—Trade was fair in the market for Mess Pork, and the feeling was unsettled in a general way. Offerings were moderate, and the demand was fair. Opening trades were made at 5@10c advance, and a few trades were made at 5@7½c higher. Later, the feeling was easier and prices receded 7½@10c, and the market closed steady. Shipping demand light, and offerings were small. Cash lots quotable at $12 80@12 85.

JULY—Quiet with small sales at $12 80@12 90, and closed at $12 85.

SEPTEMBER—Offerings were only fair and the demand was moderately active Sales were made at $12 95@13 07½. Opened at $12 95 to $13 00, sold to $12 97½ to $13 02½, to $12 97½ to $13 00 to $12 95@12 97½, to $13 00, to $12 95, to $13 07½, to $13 02½ to $13 05, to $12 97½@13 00, and closed steady

OCTOBER—Trade light at $13 02½@13 07½, and closed at $13 02½

Lard—Only a fair business was transacted in a speculative way, and the feeling was a little unsettled. Offerings were fair, and the inquiry was moderate Foreign advices were less favorable to holders Market opened rather steady at 2½@5c advance, and a further improvement of 5@7½c was gained Later, the feeling was easier and prices receded 5@7½c, and the market closed comparatively steady. Demand on shipping account was light with no particular pressure to sell Cash lots quotable at $6 95@6 97½ Loose lots in small request with limited offerings Prices steady at about 60c discount on September figures. Leaf Lard in limited request and offerings were small Prices were quotably steady at $6 12½ Neutral in only limited demand with fair offerings Prices quotably steady at $7 12½@7 25 for No 1 and $6 87½@7 00 for No. 2.

JULY—Offerings rather light, and demand was limited Sales were made at $6 95@7 00, and closed at $6 95

SEPTEMBER—Demand was fairly active, and offerings were moderate. Sales were made at $7 05@7 15. Opened at $7 05 to $7 07½@7 10, sold to $7 07½, to $7 15, to $7 10, to $7 12½, to $7 07½, to $7 07½@7 10, to $7 07½, to $7 10, to $7 07½, and closed steady.

OCTOBER—In moderate request, and offerings were only fair Sales were made at $7 12½@7 17½. Opened at $7 12½, sold to $7 15@7 17½, to $7 12½, to $7 15, to $7 12½, and closed steady

Short Rib Sides—Trade was only fair in Short Rib Sides, and the feeling was unsettled in a general way. Offerings were not very large, and the demand was fair Prices ruled 2½@5c higher at the opening, and a further improvement of 2½c was gained Later, there was a little pressure to realize, and prices settled back 2½@5c and the market closed steady Demand on shipping account was light and offerings were moderate. Cash lots quotable at $7 12½@7 37½ according to weight

JULY—Quiet with small sales at $7 12½@7 45, and closed at $7 45

SEPTEMBER—Offerings were moderate and the demand was fair Sales were made at $7 65@7 70. Opened at $7 65 to $7 67½ sold to $7 70 to $7 65 to $7 67½ to $7 65, to $7 67½, to $7 65 to $7 70 to $7 65@7 67½, and closed steady

OCTOBER—Called for moderately and the offerings were small Sales were made at $7 72½@7 75, and closed at $7 72½

Other Meats—Trade was rather light and feeling was fairly steady Offerings not very large and the inquiry was somewhat limited Exporters rather backward and the home demand was only small Green Meats in moderate supply with a light inquiry, and prices were steady Pickled Meats in moderate request and prices ruled steady. Dry Salted Meats were in light demand with moderate offerings, and prices favored buyers Smoked Meats called for in moderate quantities, and prices were unchanged Closing prices ranged as follows:

GOVERNMENT CROP REPORT.

WASHINGTON, July 11.—Preliminary returns to the chief of the bureau of statistics of the Department of Agriculture show the acreage of Corn planted to be about 91,930,000 acres, an increase of about 2,130,000 acres, or 2.4 per cent, on the area planted last year, as revised, in December. The average condition of the growing crop July 1 was 86.4, as compared with 79.4 July 1, 1903, 87.5 at the corresponding date in 1902, and a ten-year average of 84.4

The average condition of Winter Wheat July 1 was 78.7, as compared with 77.7 last month, 78.8 on July 1, 1903, 77 at the corresponding date in 1902, and a ten-year average of 78.3. This report relates to conditions July 1, and takes no note of the effects of storms in certain States since that date.

The average condition of Spring Wheat July 1 was 93.7, as compared with 93.4 last month, 82.5 July 1, 1903, 92.4 at the corresponding date in 1902, and a ten-year average of 86.8.

The average condition July 1 of Spring and Winter Wheat combined was 84.5, as compared with 80 July 1, 1903, and 82.9 at the corresponding date in 1902. The amount of Wheat remaining in the hands of farmers July 1 is estimated at about 36,630,000 bu, equivalent to about 5.7 per cent of the crop of last year.

The average condition of the Oat crop July 1 was 89.8 as compared with 89.2 last month, 84.3 on July 1, 1903, 92.1 at the corresponding date in 1902, and a ten-year average of 87.3.

The average condition of Barley July 1 was 88.5, against 90.5 one month ago, 86.8 July 1, 1903, 93.7 at the corresponding date in 1902, and a ten-year average of 87.1.

The average condition of winter Rye July 1 was 88.0, as compared with 90.2 July 1, 1903, 91.2 at the corresponding date in 1902, and a ten-year average of 89.7.

The average condition of spring Rye July 1 was 90.8, as compared with 88.3 July 1, 1903, 91.2 at the corresponding date in 1902, and a ten-year average of 87.4.

The acreage of Flax is less than that of last year by about 836,000 acres, or 25.6 per cent, and the condition on July 1 was 85.6

The acreage of Potatoes, excluding Sweet Potatoes, is greater than that of last year by about 99,000 acres, or 8.4 per cent. The average condition July 1 was 93.9, as compared with 88.1 July 1, 1903, 92.9 at the corresponding date in 1902, and a ten-year average of 92.0.

The acreage of Tobacco is less than that of last year by about 231,000 acres, or 22.3 per cent. The average condition July 1 was 85.3, against 85.1 one year ago.

EXPORTS OF RYE.

[From the Liverpool Corn Trade News.]

The following table exhibits the exports of Rye from the following countries from August 1, 1903, to June 25, 1904, compared with the corresponding time in 1902 3:

Countries—	1903-4, bushels.	1902-3, bushels.
Russia and Danube	31,344,000	58,360,000
America	696,000	5,440,000
Germany	6,152,000	4,560,000
Total	41,192,000	68,360,000

THE WEATHER CONDITIONS.

Heavy rainfall in Ohio Valley, Southern Illinois and Eastern Missouri. Clear elsewhere. Only trace of rain at Dodge City. Clear and cooler Northwest, except above Canadian line, where it is much warmer.

ITEMS OF GENERAL INTEREST.

The large icehouse at Loon Lake, Ill., was struck by lightning, Monday, and was totally destroyed by fire, with a loss of $100,000.

Fire, Monday, totally destroyed the Jefferson Ice Company's houses at Power's Lake, Wis., and caused a loss of between $85,000 and $90,000.

The Alliance Realty Company has declared the regular quarterly dividend of 1½ per cent payable July 15. Books close July 9 and reopen July 16.

An official crop bulletin for Italy, covering the period 10th to 20th June, says that the weather continued too dry for the Corn crop. Harvesting of Barley and Rye continued and the cutting of Wheat commenced.

The *Corn Trade News* of June 29 says: We hear from Antwerp that all the cereal crops of Belgium promise well, except perhaps Oats, for which crop the weather is too dry. The Hay crop is abundant. Potatoes promise a good yield.

Oklahoma City wired, Monday: "Corn most promising ever seen in Oklahoma, except in lowlands. Wheat suffering from bleach caused by too much rain. Will average 18 bu to acre. Oats suffered much damage from rain."

The Flour trade in Europe is picking up slightly. The small distributers and bakers are practically cleaned out of stock, but they are only buying a few sacks at a time, where under normal conditions they take several hundred.

Secretary Miller, of the Nebraska Grain Dealers' Association, says: "Reports at hand show damage of 20 to 25 per cent to the Wheat crop in quantity, and quality is also affected materially, but it is impossible to tell exactly. This estimate may be reduced." He looks for a movement of new Wheat inside of ten to twenty days.

Frank J. Gould offers to purchase at par all the coupons of bonds of the Virginia Electrical Railway and Development Company and the Richmond Traction Company, due July 1, upon which default was made at that date owing to litigation pending. Both companies are owned by the Virginia Passenger and Power Company.

The *Corn Trade News* of June 27 says of the French crops: "The country has experienced a week of splended crop weather, and reports are again very favorable. The Wheat crop is now coming into ear in the latest districts, and satisfaction with crop prospects is almost general. Country markets have been almost deserted, as farmers have been busy securing the Hay crop, while in the South the cutting of Oats and Rye has commenced."

Shipments of Coal from Buffalo by lake during the month of June amounted to 510,606 tons, compared with 290,262 tons shipped during the corresponding month in last year. Up to June 1 the shipments of Coal from Buffalo were about 500,000 tons behind those of the previous season, but are now not more than 200,000 tons less than last year's showing. It is expected that the movement this month will be large enough to bring the shipments up to a parity with last year.

The Union Pacific's May statement was the best it has issued since February, when gross earnings increased $704,000 and net earnings increased $477,000. The May statement shows an increase of $482,320 or 11 per cent, in gross, and an increase of $357,667, or 22 per cent, in net. The eleven months' statement, covering operations since June 30, 1903, is favorable. Gross earnings show an increase of $1,946,460, or over 10 per cent, while net earnings show an increase of $2,602,778, or over 12 per cent.

The *Corn Trade News* of June 30 says: "Magnificent weather continues to prevail in France. Crop reports are generally very favorable, but still it is agreed that the yield in the South is light, and much disappointment is expressed with regard to the Southwestern crop; further, the *Bulletin des Halles* says that a smalle yield than in 1903 is expected generally. On the other hand, excellent accounts of the important Northern crop continue to be received. In the South harvesting is now in full swing."

Top and average weekly prices on Cattle at Chicago for periods mentioned are as follows:

	Past week. Top.	Past week. Av.	Prev. week. Top.	Prev. week. Av.	Year ago. Top.	Year ago. Av.
Beef Steers	$6 50	$5 85	$6 65	$5 55	$5 50	$4 85

Still Bulls	4 40	4 35	4 35	4 30	4 10	4 00

Two years ago last week, when Cattle were so scarce, the average price of Beef Steers at Chicago was $7 55, the highest week during 1902, and, in fact, the highest weekly average on record. Before the close of 1902 however, prices went off over $3 00, the average the week ending Dec. 19 of that year being $4 50.

The Buenos Ayres *Standard* of June 5 says: "Sowing the new Wheat crop has commenced in several of the Santa Fe colonies, and all farmers who can manage it are sowing double what they did last year; but they are by no means so keen on Flax Seed as it disappointed them in price this year. Wheat does not exhaust land nearly so much as Flax Seed and in the last two seasons it pays far better. Consignees of Corn are holding out for higher prices and a rise in this Grain is anticipated. The Corn crop this year is exceptionally good. The quality was never better. The great quantity of fresh virgin soil laid down with this Grain is responsible for the excellent quality of the seed offered. Holders of Flax Seed will not let go owing chiefly to the low prices offered. Very many people believe the Flax Seed will soon go up very considerably from the present quotations."

The condition of the crops of all Germany on June 15, as estimated by the Imperial Statistical Bureau, compares as under with previous returns:

	June 15, 1904. Per cent.	May 15, 1904. Per cent.	June 15, 1903 Per cent.
Winter Wheat	82	81	74
Spring Wheat	78	82	80
Winter Rye	80	82	80
Spring Rye	80	84	80
Barley	78	84	80
Oats	76	82	80
Potatoes	78	..	76

The condition given in the above report is rather better than what was reported for Prussia alone, and it is to be noted that the reports were sent in before the drouth was relieved, which happened around the 18th inst. It is feared that in several parts the damage caused by the drouth was irreparable, but, where this was not the case, the rains should have done much good. The temperature has been very low for the time of the year.

The Investment Company of Philadelphia has declared a dividend of 3 per cent, payable Aug. 15, to stockholders of record July 30.

Four packers purchased 5,000 Hogs to-day; shippers, 7,500; left over, 5,000. Market closed steady on all but packing grades, and they closed weak.

Quantity of Wheat in farmers' hands in the Northwest on July 1 is about the same as reported last year—about 11 500 000 bu or 6 5 per cent of the crop.

A Carbondale, Ill. dispatch says: "Corn has been damaged to the extent of $500,000 by the overflow of 10,000 acres in the drainage district of this county."

The first car of new Wheat arrived at San Francisco on July 6 from Visalia, and sold at $1 40 per cental. The first car last year arrived on June 10, and sold at $1 34

A large Grain elevator concern operating in the Southwest sums up its correspondence this morning: "Nothing moving. Weather clearing and threshing under way."

Cotton, in New York was again higher on good support from Wall Street and by "shorts" covering. Liverpool was strong and spot Cotton met a good demand. Closing sales were at gains of 3@6 points.

Oklahoma advices say Corn is in tassel and a good crop will be raised. The Government report gives the Oklahoma acreage at 1,731,000, and suggests a crop of 40,850,000 bu, or 15,000,000 bu more than last year.

Local Securities were moderately traded in, with a point advance on Metropolitan Elevated preferred and 1 on West Chicago Railway. Biscuit preferred also had strength. Swift's was easy and ¼ lower, but was well supported.

Live Stock Commission Merchants advised the country to hold back shipments until the packing-house labor troubles are settled. About half the Cattle and Calves received Tuesday were left unsold. Over half the Hogs and Sheep also remained in first hands.

The National Steel and Wire Company has declared the regular quarterly dividend of 1¾ per cent on the outstanding preferred stock to stockholders of record at the close of business July 22 and payable Aug 8. Transfer Books close July 22 and reopen August 4.

Directors of the National Carbon Company will meet to take action on the quarterly dividend of 1¾ per cent on the preferred stock about the middle of this month. An officer is quoted as saying that the regular dividend will be paid. The company has had a very satisfactory half year, both in the matter of gross sales and net profits.

Negotiations are under way which may result in the purchase by the Delaware and Hudson, or by the Delaware and Hudson and New York Central roads jointly, of the Schenectady Railway Company, which operates a system of street railways between Schenectady, Albany and Troy, N. Y., and is owned by the General Electric Company.

The Corn Products Company has felt an increase in business during the past ten days. The betterment, which is said to be the result of improved business sentiment, has lifted the present volume of trade to about the best showing the company has ever experienced during the month of July. Prices are firm on a basis of about $1 50 per 100 lbs for No. 2 standard Glucose.

Stocks in New York were again on the up grade. A great many Stocks have been taken out of the market and the loan crowd reflects it. Banking interests bought Union Pacific, Southern Pacific, St. Paul, Reading and Steel preferred, and fair advances were made and well held, gains ranging up to 2 points. Reading, however, sold off fractionally from the top. Money 1⅛ per cent.

What may be a move of the Wabash Railroad to enter Philadelphia was made known by the filing at Harrisburg, Pa., of an application for a charter for the Philadelphia Terminal Railroad Company, having a capital of $280,000. The incorporators are connected with the banking house of Wolf Bros. of New York and Philadelphia, and it is believed they are acting as agents for the Wabash or for speculative purposes, with the Wabash as a probable purchaser.

The monthly circulation statement of the Treasury Department shows the total amount of money in circulation on July 1, 1904, to have been $2,521,151,527. This is an increase of $11,871,010 over the amount on June 1, 1904. The total stock of money in the United States on July 1 was $2,801,865,234, against $2,785,300,789 on June 1, an increase of $16,564,415. Of this total the amount held in the treasury as assets of the Government was $280,713,677, against $276,020,872 on June 1.

A New York dispatch says: "A well known Western railroad man said Monday: 'I am figuring that the Chicago Great Western is going to be taken over either by the St. Paul or the Missouri Pacific. It has already cost the trans-Missouri lines through rate demoralization and other forms of competition more than the sum of its entire capitalization, and something is now going on which has for its end the elimination of the Chicago Great Western as a disturber. There has been of late a suspicious lowering of Chicago Great Western prices while President Stickney is with his lawyer in London. There are negotiations going on covering great territories in the railroad field of which the public has apparently at the present time scarcely a suspicion.'"

REVIEW OF TO-DAY'S MARKETS

FLOUR—Market was generally reported quiet. Demand only moderate, and no essential changes in prices.

WINTER WHEAT—Was in good milling and shipping demand and prices 1@2c higher. Offerings light and higher prices only brought out offerings. Several lots of elevator Wheat sold. No. 2 Red in store practically off the market and quotably $1 08@1 10. Fresh receipts of new free on board quotable at $1 02@1 02½. No 3 Red fresh arrivals free on board quotably 98c@1 01 for new. No 2 Hard out of store free on board sold at 94½@95c, and fresh arrivals quotably 95@97c. No. 3 Hard in store sold at 87@88½c, and free on board at 91c, with fresh arrivals free on board at 91@95c—outside for choice.

SPRING WHEAT—A good demand existed and prices 1@2c higher. Millers and shippers inquiring for Wheat, but the sharp advance in the speculative market unsettled trading. No. 1 Northern in store nominally $1 01½@1 04 and car lot fresh arrivals $1 01@1 03. No. 2 Northern part car sold at 99c, and quotably 98c@$1 00. No. 3 Spring sold at 90@92½c and ranged at 88@97c for poor to choice. No. 4 Spring sold at 92c and ranged at 68@92c for poor to choice.

REGULAR WHEAT—A larger trade and broader, more active market, higher prices being established, the close showing old July up 2⅜c, while the new gained 2¼c. New September closed with ¾c advance. Influential local interests were arrayed on the buying side and the Southwest was credited with free purchases. Selling was scattered and chiefly in the way of profit taking, the offerings however, being readily absorbed. Crop news was in the main "bullish," though conflicting in some instances. Cables were stronger and the local cash situation reported better. Liverpool quoted spot steady to ½d higher and futures up ⅝d. London advanced ¼@⅜d, Antwerp gained ⅝c, Berlin ⅜c and Buda Pesth ¼c, while Paris lost ¼@⅛c. English country markets were quoted firm with light offerings and prices about 6d higher. *Broomhall* cabled that an official Russian crop report compiled up to July 6 said that Winter Wheat and Rye conditions were getting worse, and condition of Wheat crop generally unfavorable. The *La Petit Journal*, Paris, estimated the French crop at 310,000,000 bu, but claimed there were large reserves but stocks of inferior quality. A local crop expert issued a special bulletin on Wheat conditions in the Missouri Valley. From the points covered there is an indicated loss of 20@25 per cent, with an occasional point showing 40 per cent loss. Wheat was reported sprouting or moulding in shock. The weather map showed further improvement, it being clear and warm over the Southwest. Local rains in South Dakota, Minnesota and Iowa. Showers and local thunderstorms were generally predicted. St. Paul wired that it was raining over the entire Red River Valley and Minneapolis wired it was raining at Fargo, Grand Forks, Hillsboro, Comstock and Fergus Falls. Reports from Nebraska generally claimed yields turning out disappointing. Nebraska City, however, wired that the damage was not likely to be as bad as first expected and lots of Wheat being sold for July shipment. St. Louis wired: "News from the West more satisfactory. Country is asking for bids, and if weather holds good will get some Wheat here soon." Hayes City, Kan., wired: "Loading Wheat here to-day. Reports coming in better." Toledo received 7 cars of new Wheat. Primary receipts were 136,000 bu less than last year. Kansas City and St. Louis received only 30,000 bu, against 192,000 bu last year. Cash sales here included 15,000 bu No 2 Hard at 95c. Cash values at Toledo and Kansas City were reported higher. Clearings were limited and 7 boat loads accepted at the seaboard. An Associated Press dispatch from St. Petersburg said, "The prospective failure of the crops in some of the southern provinces, possibly attendant with famine and the necessity of adopting relief measures, is beginning to attract attention." Omaha wired, "Harvesting general south of Platte River; crop estimated 37,000,000 bu, government figures July 1 indicated 39,000,000 bu. Quality of Grain excellent." New York reported the resale of two cargoes for account of Germany. A late Antwerp cable stated Russian Wheat prospects were favorable and new crop equal to that of last year. Receipts at Duluth 28 cars and at Minneapolis 201 cars, a total of 229 cars, against 218 cars yesterday, 162 cars a week ago, and 131 cars last year. Local receipts included no cars Winter, 1 car Spring, no cars mixed, a total of 1 car, against 65 cars last year. Included in the above were no cars contract grade. There were 4 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 6 cars. Withdrawals to-day were 1,650 bu. Receipts at Western points were 287 273 bu, against 423,243 last year. At Eastern points 93,016 bu, against 110,919 last year. Shipments from Western points were 143,271 bu, against 154,105 last year, and from Eastern points 8,435 bu, against 92,197 last year. Shipments of Flour were 15 818 brls. Exports of Wheat in Flour were equal to 79,671 bu.

Future Deliveries of Contract Oats—Were stronger and advanced, with moderate trading.

JULY—Offered moderately. Sold at 38¾@39⅝c. Opened at 39c, sold to 38¾c, to 39⅜c to 39⅝c to 39⅝c at close.

SEPTEMBER—Active. Sold at 31⅞@32⅝c. Opened at 31⅞c, sold to 32⅜c, to 32¼c at close.

DECEMBER—Sold at 32¾@33⅛c. Opened at 32¾c, sold to 33⅛c, to 33⅛c at close.

MAY—Sold at 34c and at 34¼@34⅜c. Opened at 33⅞c to 34c, sold to 34¼@34⅜c, to 34¼c at close.

RYE—Ruled firm. Demand good and offerings light. Prices 2c higher. Only one car received. There were no withdrawals from store here and no export clearances from the seaboard. Rain is interfering with threshing. This and the advance in Wheat brought about the advance. No 2 in store nominally 68c and fresh arrivals quotably 68@70c. No. 3 sold at 67c for choice and quotably down to 56c for poor.

Future Deliveries of No. 2 Rye—Quiet. July nominally 68c. September sold at 58c and closed at 58c bid.

BARLEY—The market was practically bare. Offerings reduced to a few cars. Barley remains salable, though demand was nil. In prices no change was quotable, there was not enough doing to really establish a market. Four cars posted inspected in. Values for all grades being about nominal had a quotable range as follows: Screenings were quotable at 25@37c for poor to choice. Feed Barley, common, dirty or musty down to 30@33c, sweet, good color, thin, at 35@38c. Malting, low grade, was quotable 38@40c, fair to good, sound, 42@45c, good color, 48@50c and fancy above.

SEEDS—There was an absence of trading. The entire market was bare of offerings. No changes appeared, excepting in the case of Flax, where some improvement occurred.

Timothy—Aside from $3 15 being bid for September delivery with $3 30 asked, nothing was heard about the market. Above indicated difference in views between buyers and sellers prevented trading in new crop Seed, and an absence of offerings of old precluded trading in this. Contract old Seed, spot or July delivery nominally $2 95. Country lots quotable at $2 00@2 75 for low grade to fancy; choice about $2 60@2 70, fair to good Seed $2 50@2 60 and rough at $2 30@2 45.

Flax—For Northwestern cash Flax and for September delivery there was 1c more bid than was bid yesterday. Aside from this the bids remained as they have been. There was nothing done and the market had as a basis for its improvement an advance in the Northwest. Local receipts none; output 5 cars or 6 547 bu. Minneapolis got 9 cars and Duluth 27 cars. No 1 Northwestern or No. 1 from the Northwest $1 18½ bid, and No. 1 salable at $1 12. Rejected about $1 06@1 11, depending on quality. July salable at $1 12 and for September $1 14 bid.

Clover—Entirely nominal and no change to note. No Clover offered. Contract spot Seed about $10 75@11 00. Country lots, common to choice, $7 00@10 25; fancy above; mixed with Buckhorn or other weed Seeds, $5 00@8 00, poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good $8 75@9 75.

Other Seeds—There were no offerings. Hungarian and Millets nominal. Buckwheat quotable at $1 55@1 60 for good. Mustard at 90c@$1 10; poor down to 50@60c.

HOG PRODUCTS—A fair business was reported in Hog Products in a speculative way, and the feeling was somewhat unsettled. Offerings were not very large and the demand was only fair. Hogs were in small supply, with buyers backward, owing to the strike at the packing houses. Prices were about 5c higher, due to the demand from shippers. Receipts of Hogs at the leading Western packing points estimated at 24,000 compared with 75,100 one year ago. Speculative market opened rather firm, with fair miscellaneous buying, and prices ruled higher on all leading articles. At the advance, there was fair general realizing, and a weaker feeling was developed, and prices receded moderately. Toward the close a little more strength prevailed, and the market closed rather steady. Trading chiefly in September contracts. Foreign markets were steadier, and prices were advanced 6d on Backs and 3d on Lard, while Cumberland Sides were 6d lower. Domestic markets rather quiet. Receipts of Products were moderately free—of Lard and Meats about 41 cars. Shipments were fairly liberal of Lard and Meats about 137 cars. Inquiry on shipping account was comparatively light, and there was no particular pressure to sell. Prices were without material change with limited trading.

Mess Pork—Trade was fair in the market for Mess Pork and the feeling was somewhat unsettled. Offerings were fair, and the demand was moderately active. Market opened rather firm at 10@12½c advance, with fair miscellaneous buying, and prices improved 2½@5c. Later, a weaker feeling was manifested, and prices settled back 15@17½c. Toward the close, rather more steadiness prevailed, and prices rallied 7½@10c, and the market closed rather steady. Shipping demand limited, and offerings were moderate. Cash lots quotable at $12 95@13 00.

JULY—Quiet and quotable at $12 95.

SEPTEMBER—In fair request, and the offerings were not very large. Sales were made at $13 00@13 17½. Opened at $13 10 to $13 12½, sold to $13 10, to $13 15, to $13 12½, to $13 17½, to $13 07½, to $13 12½, to $13 07½, to $13 10, to $13 00, to $13 02½, to $13 10, and closed steady.

OCTOBER—Called for sparingly, and offerings were moderate. Sales were made at $13 07½@13 17½. Opened at $13 17½, sold to $13 12½, to $13 15, to $13 07½, to $13 12½, and closed steady.

Lard—Only a moderate trade was reported in the Lard market, and the feeling was firmer in a general way. Offerings were not very large, and the demand was fair. Foreign advices were a little more favorable to holders. Market opened rather steady at 2½c advance, and a further appreciation of 5c was gained, with moderate trading. Later, a weaker feeling prevailed, and prices receded 7½@10c all around, and the market closed rather steady. Demand on shipping account was light with no particular pressure to sell. Cash lots quotable at $6 92½@6 95. Loose lots in small request with limited offerings. Prices steady at about 60c discount on September figures. Leaf Lard in limited request and offerings were small. Prices were quotably steady at $6 25. Neutral in only limited demand with fair offerings. Prices quotably steady at $7 12½@7 25 for No. 1 and $6 87½@7 00 for No. 2.

JULY—Quiet and steady, with small sales at $6 92½@6 95, and closed at $6 92½.

SEPTEMBER—In moderate request, and offerings were fair. Sales were made at $7 05@7 15. Opened at $7 10, sold to $7 15, to $7 10, to $7 12½, to $7 05 to $7 07½ and closed steady.

OCTOBER—Quiet, with small sales at $7 10@7 12½.

DECEMBER—Demand light, and offerings were limited. Sales were made at $6 92½@7 00, and closed at $6 92½.

Short Rib Sides—Trade was fairly active in the market for Short Rib Sides. Feeling was unsettled in a general way. Prices were 5@7½c higher at the opening, and ruled comparatively steady during the early part of the session. Later, a weaker feeling was manifested and prices receded 7½@10c, and the market closed rather steady. Inquiry for shipment was light, and offerings were small. Cash lots were quotable at $7 37½@7 50, according to weight.

JULY—Demand was light and offerings were limited. A few trades were made at $7 45@7 55, and closed steady at $7 47½.

SEPTEMBER—Offerings were fair, and the demand was moderately active. Sales were made at $7 65@7 75. Opened at $7 72½ to $7 75, sold to $7 72½@7 75, to $7 75, to $7 70, to $7 72½, to $7 65, to $7 70, and closed steady.

OCTOBER—Inquiry was moderate and offerings were light. Sales were made at $7 72½@7 80, and closed steady at $7 72½@7 75.

Other Meats—Trade was only moderate and feeling was fairly steady. Offerings not very large and the inquiry was somewhat limited. Exporters rather backward and the home demand was only fair. Green Meats in moderate supply with a fair inquiry and prices were steady. Pickled Meats in moderate request and prices unchanged. Dry Salted Meats were in light demand, with moderate offerings, and prices favored sellers. Smoked Meats sold in moderate quantities, and prices were unchanged. Closing prices ranged as follows:

BREADSTUFFS ON THE PACIFIC COAST.

(From the Portland Commercial Review, July 7.)

Wheat—The Wheat markets here at home are very quiet, and there are hardly any sales being made. Exporters or millers are not very anxious to purchase Wheat at present asking prices, all of them feeling assured that prices will shortly receive a material decline as soon as harvest for new Wheat advances a little. Many holders have come to realize this, and are willing to sell at prices offered them a few weeks ago, but the trade has also changed, and export price for club Wheat at present is only 67c per bu, compared with 72c a month ago. There is no urgency on the part of the shipper to secure stock for new season loading, as there are only a few charters made so far this season, and whatever firms did any chartering of vessels have Wheat on dock here; also at Tacoma. There is enough Wheat on hand to load six good cargoes, and there are not that many vessels chartered. The milling demand for Wheat is not as active as one year ago, and the principal mills all over the Northwest have plenty of Wheat on hand to run them until new stock comes into the market. The outlook for high prices this season is not very bright, and there is no doubt that the market will open somewhere in the neighborhood of 50c per bushel in the interior. At these prices farmers are doing well, considering the prospect of a large yield this year. Crop prospects have been improved during the past week by timely showers over the Wheat belt. Harvesting has also been begun in Umatilla County and Walla Walla County, and reports say that the yield is turning out better than first anticipated. Quotations for club Wheat, 67c; bluestem, 76c, and valley, 75c per bu.

Flour—The Flour market shows some signs of improvement, and indications are that the mills will shortly resume operations. Cables have been coming in freely during the week asking for prices, and many orders have been booked for future shipments. Prices of a year ago will not prevail, as there will not be the same urgency to load up as then, and lower prices will have to be paid for Wheat to enable the miller to accept the prices offered for Flour. A great many of the larger mills have started up and a resumption of Flour exports is early looked for to the Orient. The demand from other export countries is not very good, and whatever trade is being done is mostly in small lots. California demand for Northern Flour continues very good, and indications point to an increased trade with that State this season. The developments of the past week are no criterion that all of the mills will be able to receive some of the export demand. Those that have a well-established trade are receiving orders at present. So far as business is concerned, the situation has been devoid of any new features, and it will be fully another month before any great activity will be noticed. We quote export brands $3 15 to $3 30, and patents $4 00 to $4 35 per barrel.

CROPS IN ILLINOIS.

SPRINGFIELD, July 12.—The crop bulletin for the week ended July 11 says:

"Frequent showers have prevented the cultivation of Corn in some localities, but the general condition is good, the plant being vigorous and showing good color, but small for the season. The crop is very uneven, ranging from several inches high to the tasseling stage. In the southern district complaint is made of the ravages of chinch bugs in fields adjacent to Wheat. Oats have been benefited by rains, except where lodging has ensued from heavy downpours. The crop is ripening fast and considerable harvesting will be done in the southern half of the State during the ensuing week. While the straw is short, an average yield is indicated. Wet weather has seriously hindered the Wheat harvest, but the greater part of the crop is cut and in shock, and in the southern district some threshing has been done. Reports indicate so far a yield below average and a considerable proportion has been damaged by rust."

THE WEATHER CONDITIONS.

Weather map fine. No rain except moderate fall following Missouri River and Red River of the North from Nebraska up to the Canadian line. Temperatures cool in the Northwest and in Ohio Valley. Warmer West and Southwest.

ITEMS OF GENERAL INTEREST.

The plant of the National Provision Company, Chicago, was damaged by fire, Saturday, to the extent of $75,000.

From Russia and the Danube the exports of Flax Seed from Aug. 1 to June 25 have amounted to 4,480,000 bu, against 4,968,000 bu in the previous year, and 2,324,000 bu in 1901-2.

The time for the deposit of securities of the Fore River Ship and Engine Company under the reorganization plan of Kidder, Peabody & Co. has been extended to and including July 18. A majority of all classes of securities has been deposited.

The receipts of Flax Seed at Bombay for the week ended June 9 amounted to 9,620 tons, against 10,367 tons in the previous week and 5,370 tons in the same week last year. The total receipts at Bombay from Jan 1 to June 9 amounted to 124,303 tons, against 113,314 tons in the same period last year.

The shipments of Flax Seed from India from April 1 to date amounted to 7,096,000 bu (Calcutta 4,480,000 bu and Bombay 2,616,000 bu), against 7,928,000 bu last season (Calcutta 4 920,000 bu and Bombay 3,008,000 bu), and 7,744,000 bu in 1902 (Calcutta 4,928,000 bu and Bombay 2,816,000 bu).

The New York *News Bureau* said, Tuesday: "For some days reports have been circulated both here and in Chicago that the General Electric Company has purchased or is negotiating for the purchase of the Allis-Chalmers Company. We are authoritatively informed that the report is erroneous. A high official of the Allis-Chalmers Company said in regard to the matter: 'You may state emphatically that the report that our company has been sold to the General Electric Company is absolutely without authority in fact.'"

The purchase of the Cincinnati, Hamilton and Dayton Railroad by the syndicate of Eastern capitalists owning the Pere Marquette is said to be but one of the first steps toward forming a large and compact system from a number of small railroads which have been operated independently, with varying results financially. According to reports current, Friday, the following roads are to be embraced in the new system: Pere Marquette; Cincinnati, Hamilton and Dayton; Cincinnati, Chicago and Louisville; Wisconsin Central; Minneapolis and St. Louis; Iowa Central; Chicago, Peoria and St. Louis.

The Baltimore and Ohio Railroad has sold the $1,000,000 of 50 year 4 per cent bonds due 1948 which it is authorized to issue for the fiscal year 1904 for additions and betterments. The original reserve under this clause of the mortgage was $27,000,000, which could be issued at $1,500,000 per annum up to the end of the fiscal year 1903 and $1,000,000 per annum after that. The present issue of $1,000,000 is the first year's allowance under the reduced rate. The amount issuable at $1,500,000 was $6,000,000 and the present issue brings the total so far up to $7,000,000. There is a reserve of $20,000,000 still in this fund, issuable at $1,000,000 for the next twenty years.

The impression which prevails in some quarters that the American Locomotive Company has acquired control of the Rogers Locomotive Works is now said to be erroneous, although it is declared that banking interests connected with the American Locomotive Company have purchased considerable stock of the Rogers concern, and, when the time seems opportune, will be able to turn the control over to the American company. At the present time there is no absolute certainty that such a tranfer will be made, but the fact that the Rogers company has identified with it interests friendly to the American company is taken to mean that both companies will be operated, to a certain extent, along harmonious lines.

At the adjourned annual meeting of the stockholders of the Chicago and Oak Park Elevated Railroad Company, formerly the Lake Street Elevated Railroad Company, held, Monday, the reorganization of the company was practically completed, so far as the financial part of the matter is concerned. The contract confirming the lease of the Lake Street side of the Union Loop to the Union Elevated Railroad Company was ratified. The contract with the trustees, limiting the first mortgage bond issue to $5,000,000, according to the terms of the reorganization plan, was adopted. The meeting was then adjourned to Sept. 27, there being a possibility that some matter would arise in the next few months that would require a stock vote.

It was expected that the directors of the American Steel Foundries Company would meet last Thursday, but owing to the inability to secure a quorum no meeting was held. Three months ago the directors declared a dividend of 1½ per cent on the preferred stock, and there are some who believe that another dividend of 1½ per cent on the preferred will shortly be declared. It is said, however, that the directors will wait for an improvement in business before paying out any more money in dividends. The company's business has been affected by the falling off in the demand for railroad cars and other railroad equipment. The company furnishes the manufacturers of cars and engines with a large amount of castings when the demand for railroad equipment is normal.

The New York *Journal of Commerce* says: "There can be no doubt, however, that in the past six months much has been accomplished to improve underlying conditions. The returns of new incorporations show that where in the first half of 1903 about $1,200,000,000 of new capital stock was created in the Eastern States, the total for similar companies in the first half of the current year is only a little in excess of $500,000,000. This means that the market has had a respite from the constant overissue of new industrial securities, which is so largely responsible for the current level of prices. Returns of new listings for the half year emphasizes this contraction in the output of new share capital. The total stock listings for the past six months amount to but $41,500,000, as compared with about $300,000,000 in the corresponding portion of the two preceding years and with still larger figures in earlier periods. This is the first time since 1895 that a half-year's listings of stocks have fallen below $100,000,000; in that year the total exceeded $98,000,000."

It is said that another meeting of the board manufacturers for definite action on the "leasing down" plan will be held this week at the offices of the United Box Board and Paper Company in New York. It is hoped to win enough of the independent mill owners to the proposition to insure the success of the plan. Already, it is said, a number of them have agreed to the plan, and have expressed a willingness to either shut down or to run. At the meeting at Barberton, Ohio, it is reported that the representatives of the companies that sell through the Paper Products Company bound themselves to the "leasing down" plan, provided a sufficient number of the independent mills would come into the agreement. As the American Straw Board Company has a practical monopoly of the straw board business of the country the proposed curtailment in the daily production of straw board would affect the company greatly. By the daily payment of $4 00 per ton on 250 tons of straw board withheld from the market the American company would receive $1,000 per day. To a person not in the trade the proposition appears an impossible one.

The *Paper Trade Journal* says with regard to the plan for curtailing the Box Board production of the country by paying the mills for shutting down: "In regard to the forfeit of $1 00 per ton by the manufacturers who continue to run their mills, some of the independent mill owners cannot figure out how the plan can be put into successful operation. The total Board production of the country they figure at roughly 2,000 tons per day. Fifteen hundred tons, they say, would come on the market under normal conditions. By taking out one-third of this production and reducing the output to 1,000 tons, the production fee charged would bring in only $1,000 per day, and this amount would not be enough to pay $3 00 or $4 00 per ton on the 600 tons withdrawn from the market. If only $3 00 per ton per day is paid to the idle mills the income from the production fee of $1 00 per ton would be $500 per day short. But some of the manufacturers claim that the total demand for Boards in the country is to-day short of a thousand tons daily. Assuming that this is the case, the difficulty of balancing the proposition becomes more apparent, as the income from the production fee in that case would be less than $1,000 per day. While these are objections that appear on the surface, no doubt the proposers of the new plan have worked out the details so that its operation would be eminently successful."

The *Wall Street Journal* says: "The formation of a new system in the middle West by merging Pere Marquette, Chicago, Cincinnati and Louisville, and Cincinnati, Hamilton and Dayton is not welcomed with enthusiasm in central trunk line circles. If the policy of the Pere Marquette is to be the policy of the new system, there is likely to be antagonism much like the antagonism that Rock Island encountered in Missouri, Texas and Louisiana. This merger is not likely to greatly change the general trend of traffic in the middle West. In fact, from a traffic standpoint it is important locally only. The results, positive and negative, may be outlined as follows: It will give to Pere Marquette a lucrative tonnage in Hocking Valley grades of Coal destined for the Michigan Peninsula and Wisconsin by the rail and cross lake route, practically all rail. It may also make Detroit a distributing point for soft Coal in Western Ontario. It may bring to the Cincinnati, Hamilton and Dayton a certain amount of business from the Peninsula and Wisconsin for distribution to points along the Ohio. In both respects it will militate to a certain extent against Ann Arbor and Wheeling and Lake Erie, the Gould combination serving the same traffic both ways. It will create a new route for Cincinnati, Hamilton and Dayton traffic, Cincinnati-Chicago, and will destroy the usefulness of the Cincinnati, Hamilton and Dayton working traffic arrangement with the Monon. It will therefore result in loss to the Monon."

Cincinnati *Price Current's* weekly crop summary says, "Loss to Winter Wheat since July 1 in West presumably 20,000,000 to 25,000,000 bu. Elsewhere little change. Corn and Oats condition maintained."

Cotton in New York was higher on old and new crop deliveries Foreign buying and general trading were factors. On advances, there was good selling for profit. Closing sales were 20@27 points higher.

One estimate on the Kansas Wheat damage is that only 15 per cent will be No. 2. Most of the elevator men at Kansas City estimate the loss at 20 to 25 per cent, and make the crop 60,000,000 bu to 70,000,000 bu.

Exports of Flour and Wheat from the United States during June were equal only 3,519,000 bu, compared with 11,869,000 bu in June, 1903. Exports for the year ending June 30 were about 121,000,000 bu, compared with 2·3,000,000 bu for the previous twelve months.

Stocks in New York closed irregular. The early market was strong and higher on many Stocks, but about all was lost. Bad crop news from the Southwest acted as a depressing influence on Western Railway shares and led to selling and a decline of ½ to 1⅜ points. Steel lost ½, and Copper gained 1⅜ Money, 1½ per cent.

The Cincinnati *Price Current* reports the packing of the West for the week at 295,000 Hogs, compared with 420,000 for the week previous and 475,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 7,940,000 Hogs, compared with 7,705,000 for the corresponding time last year—an increase of 235,000 Hogs.

The *Northwestern Miller* says "Reports of damage to Wheat in Kansas received a greater share of the attention of the Grain and Flour trades during the week and authentic news was eagerly sought. The *Northwestern Miller's* latest advices, received last evening, state that the damage to the crop of the State is broadly estimated at 25 per cent. Harvest is now progressing on dried-out fields; the yield is satisfactory, and the damage to quality has probably been overestimated."

The National City Bank's, New York, July circular says: "There is little to be seen in the future upon which to base an expectation of any marked fluctuation in the price of government bonds for some time to come. There is a steady demand for bonds from new banks organizing, and so long as there is a profit in taking out circulation, there will be probably, continued increase in the circulation taken out by old banks. The demand is just about equal to the supply of bonds at present. It is interesting to note that there are now deposited to secure circulation of public deposits all but $55,000,000 of $542,000,000 of outstanding 2 per cent bonds."

Shippers and handlers of cash Grain at Chicago are trying to establish a bureau for the purpose of regulating alleged discrimination against Chicago in the rates for transportation of Grain A petition was in circulation on 'Change, Wednesday, explaining the plan and numerous signatures were obtained. If the proposed bureau is established it will be entirely in the hands of the Board of Trade, a committee of members having it in charge the same as other matters of a similar character are controlled by that institution. Chicago is said to be almost the only Grain market of importance which does not maintain a committee of the kind, and, although it is the largest Grain receiving center, Grain men declare, it has lost business steadily on account of the commodity being diverted to other routes by discriminating methods of the railroads. If the new bureau is formed existing conditions will be considered at all times, and where irregularities are discovered it will be the work of the committee to see that they are properly adjusted, even if it is found necessary to carry the matter before the Inter State Commerce Commission.

REVIEW OF TO-DAY'S MARKETS

FLOUR—Market was reported quiet, with no material change in prices.

WINTER WHEAT—Was in good milling and shipping demand and prices steady to 1c higher. Offerings light and higher prices only brought out offerings One lot of elevator Wheat sold. No. 2 Red in store practically off the market and quotably $1 10@1 12 Fresh receipts of new free on board quotable at $1 01@1 04. No 3 Red fresh arrivals free on board quotably 98c@1 02 for new. No 2 Hard fresh arrivals quotably 95@97c. No. 3 Hard out of store free on board sold at 92c, with fresh arrival free on board quotably 87@95c—outside for choice

SPRING WHEAT—A fair demand existed on milling and shipping account. Prices steady to 1c higher. No. 1 Northern in store sold at $1 03½, which was about 6c over old July price, and a sale out of store was made at $1 04 free on board. Car lot fresh arrivals free on board quotably about $1 02. No. 2 Northern fresh arrivals free on board quotably 98c@$1 00. No. 3 Spring sold at 91c free on board out of store and fresh arrivals at 93c, the latter ranged at 90@93c No. 4 quotable at 68@92c for poor to choice.

REGULAR WHEAT—A large trade and excited, irregular market, with final figures showing old July up 1¼c, while new was 1⅝c higher. Old September lost ⅜c and the new ¼c There was a rush of buying at the start, while the offerings were moderate and the price advanced rapidly. The weather was again looked upon as unfavorable, cables were higher, and crop news from the West decidedly "bullish" Kansas City wired: "Had more rain this morning. Complaints of sprouting in shock are becoming very numerous. The Kansas City *Star* estimated the crop in Kansas at 50,000,000 bu and was looked upon as a "bullish" factor, as also the *Price Current* statement that the loss to Winter Wheat since July 1 would aggregate 20,000,000 bu to 25,000,000 bu, but otherwise there was little change in the situation The Secretary of the Kansas State Board of Agriculture was out with a very "bullish" statement and the president of one of the Western roads confirmed these conditions in Kansas as reported. The Kansas Millers' State Association estimated the crop at 58,000,000 bu Map showed general and heavy rains in the Northwest and moderate down into most of the West and part of the Southwest. Thunderstorms were predicted for Illinois, Indiana and Missouri; showers for Minnesota; partly cloudy and warmer for the Dakotas and Nebraska. Fair for Kansas. At the advance in prices large quantities of "long" property came out and liquidation became general, causing a material reaction The Southwest and local professionals led in the profit taking. The Winnipeg *Telegram* claimed the rains were needed and beneficial, and assures average to good yield if favorable weather continues. Freeburn Ill., wired "Just finished threshing 33 acres, yield 1 023 bu" St. Louis reported 10 000 sacks of Wheat due this afternoon Liverpool quoted spot steady to 1d higher and futures ⅝@⅞d better. London came unchanged to ⅛d higher Antwerp was up ⅝c while Berlin lost ¼c and Buda Pesth declined 1c. A private Liverpool cable stated that crop reports continued bad, and that Canadian export houses were buying. Winnipeg wired: "Much needed rain came last night, and the outlook for our crop is much improved." Union City, Tenn., wired: "Weather fine; all threshers running: Wheat making as high as 13 bu per acre" Primary receipts were 192,000 bu smaller than a year ago. Kansas City and St Louis received 63 000 bu, against 194 000 bu last year. Exports were meagre and 9 boat loads accepted at the seaboard Minneapolis wired that stocks had decreased 330,000 bu The *Northwestern Miller* claimed Southwestern reports were exaggerated. Flour output past week 377,000 brls: last year 458 000 brls Selling new and old July and buying September was a late feature Kansas City reported 20 cars new Wheat in the receipts Argentine shipments this week estimated at 800,000 bu. Receipts at Duluth 29 cars and at Minneapolis 141 cars, a total of 170 cars, against 229 cars yesterday, 162 cars a week ago, and 159 cars last year. Local receipts included 2 cars Winter, 2 cars Spring, 2 cars mixed, a total of 6 cars, against 27 cars last year. Included in the above were no cars contract grade. There were 2 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 5 cars. Withdrawals to-day were 21,900 bu. Receipts at Western points were 236,936 bu, against 426,869 last year At Eastern points 37,941 bu, against 139,620 last year. Shipments from Western points were 174,156 bu, against 349,174 last year, and from Eastern points 5,651 bu, against 123,196 last year Shipments of Flour were 1,923 brls. Exports of Wheat in Flour were equal to 14,303 bu

CORN—Just a fair trade, higher prices ruling early, followed by a weaker tone, the close showing July ⅜c lower, while September lost ⅝c, December declined ½c and May lost about ½c. The stronger start was due chiefly to the further upturn in Wheat commission houses being the principal buyers. Professionals and elevator interests sold. More rain was reported West, but more settled conditions were predicted, and the *Price Current* claimed the crop outlook was maintained. Receipts were 193 cars, with 10 cars contract, against 194 cars last year, when 8 cars were up to the speculative standard For to-morrow 258 cars were estimated. Liverpool quoted spot steady to ½d lower and futures ⅛@¼d higher. Receipts at primary markets were 316,000 bu, against 388,000 bu one year ago and the shipments were 422,000 bu and 526,000 bu respectively Local arrivals 100,000 bu, and shipments 359,000 bu. There were 43,000 bu and 13 cars contract switched from private elevators. Shipping inquiry was reported as better, and sales 250,000 bu. Exports were 18,000 bu, and 4 boat loads accepted at the seaboard. Argentine shipments this week estimated at 2,800 000 bu. Southwestern markets were easy Car lots were steady to ½c lower. Demand fair and offerings moderate No. 2 closed at 49c. No. 2 Yellow sold at 51½ and closed at 51¼c. No 3 closed about 48¾c. No. 3 Yellow sold at 50¼c and closed at 50½@50¾c. No 4 at 60c for yellow

RYE Was firm, and for futures prices were higher, but cash was unchanged. Trade light and offerings limited. No outward movement No 2 in store nominally 68c and a car fresh receipts free on board sold at 68c No 3 sold at 62c and was quotable at 58@65c for poor to choice

Future Deliveries of No. 2 Rye—Quiet July nominally 68c. September 58½c old and 61c asked

BARLEY—There was not enough doing to indicate any change. A few cars of Screenings and a little poor Barley was about all that was sold. There was nothing else offered. Both demand and offerings have been reduced to the minimum. Values for most grades entirely nominal Only 2 cars were inspected in Quotable as follows: Screenings at 28@38c for poor to choice. Feed Barley, common, dirty or musty down to 30@33c poor heating sold at 29c sweet, good color, thin, at 35@38c. Malting, low grade was quotable 38@40c, fair to good, sound, 42@45c; good color 48@50c, and fancy above

SEEDS—No change from late quotations Really the only feature was a further advance in old Flax prices. Generally speaking, the market remains bare of offerings.

Timothy—September delivery was offered below the price asked yesterday. It was offered at $3 20, but as there was no improvement over the late bid of $3 15; no business was done. A car of old Seed was offered and sold, but at what figure could not be learned. So far as could be found out there was no change in the market for old Seed. Contract old Seed, spot or July delivery nominally $2 95 Country lots quotable at $2 00@2 75 for low grade to fancy; choice about $2 65@2 70, fair to good Seed $2 50@2 60 and rough at $2 35@2 45

Flax On old crop Flax there was again an advance. There was nothing done, for there were no offerings Nominal bid prices, however, were 1@2c above yesterday's quotations, and the higher prices were based on further improvement in the Northwest There was a small local movement; 4 cars, or 3,400 bu, received, and 3 cars, or 4 357 bu, taken out. At Minneapolis the receipts were 16 cars, at Duluth 12 cars No 1 Northwestern or No. 1 from the Northwest was $1 14½ bid, and No 1 salable at $1 14 Rejected about $1 08@1 13, depending on quality. July salable at $1 14 and for September $1 14 bid.

Clover—No trading; no change quotable Contract spot Seed about $10 75@11 00. Country lots, common to choice, $7 00@10 25; fancy above, mixed with Buckhorn or other weed Seeds, $6 00@8 00, poor, cleaned out of Timothy, very foul, down to $3 00@6 00 Fair to good $8 75@9 75

Other Seeds—Market inactive Hungarian and Millets nominal. Buckwheat quotable at $1 55@1 60 for good. Mustard at 90c@$1 10, poor down to 50@60c.

HOG PRODUCTS More activity was manifested in the market for Hog Products, and the feeling in a general way was easier. Impression prevailed that local packers favored the selling side of the market, and there was some realizing by holders of moderate quantities At the decline "shorts" bought moderately. Outside orders were moderate Local trading fair Receipts of Hogs were light, and prices higher, but had no effect on the market for Products Receipts of Hogs at the leading packing points were estimated at only 11,400—due to the strike at the packing houses—against 50 500 one year ago Returns of the packing of the West for the week exhibited a decrease of 180,000 Hogs compared with the returns for the corresponding week in 1903 Foreign markets were decidedly stronger, and Liverpool quotations were advanced 1s on Hams, 6d on Backs and Cumberland Sides, and 3d on Lard. Domestic markets were rather quiet Receipts of Products were fair—of Lard and Meats about 21 cars. Shipments were moderate of Lard and Meats about 105 cars Speculative market opened rather steady, but there was considerable pressure to sell from miscellaneous sources, and prices declined materially on all the leading articles. Toward the close a little more steadiness prevailed and prices rallied slightly, and closed steady Trading chiefly in September contracts. Demand on shipping account was moderate, and offerings were only fair. Sales were not very large, and prices without material change.

Mess Pork—A fairly good trade was reported in Mess Pork, and the feeling was easier. Offerings were rather free, and the demand was fair. Market opened with sales at 2½@5c decline, and prices further irregularly receded 25@30c. Toward the close, the feeling was steadier, and prices rallied 5@10c, and the market closed comparatively steady. Shipping demand was light and offerings were limited. Stocks decreasing slowly. Cash lots quotable at $12 70@12 75.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, July 13.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth together with that of 59 "outside mills" with a daily capacity of 30,650 brls, from Sept. 1, 1903 to July 2, 1904:

	1903-04 Flour, brls	1903-04 Wheat, bu.	1902-03 Flour, brls	1902-03 Wheat, bu
Minneapolis	12,401,740	55,808,000	11 392,420	61,766,000
Duluth	827 450	3,723 000	1 342,050	6,039,000
89 outside mills	5,831,035	26 240 000	5 740,305	25,831,000
Totals	19 060,225	85,771,000	20,474,775	96,636,000

These figures represent the approximate consumption of 10,865,000 bu less Wheat this year than in 1902-03 This has occurred from the mills of Minneapolis and Duluth turning out 2 505 280 brls less Flour, equal to 11,271,000 bu of Wheat, than last year In contrast, the outside mills have increased their output to the extent of 90,730 brls, or equal to 409,000 bu of Wheat.

THE WEATHER CONDITIONS.

Rains general and fairly heavy Northwest Light rains and now raining in parts of the Southwest, Kansas and Missouri Clear in Oklahoma and Texas, also in Ohio Valley. Light rains in Iowa and Eastern and Northern Nebraska

Some of the directors of the United Fruit Company express the opinion that United Fruit Company will be placed upon a regular $8 00 dividend basis as a result of this year's earnings. To do this the next dividend must be $2 00 regular and $1 00 extra and thereafter regular dividends of 2 per cent quarterly.

THE FLOUR PRODUCTION.

MINNEAPOLIS July 13.—The *Northwestern Miller* reports the weekly Flour output at milling centers for two weeks, with comparisons, as follows:

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city

There was a decrease in the Minneapolis Flour output last week of 84,780 brls. This week the production is likely to be about the same. There were 13 mills in operation to-day.

Trade has perhaps been a little better the last week than the week before and mills in some cases have sold more than their output, but this does not say much, as the output was so much curtailed. The difference between the price of cash Wheat and September Wheat, about 12c per bu, still serves as a syren fog horn warning buyers not to risk the destruction of their commercial craft by stocking up at prices that may be high before the Flour goes into consumption. The difference between the price of cash Wheat and September Wheat is easily equal to over 60c per brl.

During the closing days of last week there was more activity in Flour, following the advance of 4c in Wheat. One large mill reports a better domestic demand for Patent than it has had for the last three or four weeks, and some demand for First Clear on a better basis Another city mill reported fair sales last week and an increase in shipping directions this week Another miller, while admitting larger sales than in any one week lately, said that prices were exceedingly unsatisfactory. Particularly export prices which he said are now as much as 5s too low. He animadverted on the unusual difference of 8s 6d now prevailing between the export price of Patent and Clear. The advance in Mill Feed this week has helped the mills somewhat.

There is some irregularity in Flour prices owing to the advance in Wheat. To-day's prices range from $4 80 to $5 20 for Patent in wood f.o.b. Minneapolis, per 196 lbs in car lots.

ITEMS OF GENERAL INTEREST.

The $100,000 4 per cent one to twenty-year school bonds of New Bedford, Mass., have been awarded at 101.596.

The United Traction Company of Albany has declared the regular dividend of 1¼ per cent, payable Aug. 1 Books close July 21 and reopen Aug 2.

The Central Railroad of New Jersey has declared the regular quarterly dividend of 2 per cent, payable Aug. 1. Books close July 16, reopen Aug. 1.

The managers of the syndicate which purchased the New York City bonds have advanced the price of this issue from 1 2½ and interest to 103 and interest

A New York banking firm were the successful bidders, Friday, for the $265,000 4 per cent semi-annual 27¼ year sewer bonds of South Orange, N. J., at 103.849.

The Frisco system including the Chicago and Eastern Illinois, shows a heavy decrease in net earnings for April and a slight gain in May. For eleven months the net increased $350,000

Owing to the fact that the common stock of the Glucose Sugar Refining Company has practically all been acquired by the Corn Products Company, it has been stricken off the New York Stock Exchange list.

Justice Giegerich of New York, Friday, confirmed the second sale of the property of the National Salt Company in New York State for $103,376. At the first sale, which was set aside, the amount offered was $387,700.

The president of the Canadian Pacific Railroad, in reply to a dispatch to him inquiring whether an issue of $40,000,000 of stock is to be made by his company, as rumored, said he only knew of it from the newspapers

The United Traction Company of Albany reports a surplus for the quarter ended June 30 of $114,166; increase, $5,059 The general balance sheet shows cash on hand $327,555, and a profit and loss surplus of $161,451.

The general and executive offices of the National Wire Corporation at New Haven Conn., are to be removed to New York the reason being a lack of facilities which are necessary to the consolidation of the buisness of the corporation, as well as economy in management.

A Boston dispatch says: "The Boston Wool market is strong and active with the volume of sales remarkably heavy. Unexpected activity appears everywhere, buyers showing a desire to take in goods at whatever value might obtain The smaller buyers are very much in evidence. Territory Wools are firm, with a good demand in progress The market for pulled Wools is quiet. Foreign Wools are firm, but the market is quiet here."

Interests connected with American Car and Foundry Company are of the opinion that there will be no marked change in the car situation until crops are out of all danger. This will not be until after the middle of August at the earliest. Assuming that the crops will be as large as the present prospects indicate, the equipment manufacturers feel confident that many of the railroads will want to buy equipment on a liberal scale during the coming fall and winter. The equipment companies have felt, at different intervals during the past six months, that the railroads were about ready to resume the purchasing of cars and locomotives, but many important orders have been put off pending crop developments. Most of the equipment companies showed large earnings during the past two or three years, a large proportion of which has been turned into their working fund, so that they are well supplied with working capital to tide them over the dull period. American Car and Foundry's working capital amounts to upwards of $14,000,000, and the company is in a strong position financially and will probably be able to pay the preferred dividends right along and meet all demands made upon it as long as the dull spell continues.

The Independent Packing Company announces its intention to establish a Meat packing plant either in Seattle, Wash., or Portland, Ore., provided local interests will give the enterprise a certain amount of financial support. In October, 1902, the United States Packing Company was incorporated, with $1,000,000 of authorized capital stock, to build packing plants at Pueblo, Kansas City, etc. In September, 1903, the National Live Stock Association, which was backing the project, altered its plans and caused the Independent Packing Company to be incorporated under the laws of Arizona, with $5,000,000 of authorized capital stock in shares of $50 each, and power to own and operate plants at such points as should be chosen. The secretary and others have since been actively engaged in an effort to bring the Cattlemen of the West to the support of the new enterprise. Notwithstanding the high prices for dressed Meats in the East, the Cattle owners claim to be doing business at unreasonably small profits, if not an actual loss. Fifty-one per cent of the stock is to be held in trust for the benefit of the Cattlemen to preclude outsiders from gaining control. An option was obtained last spring for a lease of the packing plant of Jacob Dold of Kansas City, which is said to have a daily capacity of 500 head of Cattle, 4,000 Hogs, and 500 Sheep.

A Pittsburg, Pa., firm say in their monthly review of the financial situation: "So far as the great mass of industrial stocks are concerned, both common and preferred, those which are paying dividends and those which have passed or reduced dividends, holders appear to have decided to follow the politicians and 'stand pat.' In all probability the future will witness a reorganization of some of the great industrial corporations. There will be a scaling down of capital and an effort made to eliminate the cumulative feature of preferred issues But in a great many instances prices are already down to a reorganization basis. In our Pittsburg market we have quite a number of common stocks which are quoted at from 5 to 15 per cent of their par value, and several dividend-paying preferred stocks which are quoted at prices which represent a yield of from 12 to 14 per cent. In our opinion the average industrial stock representing a business which fluctuates violently with the times, or which has not demonstrated its ability to weather all kinds of financial stress, should not average a higher price than will return less than 10 per cent on the investment. Therefore, when one looks over the industrial end of the stock market it will appear that current prices have discounted much worse times than we have had this year or that are in prospect. It does not follow from this that we have seen the lowest average prices for the year, but we believe that some such conclusion as we have indicated will account for the present tenacity of holders of industrial stocks."

The *Modern Miller* says: "A continuation of stormy weather, which was most severe in Western States, brought harvesting operations to a standstill in the largest portions of the Winter Wheat belt. Much damage to the crop in Kansas will result in considerable loss in the quantity harvested, but the principal damage appears to have been to the quality of the Grain. Reports of damage by rust and sprouting in shock are coming from many sections. With favorable weather cutting and threshing will be pushed vigorously. Millers report the new crop one of the finest in quality and strongest in gluten contents ever raised."

REVIEW OF TO-DAY'S MARKETS

FLOUR—The market is quiet, buyers backward and sales moderate. Prices steady.

WINTER WHEAT—Was in fair demand and market easier, with prices quotably about 1c lower. So little Wheat offered that it is difficult to make comparisons. A car of new No. 3 Red sold at $1.00, and a car supposed to be No Grade brought 95c. Several mixed lots of sample Wheat, aggregating 50,000 bu, were sold at 89@93c. No. 2 Red in store nominally $1.00 for old, and new fresh receipts quotably $1.00@1.01. No. 3 Red fresh receipts free on board sold at $1.00 for new and part car old sold at $1.01. No. 2 Hard nominally 96@97c. No. 3 Hard sold at 95c and ranged at 85@95c.

SPRING WHEAT—Was quiet and about 1c lower. It was difficult to establish quotations, as there was little doing and so little Wheat coming. Some sample lots reported sold to millers. No. 1 Northern in store nominally $1.01½@1.03½ and fresh arrivals quotably $1.01@1.03. No. 2 Northern fresh receipts nominally 98c@$1.00. No. 3 Spring fresh receipts quotably 88@96c and No. 4 Spring at 68@90c for poor to choice.

REGULAR WHEAT—The trade was of smaller volume, and market lacked the activity witnessed for several days past. Feeling was unsettled and sentiment more divided with the close 1⅜c lower for old July, while the new was 1¼c lower. Old September up 1-16c and the new unchanged. The start was easier on better weather in Kansas, lower cables and fact that Argentine shipments were larger than expected. Locals led in the selling, a good share of which was in the way of profit taking. Selling July and buying September was again a feature. At the decline the demand improved, the estimate of a local authority that the crop would be 100,000,000 bu short of last year being the principal 'bull' influence. The rally again met with rather free offerings part of which was credited to the Southwest. Map was favorable except for the heavy rainfall at Wichita. Generally clear through the West and Southwest. Scattered showers in Manitoba. Fair weather predicted for Illinois, Nebraska and Kansas, thunderstorms Saturday, Missouri, Minnesota and South Dakota, local thunderstorms—cloudy for North Dakota. Liverpool quoted spot ½d lower to ½d higher and futures ⅛@⅜d lower. London came ⅛@¼d lower. English country markets were firm and 6d higher. Receipts at Liverpool past three days were 184,000 bu, of which 56,000 bu came from America. Kansas City wired: "Morning papers have more rains in Kansas yesterday. Downpour at Wichita, Lindsburg and other points. Farmers more discouraged than ever. Damage reports were at hand from Southern Illinois from hail." Minneapolis wired: "It will take absolutely perfect weather to raise more Wheat than last year." A message from Manchester, Mo., said: "No rain since Saturday. Fine and clear to-day. Threshing Wheat." Duluth reported the sale of 25,000 bu No. 1 Northern at the highest price on the present advance. Argentina shipped 1,032,000 bu making 68,608,000 bu since Jan. 1, against 49,906,000 bu same period in 1903. London cabled that locusts were reported in portions of Cordova, Argentine, climatic conditions, however were favorable. Primary receipts were 51,000 bu smaller than a year ago. Receipts in the Northwest 58 cars larger. Kansas City and St Louis received 91,900 bu against 212,000 bu one year ago. Clearings were moderate and no boat loads taken at the seaboard. Charleston, Mo., wired: "Weather fine, threshers running" and Edgar, Neb., wired: "Conditions better in Central Nebraska, both in quantity and quality, however, south half about half a crop, threshing next week with favorable weather." The *Modern Miller* was moderately "bullish." Minneapolis stocks reported decreased 350,000 bu past five days. India shipments (unofficial) 1,984,000 bu. Dallas, Texas, wired: "Cash Wheat here 90c bid. Texas crop estimated 7,000,000 bu less than last year." There was some talk of hot weather over the Northwest. Receipts at Duluth 40 cars and at Minneapolis 186 cars, a total of 226 cars, against 170 cars yesterday, 159 cars a week ago, and 167 cars last year. Local receipts included 3 cars Winter, 2 cars Spring, no cars mixed, a total of 5 cars, against 60 cars last year. Included in the above were no cars contract grade. There was 1 car and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 4 cars. Withdrawals to-day were 13,950 bu. Receipts at Western points were 306,598 bu, against 352,174 last year. At Eastern points 91,673 bu, against 52,070 last year. Shipments from Western points were 146,436 bu, against 82,997 last year, and from Eastern points 3,601 bu, against 119,101 last year. Shipments of Flour were 25,664 brls. Exports of Wheat in Flour were equal to 118,988 bu.

DECEMBER—Sold at 85¼@86⅛c. Opened with sales at 85⅞c to 85¼c, sold to 85½c, to 85⅝c to 86⅛c to 85½c to 85⅞c to 85⅜c, to 85⅝c, and closed at 85⅝c.

MAY—Sold at 86⅝@87¼c. Opened with sales at 86⅝c to 86⅞c, sold to 87c to 86⅞c, to 87¼c to 86¾c, and closed at 86¾c.

CORN—A fair trade with the feeling unsettled. Early tone was weaker, but a steadier feeling prevailed later. The close showed July 1-16c higher while September gained ⅛@¼c and December a fraction. Better weather and lower cables started the market easier. "Longs" led in the selling but at the decline commission houses were good buyers of September and market readily responded to the same. Receipts were 261 cars making 1,089 cars for the week, against 1,619 cars last year, and 272 cars are estimated for to-morrow. Liverpool quoted spot steady and futures ¼d lower. Map was favorable and fair weather predicted West. Cash situation reported as gradually improving and indirectly helped speculative values. The crop report of a local authority stated that Corn was very late, but growing rapidly and outside of Missouri Valley, where it is small and weedy and unpromising, the crop is maintaining a fair promise. Western receipts 325,000 bu, last year 336,000 bu. Shipments 531,000 and 940,000 bu respectively. Local arrivals 230,000 bu and shipments 467,000 bu. Argentina shipped 2,700,000 bu, making 30,213,000 bu since Jan. 1 against 20,382,000 bu same period in 1903. Exports 130,000 bu and total for the week 575,000 bu, against 1,400,000 bu one year ago. Cash sales here 100,000 bu and 5 boat loads accepted at the seaboard. Receipts at Liverpool past three days 48,000 bu and all of the same from America. New York reported a better demand from England. Car lots were in good request and moderate supply. Prices were steady. No. 2 closed at 49½c. No. 2 Yellow sold at 51¼c and closed at 51c. No. 3 sold at 49½c and closed at 49¼c. No. 3 White sold at 49⅝@49½c. No. 3 Yellow sold at 50½c and closed at 50½c. No. 4 sold at 49½c.

Corn by sample—Offerings were a little larger, and demand fair. Feeling was easier and prices unchanged to 1c lower. Sales on track and free on board: No Grade sold at 36@46c. No. 4 at 47@50c. No. 3 at 49¼@50c. No. 3 Yellow at 50¼@51c. No. 2 at 49½c. No. 2 Yellow at 50@51c. No. 3 White at 49⅛@49½c. No. 2 White at 50¼c. Billed through: No Grade at 45@46¼c. No. 4 at 47@49c. No. 3 at 48@50c. No. 3 Yellow at 49½@50c. No. 2 at 49½c. No. 2 Yellow at 50c. No. 3 White at 48¼@48¾c. No. 2 White at 49½c.

Future Deliveries of No. 2 Corn—Moderately active and unsettled, closing fractionally higher.

JULY—Sold at 48½@49½c. Opened at 48⅝c to 48½c and sold at 49½c, to 49c, to 49⅛c, to 49c, to 49⅛c, and closed at 49⅛c.

SEPTEMBER—Sold at 48½@49¼c. Opened at 48⅝@48¾c to 48½c, sold at 49¼c, to 48⅞c, to 49⅛c, to 49c to 49⅛c, to 48⅞@49c to 48¾@48⅞c to 49@49⅛c and closed at 49@49⅛c asked.

DECEMBER—Sold at 44⅜@44½c and 45c. Opened at 44⅜c to 44½c and sold at 44⅜@44½c to 45c, to 44⅝c to 44⅞@45c to 44¾c, to 44⅞c to 44¾c, to 44⅝c, to 44⅞c and closed at 44⅞c bid.

MAY—Sold at 43¾@44¼c. Opened at 43¾c to 43⅞c and sold at 44¼c to 44c to 44⅛c and closed at 44⅛c bid.

OATS—Were fairly traded in and closed ⅛@¼c higher. A feature was the small offerings and buying to cover "shorts" at the last. The latter was stimulated by reports of damage to the crop in Central Illinois by hail and rust. Reports from Southeast Kansas said Oats were down so much that few will be cut. Cash sales were 50,000 bu. Arrivals were 101 cars, with 66 cars estimated for to-morrow. Withdrawals were 21,775 bu. Seaboard clearances were 53,000 bu. Car lots to go to store were steady for good. Standard in store closed about 40½@40¾c. New for shipment first half of September are wanted at 1@1¼c over September for 34 to 36-lb clipped.

Oats by sample were steady to 1c lower. Supply lighter and sales rather slow. Sales on track and free on board: No. 4 at 34@36c. No. 4 White at 41@41c. No. 3 at 36@38c. No. 3 White at 41@43½c. Standard at 41@43½c. No. 2 at 37@37½c. Billed through: No. 4 at 33@33½c. No. 4 White at 40@42c. No. 3 at 36c. No. 3 White at 42@42¼c. Standard at 43½c. No. 2 at 36½@41c. No. 2 White at 41¾@40c. At the river: No. 4 White at 36@39c. No. 3 White at 36@40c.

Future Deliveries of Contract Oats—Were stronger and higher.

JULY—Was offered sparingly. Sold at 39@39¼c. Opened at 39c, sold to 39¼c at close.

SEPTEMBER—Fair trading. Sold at 31⅞@32c and at 32⅜c. Opened at 31⅞@32c to 32c, sold to 32⅜c, and closed there.

DECEMBER—Moderate trading. Sold at 32¾c and at 33@33⅛c. Opened at 32¾@32⅞c, sold to 33@33⅛c, and finally closed bare.

MAY—Sold at 34⅛@34¼c, and at 34⅝c. Opened 34¼c, closed 34⅜c.

RYE—Was firm. No receipts and difficult to give quotations for fresh arrivals. Some speculative demand and market firm. No. 2 in store quotably about 70¼c, and fresh arrival car lots nominally about 70c. No. 3 nominally 58@66c. No. 4 sold at 57c.

Future Deliveries of No. 2 Rye—Quiet and firm. July sold at 70¼c and September at 68c.

BARLEY—There was some mixing demand for low grade Barley and good Screenings. Spot offerings very small, some Barley to arrive was taken for this account. Very few cars of malting Barley on sale, none of the better grades. Demand limited also, still Barley was salable. Eastern market very quiet and quotably steady. Receipts were 5 cars. Screenings remain quotable at 28@38c for poor to choice. Feed Barley common, dirty or musty down to 30@33c, poor heating sold at 29c, sweet good color thin, at 35@38c. Malting low grade was quotable 38@41c, fair to good, sound, 42@45c, good color 48@50c and fancy above.

SEEDS—There was a further small advance in old Flax Seed prices, but in other particulars the market was entirely unchanged.

Timothy—There was a little cash Seed sold. It did not amount to much, there was too little of it. Speculative market inactive, buyers and sellers just a little apart. Quotations remained the same as yesterday for new crop Seed and no change to note in old. September delivery held at $3.20 and $3.15 bid. Contract old Seed, spot or July delivery nominally $2.95. Country lots quotable at $2.00@2.75 for low grade to fancy, choice about $2.65@2.70, fair to good Seed $2.50@2.60 and rough at $2.30@2.45.

Flax—The tendency of prices for old Seed continues upward. To-day's quotations denote 1c advance. The market for Oil has been going up lately. There has been about 5c advance since early in the month. Oil Cake for domestic account also has advanced $1.00 per ton. This kind of a situation has had a strong influence on the cash market. New crop Seed was unchanged. There was no local movement. Receipts at Minneapolis were 18 cars, at Duluth 25 cars. No. 1 Northwestern or No. 1 from the Northwest was $1.20 bid, and No. 1 salable at $1.15. Rejected about $1.09@1.14 depending on quality. July salable at $1.15 and September sold at $1.11.

Clover—Market still inactive and nominally unchanged. Contract spot Seed about $10.75@11.00. Country lots, common to choice, $7.00@10.25, fancy above, mixed with Buckhorn or other weed Seeds, $6.00@8.00, poor, cleaned out of Timothy, very foul, down to $3.00@6.00. Fair to good $8.75@9.75.

Other Seeds—No trading; no offerings. Hungarian and Millets nominal. Buckwheat quotable at $1.55@1.60 for good. Mustard at 10c@11.10, poor down to 50@66c.

HOG PRODUCTS—Only a moderate business was transacted in Hog Products. Outside orders were small and local trading was moderate. Offerings were fair, and demand was somewhat limited. Market was rather easy at the opening, with fair realizing by holders of small quantities. Prices ruled lower on all the leading articles. During the latter part of the session a little more steadiness prevailed and prices rallied to medium figures with rather light trading and closed fairly steady. Trading chiefly in September contracts, though October is gaining in favor. Hogs were in moderate supply and lower. Receipts at the leading Western packing points were estimated at 25,800, compared with 45,400 one year ago. Foreign markets were stronger for Meats and Liverpool quotations were advanced 1s on Backs and Cumberland Sides while Lard was dull and 3d lower. Domestic markets were steady. Receipts of Products were only fair of Lard and Meats about 13 cars. Shipments were light of Lard and Meats about 72 cars. Inquiry on shipping account was moderate, and the offerings were only fair. Sales were not very large and there was little change to note in prices.

Mess Pork—Trade in Mess Pork was on a moderate scale. Offerings were fair, and the inquiry was not urgent. Market opened rather easy with a little pressure to realize and prices were about 10c lower and a further reduction of 2½@5c was submitted to in a few instances. Later a little more steadiness was manifested and prices rallied 7½@10c, and the market closed steady. Demand on shipping account was light and offerings were limited. Cash lots were quotable at $12.75@12.80.

JULY—Quiet, with small sales at $12.67½@12.77½, and closed at $12.75.

SEPTEMBER—Offerings were fair and the demand was moderate. Sales ranged at $12.72½@12.82½. Opened at $12.75, sold to $12.80, to $12.77½, to $12.80, to $12.72½, to $12.82½, to $12.80, to $12.82½ to $12.80 and closed steady.

OCTOBER—Quiet, with small sales at $12.85.

JANUARY—A few trades were made at $12.25@12.35, and closed quiet at $12.32½.

Lard—A fair trade was reported in the Lard market and the feeling was easier in a general way. Offerings were fair, and the demand was moderate. Foreign advices unfavorable to holders. Prices declined 5@7½c on the whole range but rallied 5c, and the market closed steady around medium figures. Demand on shipping account was light with no particular pressure to sell. Cash lots quotable at $6.77½@6.80. Loose lots in small request with limited offerings. Prices steady at about 60c discount on September figures. Leaf Lard inactive and prices entirely nominal. Neutral in only limited demand with fair offerings. Prices quotably steady at $7.12½@7.25 for No. 1 and $6.87½@7.00 for No. 2.

JULY—Quiet, with light trading at $6.77½@6.80, and closed at $6.80.

SEPTEMBER—Offerings were rather free, and the demand was fair. Sales were made at $6.87½@6.95. Opened at $6.92½, to $6.95, sold to $6.90@6.92½ to $6.92½ to $6.87½, to $6.92½, to $6.90 to $6.92½ and closed steady.

OCTOBER—Demand moderate and offerings were only fair. Sales were made at $6.95@7.00. Opened at $7.00, sold to $6.95@6.97½ to $6.97½@7.00 and closed steady.

Short Rib Sides—Only a fair business was reported in the market for Short Rib Sides and the feeling was easier. Offerings were not very large, and the demand was moderate. Prices on the whole range declined 2½@5c and the market closed steady at medium figures. Shipping demand light and offerings were moderate. Cash lots were quotable at about $7.35@7.40 according to weight.

JULY—Quiet with small sales at $7.40.

SEPTEMBER—Offerings were fair and the demand was moderate. Sales were made at $7.55@7.60. Opened at $7.57½, sold to $7.55, to $7.57½, to $7.55, to $7.57½@7.60, to $7.57½ and closed steady.

OCTOBER—Called for moderately, and offerings were not very large. Sales were made at $7.60@7.65. Opened at $7.62½, sold to $7.6, to $7.62½, to $7.60@7.62½, to $7.62½@7.65, to $7.62½ and closed steady.

Other Meats—Trade was only fair and the feeling was rather steady. Offerings not very large and the inquiry was only moderate. Exporters rather backward and the home demand was only fair. Green Meats in moderate supply with a light inquiry, and prices steady. Pickled Meats in moderate request and prices unchanged. Dry Salted Meats were in fair demand with moderate offerings and prices favored buyers. Smoked Meats called for in moderate quantities and prices were unchanged. Closing prices ranged as follows:

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, July 14.]

Last week was probably the most disastrous week of the season to the Winter Wheat crop. Until the past ten days or two weeks, the heavy and almost incessant rains which have fallen in the eastern half of Kansas and Western Missouri were not regarded as particularly injurious to the crop while it was still growing, but as the crop reached maturity and much of it could not be harvested apprehension about the safety of the crop began to increase. The rains continued so as to prevent the harvesting of much of the Grain after it had become dead ripe, and can not now be handled without much of it shelling out and being lost. There have also been some losses by floods washing away shocked Wheat, but probably not nearly as great as the loss to the uncut, overripe Grain. There is also some increase in complaint of rust, particularly from Nebraska; also some of sprouting. The nature of the impairment makes it impossible to determine confidently the extent of loss until the crop is finally handled, but tentatively we would estimate the loss in these States at 20,000,000 to 25,000,000 bu. Elsewhere in the Winter Wheat region there has not been much change in the situation; rains have delayed harvesting somewhat, but the past few days have become more favorable.

Spring Wheat is mostly in highly satisfactory condition, except on low, heavy soils of the Red River Valley, where there has been too much moisture. On high lands the prospects are good.

The Corn crop has made satisfactory progress during the past week. In the Ohio Valley it has gained on much of its backwardness, some reports stating for the first time that the crop has attained normal growth, but the crop as a whole is still late. Not much cultivation was done during the week, owing to the many showers, but excepting in Kansas and Missouri fields are generally clean, and the color is good. The crop is above an average in condition in the South, and States east of Illinois, about an average in Illinois and Iowa, and somewhat below an average in Missouri, Kansas and Nebraska.

The Oats crop is maintaining a satisfactory condition in all the important States except Nebraska and Kansas, where rains and rust were moderately injurious. The crop will be heavy in the East and about an average in Illinois and Iowa. As a whole, indications are slightly above an average.

The Hay crop is generally fair to good, but weather was not favorable for making it in many places where it was ready to harvest.

Pastures are generally very good. More than usual comment is made by correspondents of the favorable condition of Potatoes and of the minor crops generally.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, July 14.]

There has been considerable curtailment in the marketing of Hogs. Total Western packing 295,000, compared with 425,000 the preceding week and 440,000 two weeks ago. For corresponding time last year the number was 475,000 and two years ago 325,000. From March 1 the total is 7,940,000, against 7,705,000 a year ago—an increase of 235,000. The average of quality is hardly up to the recent past. Prices have been reduced, prominent markets at the close indicating an average of about $5 15 per 100 lbs, compared with $5 40 a week ago, $5 15 two weeks ago, $5 50 a year ago, $7 75 two years ago, and $5 75 three years ago.

The speculative Provision market has been only fairly active the past week, and the change in prices has been rather slight. As the week closes impending labor troubles at Western packing centers is a feature of the situation which tends to unsettle the market. Aside from this element there has been nothing of importance in the way of developments in the trade. Exporters bought practically nothing, and the domestic markets continue quiet. The export clearances of Product were fairly liberal, and show a gain over the preceding week and an increase over the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year
Pork, pounds	702,000	220,000
Bacon, pounds	14,350,000	14,506,000
Total, Meats	15,052,000	14,726,000
Lard, pounds	10,360,000	9,950,000
Total, Product	25,412,000	24,676,000

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since March 1, at undermentioned places, compared with last year, as follows:

CONDITION OF FOREIGN CROPS.

A report covering foreign crops given out by the Department of Agriculture, Wednesday, makes a better showing from Russia and France than advices from other sources have indicated. This is due to differences in time of compilation. The report says:

Russia—Winter Rye up to average. Winter Wheat below average; Spring Wheat, which forms the larger part of the Russian crop, reported in good condition; Barley and Oats average.

Germany—Crops show some deterioration since the middle of May, except Winter Spelt, Lucerne and Potatoes. The deterioration in Winter Wheat was very slight.

Austria—Crops have suffered greatly from heat and drouth. Hungary—Wheat yield likely to be less than that of 1903 by 36,666,565 bu, or about 23 per cent. The Rye crop is less seriously affected, the prospective deficiency being only 4,628,961 bu, or less than 10 per cent. The estimated deficiency in Barley is 24 per cent, and Oats 29 per cent.

Roumania—The prolonged drouth has had serious effects on Roumanian crops. Bulgaria—Crops mainly favorable, but suffered somewhat from drouth. Servia—Crop prospects improved by an abundant rain.

Turkey—Crops suffered severely from drouth. Greece—Wheat and Barley excellent. Italy—Rain has benefited all crops.

France—Wheat crop of 1904 likely to exceed the large crop of 1903, though tempests and hailstorms have occasioned some anxiety.

Spain—Rain and hailstorms have caused serious damage, much of the county having suffered previously from drouth.

Belgium—Cereal crops very satisfactory. Norway—Crops in satisfactory condition. Denmark—Rain desired for nearly all kinds of crops. Netherlands—Spring crops sown under good conditions generally, but complaints of soil being too damp, and that Oats and Spring Wheat stood thin on the ground. Owing to the unsatisfactory results of Beet growing in the last two years, the area under Sugar Beets is less than in 1903 or 1902.

THE SPRING WHEAT CROP.

[From the Northwestern Miller, July 13.]

Conditions have not changed much since a week ago. While, till now, there has not been enough good growing weather, yet the stand of Wheat is even, and prospects, generally, are excellent. The first five days of the last sennight rains were general throughout the Northwest, but the last two days the weather has been all that could be desired. Every station reporting to the United States Weather Bureau at Minneapolis reported clear and warm weather July 12.

In Southern Minnesota and South Dakota Wheat is heading out, and with favorable weather in the northern districts Wheat will be heading out there in another week.

In a small section of South Dakota where the soil is light Wheat is suffering from a lack of moisture, while on the low lands of the Red River Valley and of Southern Minnesota an excess of moisture has caused fields to be thin and weedy. A continuation of hot wet weather would likely cause damage by rust, or cool wet weather might put Wheat back so as to endanger it by frost or otherwise. But there is nothing in the actual conditions of to-day to prevent the harvesting of a good crop in Minnesota and the Dakotas.

THE WEATHER CONDITIONS.

Weather map fine, except 1 50 rain at Wichita, and 1 14 inches at St. Louis; trace at Kansas City; clear in Oklahoma, Texas and at all Kansas points except above; also clear Northwest and in Ohio Valley.

Indications are for thundershowers in Missouri Valley, in the Northwest and in the lake region. The showers will extend to the Mississippi Valley Saturday. Warm summer weather will prevail.

CLEARINGS FOR SIX MONTHS.

Clearings of the principal cities of the country for the six months ended June 30 reflect the general dullness in business, except in the South and extreme West. Following are the figures of the principal cities, as compiled by the *Financial Chronicle*:

ITEMS OF GENERAL INTEREST.

The Baltimore and Ohio Railroad Company has applied to the New York Stock Exchange to list $634,100 additional preferred stock.

Application has been made to the New York Stock Exchange to list $10 000,000 additional common stock of the Wabash Railroad Company.

Chicago and Milwaukee Electric Railroad Company net earnings for June increased $10,961, and for the first six months of 1904 increased $36,789.

Fire, Tuesday, destroyed forty-two buildings in the business and residence section of Millington, Md., causing a loss of about $200 000 partly insured.

An official of the Pennsylvania Steel Company says, "For the quarter ending June 30 our output in value was 10 per cent greater than during the quarter ending March 31."

The Grand Rapids Railway Company has declared the regular quarterly dividend of 1¼ per cent on its preferred stock, payable Aug. 1 to stockholders of record July 18.

A synopsis of the annual report of the Atchison, Topeka and Santa Fe for the year ended June 30, said to be semi-official, shows gross earnings increased $5,000,000 and net earnings increased $2,000,000.

The Baltimore and Ohio Railroad has declared the usual semi-annual dividend of 2 per cent on its preferred stock, and 2 per cent on its common stock, payable Sept 1. Books close Aug 15 and reopen Sept 1.

The revenue agent for Jefferson County, Kentucky, Friday, brought suit in the County Court against the Illinois Central Railroad Company for $3,600,000 back taxes, which, he claims, is due on its franchise, valued at $50,000,000.

The Westinghouse interests have secured a contract valued at some $116,000 for electrical equipment to be installed in the Greenwich generating station of the London County Council. There were five bidders on the contract. The Westinghouse figures were the lowest.

Renewed activity in orders from tin plate consumers has resulted in the starting up of several of the idle tin plate mills of the American Tin Plate Company of the Steel corporation. It is stated that the twenty idle mills at South Sharon, Pa., will all be going by Thursday.

Net earnings of the Louisville and Nashville in the fiscal year ended June 30 were slightly over 11 per cent on the capital stock, according to the preliminary figures issued Monday. After the payment of all charges and dividends the road had a surplus of $3,606,000 for the year, or more than the amount paid in dividends on the stock. This addition to the surplus makes the total around $11,500,000.

A dispatch to the Chicago *Inter Ocean* from Fairbury, Ill., says: "Farmers around here are beginning to harvest their early Oats. Heavy rains the past few days have kept them out of the fields. Crops are unusually good this year, owing to the favorable weather the past two weeks. An average of 40 bu yield to the acre is looked for. Corn and everything else growing in the country looks good in this section."

Municipal bond issues in June, exclusive of $10,414,725 of temporary loans, aggregated $24,909,609, according to the records of the *Financial Chronicle*. This falls below the record of $54,000,000 established in May, with the help of the $37,000,000 issue put out by New York City, but it has been exceeded in only five months in the past twelve years. During the first half year, according to the same authority, municipal bond sales totaled $138,355,377, or only $14,000,000 less than that in the entire year preceding.

An official of the United States Steel Corporation said, Tuesday: "There will be no change this year in the preferred dividend. The company's reserve funds and the steadily improving business justify holding the dividend rate at the present figure." It was learned that the directors of the corporation have decided to suspend indefinitely the consideration of the proposition to resume the payment of dividends on the common stock. A person who is close to the officials of the corporation says that the directors will not consider the plan for two years at least.

Telephone people throughout the country are greatly interested in the suit brought by the minority stockholders of the Kellogg Switchboard and Supply Company and Milo G. Kellogg to declare null and void the sale of the control of the stock to interests identified with the American Telephone and Telegraph Company and the Western Electric Company. The case is now before the Illinois Supreme Court on a writ of error, and the point on which it was taken up involves not only the control of the Kellogg Company, but also the control of all of the corporations in Illinois owned by the Bell interests.

Following is a statement of the various kinds of money in actual circulation on July 1, 1904:

The per capita circulation is estimated at $30 90.

The American Smelting and Refining Company has distributed $90,000 among its employes under the profit-sharing plan announced some time ago. Under the plan the company, after providing from its earnings for dividends, improvements, depreciation, etc., to the amount of $7,500,000, agreed to pay on its surplus, providing it did not amount to over $8,000,000, 22½ per cent. Above $8,000,000 earnings the amount to be divided was to be at lesser rates. The fact that $90,000 was distributed would indicate, therefore, that the company had earned over and above the $7,500,000 requirements at least $400,000 for the last fiscal year.

A representative of the Warner Sugar Refining Company is quoted in New York as saying that the company does not expect to have the Waukegan (Ill.) plant, which was destroyed by fire several months ago, in operation before the latter part of July. It was reported that prominent interests in the company were about to dispose of their stock holdings, but this was characterized as being without the slightest foundation in fact. It was reported that an offer was made by certain New York interests to purchase the property, which offer was refused. It was said that Mr. Warner had disposed of some of the company's agents in the East.

A report on the crops of Northwestern North Dakota from a Chicago party at Cando, N. D., gives good prospects for that section, which last year lost its crops from drouth. He says: "We had ten inches of rain in June and it rained July 8 and 9. The rains have proved very beneficial to the Grain crops, but it has filled up the Hay sloughs and lessened and delayed the making of Hay. Wheat is in excellent condition, stands more than knee high, and is just about to head. The rain has filled some parts of the low fields and killed the Wheat, but on the whole has done very little damage. Rust has not made an appearance, but is feared, if we have many heavy dews. Little Flax was planted, but what there is shows excellent condition. Barley is looking fine and heading well."

Officials of the American Straw Board Company, as well as the managers of the straw board and straw paper mills throughout the country, are watching with the greatest interest the progress of the harvesting of the Wheat crop in order to form an estimate of the probable amount and quality of the Straw crop, which means much to the mills. A month or two ago there was every indication of a very poor Straw crop, but a great change set in afterward, and the improvement was most marked. It is generally considered now that about two-thirds of a good Straw crop will be the yield this year. "We may get a fair crop, but it won't be sufficient for the needs of fifty-nine straw board factories," said a well-known straw board man. "There are that number in the country, and they use more than 107,000 tons of raw material to make a finished product valued in the neighborhood of $3 000,000. Ohio, Indiana and Illinois make more than 80 per cent of this, Indiana having us beaten in the quantity of manufactured product."

Although the first six months of 1904 have witnessed failures of manufacturing, mercantile and financial interests, no railway in the United States has gone into the hands of a receiver as a result of the decreased industrial and commercial activity in that period. Two or three minor companies have passed their dividends, but of the nearly 1,800 operating and subsidiary roads whose securities are in the hands of the public only six, representing about 300 miles of railroad, have defaulted in their interest or otherwise confessed insolvency thus far in 1904. The *Railway Age* declares it is an encouraging fact that only twenty railroads, with less than 1,000 miles of line, out of the 210,000 miles in the United States are at the present time in the hands of receivers. In the case of each of the six small roads for which receivers were appointed during the last six months bankruptcy appears to have been the result of inherent difficulties not caused by the cessation of boom times and which would not have been cured if the times had continued to boom.

The Chicago Board of Trade Directors held their meeting, Thursday. The chief business was the adoption of an agreement made with the elevator men at the time their houses were made "regular." It covers the stoppage of storage on Grain for shipment, and will do away with any uncertainty as to when storage on Grain shall cease. For the Armour elevator, St. Paul and Fulton and Annex, storage will stop when cars are on the St. Paul tracks at Western Avenue or in the elevator yards. The cars are to be lined and ready to receive Grain. For the Armour "C" and "F" cars must be at Wood Street or in the Western Avenue yard of the Burlington Road or in the elevator yards. The City elevator storage will cease when cars are at Fourteenth and Lumber Streets and in the yards of the Northwestern Railway. For the Chicago and St. Louis, Alton, and National elevators when cars are delivered to the Alton Road. For the Galena, when cars are in the Northwestern yards at Wood Street. For the Peavey and Calumet elevators, when cars are delivered to the Belt Line or Elgin, Joliet and Eastern Road. For South Chicago elevator, the Belt Line and elevator yards. Rock Island elevator, in the Rock Island yards at Forty-Fourth Street. Illinois Central elevator, at Illinois Central yards at Fordham or at Randolph Street yards. For Grain to be shipped on Eastern roads cars must be at the elevator ready to load. For vessels, when they are at the docks of the elevators in condition to receive the Grain.

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, July 15, 1904.

The money market is holding steady. A better demand exists for loans from the outside. Country bankers are preparing for the usual crop movement, and are beginning to borrow. This has assisted in reducing the supply of idle funds, and interest rates are steady at 4 to 4½ per cent on call, with very little at the inside figure. Chicago bankers are preparing for the usual crop movement, and there is a tendency to reduce Eastern balances. Supply of commercial paper is below the demand, and it brings 4 to 4½ per cent, all good paper being taken readily. In New York call money on the Stock Exchange was 1 to 1½ per cent. Time funds were plentiful at 2½ to 4 per cent, depending upon the length of the loan.

New York exchange was steady at 20c to 25c premium and closed at 20c.

Foreign exchange was in light supply and rates steady at 484½ to 485 for shippers' sixty-day documentary sterling bills on London.

Cotton in New York averaged higher; spot demand from all quarters was better, foreign markets showing most strength. The disposition to sell "short" on the favorable crop conditions received a temporary check and the buying to cover largely assisted in making the advance in values. Closing prices were at gains of 1@9 points for the week.

Local Securities were traded in on a small scale so far as shares were concerned, but in bonds business broadened. A feature was the comparatively small decline in Swifts under the unfavorable conditions under which the packing concern worked, a strike at all its plants being on. Can shares were well supported at times and made fair gains. Diamond Match was easier and Streets preferred came in for fair attention and advanced. Metropolitan Elevated made a fair advance on light buying. Tractions were neglected, but values held well.

Stocks in New York were more actively traded in and values averaged higher. A feature was the increased trading in bonds, many issues selling at the highest prices of the season. Combined buying of Wall Street and Western speculative interests in many of the Eastern and Western shares was a factor and added to the strength and upward movement in values. Union Pacific, Atchison and Reading were among the most active shares. London traded more heavily on both sides of the market and bought more than they sold. Crop reports were less favorable for Wheat, the good showing of the Government report for the month being offset by losses since July 1, and by the weekly crop bulletins giving a more reliable idea as to the crop losses by recent unfavorable weather. Railway earnings were in some instances more favorable, and there was an absorption of stocks by Standard Oil interests. There has been a good deal of investment buying this month, owing to the disbursements in the way of interest and dividends, and this money has helped to remove the floating supply of stocks in the street. Efforts of the "bears" to create weakness were only temporary, and their covering assisted in making the highest prices. Reports from the Steel trade were more favorable, a number of plants preparing to resume operations, and earnings of the United States Steel Corporation for the second quarter were given as $19,250,000. Money remains easy at 1 to 1½ per cent, which is an inducement for buying shares. The rise in prices is rapidly discounting the good influences that have been brought out of late. Closing sales were at liberal net gains for the week. Total sales on the New York Stock Exchange for the week were 3,512 000 shares, compared with 2,240,000 shares for the same time last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

In the commercial trade there was a moderate movement of dry goods and collateral lines, but the buying of Cottons has not met expectations of jobbers and manufacturers considering the sharp reductions recently made in prices. Woolens and silks are holding steady. In the Iron and Steel trade there was a steadiness in values of all finished material. The different associations have reaffirmed their previous list. The buying of material, while not large, is fairly satisfactory, but confined to small lots. Pig Iron is being taken more freely by consumers for delivery extending into the last half of the year, but, although sales show a material increase, they have not affected prices. Light hardware is having a good movement for the season, and there are rumors of concessions on wire and nails. Mills are reporting an increased output as compared with recent months and are preparing for a large fall business. Local and interior building operations have increased the movement of lumber and low grades are taken with a freedom which creates steadiness in values of white pine, Norway and Hemlock, but yellow pine prices have been shaded on piece stuff and flooring. This granting of concessions, however, is expected to disappear in the near future, as manufacturers in the South have agreed to reduce the output a third. This, with the shortage in cars which is expected to appear in the near future, as soon as Cotton commences to move from the South, will reduce shipments to the North, and a firmer market is anticipated. Sugars are having an increased consumption and prices are firmly held. The general grocery trade has shown moderate activity. Linseed Oils advanced 5c in sympathy with the appreciation in Flax Seed.

COMMERCIAL.

Business in commercial circles on the Chicago Board of Trade is on the mend and the outlook is bright for a further betterment in all the leading cereal markets. Outside and foreign interest was more marked and transactions for local account were of larger volume. Apparently there is more disposition on the part of investors with capital to get into the Grain markets and the trade is steadily broadening, Wheat being the leader. The upward tendency of values usually proves attractive to outside speculators and indications are for increased activity in Grain as well as Provisions. The recent Government report no doubt formed a basis for many who are speculatively inclined and the foreign situation is likewise receiving more consideration. The shipping and receiving interests are making a determined effort to meet the competition of other Grain markets, which have been successful in securing discriminating rates from the railroads against Chicago, thus diverting Grain from here. A petition which was said to have had the indorsement of the committee on transportation, asking the directors to establish a freight bureau was circulated on the floor Monday, and will shortly be taken by the directory of the Exchange.

European crop conditions were reported as less satisfactory this week. A deficient yield is certain in Hungary and the leading crops in Russia were reported as very irregular. Reports are poor from important growing sections, hot weather interfering with field work. In Portugal the yield is light and liberal imports are probable. In the United Kingdom harvesting will commence the last of this month and is well under way in France, where the crop is expected to be about 15 per cent less than last year. Reports from Germany were variable, while in Roumania the crops are turning out better than expected. Further desirable rains fell in India.

The Government report, issued this week, indicated a crop of 611,000,000 bu Wheat, 2,337,000,000 bu Corn, 820,000,000 bu Oats, 26,000,000 bu Rye, and 130,000,000 bu Barley. The report did not cover the damage resulting from the heavy rains since July 1. The past week was more favorable for all Grains, and harvesting and threshing is again under way in important sections of the West and Southwest. There is little doubt, however, but that Winter Wheat was quite extensively injured in Nebraska, Kansas, Oklahoma and Missouri by rust and lodging and in shock by moulding and sprouting. Spring Wheat is now headed in North Dakota and Northern Minnesota, but has suffered slightly from rust in the Southern portions of the Spring Wheat belt. Corn has made vigorous growth over the greater portion of the belt, but needs cultivation in many sections. Oats have been injured to some extent by the late excessive rains through the Missouri Valley, but elsewhere conditions are said to be satisfactory.

The movement of Grain from the farms and interior elevators was moderate the past week. Weather conditions of late have been such as to restrict the marketing of Grain. With clearing conditions, however, some increase in the arrivals at distributing points is expected. In the Northwest receipts were moderate and supplies at terminal points are gradually decreasing. Through the West and Southwest marketings were delayed owing to climatic conditions, and the movement of Wheat the next few weeks is expected to make a poor showing compared with that of a year ago at this time. Receipts of coarse Grains, too, were much smaller than for the corresponding period in 1903. In the Central West there was also a shrinkage in receipts of Grain. The movement toward the seaboard shows little if any increase, notwithstanding the low lake rates. Exports of Flour and Wheat as well as coarse Grains continue comparatively light. Bookings, too, at the seaboard are quite limited. According to the visible supply as compiled by the Secretary of the Chicago Board of Trade, there were decreases in Wheat, Corn and Rye and increases in Oats and Barley. *Bradstreet's* reported a liberal reduction in Wheat and Flour supplies, a moderate decrease in Oats, and a slight increase in Corn. The DAILY TRADE BULLETIN reported the world's supply of Breadstuffs July 1 at 123,000,000 bu, compared with 142,000,000 bu June 1 and 103,000,000 bu July 1 one year ago. Decrease during June was 19,300,000 bu, against 16,842,000 bu decrease in June, 1903.

A better speculative business was reported in all the leading cereals the past week. Outside orders were numerous and local operators were inclined to trade in larger quantities. Prices were quite irregular and many opportunities were offered for parties with capital to invest. Fluctuations frequent was general tendency of values upward, with Wheat easily the leader in the Grain list. Realizing and profit taking caused frequent reactions in the Grain markets and a feeling of uncertainty prevailed in Provision circles owing to strike in force at the Union Stock Yards. Weather conditions and crop reports are still the dominating influences in Grain, though the foreign situation came in for more general consideration. Decreasing supplies and a probable delay in the movement, too, were factors in Wheat. The Government report was "bearish" on the probable yield of Corn, but effect was partially offset by the small movement and strength in other cereals. Oats were irregular, but undertone on the whole steady. Hog Products were moderately active. Offerings were moderate, while the demand was more general, "shorts" fearing the effect of the labor troubles at the Yards. Trading is still principally in September contracts. Packing of the West for the week 180,000 Hogs short of last year; season, 7,940,000, against 7,705,000 in 1903.

There was a fair business closed in cash Grain this week. Current receipts sold well, and there was a better tone to the cargo market. There was more inquiry for Wheat, and sales were of better volume. Corn was comparatively scarce and wanted. Higher prices ruled, and holders of round lots were firmer in their views. Oats were in fair request and steady, with the offerings small. Rye was quiet and firm, and very little doing in Barley. Seeds were devoid of interest. Hog Products were in light request and offerings moderate. Exporters were out of the market. Sales were small and prices varied but slightly. Hogs were marketed in smaller numbers and prices were firm. Cattle and Sheep ruled weaker in absence of demand, owing to the strike at the Yards.

FREIGHTS—The strike at the Stock Yards has cut off business materially in Dressed Beef and Boxed Meats, the loss being 200 cars a day. Cars are plentiful and Grain traffic slow. Rates are steady. The tariff is as follows:

To—	From Chicago. Domestic.	Export.	From Miss. River. Domestic.	Export.
Boston	19½	13½	22½	16
New York	17½	13½	19½	16
Philadelphia	15½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News	14½	11	16½	14½

Flour rates are to be 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 3c per bu on Wheat, Corn, Barley and Oats.

Ocean rates on Grain are slow, but steady. Rates on Grain are ¾d per bu from New York and ½d from Boston. Through rate on Wheat from Chicago to Liverpool is 5.85c per bu and Corn 5.65c. Flour 19c per 100 lbs and Provisions 35⅜c per 100 lbs.

Lake rates are steady at ¾c for Corn to Buffalo.

FLOUR—This market continues in rather a dull, listless state, the demand showing no material improvement, either on domestic or foreign account, notwithstanding the advancing tendency of Wheat. Buyers as a rule are holding off and the outlook is anything but promising from the millers' standpoint. Export bids are reported 2-3s out of line and below the cost of production. Stocks abroad are fair and local dealers with Flour in store on the other side claim they are obliged to accept buyers' terms in order to effect sales. Most of the large consumers of Flour look upon the deferred futures of Wheat and Flour prices as too far apart and are reluctant in stocking up or buying ahead on a basis of present terms. The Northwest is offering Flour in moderate quantities. Millers do not anticipate much change in the local situation until the first of the month, when the July futures will be closed. City mills in most instances are working on special orders. One of the sales agents for a local mill said, Tuesday: "I have never seen stocks of Flour in jobbers' hands lower than they are now or the jobbers more disposed than they are to keep them low. They do not believe in the Wheat advance, and continue to wait for lower prices for Flour. There has been no improvement in sales with all of the Wheat advance, and the only good effect is to induce out-of town millers to advance their selling prices a little and keep down their consignments to distributing centers." The week closed firm at the following prices:

MILLSTUFFS—The market ruled quiet during the past week—rather dull in fact. There were moderate receipts. Bran in 200-lb sacks, sacks included, sold at $15 50 per ton, in 100-lb sacks, sacks included, at $16 25@16 50, and in bulk at $15 25.

WINTER WHEAT—There has been more disposition to trade, and some business in new Wheat was reported both spot and to arrive. The market has held quite steady and for old Wheat firm. There has been so little doing of late that it has been difficult to make comparisons, but the general market has not shown any material changes. The receipts have been small and did not show any increase, but dealers anticipate receiving some Wheat shortly. The heavy rains in the West may have retarded the movement somewhat. There has been a fair demand on milling and on shipping account—local millers secured most of the arrivals. Several round lots of Hard were withdrawn from elevator. The receipts for the week were 13 cars. There were withdrawn from public elevators 47,950 bu, and from private warehouses 43 cars. No. 2 Red in store the old Wheat has been held by strong parties and virtually off the market, and for such quotations were nominally $1 04@1 05, and later $1 08@1 10. Fresh receipts of new Wheat sold at $1 00 spot, and quoted later at $1 02@1 02½, and sold at 96½@97c for fifteen days' shipment. No. 3 Red fresh receipts new Wheat was quotably 95c@$1 00, and old about 98c@$1 03. No. 2 Hard fresh receipts free on board quotably 93@97c. No. 3 Hard in store sold at 87@88½c, and fresh arrivals free on board quotably 85@95c, with a sale at the river at 85½c. No Grade Hard sold at 65@95c. No 3 White sold at $1 01.

SPRING WHEAT—Ruled very quiet during the past week, and at the same time steady, with contract grade 1@2c higher, influenced by the speculative advance. Very little Wheat was received and the few cars of fresh arrivals were taken by millers and shippers; an occasional round lot of Wheat in elevator was bought, the receipts not being adequate to the local requirements. The receipts for the week were only 25 cars. There were withdrawn from public elevators 45,150 bu and from private warehouses 42 cars. No. 1 Northern in store quotable at 97½c@$1 00, and later at $1 01½@1 04. Fresh arrivals were quotably 98c@$1 03. No. 2 Northern fresh arrivals free on board quotably 96@99c. No. 3 Spring fresh arrivals sold at 89@94c and ranged at 85@97c for common to choice. No. 4 Spring sold at 80@92c and ranged at 65@92c for poor to choice.

REGULAR WHEAT—There was a good trade and active market in this cereal the past week. Higher prices were established and most of the gain maintained, the close showing new July up 5⅛c and new September 2⅝c higher. Outside interest was more pronounced and local traders were more aggressive in their operations. The weather and crop news was the chief dominating influence, and while the Government report made a better showing than expected, it did not take into consideration the damage since July 1 by the rains through the West and Southwest. Old July sold up to 98¾c, while new touched 97¾c. September sold to 89⅛c and new 88⅝c. "Shorts" covered freely on the rise and investment buying was of good volume. Foreign crop news was not of the best, and the English and Continental markets displayed an upward tendency. The Government report showed the average condition of Winter Wheat July 1 was 78.7, as compared with 77.7 last month, 78.8 on July 1, 1903, 77 at the corresponding date in 1902, and a ten-year average of 78.8. This report relates to conditions July 1, and takes no note of the effects of storms in certain States since that date. The average condition of Spring Wheat July 1 was 93.7 as compared with 93.4 last month, 82.5 July 1, 1903, 92.4 at the corresponding date in 1902 and a ten-year average of 86.8. The average condition July 1 of Spring and Winter Wheat combined was 84.5, as compared with 80 July 1, 1903 and 82.0 at the corresponding date in 1902. The amount of Wheat remaining in the hands of farmers July 1 is estimated at about 36,630,000 bu, equivalent to about 5.7 per cent of the crop of last year. The above figures indicated a crop of about 641,28 000 bu, against 637,821,000 bu in 1903 and 670,063,000 bu in 1902. The weekly weather bureau report was "bullish," claiming that Winter Wheat had sustained great damage from continuous heavy rains in Nebraska, Kansas, Oklahoma and Missouri, where the unharvested Grain was seriously damaged by rust and lodging, and that in shock by moulding and sprouting. Harvesting was also greatly hindered by unfavorable weather in the districts east of the Mississippi River, where, however, the conditions were much less serious than in the States of the lower Missouri Valley. Harvesting continues under favorable conditions on Pacific Coast. Spring Wheat was also reported damaged slightly from rust over the Southern part of the belt and was said to be thin and weedy in Southern Minnesota. The crop as a whole, however, has advanced satisfactorily. It is now heading in North Dakota and Northern Minnesota. On the North Pacific Coast, Spring Wheat, especially late-sown, has suffered seriously from dry weather. In Oregon, much will be cut for Hay. Routine statistics were rather more "bullish" than otherwise and indirectly strengthened the situation. The world's shipments were smaller at 6,964,101 bu; previous week 7,312 001 bu and year ago 9,101,000 bu. The quantity on ocean passage decreased 1,686,000 bu to 43,538,000 bu, compared with 29 6..,000 bu one year ago. The visible decreased 577,000 bu against 1,479,000 bu decrease one year ago. Total is now 13,475,000 bu against 14,211,000 bu in 1903 and 19,402,000 bu in 1902. Local public stocks decreased 138,000 bu and are now 1,197,000 bu, against 2,121,000 bu same date in 1903. Stocks here in all positions are 2,385,000 bu, a decrease last week of 278,000 bu. Stocks a year ago 8,165,000 bu. Contract stocks reported decreased 32,718 bu, to 624,796 bu; last year 1 625,738 bu. *Bradstreet's* decrease 1,511,000 bu, against 4,109,000 bu in 1903, and this showing was one of the "bull" helps. *Broomhall's* weekly crop summary said: "United Kingdom—The recent wet has been forcing the Wheat crop, and harvesting may commence the last week in July. France—The harvest is spreading rapidly. The great producing districts in the north still reporting sanguinely regarding the outturn. Germany—While the weather recently has been favorable in some portions, yet many eastern districts report a poor condition. Hungary—It is now certain the yield of Wheat will be deficient. Roumania—The Wheat harvest is now general and crop is yielding somewhat better than anticipated. Bulgaria—Reports still continue favorable. Russia—The Wheat crop is very irregular. Additional districts to those mentioned in our cable yesterday were sending poor reports. Our agent at Crimea cables that extremely hot weather interferes with the field work. Stocks are exhausted. The Crimea is a large producer. India—Further desirable rains have fallen. Portugal—Wheat yield will be very light and substantial imports will be required. The average of the Wheat crop for the past ten years is 8,400,000 bu, while the imports of Wheat averaged 3,700,000 bu." *Broomhall* on Monday cabled that a Russian semi-official crop report stated Winter Wheat was generally below an average condition. In the Southwest the condition is good, this territory being of importance. Spring Wheat is generally of an average condition. The condition is good in the eastern districts, which are large producers, and in the center, which is of moderate importance. The Buenos Ayres *Standard* of June 5 said, "Sowing the new Wheat crop has commenced in several of the Santa Fe colonies, and all farmers who can manage it are sowing double what they did last year, but they are by no means so keen on Flax Seed as it disappointed them in price this year. Wheat does not exhaust land nearly so much as Flax Seed and in the last two seasons it pays far better." The *Corn Trade News* of June 30 says: "Magnificent weather continues to prevail in France. Crop reports are generally very favorable, but still it is agreed that the yield in the South is light, and much disappointment is expressed with regard to the Southwestern crop; further, the *Bulletin des Halles* says that a smaller yield than in 1903 is expected generally. On the other hand, excellent accounts of the important Northern crop continue to be received. In the South harvesting is now in full swing." Primary receipts this week were much smaller than those reported one year ago, and a "bullish" comparison is expected the next few weeks, owing to the harvest being delayed through the West and Southwest by the late rains. Continental supplies were reported small and the offers from India and Australia were reported advanced. Exports from Atlantic and Gulf ports, however, continue light, the total this week being 1,412,000 bu, as compared with 3 652 000 bu for the same period in 1903. Bookings on the coast, too, were meagre. Argentine shipments were fair at 1,032 000 bu and the total since Jan 1 foots up 68,608,000 bu, compared with 49,906,000 bu same period in 1903. The visible there is now 2,800,000 bu, against 3,210,000 bu last week and 3,640,000 bu one year ago. The Kansas City *Star* estimated the crop in Kansas at 60,000,000 bu and was looked upon as a "bullish" factor, as also the *Price Current* statement that the loss to Winter Wheat since July 1 would aggregate 20,000,000 bu to 25,000,000 bu, but otherwise there was little change in the situation. The Secretary of the Kansas State Board of Agriculture was out with a very "bullish" statement and the president of one the Western roads confirmed these conditions in Kansas as reported. The Kansas Millers' State Association estimated the crop at 58,000,000 bu. A local crop expert issued a special bulletin on Wednesday on Wheat conditions in the Missouri Valley. From the points covered there is an indicated loss of 20@25 per cent, with an occasional point showing 43 per cent loss. Crop 100,000,000 bu smaller than a year ago. The *Le Petit Journal*, Paris, estimated the French crop at 310,000,000 bu, but claimed there were large reserves, but stocks of inferior quality.

CORN—The Corn market was fairly active most of the week, and the feeling manifested was on the whole easier, the close showing the July ¼c higher than last Friday, while September lost ¼c, December shows 1c loss and the May 1⅛c. The more favorable weather and crop advices appeared to be the principal "bear" influence, and offerings the first of the week were quite free, under which July touched 48c, while September sold to 48⅜@48½c, December to 44½c, and May 43⅞c. The weekly weather crop bulletin was construed as "bearish," claiming that over the greater part of the Corn belt the plant had made vigorous growth but that continuous rains have prevented cultivation and much of the crop is weedy. In the northerly districts the crop is generally backward, but has advanced decidedly during past week. In Middle Atlantic States, the crop has made excellent progress, and is in very promising condition. The Government report, issued Monday, showed the acreage of Corn planted to be about 91,930,000 acres, an increase of about 2,130,000 acres, or 2.4 per cent, on the area planted last year, as revised in December. The average condition of the growing crop July 1 was 86.4, as compared with 79.4 July 1, 1903, 87.5 at the corresponding date in 1902, and a ten-year average of 84.1. These figures would indicate a crop of about 2,386,000,000 bushels, as compared with 2,244,176,000 bushels last year. The following table exhibits the estimated yield of Corn for 1904, as indicated by the July report, of the Department of Agriculture, in what are known as the Corn surplus States, compared with the yield in the past two years:

	1904, bu.	1903, bu.	1902, bu.
Ohio	101,000,000	88,000,000	122,000,000
Indiana	151,000,000	148,000,000	171,000,000
Illinois	311,000,000	264,000,000	372,000,000
Missouri	167,000,000	203,000,000	261,000,000
Kansas	195,000,000	172,000,000	223,000,000
Iowa	288,000,000	229,000,000	298,000,000
Nebraska	266,000,000	172,000,000	253,000,000
Total	1,470,000,000	1,271,000,000	1,703,000,000

Deliveries on July contracts took place daily, the principal "shorts" being busy cleaning and taking all the available receipts. Private elevators were busy turning out the contract article for the "long" interest and there was no sign that the latter are not prepared to take in and pay for an unlimited quantity. Opinions as to the prospective movement are divided. In some quarters it is predicted receipts will fall off with the activity of Haying and Oats handling, which will be on at once with settled weather. Others claim that with improved weather country offerings will be renewed and arrivals enlarge. The market was strengthened to some extent by small receipts here and through the West, and liberal reduction in local supplies the past week. Receipts were only 1 089 cars, as compared with 1,619 cars for the corresponding week in 1903. Routine statistics too were looked upon as favorable to holders. World's shipments last week were 4,034,000 bu; previous week 3,276,000 bu; year ago 5,107,000 bu. The quantity on ocean passage decreased 118,000 bu to 15,242,000 bu, compared with 16,900,000 bu one year ago. The visible decreased 103,000 bu, while last year there was an increase of 230,000 bu. Total now 6,174,000 bu, against 7,448,000 bu in 1903, and 5,836,000 bu same date in 1902. Local public stocks increased 67,000 bu, to 2,764,000 bu, compared with 3,697,000 bu last year. Stocks here in all positions 5,345,000 bu, decrease last week 511,000 bu. Stocks a year ago 8,627,000 bu. Contract stocks increased 39,809 bu last week, and now include 2,753,.10 bu, against 2,359,865 bu one year ago. *Bradstreet's* available supply decreased 32,000 bu, compared with 444,000 bu increase for the same week in 1903. At the decline and around 48c for July and 48⅛@48½c for September, the demand improved, "bull" interests giving the market good support, the former selling to 49⅝c and latter to 49¾c. The bulge in Wheat was something of a help and "shorts" covered freely. December and May, however, did not sympathize fully with the strength in the nearby deliveries. Shipping operations were of moderate volume the past week, though the lake rate remained at ¾c. The foreign demand was slack, and bookings at the seaboard were meagre. Exports this week were reported at 575,000 bu, as compared with 1,402,000 bu for the corresponding week in 1903. Argentine shipments were large at 2,700,000 bu and the total since Jan 1 foots up 30,213,000 bu, compared with 20,382,000 bu corresponding period in 1903. The Buenos Ayres *Standard* of June 5 said: "Consignees of Corn are holding out for higher prices and a rise in this Grain is anticipated. The Corn crop this year is exceptionally good. The quality was never better. The great quantity of fresh virgin soil laid down with this Grain is responsible for the excellent quality of the seed offered." The demand for car lots was fair and the offerings moderate this week. Prices were irregular, depending on quality as will be noted in the table on the opposite page. Transfers of contract Corn from private to public elevators continues quite liberal, but the aggregate smaller than last week.

OATS—Were traded in fairly at a higher range of prices. July led the advance and was in a stronger position. It was sparingly offered and "shorts" found it rather difficult to cover. On the advance "longs" took profits. The range was 38¾@40c and closed steady at 39½c, a net gain of 3⅛c. Distant futures sympathized to a fair extent. September sold between 31¾@32⅝c and closed at 32⅜c, losing ⅛c. A moderate interest was taken in the May at 33⅞@34¼c, with the close at 34⅛c. Crop reports on the whole were mostly favorable, outside of the Missouri Valley, where there has been damage by rust and floods. Harvesting has progressed favorable and good weather is needed to enable its completion and an early movement if there is to be any Oats brought here for July delivery. The Government monthly report gave the condition July 1 at 89.8, compared with 89.2 in June and 94.3 in July last year. The estimated yield is 820,000,000 bu as figured by States, Iowa and Illinois having the largest yields. The latter 117,000,000 bu and the former 122,000,000 bu. A good cash demand developed and Standard Oats sold part of the week at 1¼@1¾c over July in store. So far there has practically been no deliveries on July contracts and none are expected until the closing days of the month. Prices in the sample market advanced ¾c@1½c. Receipts were 528 cars against 1,154 cars last year. Export clearances 159,000 bu, against 141,000 bu last year. Contract stocks decreased 61,000 bu and were 357,000 bu at the close of last week, but are down to about 195,000 bu now. Stocks in all positions decreased 200,000 bu and were 1,096,000 bu. The visible supply increased 91,000 bu and is 4,437,000 bu, against 4,316,000 bu last year.

RYE—A firm feeling has existed during the past week, and, while there has been so little doing that it has been almost impossible to establish market quotations, yet an advance of 3@4c was shown. There has been a fair demand and the offerings have been light. The few cars of fresh arrivals were taken up readily by millers and for local manufacturing purposes, and for choice buyers had to bid up prices in order to secure the offerings. The rainy weather, it was claimed, has interfered with harvesting and delayed the movement of new Rye. This, together with the advance in other speculative markets, brought about the advance. Some "shorts" evidently out, who became a little uneasy over the situation, and were anxious to cover on account of the limited supply. But altogether there has been so little doing that the market was void of any special interest. The receipts for the week were 7 cars. The visible supply was 815,000 bu, against 816,000 bu the previous week and 595,000 bu the corresponding week a year ago. Local stock 152,000 bu against 163,000 bu a year ago. No 2 in store was nominally 63@65c early and 70¼c at r. Fresh receipts free on board sold at 69c. No. 3 fresh receipts free on board sold at 60@67c and No. 4 at 50@57c. For future deliveries of No. 2 Rye the market was quiet. July nominally 62@63c early and at the close sold at 70¼c. September sold at 56@58½c.

BARLEY—The market ruled steady. There was no essential change in prices. Transactions were on a small scale. Offerings were light, limited to a few cars of the different grades. A moderate demand existed; it was not large, and yet there were some buyers. All grades were taken. Since quantity on sale was small everything offered was salable. Some small lots to arrive were offered. They met with bids, but such bids were

got always up to the prices asked. There has been nothing important in way of crop news, and from what reports have come to hand the outlook for the present is regarded as favorable. There were inspected in during the week 32 cars. There was no output and no exports reported. Visible supply increased 113,000 bu. with, 1,348,000 bu reported against 467,000 bu a year ago. Local stock did not change, reported as 72,317 bu, compared with none last week and 1,000 bu. year ago. Prices during the week were over a range as below: Screenings were quoted at 28@33c for poor to choice. Feed Barley, common, dirty or musty down to 40@43c; fair to good malting, 45@47c; choice malting, low grade, was quotable at 38@40c; fair to good, sound, 42@45c; good color, 46@50c, and fancy above.

SEEDS—There was a steady market for Grass Seeds. A scarcity of cash lots prevented trade. There was some speculative interest in Timothy, and there were a few trades. Flax was firm, very little was done, and yet prices partook of some improvement.

Timothy—Very little was done. A few cash lots came on sale. Some of this Seed was very good and some was common. Consignments were taken, though demand was slack. There were evidences of at least a steady market. New-crop Seed also arrived, but only a few cars were sold. No special change occurred. Usually buyers and sellers were apart, but when they got together to a trade it was usually at about one figure It was at $2.15 the early part of the week. Some buyers or others often would go up, and bids would go down, and then they might come together again. There has been nothing important in the way of crop news. Some advices were rather cheering and others good. Nothing was heard from the country of such importance as to awaken much interest or cause any change. Contract old Seed, spot or July delivery, was nominally $2.05. Country lots had a quotable range of $2.00@2.75 for low grade to fancy, choice about $2.65@2.70, fair to good Seed at $2.30@2.60, and rough at $2.30@2.45. Movement the past week, with comparisons, was as follows:

Receipts the past week, lbs.	380
Corresponding week last year	256,011
Shipments the past week, lbs.	38,930
Corresponding week last year	61,020

Flax—There was a firm market, but at the same time little business was done. Late in the week prices for old Flax advanced: there was about 3c improvement. The advance was due to higher prices prevailing in the Northwest, and also to a turn have been influenced by several recent advances in the price of Oil and Cake. The market was almost entirely bare of offerings. Besides reduced acreage in Northwest there has been rather too much wet weather; these conditions did not affect new crop Flax materially. Foreign markets have been stronger, but there was no margin to export on. Stocks last week decreased about 100 bu; that was not much in view of large stocks in sight. Chicago stocks remained unchanged—1,874 bu, compared with 67,291 bu last year. Minneapolis showed 73,383 bu reduction and 110,654 bu remained there. At Duluth there was 64,000 bu increase, with a stock of 6,000,000 bu reported. On the first of the month stocks at various points, compared with a year ago, were as follows:

	1904.	1903.
Chicago, bu	1,874	67,291
Duluth, bu	5,936,000	9,033,454
Minneapolis, bu	213,397	721,045
Total	6,167,771	3,742,390

During the week 16 cars were received and 22,000 bu were taken out. No. 1 cash Flax advanced nominally from $1.16 to $1.17; No. 1 Northwestern from $1.17½ to $1.20. Rejected quoted nominally $1.05@1.11 early to $1.09@1.14 later. July quoted at the opening at $1.12, and later at $1.15. September was nominally $1.03@1.14 early, and later $1.14 bid. Market closed at outside prices.

Oleo—Has remained inactive and nominal. There were no spot offerings. From the nominal quotations given and the few comments heard there seemed to be a steady undertone. Quotations during the week were over a range as follows: Contract spot, prompt shipment $10.01@10.01; entry lots, common to choice, $7.00@10.25; fancy above; mixed with Buckhorn or other Weed Seeds, $6.00@8.00; poor, cleaned out of Timothy, very foul, down to $3.00@5.00. Pair or choice, $8.25@9.25. Movement during the week compared with a year ago was as follows:

Receipts—The past week, lbs.	33,300
Corresponding week last year	31,150
Shipments—The past week, lbs.	1,850
Corresponding week last year	2,140

Other Seeds—There was no trading. The market was without offerings, also devoid of demand for late sowing Seeds. There were no quotations for Hungarian and Millets. A little Mustard was sold within the range of former quotations. Buckwheat also has become about nominal. What quotations there were are in the table elsewhere given. Movement the past week, with comparisons, was as follows:

Receipts the past week, lbs.	16,300
Same time last year	16,300
Shipments the past week, lbs.	242,850
Same time last year	9,430

HAY—The receipts for the week were 3,479 tons, against 5,081 the previous week. Arrivals by shipments for the week were 107 tons, against 235 tons for the previous week. The demand for choice grades of Timothy and Prairie Hay was quite good during the past week. Offerings were light, prevailed, and prices advanced 50c per ton. Arrivals were small. Low and medium grades were in large supply, and the demand was fairly active from all sources. The market rule I dull, and receivers experienced considerable difficulty in disposing of consignments. Prices declined 50@$1.00 per ton for the week. Quotations on Timothy and Prairie Hay ranged as follows: Choice Timothy, $13.50@14.00; No. 1 Timothy, $12.00@12.50; No. 2 Timothy, $10.50@11.00; No. 1 Timothy, $8.50@10.00. Choice Prairie, $11.00@11.50; No. 1 Prairie, $10.00@10.50; No. 2 Prairie, $8.00@9.00; No. 3 Prairie, $6.00@8.50; No. 4 Prairie, $6.00@7.00. Inside prices on Prairie Hay for State and outside Kansas, Nebraska and Iowa Hay. Sales ranged at $10.50@11.00 for No. 1 Timothy; $9.25 for Clover Hay; $6.00@7.00 for Slate, and $12.00@13.00 for Iowa, Nebraska and Kansas Prairie Hay. Rye Straw sold at $6.00@6.25 for No. 1, and Oat Straw at $3.00@3.50.

COUNTRAGE—Not much business was transacted in Countrage during the past week, and the feeling was steady. Offerings were only fair, and the demand from all the sources was limited. The duties of the packing houses employees interfered with the market, both on local and outside account. Offerings were not large, and sellers were inclined to grant concessions. Ash Pork Barrels were in small demand and ruled easier at 90c. Oak Pork Barrels were in light request and prices nearly nominal at $1.05@1.10. Oak Tierces were in small demand and dull, with a little pressure to sell. Prices favored buyers, and closed at $1.20@1.25. Iron bound Cedar Tierces were quiet and quotable at $1.10@1.12½ for six hoop and $1.15@1.17½ for eight hoop. Oleo Tierces are used for moderately, and quotable at $1.17½@1.20.

HOGS—Owing to the strike of packing employees the aggregate supply fell below the estimates. The quality was rather good. Packers purchased rather freely, early in the week, but after the inauguration of the strike, the leading houses virtually withdraw from the market. Shippers provided for fair orders from the Eastern markets and this feature, in connection with the increased demand from local butchers, absorbed the limited receipts and tended to maintain prices. Early in the week the feeling was rather easy, and prices ruled 5@10c lower especially on the poorer grades. Toward the close the feeling was stronger, owing to the limited supply, and prices rallied 20@25c on the week's close, but toward the close receded again 5@10c, and the market closed rather steady. Sales during the week were made at $5.05@5.60 for light, $5.00@5.30 for rough packing, $5.30@5.65 for mixed, and $5.35@5.65 for heavy packing and shipping lots, with the bulk of the trading within the range of $5.15@5.55 for fair to good averages. As the close about 5,000 Hogs remained in the pens unsold. Pigs were made crate demand, and sold at $4.70@5.50 according to size and weight. Receipts of Hogs at the other large Western packing points were only moderate and the quality fairly good.

PACKING—A comparatively light business was reported in the packing circles during the past week, packers purchased only a limited supply of Hogs. Manufacturers of Products was moderate. Mess Pork neglected, and very small quantities of other cuts made. Lard produced moderately, a few cars were sold, and prices generally placed in Tierces. Smoked Hams and Hams made sparingly, and Skinned Hams made made moderately, with the bulk cured by packers. Foreign cuts of Hams and Shoulders made in limited quantities. Picnic Hams ruled moderately, and only a small proportion sold from the block. Long Clear Sides and Extra Long Clear Sides were neglected. Short Clear Sides made in very limited quantities. Extra Short Clear Sides made sparingly. Short Rib Sides cut in moderate quantities. Extra Short Rib Sides made in small quantities. Rough Side Bellies made moderately, and chiefly of light and medium averages. Backs and Bellies made in limited quantities. Plates and Butts made sparingly. Loins cut in moderate quantities. Foreign fancy and special cuts of Meats neglected.

PROVISIONS—Considerable interest was manifested in the market for Hog Products, and the volume of business was large. Speculative trading was mainly in September contracts. Outside orders were moderate, and local trading was fair. The strike of the packing house employes attracted some attention, but had only a limited influence on the market. The receipts of Hogs were small at all the leading packing points, as shippers were advised to hold back their Live Stock in view of the labor troubles. The movement of the packing of the West for the week compared with corresponding week in 1903, exhibited a decrease of 180,000 Hogs. Prices of Hogs were slightly lower early in the week, but rallied considerably toward the close as the supply was not sufficient to meet the demand of shippers, though increase figures were also reported in place. Foreign markets were quiet early in the week, but firmer again toward the close with prices in Liverpool market advanced on the leading articles. Domestic markets were rather quiet. One-half of the $16,000,000 City of Philadelphia 3½ per cent thirty-year bonds, which were awarded to a syndicate at 101.03, it is understood, have already been disposed of at about 102.

Bank Clearings of the leading financial centers of the United States for the past week aggregated $2,121,061,393, a decrease of 1.7 per cent compared with the corresponding week last year.

A group of Chicago and Western capitalists have organized the Cieneguita Copper Company, with a capital of $10,000,000, to develop a group of ancient Copper mines in Sonora, Mexico.

For the six months ended June 30, 132 mining and metallurgical companies report dividends amounting to $64,893,176, a decrease of $16,152,776 as compared with the corresponding period of 1903.

The Illinois Auditor of Public Accounts at Springfield has asked the State banks to furnish him with the usual statement of their profits, dividends and similar items for the year ended June 30.

Nebraska Grain men say that State will not have over 35,000,000 bu of Wheat. Last year it raised 42,000,000 bu. The damage this year is in the South Platte. In the North Platte the crop is above last year.

The Batavian Bank of La Crosse, Wis., has been merged into a National Bank, and has increased its capital stock from $200,000 to $400,000, with $100,000 surplus, making it the largest bank in Wisconsin outside of Milwaukee.

A general reduction of wages in the Cotton mills of Fall River, Mass., it was practically settled, Tuesday, would be ordered, to take effect July 25. It is expected the proposed reduction will average 12½ per cent. More than 25,000 operatives will be affected.

The Boston and Maine Railroad Company has declared the regular quarterly dividend of 1¾ per cent on its common stock, payable Oct. 1 to stockholders of record Sept. 1, also the regular semi-annual dividend of 8 per cent on the preferred stock, payable Sept. 1 to stockholders of record Aug. 15.

William Treadway of St. Louis, representing Chicago capitalists, will erect an independent Glucose plant in Peoria to oppose the Corn Products Company. Mr Treadway was identified with the Peoria Cereal Company for several years. Thirty thousand bushels a day is the capacity of the proposed house.

The Minneapolis and Rainy River Railway Company, capitalized at $1,000,000 and with headquarters in Minneapolis, has filed incorporation papers with the Minnesota Secretary of State. The line of railway of the company is to extend from Minneapolis to a point on the Rainy River in Itasca County. From there a branch is to go Northwest to the Big Fork River.

The United States geological survey sends out the following preliminary statement, subject to revision of the value of the production of the following minerals and other substances in the calendar year 1903: Pig Iron $344,350,000. Iron ores $66,356,001. Salt, $5,160,196; Phosphate rock, $2,960,824; Coke $66,459,623. Bituminous Coal, $351,094,209. Anthracite Coal, $152,036,448.

The Cincinnati, Hamilton and Dayton-Pere Marquette consolidated system has placed rush orders for 5,000 freight cars and forty locomotives in order to meet the demands of the increased traffic which the consolidation is expected to bring. The cars will be built by the American Car and Foundry Company, while the American Locomotive Company has received the order for the engines.

Judge Platt in the United States District Court at New York, Thursday, handed down an opinion confirming the report of Special Master John A. Shields in the case of George Westinghouse, Jr., and others representing the Westinghouse Company against the New York Air Brake Company and others. The decision holds that the Westinghouse firm is due $128,397 for an infringement of patents.

The postal receipts of Chicago in June were 8.21 per cent greater than in the corresponding month last year. In June, 1903, the postal receipts in that city amounted to $785,515, and in June this year they amounted to $850,066. The increase in New York was only 5.9 per cent, and in Philadelphia less than 1 per cent. The highest rate of increase in the whole country was in the postoffice at Peoria, Ill., where it was 21.23 per cent.

The business of the United States Steel Corporation for the present quarter opens better than expected. The curtailment in production is not as heavy as predicted, and consumption is larger than expected. An interest closely identified with the United States Steel Corporation says: "It is the present intention of the board of directors to declare the regular 1¾ per cent on the preferred stock. It has been more than earned and will be paid." The directors will meet July 26 to declare the dividend for the quarter ending June 30.

Judge Lochren in the United Circuit Court of Minnesota has handed down a decision holding that the Twin City Rapid Transit Company has a right to build lines on all streets in St. Paul, except a few on which it surrendered the right on the condition that no other company would be allowed to construct lines on those streets. The decision is decidedly in favor of the Twin City company and permits it to go ahead with the construction of its proposed extensions, which had been held in abeyance while the litigation was pending.

Beerbohm of July 5 says: "Our Naples correspondent writes (July 2) that no official estimate of the Italian Wheat crop will be issued until after the harvest. Meanwhile, in South Italy the first threshings disclosed a much poorer crop than last year, with a certainly inferior quality. In the north of Italy the outlook was fairly favorable, except in the province of Venice. This unfavorable crop outlook, on the whole, had caused millers to buy much more freely. The net imports of foreign Wheat in the ten months ended May 31 were about 24,800,000 bu, against 40,400,000 bu last season."

The *Southwestern Grain and Flour Journal*, which estimated the Kansas Wheat crop at 70,000,000 bu May 15, in a message, Friday, gave that State 60,000,000 bu. Nebraska is estimated at 31,000,000 bu, Oklahoma 14,000,000 bu, and the three States 105,000,000 bu. It says: "With continued storms this may be cut down considerably in quantity and suffer much impairment in quality. Present conditions are for 40,000,000 bu less for the three States than last year. Quality will range from very low grade to good milling Wheat. The Southwestern crop will nearly all go on consignment on account of impairment and uncertain conditions."

The Comptroller of the Currency has declared dividends in favor of creditors of insolvent national banks as follows: A first dividend of 40 per cent in favor of creditors of the First National Bank of Macon, Ga., on claims proved amounting to $555,620; a second dividend of 10 per cent in favor of creditors of the Indiana National Bank of Buffalo, N. Y., making in all 20 per cent on claims proved amounting to $599,007; a fourth dividend of 5 per cent in favor of creditors of the City National Bank of Buffalo, N. Y., making in all 80 per cent on claims proved amounting to $3,318,673; an eighth dividend of 3 per cent in favor of creditors of the American National Bank of Baltimore, Md., making 100 per cent on claims proved amounting to $304,630.

Current orders for railroad cars are on a smaller scale than they were even three months ago. In connection with the small business, competition is somewhat keener than it has been. The consequence of this is that what business is being placed shows but a small margin for profits. In view of the continued dullness in the car business there is renewed talk with reference to reducing the dividend on Pressed Steel common stock. Action on this dividend will be taken the latter part of the month. It is stated that the directors of the company have not yet given the question of changing the dividend rate any consideration, and indications are that the matter will be rather uncertain until formal action is taken by the board. The common stock is now receiving dividends of 1 per cent quarterly.

The plan for the merger of the National Lead Company and the United Lead Company has been completed and only awaits the formal approval of the parties interested. The matter will come before the directors of the National Lead Company at their next meeting to be held on July 21. The general opinion of officials of both companies is that the plan will be approved. After the approval of the directors it will be subject to ratification by the stockholders of both companies. Under this plan the National Lead Company, for the purpose of absorbing the United Lead Company, will increase its capital stock by $10,000,000, half preferred and half common. The present capitalization of the National Lead Company is $30,000,000, so that the new concern will be capitalized, if present plans mature, at $50,000,000, and will bear the name of the National Lead Company.

Following is a New York view of the Chicago traction situation: "The reports from Chicago to the effect that the Chicago city authorities will offer for sale the traction rights on certain streets now occupied by the Chicago Union Traction are not taken very seriously by New York interests in that company. The Union Traction side of the matter is presented about as follows: 'Nothing can be done until the decree of the court on the ninety-nine year act is filed. That decree will specify what streets we are entitled to under the ninety-nine year act and to what sections our claims under the decision as to the validity of that act have been disallowed and our only rights are such as may exist under extensions of franchises granted by the city authorities. The lawyers are now working on the decree, and we expect to have it filed before very long. We will accept all we get under the decree and then fight for what we want in addition. Assuming that the decree as drawn up is approved by the court, we will be in a strong position. We have obtained practically all we want, and Chicago city officials know that. Meanwhile they are playing a game of politics, but that will not affect the final outcome.' "

On April 30, 1904, the American Car and Foundry Company had a working capital of $14,6.7,156. In order to make this capital earn sufficient to pay $1,089,016 for repairs and renewals, or the same amount that was paid for these purposes in the last fiscal year, also 7 per cent on the preferred stock, equal to $2,100,000, and 3 per cent on the common, or $900,000, the total profits will have to be $4,089,016, which would be equal to 28 per cent of the company's working capital. Below is a statement of the company's working capital at the close of each fiscal year, heretofore, and its profits in the year following:

	Working capital.	Profits ensuing year.	Per Cent.
1900	$ 8,666,484	$5,015,393	58
1901	8,574,229	5,503,928	64
1902	10,552,364	8,441,030	80
1903	13,669,685	5,585,879	40
1904	14,027,157	....	....

There are those who believe that the Car and Foundry management will be able to make its large working capital sufficiently productive to show at least 3 per cent on the common stock during the current fiscal year, and if crops are good it is believed that considerably more than 3 per cent will be earned.

REVIEW OF TO-DAY'S MARKETS

FLOUR—Market is reported quiet. Demand moderate and little doing in way of export Prices firm.

WINTER WHEAT—Was in good milling demand and market steady. The No. 2 Red in store is practically held off the market and useless to give quotations, some parties quoting $1 17@1 25, but no transactions at anywhere near these figures occurred New fresh receipts free on board quotably about $1 00@1 01, with sale of a car at $1 00. No 3 Red fresh receipts quotably 97c@$1 01, with sale at $1 01 No 2 Hard fresh receipts free on board entirely nominal at 95@98c No 3 Hard fresh arrivals free on board quotably 89@95c, with sales at 94c

SPRING WHEAT—Was in fair demand and firmer It was difficult to establish quotations, as there was little doing and so little Wheat coming No 1 Northern in store nominally $1 03½@1 06½ and fresh arrivals quotably $1 00@1 06 No 2 Northern fresh receipts nominally 98c@$1 01 No. 3 Spring fresh receipts quotably 88@98c, with a car selling at 95c. No. 4 Spring ranged at 68@90c for poor to choice

REGULAR WHEAT—Just a fair trade, the market being rather nervous, but at the same time displaying a firm undertone. Closing prices showed gains of 1⅛c to 1¼@1⅜c Foreign news was construed as "bullish" and statistics generally favored holders. Local sentiment leaned to the "long" side and floor traders were quite prominent on the buying side, as was also the Southwest The stronger cables, statistics and rains in the Northwest were the early "bull" helps, the Dardanelles incident and drop of ½ point in British consols also acting as stimulating factors The map showed rains general in the Northwest, heaviest at Moorehead, 1 60 inches, 1,14 at Duluth, and .42 at Bismarck; also rain in the Canadian Northwest, 1 inch at Winnipeg. Clear West and Southwest. Fair weather predicted for Kansas and Missouri. Liverpool quoted spot ½@1½d higher and futures ¼@1¼d better. Stocks there, 3,296,000 bu, decreased 16,000 bu last week. London was ¾@1¼d higher. Paris was 1¾@2½c higher, Antwerp advanced ⅝c Berlin and Buda Pesth were 1¼c higher. Cargoes on passage were up 3d and English country markets strong and 6d higher. The London *Times* was reported out with a "bullish" report on the Russian crop outlook, and indirectly helped values early in the day. Foreign buying of December was also reported here. Kansas City wired that elevator firms there reported that new Wheat was being quite generally consigned on account of irregular quality. World's shipments were 6,808,000 bu, against 6 968,000 bu previous week, and 10,570,000 bu one year ago Quantity on ocean passage decreased 3,280,000 bu to 40,256,000 bu, compared with 28,840,000 bu one year ago The visible decreased 759,000 bu, compared with 1,244,000 bu decrease one year ago. Total is now reported 12,719,000 bu against 13,067,000 bu in 1903, and 28,415,000 bu in 1902 Local public stocks decreased 79,000 bu to 1,118,000 bu, compared with 1,549 000 bu one year ago. Primary receipts were 131,000 bu smaller than last year, though Northwest cars were 136 larger Kansas City and St Louis received 140,000 bu, against 394,000 bu one year ago Exports were small and only 11 boat loads accepted at the seaboard. Kansas City received 110 cars to-day and St Louis 120 cars. Cash values in Southwest reported about 2c lower Good reports on yield were reported coming in from around Lincoln, Neb Webster City, S D, wired: "Crops around Ordway ranch and south from Aberdeen deteriorating on account of drouth and excessive heat of last week Plant is so late and tender that it cannot stand high temperatures which usually prevail this time of year. Do not think will have as much Wheat as last year." Minneapolis wired: "Did not see a poor field of Wheat in the territory I covered south of Fargo. Wheat too far advanced to be damaged by rust." Another said: "Was out through Wheat fields all last week. There are no signs of rust With favorable weather the territory I covered will give a large crop." St. Louis wired: "Weather conditions perfect. Reports from country regarding Wheat improving daily Thrashing in full force We have reports from a great many stations in Minnesota, North Dakota and South Dakota, and fail to get any damage reports from hot weather from any of these stations. The hot spell is just what is wanted." Market late in the day was affected by the better domestic crop news. Minneapolis reported stocks decreased 140,000 bu past two days. Receipts at Duluth 30 cars and at Minneapolis 329 cars, a total of 359 cars, against 217 cars Saturday, 301 cars a week ago, and 223 cars last year. Local receipts included no cars Winter, no cars Spring, 1 car mixed, a total of 1 car, against 82 cars last year. Included in the above were no cars contract grade. There was 3 cars and no bu taken from unlicensed elevators. The estimated receipts for tomorrow are 25 cars. Withdrawals to-day were 2,250 bu. Receipts at Western points were 513,717 bu, against 644,911 last year. At Eastern points 107,860 bu, against 255,359 last year Shipments from Western points were 229,173 bu, against 275,970 last year, and from Eastern points 41,059 bu, against 88,611 last year. Shipments of Flour were 10,601 brls. Exports of Wheat in Flour were equal to 82 763 bu

JULY—Sold at 39¾@40c Opened at 39⅞c to 40c, sold to 39¾c to 39⅞@40c at close

SEPTEMBER—Sold at 32⅝@33c Opened at 32⅞c to 33c, sold to 32⅝c, to 33c, to 32¾c at close.

DECEMBER Sold at 33⅛@33½c Opened at 33⅜c to 33½c, sold to 33⅛c, to 33⅜c, to 33¼c at close

MAY—Sold at 34½@34¾c. Opened at 34¾c, closed at 34⅝c.

RYE—The market was stronger and prices for July were 5c higher bid than Saturday, with sales of 75,000 bu cash in store at 71c This is the first sale of any round lot in store Rye for many days, Prices for July have been bid up 18c per bu from low point a few weeks ago and scarcely any transactions occurred during this interval. There are really no receipts, and if there are "shorts" they evidently feel anxious to cover The visible supply decreased 35,000 bu and local stock increased 2,000 bu. Fresh arrivals of No. 2 free on board entirely nominal and No 3 quotably about 58@68c

Future Deliveries of No. 2 Rye—Quiet and higher. July 75c bid, which is 5c above Saturday's bid price, and 78c asked September sold at 58½c and closed with 59c asked.

BARLEY—The market was in a nominal state. It is difficult to tell much about values. Only a very little Barley on sale, and buyers very scarce also. The season for old Barley is practically over. All are disposed to wait while the weather is so warm and until new Barley begins to come in, which will be but a short time. Receipts were 6 cars Only a small decrease appeared in the visible, which stock is much larger than a year ago A few cars of Screenings were sold at 30@35c, and a sale of Barley was made at 43c Outside of these few transactions there was an entirely nominal market, and according to recent quotations, there being nothing to indicate a change, values were quotable as follows Screenings at 28@38c for poor to choice. Feed Barley, common, dirty or musty down to 30@33c; poor heating sold at 29c; sweet, good color, thin, at 35@38c. Malting, low grade was quotable 38@40c; fair to good, sound, 42@45c; good color 48@50c and fancy above

SEEDS—The day passed without transactions. The market was bare of offerings of all kinds. As a rule so far as could be judged from the very little to be learned about the market there was a generally steady feeling.

Timothy—Was inactive and nominally unchanged. September had a nominal quotation of $3 20 No cash Seed was offered Contract old Seed, spot or July delivery nominally $2 95 Country lots quotable at $2 00@2 75 for low grade to fancy; choice about $2 65@2 70, fair to good Seed $2 50@2 60 and rough at $2 3 @2 45

Flax With the exception of Northwestern cash Flax being salable at ½c advance, there was no change whatever in the market and this improvement was due to the Northwestern market being again improved. There were no transactions. Local receipts were 4 cars or 3,400 bu and none taken out Minneapolis receipts 46 cars and Duluth got 23 cars Local regular stock remained unchanged it was given as 18,374 bu, against 16 281 bu a year ago No 1 Northwestern or No 1 from the Northwest salable at $1 21, bag lots at a discount. No. 1 was salable at $1 15 Rejected about $1 10@1 14, depending on quality. July salable at $1 15 and September was $1 15 bid.

Clover—There is no Clover coming on sale. Contract spot Seed about $10 75@11 00 Country lots common to choice, $7 00@10 25, fancy above, mixed with Buckhorn or other weed Seeds, $6 00@8 00, poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good $8 75@9 75

Other Seeds—No offerings, nominally unchanged. Hungarian and Millets, no quotations at present Buckwheat quotable at $1 55@1 60 for good. Mustard at 90c@$1 10, poor down to 50@60c

HOG PRODUCTS—Trade in Hog Products was on a moderate scale Offerings were fair, and the demand was not very large Hogs were in moderate supply and higher which with the strength in Grain, encouraged a little buying early, and prices ruled somewhat higher After the early orders were provided for, the market ruled easier, and prices receded moderately, and the market closed steady Trading light during the latter part of the session, with September contracts attracting most attention. Outside orders light Receipts of Hogs at the leading Western packing points were estimated at 29 300 compared with 29 000 one year ago Foreign markets were firm and Backs and Cumberland Sides were advanced 6d Domestic markets were quiet Receipts of Products were fair of Lard and Meats about 19 cars Shipments were unusually small of Lard and Meats about 44 cars Demand for shipment was fair, and offerings were moderate Sales were rather light, owing to the difficulty in getting property loaded on cars Prices well maintained Exports for the week, compared with the corresponding week in 1903, exhibited decreases of 1,890 brls Pork and 619 000 lbs Lard, and an increase of 694 boxes Meats

Mess Pork—Trade was moderate in Mess Pork, and the feeling was somewhat unsettled Offerings were moderate, and the inquiry was only fair Early, the feeling was stronger with moderate miscellaneous buying and prices were advanced 12½@15c on the whole range Later an easier feeling was manifested, and prices settled back 10@12½c, and the market closed quiet and steady Shipping demand was moderate, and offerings rather light Cash lots quotable at $12 85@12 90

JULY—Demand light and offerings were small A few sales made at $12 90@12 92½, and closed nominally at $12 85.

SEPTEMBER—In fair request, and offerings were only moderate Sales were made at $12 90@13 02½ Opened at $13 00 to $13 02½, sold to $12 97½, to $13 00, to $12 95, to $12 97½ to $12 90, to $12 92½, to $12 90@12 92½, and closed steady.

OCTOBER Demand light and offerings were moderate. Sales were made at $12 92½@13 00 Opened at $12 97½, sold to $13 00, to $12 92½, and closed steady.

Lard—Trade was only fair in the Lard market, and mainly in contracts for September Offerings were not very large and the demand was not urgent. Foreign advices were unchanged Feeling rather easy, and prices ruled 5@7½c lower on the whole range, and the market closed quiet around inside figures Trading chiefly local Demand on shipping account was light with no particular pressure to sell. Cash lots quotable at $6 80@6 82½ Loose lots in small request with limited offerings. Prices steady at about 60c discount on September figures. Leaf Lard inactive and prices entirely nominal Neutral in only limited demand with fair offerings Prices quotably steady at $7 12½@7 25 for No 1 and $6 87½@7 00 for No 2

JULY Quiet and quotable at $6 82½

SEPTEMBER—Offerings were fair, and the demand was moderate Sales were made at $6 92½@6 97½. Opened at $6 95, sold to $6 97½, to $6 92½, to $6 95, to $6 92½, to $6 95 and closed steady

OCTOBER Quiet, with small sales at $7 00

Short Rib Sides—Only a moderate business was transacted in Short Rib Sides and the feeling was steadier Offerings were not very large and the demand was fair. Trading chiefly in September contracts Prices ruled 5@7½c higher early in the day, but settled back again 2½@5c, and the market closed steady Shipping demand was moderate, and offerings were moderate. Cash lots quotable at $7 25@7 40 according to weight.

JULY—Quiet and quotable at $7 40.

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, July 5.]

United Kingdom—The rains which fell soon after July came in have been well received, for June was a dry month generally, and the moisture was wanted in many parts not only for Roots and Potatoes, but also for late sown spring crops. Even now the cry is for more moisture, but it is only wanted in light showers alternating with sunshine, for, of course with heavy rains the forward Grain crops will go down. The promise for all cereal crops is maintained, but Wheat prospects are no better; Barley and Oats may yet give full average yields.

Russia—We have had further complaints of drouth in the Southeast. Our cable advice to-day from Eupatoria says that the cutting of winter Grain has commenced and these crops in the South, Southeast and Center are good; Barley is a middling crop, but Oats in some parts are a failure. Our cable does not mention Spring Wheat, but we should be surprised if the crop could be classed higher than middling. Exports last week were smaller and stock returns from southern ports show generally light quantities. Interior markets have lately ruled very firm.

Roumania—The cutting of Wheat and Barley is now becoming general. Our to-day's advice says that people are inclined to raise estimates of the Wheat yield putting the quantity at more than 60 per cent of last year's; the quality is likely to be very variable, especially as concerns weight. Barley is likely to be about 50 per cent of last year's, the color will depend on the weather during harvest. Oats will be a very poor crop of light weight, Rye and Oilseeds insignificant. Corn still requires moisture in some districts, but in others the crop is assured. Very little Wheat is now arriving at the ports or being shipped.

Bulgaria—Reports concerning this crop are still favorable.

Turkey-in-Europe—We hear from Dedeagatch that drouth still prevails there, and the spring crops are damaged beyond recovery.

Hungary—Cutting has commenced and more hopeful views of the likely outturn are entertained, a medium crop being even mentioned.

Argentina—Good rains have now fallen, enabling growers to make steady progress with seeding. Supplies to the ports and shipments are light.

Australia—Further beneficial rains have been reported by cable and mail advices just to hand say that the new crop was getting a capital start on a large acreage. Shipments are light, but more chartering is being done and we may have larger quantities later.

India—After a period of drouth adversely affecting native food Grains, the mons on has given moderate rains, but Indian markets are still very firm. Wheat shipments are large and further good quantities are expected to be put afloat. Our Kurrachee correspondents confirm that the movement of Wheat to their port has been on a very large scale.

France—The weather has continued very favorable for the ripening of the crops and cutting has now been commenced in Central districts, however, reports concerning the crops are decidedly less favorable from the South, Center and Beauce (West Center). In the South, harvest results have proved to be disappointing, and in the other districts mentioned the heads are small and in some cases poorly filled, while the stand is thin. Further north around Paris and in the important northern departments the crop continues to give excellent promise. Prices on country markets have been maintained and in Paris they have advanced.

Italy—The latest official crop bulletin covers the period July 10 to 20 and says that Wheat cutting had then commenced, the weather was too dry for the Corn crop.

Spain—Crop reports are irregular, but it appears that the damage said to have been done by the recent storms was exaggerated.

Belgium—The weather continues fine and crop reports are favorable.

Germany—Since the drouth was broken, the weather has been very favorable for the crops, and prospects for Wheat are considered very hopeful.

North Africa—Our correspondent at Oran (Algeris) reports that owing to damage by fogs and rains, threshing results are rather disappointing and estimates of outturn have been reduced 15 to 20 per cent. Sellers are little disposed to contract ahead and the market is firm.

THE WEATHER CONDITIONS.

Rains general in the Northwest. Heaviest at Moorhead with 1 60; Duluth, 1 14; Bismarck, .42; also raining in Canadian Northwest—1 inch at Winnipeg and .16 at Minuedosa. Clear West, Southwest and in Ohio Valley.

ITEMS OF GENERAL INTEREST.

Fire, Friday, at Duluth, Minn, destroyed property valued at $400,000.

A fire, Thursday, at Overbrook, Kan., caused a loss of $50,000; insurance small.

The Omaha Electric Light and Power Company has declared a semi-annual dividend of $2 50 per share on the preferred stock payable Aug. 1 to stock of record July 20. Books do not close.

The village of Kimball, Mich., including the Kimball & Clark mill, a large stock of Lumber, and nearly every building in the village was destroyed by fire, Friday. The loss is estimated at $75,000.

The National Steel and Wire Company has declared the regular quarterly dividend of 1¾ per cent on the outstanding preferred stock, payable Aug. 3 to stockholders of record at the close of business July 22.

A large Iron and Steel manufacturer says: "If all the railroad companies had retrenched on their purchasing departments as little as the Pennsylvania Railroad Company the large Steel plants would find little ground for complaint of flat times. A large contract for rails for 1904 was given out a year ago on which, I understand, deliveries have all been made."

Deposits of Chicago and Alton Railway Company stocks with the Illinois Trust and Savings Bank and Kuhn, Loeb & Co., closed July 15. While no statement was made as to the amount received, it is known that enough was deposited to enable E. H. Harriman to carry out any plans he may have on foot for transferring the control of the Alton system.

It is reported that the Baltimore and Ohio Railroad will make a general reduction of 10 per cent in clerks and other employes in Philadelphia, Baltimore and other cities east of Pittsburg. It is said the company planned to make the reduction several weeks ago, but postponed action because of unusually heavy shipments of soft Coal from the West Virginia fields.

The Buenos Ayres *Handels Zeitung* says that in common with many merchants, it believes the official estimate of Corn yield (and consequently the estimates of 3,000,000 tons surplus) to be too high. It says it would be well pleased to see exports reach last year's figure of 96,000,000 bu. and thinks it cannot be much smaller than this, although many expect that it will be smaller.

The American Bridge Company of the United States Steel Corporation has secured the contract for one-half the 10,000 tons of structural Steel to be used in construction of the Pennsylvania Steel bridge across the river at Havre de Grace, Maryland. One-half of the contract was given to the Pennsylvania Steel Company. The American Bridge Company is also about closing contracts for 15,000 tons of structural Steel in Chicago.

When the receiver of the United States Shipbuilding Company offer for sale in August all the subsidiary plants of the collapsed company, the whole will be bid in by the Shipbuilding Reorganization Company, of which George R. Sheldon is chairman. The committee will have to pay the upset price of $3,600,000 for the shipbuilding plants and $7,500,000 for the stock of the Bethlehem Steel Company. That has been decided by the New Jersey court.

Dornbusch's Buda Pesth correspondent writing under date of July 2 says: "The Flour market has been inactive during the week in spite of the concessions on the part of millers as buyers are very reserved, probably influenced by the weakening tone on the Wheat market. It is estimated that only about half of the week's production has been sold, both to home consumers and for English and German account, but the prices realized have been unsatisfactory."

"Closed shop" agreements are held invalid, as being class discrimination, monopolistic and as being opposed to public policy, by Judge Ludwig in the Circuit Court at Milwaukee, Wednesday. According to the decision, contracts made by incorporated labor unions with manufacturers, prohibiting the employment of nonunion workingmen, are void. It is the first ruling had upon the question in Wisconsin, and if sustained by the Supreme Court will be of far-reaching importance.

AVAILABLE STOCKS OF BREADSTUFFS.

On the inside pages of this issue of the DAILY TRADE BULLETIN will be found an interesting statement of the Breadstuffs supply in Europe, America and Argentina on July 1. It is very complete. It includes the European and Argentina stocks as collected by Broomhall's *Corn Trade News*, Liverpool, a portion of the visible supply as compiled by the Secretary of the Chicago Board of Trade, the stocks in the Northwest collected by the Minneapolis *Daily Market Record*, returns from about forty points (including Denver and Pittsburg) estimated, with the balance of the report collected and compiled by the DAILY TRADE BULLETIN. An estimate is also given of the Wheat crop of the United States and of the world, which may be of interest to the general trade.

ITEMS OF GENERAL INTEREST.

Export business at the seaboard to-day 72,000 bu Corn.

Deliveries on July contracts to-day were 150,000 bu Corn.

The Liverpool Grain and Cotton Exchanges are closed to-day in honor of the King's visit.

Four packers purchased 2,700 Hogs to-day; shippers, 2,000; left over, 2 500. Market closed steady.

The average cost price of Hogs at Chicago, Monday, was about $5 44, against $5 44 a week ago and $5 57 a year ago.

Local Securities were more actively traded in at a higher for most shares. Can preferred led the activity and gained ½

Estimated receipts for to-morrow: Wheat, 9 cars; Corn, 111 cars; Oats, 147 cars; Rye 5 cars; Barley, 1 cars; Hogs, 7,000.

A Winnipeg dispatch says: "Better weather than has prevailed over the Canadian Northwest for the past five days not needed."

Officials of the Santa Fe road have received crop reports covering Kansas, and estimates the yield of Wheat at 70 000,000 to 75,000,000 bu.

A Minneapolis miller, who has good sources of information, had a report, Monday, from Kansas City, that there would be 60,000,000 bu of good milling Wheat in Kansas.

Cotton in New York was unsettled, with moderate trading. Crop reports were mostly favorable. The buying was by Wall Street. Closing prices were 3@5 points higher.

Stocks in New York were active and advanced sharply. A feature was the comparatively light offerings and good buying support. Western houses sent selling orders early on the heavy rains West, but their Stocks were well taken. Western Railway shares gained ⅝ to 1 point. Steel preferred advanced 1⅛ and lost it. Money, ½ to 1⅛ per cent

Bradstreet's report of the available supply for the past week shows the following changes:

	1904, bu	1903 bu.
Wheat east of Rockies	Dec. 1,290,000	Dec. 1,928,000

A Chicago man writes from Hutchinson, Kan., under date of July 17: "No Sunday here to-day. Farmers cutting and stacking Wheat. The promise of yield was so much better than most of the estimators thought that after the damage from rains is deducted there will still remain about what the Government and others figured there would be at first. Much damage to quality. Weather fine."

The State of Mississippi has just sold $500,000 3½ per cent ten-thirty-year bonds to Chicago, New York and Boston bankers. The State is issuing these bonds at the present time for school funds and other purposes. In 1896 the State issued $500,000 of bonds, which were paid off from the general fund in 1901. With this new issue the total bonded indebtedness of the State is only a trifle over $1,400,000. It is thought the bankers handling the loan will have little difficulty in placing the bonds.

Illinois crop report says: "The harvesting and threshing of Wheat have been seriously hindered by wet weather and considerable quantity has been damaged in shock. Corn maintains a good condition and has made rapid advance. A greater portion of the crop has been laid by and some fields are in tassel. Oats are mostly harvested in central and southern districts with average good yield. In northern districts crop is fast turning ripe and harvest will be general during ensuing week with promising outlook."

Broomhall's weekly foreign crop summary says. "United Kingdom—Hot, forcing weather has continued past week and Wheat is ripening rapidly. The grass is burning up. France Complaints are more numerous from center as harvesting progressing northward. Extreme heat affected the quality. Germany—Weather is hot and dry. The Rye harvest has commenced. Roumania—Threshing returns vary considerably. In some districts the Wheat is of very fine quality, while in others there is much smut. Rain is urgently needed for Corn crop. Bulgaria—Prospects good everywhere. Hungary—Shortage in yield rather less than expected. Russia Interior markets strong and advancing on the indifferent crop outlook. Italy—Crop yield is below expectations. Sweden—Wheat crop promises 70 per cent of normal yield. Crop for the past ten years averages 4,462,000 bu."

WEATHER BUREAU REPORT.

The Weather Bureau weekly crop report, issued at noon to-day, is as follows:

Spring Wheat—As a whole, both early and late sown, has advanced satisfactorily. The least favorable reports are being received from northern Minnesota, where crop on low lands is thin and late.

Winter Wheat—Better weather for harvesting prevailed than in the preceding week, and this work has made generally satisfactory progress, although still delayed by moisture in portions of Kansas and the Ohio Valley. Comparatively few reports of sprouting in shock and of damage by mould are reported this week.

Corn—Has experienced a week of exceptionally favorable weather, and has made rapid growth generally in all directions. Very few unfavorable reports concerning this crop are received.

Oats—Reports of injury by rust continue from the lower Missouri Valley, but elsewhere this crop has advanced favorably. Harvest is in progress in the central valleys and in the Middle Atlantic States, with satisfactory yields.

Cotton—Has continued to make rapid growth throughout the Cotton belt, with the exception of Texas, where, although well cultivated and fruiting nicely, its advancement has been checked by dry weather. Dry weather and abundant sunshine have checked ravages of the boll weevil in Texas.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market is quiet, with only a moderate local and domestic demand. Prices steady.

WINTER WHEAT—Was in good milling demand and market steady. The No. 2 Red in store is practically held off the market and useless to give quotations, some parties quoting $1 15@1 25, but no transactions at anywhere near these figures occurred. New fresh receipts free on board quotably about $1 00@1 03, with sale of a car at $1 03. No 3 Red fresh receipts sold at $1 00@1 01½ for new. No 4 Red quotable at 90@98c for new, with sale at 91c. No 2 Hard fresh receipts free on board entirely nominal at 95@98c. No 3 Hard fresh arrivals free on board quotably 89@95c.

SPRING WHEAT—Was in fair demand and steady. It was difficult to establish quotations, as there was little doing and so little Wheat coming. No 1 Northern in store nominally $1 03@1 04¾ and car lots fresh arrivals $1 00@1 01. No. 2 Northern fresh receipts nominally 98c@$1 00. No. 3 Spring fresh receipts quotably 88@96c, with a car selling at 91c. No. 4 Spring ranged at 65@90c for poor to choice, with sale of a car at 78c.

REGULAR WHEAT—A good trade, but largely in the way of liquidation, lower prices ruling the close showing 1¼c to 2c decline. The better weather, declines in cash values Southwest and prospective lower temperatures were among the "bear" influences and "long" property came out freely, a good many stop-loss orders being uncovered on the decline. July Wheat at Duluth broke 2c and was an early factor. Map showed clear weather and stationary temperatures West, Southwest and through Ohio Valley, much cooler and clear Northwest and decidedly lower temperatures in the Canadian Northwest. Generally fair and cooler conditions are indicated. Prospective larger receipts Southwest was one of the "bear" influences. Kansas City and St Louis received 163,000 bu, against 338,600 bu a year ago. Operators for the time being overlooked the possibility of further European complications owing to the attitude of Russia and the Dardanelles, though British consols were quoted off another ½ point. English war vessels were reported sent to police the Mediterranean Sea. *Bradstreet's* decreased 5,790,000 bu, compared with 2 228,000 bu decrease one year ago and helped to check the decline. The DAILY TRADE BULLETIN annual statement credits the United States with a crop of 610,000,000 bu, and surplus for export of 142 000,000 bu. World's supply 140,000,000 bu to 150 000 000 bu less than last year. Primary receipts were 375,000 bu less than a year ago, though Northwestern receipts were 43 cars more. London futures ⅛@½d higher. Paris was steady to ¼c lower. Berlin and Buda Pesth were ¼c. Continental Wheat stocks July 1 were 16,920,000 bu, June 1, 19,712,000 bu; July 1, 1903, 12,289 600 bu. Local stocks in all positions 2 144 000 bu, a decrease last week of 141,000 bu; stocks one year ago 3,011,000 bu. Contract stocks decreased 20,599 bu, and now include 595,197 bu, against 1 211 527 bu one year ago. Exports were small, and no boat loads accepted for export. Duluth sold 70,000 bu No. 1 Northern; also 5 loads Manitoba direct export. St. Louis wired Toledo was an active buyer of choice Wheat there. Minneapolis wired stocks had decreased 215,000 bu so far this week. Government weekly weather bulletin generally noted satisfactory conditions. Talk of war and further complications in far East failed to impart strength to the market the closing hour. Receipts at Duluth 115 cars and at Minneapolis 151 cars, a total of 266 cars, against 350 cars yesterday, 218 cars a week ago, and 223 cars last year. Local receipts included 7 cars Winter, 2 cars Spring, and 3 cars mixed, a total of 12 cars, against 163 cars last year. Included in the above were 2 cars contract grade. There was no cars and no bu taken from unlicensed elevators. The estimated receipts for tomorrow are 9 cars. Withdrawals to-day were 5,850 bu. Receipts at Western points were 363,903 bu, against 758,662 last year. At Eastern points 129,015 bu, against 179,334 last year. Shipments from Western points were 191,493 bu against 273,259 last year, and from Eastern points 73 375 bu, against 37,548 last year. Shipments of Flour were 11,478 brls. Exports of Wheat in Flour were equal to 125 026 bu.

Future Deliveries of Regular Wheat—Moderate trade and prices lower.

JULY—Old Style—Sold at 96@97¾c. Opened with sales at 97½c to 97¾c; sold to 96⅝c, to 97c, to 96¾c, to 97½c, to 96c and closed at 96c.

SEPTEMBER—New Style—Sold at 87½@88⅛c. Opened with sales at 88½c to 88⅛c, sold to 88⅜c to 87⅞c to 88¼c to 87½c to 88c, to 87½@87⅝c, to 88⅛c to 88c to 88⅛c, to 87⅝c, to 87⅞c, to 87⅝@87¾c, and closed at 87⅝@87¾c.

DECEMBER—Sold at 87⅜@87⅞c. Opened with sales at 87⅞@87½c to 87¼c, sold to 87⅝c, to 87⅛c, to 87⅜c to 86⅞c to 87¼c, to 87c, to 87⅝c, to 86⅞c, to 87c to 86⅞@87c and closed at 86⅞@87c.

MAY—Sold at 88¼@89c. Opened with sales at 88⅝c to 88¼@88⅞c, sold to 88½c to 88⅝c to 88¼c to 89c to 88⅜c to 88½c, and closed at 88½c.

CORN—A very fair trade with the feeling considerably firmer, the close showing July up ⅜c, while the September was ⅜c higher. December closed about ½c higher. The start was easy on the excellent growing weather and break in Wheat. The selling was chiefly local, however, and it soon developed the buying was led by principal "long" interest. "Shorts" in consequence became uneasy and many covered, creating a strong undertone. Buying orders from the West and Southwest were more numerous than for some weeks. Receipts were 367 cars with 33 cars contract, against 383 cars last year when 32 cars graded and 111 cars are estimated for to-morrow. Stocks here in all positions were reported 5 571 000 bu, a decrease last week of 553,000 bu. Stock one year ago was 7 465,000 bu. *Bradstreet's* available decreased 773,000 bu, against 681,000 bu decrease one year ago. Contract stocks increased 30,682 bu and are now 2 792,892 bu, against 3 295 657 bu one year ago. Western receipts 483,000 bu, last year 588 000; shipments 393 000 bu and 593,000 bu respectively. Local arrivals 358 010 bu and 180 000 bu shipped. The weekly crop bulletin stated Corn had experienced a week of exceptionally favorable weather and had made rapid growth. Rain was said to be urgently needed in Roumania. There were 28 cars and 16,150 bu contract switched from private elevators. Local shipping demand quiet and sales 25,000 bu. Exports 184 000 bu and 0 boat loads accepted at the seaboard. Car lots were in small supply and fair demand. Prices were steady. No 2 closed at 49¾c and No 2 Yellow at 50¼c. No 3 closed at 49½c and No 3 Yellow at 50½c. No 4 sold at 47½c.

Corn by sample—Was quiet. Offerings smaller and demand only moderate. Feeling steady and prices without important change. Sales on track and free on board: No Grade sold at 42½@47c. No 4 at 47@50½c. No 3 at 49¼@49½c. No. 3 Yellow at 50½@50¾c. No. 3 White at 49½c. Billed through: No 4 at 47@48½c. No 3 at 48¾@49½c. No 3 Yellow at 49¾@50c. No. 2 Yellow at 49½@50c. No 3 White at 49c.

Future Deliveries of No. 2 Corn—Fairly active and after a lower start rallied sharply and closed ⅛c to ⅜@½c higher.

JULY—Sold at 48⅞@49⅞c. Opened at 49¼c to 49c, and sold at 48⅞c, up to 49⅞c, to 49½c, and closed at 49½c asked.

SEPTEMBER—Sold at 48¾@49¾c. Opened at 49c to 48⅞@49c, and sold at 49⅛c, to 48¾c, to 49⅛@49¼c to 49⅜c, to 49⅛c, to 49½c, to 49⅜@49¾c, to 49⅝c, to 49¾c, to 49½c, and closed at 49½c.

DECEMBER—Sold at 44⅞@45⅞c. Opened at 45c to 45⅛c, and sold at 44⅞@45c to 45c to 44⅞c, up to 45¾c to 45⅝c, to 45⅞c, to 45⅝c, and closed at 45⅝c.

MAY—Sold at 44⅛@45⅛c. Opened at 44⅜c and sold at 44½c, to 44¼c to 44⅜@44½c to 44⅜c to 44½@44⅝c to 44½c up to 45¼c, to 45c, to 45⅛c to 45⅛c, and closed at 45⅛c.

OATS—Were more generally traded in, distant futures receiving the most attention. They advanced ⅜c and closed at about the top. July received less attention and was hard to trade in. It broke ⅝c on a little selling, which met with no resistance, and reacted on moderate buying. Crop reports from around Des Moines Iowa were unfavorable due to a cloud burst laying crop flat. The weather crop bulletin was favorable. Cash business was slow, sales being 30 000 bu. Contract stocks decreased 154,000 bu, and are 302,811 bu. Stocks in all positions here are 726 000 bu, a decrease of 76,000 bu for the week. Arrivals 155 cars with 60 cars expected to-morrow. Withdrawals were 24,425 bu. Seaboard clearances 12,000 bu. Car lots to go to store were steady for good and lower for poor. Standard in store sold at 41¼c, and closed at about that price.

Oats by sample were slow and 2@3c lower for poor lots and steady for good. Offerings, although not large, appeared ample for the demand. Sales on track and free on board: No 4 at 33½@35c. No 4 White at 31@42c. No 3 at 37½c. No 3 White at 40@43½c. Standard at 41c. Billed through: No. 4 at 34½c. No. 4 White at 38½@37c. No. 3 White at 41@42½c. At the river: No 4 at 35c. No 4 White at 32@36c. No 3 White at 38@40¾c. Standard at 41c.

Future Deliveries of Contract Oats—Were active and higher.

JULY—Unsettled. Sold at 39¼@39⅞c. Opened at 39⅞c, sold to 39¼c, to 39⅞c at close.

SEPTEMBER—Active. Sold at 32½@33⅛c. Opened at 32¾c to 32⅞c, sold to 32½c, to 33⅛c to 33@33⅛c at close.

DECEMBER—Sold at 33c and 33⅝@33¾c. Opened at 33¼c; sold to 33c, to 33⅝@33¾c, and closed at 33½@33⅝c.

MAY—Increased trading. Sold at 34½@35¼c. Opened at 34⅝c, sold to 34½ to 35¼c, to 35c at close.

RYE—Ruled firm, with more interest shown in the market. Some trading in both July and September delivery, and one small car of No 4 Rye—the first new Rye received this season sold at 65c. Evidently some "shorts" out and the holders of the Rye in store holding firmly at the present figures. There were three cars received. No withdrawals from store here and no export clearances from the seaboard. No 2 in store quotably 74c and car lot fresh arrivals entirely nominal. No 3 fresh receipts nominally 60@68c.

Future Deliveries of No. 2 Rye—Firm. July sold at 74c, with sellers at that figure at the close. September sold at 59c.

BARLEY—There were a very few sales. Offerings remain small. Barley of good quality was quoted as steady and low grades easy. Some orders for fancy Barley, spot or to arrive on the market, but none such as was wanted was offered. Only 2 cars inspected in. A few cars were sold at 35@36c for Screenings and at 42@45c for Barley. Prices had a quotable range as follows: Screenings at 28@38c for poor to choice. Feed Barley, common, dirty or musty down to 30@33c; poor heating lower, sweet, good color, thin, at 35@38c. Malting, low grade was quotable 38@40c, fair to good, sound, 42@45c, good color 48@50c, and fancy above.

SEEDS—There was some speculative trading in new crop Timothy at a shade better prices. That was all there was done. Bids for Flax Seed were again raised but none was secured. All other ones inactive and nominal.

Timothy—More interest in new crop Seed was manifested, and there was some trading. Transactions were at both 2½c below and 2½c above yesterday's closing, with the market closing unchanged. Nothing was done in old crop Seed for none was offered. This part of the market entirely lifeless and nominal. September delivery opened at $2 17½, sold up to $2 22½, then at $2 20 most of the trading was at $2 20, and the market closed at that sellers. Old Seed, contract grade, spot or July delivery nominally $2 95. Country lots quotable at $2 00@2 75 for low grade to fancy; choice about $2 65@2 70, fair to good Seed $2 50@2 60 and rough at $2 30@2 45.

Flax—There was no trading, but the market was firm. Northwestern prices were up again, and this had its effect here. Offerings of all kinds were absent. Prices to-day exhibit ½@1c advance. Local receipts only 1 car or 850 bu, none taken out. Minneapolis got 9 cars and Duluth 40 cars. No 1 Northwestern or No 1 from the Northwest salable at $1 21½, bag lots at a discount. No 1 was salable at $1 16. Rejected at about $1 11@1 15 depending on quality. July salable at $1 16 and September was $1 16@1 14, held at $1 18.

Clover—Nothing developed. No interest shown. Feeling firm in other markets according to reports at hand and nominally a strong tone here. Contract spot Seed about $10 75@11 00. Country lots common to choice, $7 00@10 25, fancy above, mixed with Buckhorn or other weed Seeds $6 00@8 00, poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good $8 75@9 75.

Other Seeds—Most of the lines usually quoted under this head are now out of season and for that reason there is not much of a market. Hungarian and Millets no quotations at present. Buckwheat quotable at $1 30@1 40 for good. Mustard at $9 75@11 10 poor down to 9 75.

HOG PRODUCTS—Rather a light business was transacted in the market for Hog Products and there was little change to note in prices. Labor troubles at the packing houses have unsettled the speculative and shipping markets. Outside orders were light and local trading was limited. Offerings were small, and the demand was light. Prices were a trifle higher early in sympathy with Hogs but receded again, and closed quiet. Trading chiefly in September contracts. No foreign advices received. Domestic markets quiet. Receipts of Hogs were light and prices higher. Supply at the leading Western packing points were estimated at 30,500, compared with 61,500 one year ago. Receipts of Products were good of Lard and Meats about 23 cars. Shipments were small of Lard and Meats about 12 cars. Very little doing in the shipping branch of the trade. Holders unwilling to sell except with "strike clause" as to loading and buyers are unwilling to accept property under restrictions. Sales light, and prices without material change.

Mess Pork—Trade was moderate and the feeling rather steady. Offerings were not very free, and the demand was somewhat limited. Market opened steadier, and a few trades were made at 2½@5c advance. Later, an easier feeling was developed and prices settled back 5@7½c and the market closed quiet. Shipping demand light and offerings were limited. Cash lots quotable at $12 85@12 85.

JULY—Quiet, with small sales at $12 82½.

SEPTEMBER—Offerings were moderate and the inquiry was rather light. Sales were made at $12 90@12 97½. Opened at $12 95 to $12 95@12 97½, sold to $12 90 to $12 92½ to $12 90 and close steady.

OCTOBER—Demand light and offerings were small. Sales were made at $12 90@12 92½. Opened at $12 92½, sold to $12 90, and closed steady.

Lard—Very little business transacted in the Lard market, and the feeling comparatively steady. Offerings were light and the demand was limited. Prices averaged slightly higher and the market closed quiet. Trading chiefly local. Demand on shipping account was light with no particular pressure to sell. Cash lots quotable at $6 80@6 82½. Loose lots in small request with limited offerings. Prices steady at about 60c discount on September figures. Leaf Lard inactive and prices entirely nominal. Neutral in only limited demand with fair offerings. Prices quotably steady at $7 12½@7 25 for No 1 and $6 87½@7 00 for No 2.

JULY—Quiet and steady at $6 82½.

SEPTEMBER—Offerings were light and demand was limited. Sales were made at $6 92½@6 95. Opened at $6 95, sold to $6 92½, and closed steady.

OCTOBER—Demand light and offerings rather small. Sales were made at $6 97½@7 02½. Opened at $7 02½, sold to $6 97½, to $7 00, and closed steady.

Short Rib Sides—Only a moderate business was reported in Short Rib Sides, and the feeling was easier. Offerings were not very large, and the inquiry was limited. Market opened a trifle steadier, and a few trades were made at 2½c advance, but a weaker feeling was manifested later and prices receded 2½@5c and the market closed steady. Demand on shipping account was light and offerings were small. Cash lots were quotable at $7 25@7 40 according to weight.

JULY—Quiet and quotable at $7 40.

SEPTEMBER—Demand rather light and offerings were not very large. Sales were made at $7 57½@7 62½. Opened at $7 62½, sold to $7 57½ to $7 60, to $7 57½ to $7 60, to $7 57½@7 60, and closed steady.

OCTOBER—Inquiry was light and offerings were small. Sales were made at $7 62½@7 65. Opened at $7 65, sold to $7 62½, to $7 62½@7 65 and closed steady.

Other Meats—Trade was only moderate and the feeling rather steady. Offerings not very large and the inquiry was only moderate. Exporters rather backward and the home demand was only fair. Green Meats in moderate supply with a light inquiry, and prices steady. Pickled Meats in fair request and prices well maintained. Dry Salted Meats were in fair demand with moderate offerings, and prices well maintained. Smoked Meats called for in moderate quantities, and prices were unchanged. Closing prices ranged as follows:

GREEN—Hams, av 10@12 lbs, 9¼@9⅜c, 12@14 lbs, 9½@9⅝c, 14@16 lbs, 9½@9¾c, 18@20 lbs 9¼@9⅜c. Skinned Hams, 11⅛@11¼c. Shoulders, 6¾@6⅞c; Picnic Hams, 7⅛@7¼c. Bellies, 9@11c. Hay—Receipts, 780 tons, shipments, 70 tons. Choice Hay scarce and firm. Offerings small and demand good. Poor Hay very dull. Scarcely any demand and supply large. Choice Timothy quotable at $13 50@14 00. No 1 Timothy at $12 00@13 00. No 2 Timothy at $10 00@11 00. No 3 Timothy at $8 00@10 00. Choice Prairie at $11 00@11 50. No. 1 Prairie at $9 50@11 00. No 2 Prairie at $8 00@9 00. No 3 Prairie at $7 00@7 50. No 4 Prairie at $5 50@6 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay.

Sales were: ON TRACK—Not Graded Timothy—1 car at $8 00, 1 car at $10 50, 1 car at $11 50, 1 car new at $12 00, 2 cars at $12 50, 1 car at $13 50, 1 car at $14 00. Not Graded Prairie—1 car State at $6 00, 2 cars Kansas at $9 00, 2 cars at $10 00, 1 car at $11 00, 1 car at $11 50, 1 car new Texas at $11 50.

FREE ON BOARD AND SWITCHED—Not Graded Timothy—2 cars at $13 50, 1 car at $14 00.

Straw—Rye Straw quotable at $9 00@10 00, Wheat Straw at $6 50@7 00, and Oat Straw at $6 50@7 00.

AVAILABLE SUPPLY OF BREADSTUFFS.

EUROPE AND AMERICA.

Compiled by Broomhall's Corn Trade News, Chicago Daily Trade Bulletin, and Minneapolis Market Record.

SUPPLIES IN AMERICAN FARMERS' HANDS, JULY 1.

The publishers of the DAILY TRADE BULLETIN, near the close of another Wheat harvest year, again take pleasure in presenting to the public their annual statement of the general condition of the trade in Breadstuffs—Flour and Wheat—in America and Europe, accompanied with such statistical data of the prospects of the Wheat crop, and the supplies of Flour and Wheat in second hands on July 1, 1904, as they have been able to obtain. Our corps of correspondents, at the principal distributing points in the United States and Canada, have forwarded us very complete and, we regard, reliable information relative to the general situation of the trade in Breadstuffs on this side of the Atlantic, while our correspondents at the interior points have furnished more than usual complete estimates of the supplies on hand, and the prospects for the Winter Wheat crop being harvested, and the outlook for the Spring Wheat crop nearing maturity. Our European correspondent, who is the special correspondent of the Chicago Board of Trade, has forwarded us the usual full and complete report of the supplies in all positions in that quarter, and in Argentina. An estimate of the quantity of Wheat in farmers' hands in the United States, as reported to the Department of Agriculture, is also given. An estimate is presented of the prospective yield of Wheat in the United States for 1904, and the probable requirements for food, seed and exports during the twelve months ending July 1, 1905. In presenting this estimate for the consideration of the public, and more particularly those directly interested in the Flour and Wheat trades, we especially request that it should be accepted as presented—*only as an estimate*—based on information collected and compiled from returns of correspondents scattered throughout the country. All such reports are estimates, even when reported officially. The general statement is made from an independent and unbiased standpoint, devoid of any speculative and business influences, carefully collected and compiled, and covering a wider range of country than private reports usually do. We respectfully ask that the present statement be received with as much favor and consideration as those which we have presented heretofore.

Foreign Supplies of Breadstuffs.

According to the special cablegram from Broomhall's *Corn Trade News*, Liverpool—correspondent of the Chicago Board of Trade, and regarded as the leading commercial authority in Europe—to the DAILY TRADE BULLETIN, the supplies of Breadstuffs—Flour and Wheat—in second hands in store in the principal countries of Europe, in Argentina, and afloat for Europe on July 1, 1904, exhibited a decrease equal 8,224,500 bu during June, compared with an increase of 3,140,000 bu during May, and a decrease of 2,968,000 bu during June, 1903. The aggregate quantity of Breadstuffs afloat for Europe on July 1, 1904, exhibited a decrease of 7,300,000 bu during June, compared with an increase of 1,590,000 bu during May, and a decrease of 4,480,000 bu during June, 1903. Supplies en route to the United Kingdom were enlarged 270,000 bu, those for the Continent increased 230,000 bu, and those "for orders" reduced 7,800,000 bu. The aggregate supplies afloat for Europe on July 1, 1904, were 12,550,000 bu larger than reported one year previous, and 10,940,000 bu larger than reported two years previous. During June, 1904, the aggregate supplies in store in the principal countries of Europe were enlarged 590,000 bu, compared with an increase of 1,550,000 bu during May, and an increase of 1,844,000 bu during June, 1903. Stocks in the United Kingdom were enlarged 2,460,000 bu, those in France were increased 60,000 bu, those in Germany, Belgium and Holland were reduced 30,000 bu, those in Russia reduced 1,160,000 bu, and those in other portions of Europe reduced 710,000 bu. Stocks in Russia were reduced 700,000 bu during May, and decreased 2,230,000 bu during June, 1903. Supplies in store in Russia are about 1,060,000 bu more than those reported one year ago, and 2,080,000 bu more than reported two years ago. The aggregate stocks in store in Europe on July 1, 1904, were 9,750,000 bu more than reported one year previous, and 13,720,000 bu more than reported two years previous. Compared with the returns of one year ago, the supplies of Breadstuffs in store and afloat for the United Kingdom on July 1, 1904, were 6,070,000 bu more, those for the Continent 3,470,000 bu more, and those "for orders" 13,760,000 bu. The aggregate supplies of Breadstuffs credited to Europe in all positions on July 1, 1904, were 32,300,000 bu more than reported on July 1, 1903, and 14,640,000 bu more than on July 1, 1902. Farmers in Europe have been selling fair quantities of Wheat and Rye, and still have rather good supplies on hand. While the exports have not been quite so free during the past two or three weeks, they have been fairly large for the season of the year. Shipments from Argentina, India, and Australia are quite liberal for the season—in the aggregate, considerably larger than for the corresponding time last year.

Domestic Supplies of Breadstuffs.

The aggregate supplies of Breadstuffs—Flour and Wheat—in the United States and Canada, on July 1, 1904, as compiled by the DAILY TRADE BULLETIN and the Minneapolis *Market Record*, exhibited a decrease during June equal to 11,155,000 bu, compared with a decrease of 14,971,000 bu during May, and a reduction of 13,874,000 bu during June, 1903. The decrease was quite marked throughout the Central West, Southwest, the Northwest, on the Pacific Coast, and in Canada, while there were moderate increases at the Atlantic seaboard and in the extreme South. As the Winter Wheat crop is late in maturing, the receipts were comparatively small, and millers slow to purchase in view of the discount for future delivery in the larger distributing markets. Supplies of Flour in the United States and Canada at the larger shipping and manufacturing points on July 1, 1904, exhibited a decrease of 306,000 brls during June, compared with a reduction of 104,000 brls during May, and a decrease of 150,000 brls during June, 1903. Stocks were reduced somewhat at the Atlantic seaboard markets, and a moderate decrease was reported in most sections of the country. Stocks at the lake ports were materially reduced. Manufacture was only on a limited scale, except at the larger markets. The following table exhibits the stocks of Flour in the principal markets of the United States on the dates named:

	July 1, 1904.	June 1, 1904.	July 1, 1903.
Cities—	Brls.	Brls.	Brls.
Philadelphia	170,000	180,000	90,000
New York	96,500	158,100	70,200
Chicago	39,500	86,800	49,100
St. Louis	46,100	50,450	37,880
Toledo	5,000	6,000	5,000
Baltimore	40,000	43,000	40,000
Detroit	8,000	8,000	6,000
Boston	77,850	83,649	62,800
Milwaukee	51,350	20,000	70,000
Duluth	273,000	472,000	250,000
Total	807,200	1,052,999	685,982

Stocks of Flour at these points were reduced 245,799 brls during June, compared with an increase of 40,597 brls during May, and a decrease of 61,043 brls during June, 1903. The aggregate supplies of Flour at these markets on July 1, 1904, were 121,216 brls more than reported one year previous. Stocks of Flour at the Atlantic seaboard markets on July 1, 1904, were 384,350 brls, compared with 459,749 brls on June 1, and 368,002 brls on July 1, 1903. The aggregate supplies of Flour in all positions on July 1, 1904, were 169,000 brls more than reported one year previous, and 2,000 brls more than reported two years previous.

During the month of June the supplies of Wheat in the United States and Canada were reduced 9,778,000 bu, compared with a reduction of 14,503,000 bu during May, and a decrease of 13,300,000 bu during June, 1903. Decrease was mainly in the Northwest and Canada, with moderate reductions in other sections of the country, except at the Atlantic seaboard markets and in the extreme Southwest. Supplies in the Northwest were reduced 4,893,000 bu, compared with a decrease of 4,650,000 bu in May, and a reduction of 3,445,000 bu in June, 1903. Supplies in the interior elevators of the Northwest were decreased 63,000 bu, compared with an increase of 47,000 bu during May, and a decrease of 337,000 bu during June, 1903. Stocks were reported at 1,268,900 bu, compared with 1,831,000 bu on June 1, and 962,000 bu on July 1, 1903. The aggregate supplies of Wheat in the United States and Canada on July 1, 1904, were 1,728,000 bu less than reported one year previous, and 15,602,000 bu less than reported two years previous.

Supplies at Home and Abroad.

The aggregate supplies of Breadstuffs afloat for Europe, in store in Europe and Argentina, and in store in second hands in the United States and Canada on July 1, 1904—including a larger number of points than in any other compilation—were equal to 128,327,000 bu, against 142,706,000 bu on June 1, and 103,531,000 bu on July 1, 1903. The decrease during June was equal 14,379,000 bu, compared with a decrease of 16,842,000 bu during June, 1903. The aggregate supplies in all positions in America, Europe and Argentina on July 1, 1904, were 19,796,000 bu more than reported one year ago, and 17,500,000 bu more than reported two years ago.

Wheat in Farmers' Hands.

The following table exhibits the quantity of Wheat in farmers' hands in the respective States on July 1 for the past two years, as reported by the Department of Agriculture. These returns are usually regarded as representing the minimum figures, but compare favorably one year with another. The supplies in the aggregate as reported are about 5,900,000 bu less than returned one year ago. Farmers in the Northwest hold about the same quantity as reported one year ago. The figures for this year indicate about 24,500,000 bu Winter Wheat and 12,000,000 bu Spring Wheat:

Flour Trade During June.

According to the reports received by the DAILY TRADE BULLETIN there was only a fair trade in Flour in the United States and Canada during the past month. The production was on a limited scale, as millers were unwilling to pay the prices demanded for old Wheat, and in many cases they closed out a good proportion of their stocks. Millers in some sections were overhauling their plants and repairing their machinery preparatory to grinding the new crop. The demand for Flour was mainly for the domestic trade, and the orders generally were for conservative quantities. It has probably been many months since the export demand was so light both for Winter and Spring Wheat grades, as exporters were backward about purchasing, and in some instances gave other countries the preference. Merchants in the domestic trade not inclined to carry large stocks, and the general retail trade was limited to immediate wants. In New England, the demand for Flour was on a moderate scale—merely to meet the demand from the manufacturing districts. Exporters not inclined to purchase. In New York the interior demand was fair for moderate quantities, and the seaboard markets accepted a few export orders on close margins. In Pennsylvania, there was a fair home trade in small lots, but export trade was limited. Millers in Maryland reported only a moderate trade, and only a few export orders were provided for. In Virginia and West Virginia, trade in Flour was on a limited scale, and almost exclusively for home wants. In Kentucky, the demand was moderate, and millers sold limited quantities for the home trade. In Tennessee, trade was on a moderate scale, and chiefly for the wants of the manufacturing districts. Millers in Ohio reported a fair trade in small lots to meet current wants, and an occasional export order was accepted. In Michigan, only a moderate business was transacted, and almost exclusively for home wants. In Indiana, a little more interest was manifested and sales were fair, but in only sufficient quantities to supply present requirements. Reports from Illinois indicated a moderate business generally, with a very small proportion for export. In Missouri, trade was rather slow, and mainly for home wants. Advices from Kansas were favorable to a moderate business to supply the domestic trade. In Oklahoma and the Indian Territory millers sold only limited quantities. Reports from Texas indicated a fair business in small quantities. In Iowa and Nebraska, Flour was called for moderately and generally in small lots. In Wisconsin, trade was moderate and almost exclusively for home wants. In the Northwest, trade in Flour was dull, and sales were lighter than for some time past. Millers were slow to meet the views of buyers, both for domestic and foreign trades. Stocks are fairly large, but somewhat less than one year ago. In the Rocky Mountains districts, the demand was fair for small quantities. Trade on the Pacific Coast was on a moderate scale, with only a fair proportion for export. Millers in Canada generally reported a light and unsatisfactory trade in Flour, with only a small reduction in supplies. Export inquiry rather light.

Wheat Movement During June.

The movement of Wheat from farms of the United States during June was only moderate—only 31,000,000 bu, compared with 35,000,000 bu in June, 1903. Farmers, as a rule, have rather light supplies on hand, and are not disposed to sell to any extent at current prices. Little new Wheat has been marketed, as the season was later than usual in most sections. Farmers, according to the report of the Department of Agriculture, hold about 14 per cent less Wheat than one year ago. The weather for harvesting was not very good during the latter part of June, and the rainy season in some sections since that time will probably curtail the movement for some time to come. Millers were not inclined to purchase to any extent, and warehousemen were slow to take hold, as there is no particular demand for Flour and there is no encouragement for storing Wheat in view of the discount in prices for future delivery. So far, the inspection of the new Winter Wheat indicates rather a good quality, but the recent wet weather may increase the proportion of the poorer grades. In New England, the receipts were moderate and the exports were on a limited scale. In New York, the supplies were enlarged to some extent by the movement by lake and the stocks at the seaboard markets were somewhat increased, while the offerings in the interior were small. In Pennsylvania, farmers have moderate quantities on hand, but are disposed to hold, and the movement was comparatively small. In Virginia and West Virginia, the offerings were on a limited scale. In Kentucky, the movement was light, and only a small

ESTIMATED SUPPLY AND DISTRIBUTION FOR 1904-1905.

The following table in a concise way presents an estimate of the stocks on hand, and the available quantity of Flour and Wheat for home and export possibilities for the crop year ending June 30, 1905:

ESTIMATED SUPPLIES.

Flour and Wheat in second hands, July 1, 1904, reported	32,000,000
Flour and Wheat in second hands, July 1, 1904, unreported, estimated	3,000,000
Wheat in farmers' hands, July 1, 1904	37,000,000
Crop of 1904	610,000,000
Total	682,000,000

ESTIMATED DISTRIBUTION.

Quantity required for food	415,000,000
Quantity required for seed	75,000,000
Quantity in farmers' hands, July 1, 1905	25,000,000
Quantity in visible supply, July 1, 1905 (Bulletin Stocks)	25,000,000
Quantity remaining for export	142,000,000
Total	682,000,000

proportion was new Wheat. In Tennessee, the offerings were moderate, with farmers slow to sell the new crop. In Ohio, the movement was fair, but chiefly of small lots, and supplies were materially reduced at the larger distributing markets. In Michigan, the offerings were small and insufficient to meet current wants. Farmers in Indiana sold only small quantities, and supplies were reduced materially. In Illinois, the offerings were moderate, and the movement by lake eastward reduced stocks considerably. In Missouri, the offerings were on a somewhat limited scale, with only a few cars of the new crop. In Kansas, the movement was moderate, as the crop is late and farmers a little indifferent about selling. In Oklahoma, offerings were only fair, and the bulk were accepted by local millers. In Indian Territory, offerings were moderate. In Texas, there was a fair movement of the new crop, and supplies were somewhat enlarged. In Iowa, the offerings were comparatively light and of small quantities, and in Nebraska the movement was only fair. In Wisconsin, farmers were slow to sell, and have only small quantities on hand. With prices rather well supported, the movement of Wheat in the Northwest was fair, both at interior and terminal points. Supplies were reduced materially, but the aggregate stocks in all quarters are somewhat in excess of those of one year ago. In the Rocky Mountains district the offerings were comparatively small. On the Pacific Coast the movement was limited. Prospects for only a fair crop in the aggregate and producers inclined to hold. In Canada, the offerings were only moderate and supplies were materially reduced. Movement by lake considerably increased.

Outlook for the Wheat Crop.

The Wheat crop of the United States for 1904 will be a fairly good one—according to present indications—about 28,000,000 bu less than officially returned last year. The area seeded to Winter Wheat was quite large, and the crop went into winter quarters in rather good condition. The unfavorable weather during the spring resulted in material damage to the crop, more particularly in the Central Western States. A fair proportion of the area was plowed up and seeded to spring Grains—probably not to as great an extent as estimated, especially in the Southwest. The total area reported by the Department of Agriculture in the fall of 1903 was 32,015,000 acres, and the area plowed up estimated at 4,983,000 acres. Possibly the area for harvesting was about 28,000,000 acres, which figure is still below those of some private crop experts. At the approach of harvest, the indications pointed to a crop of 365,000,000 to 370,000,000 bu, but excessive rains in the Southwest just at the ripening period delayed harvesting and injured the crop considerably. While the damage was quite severe locally, it has not been as widespread as generally anticipated and estimated. Flooded sections report the losses considerable, but should these cover an area of 3,000,000 acres, and the loss placed at 50 per cent, the aggregate loss would be only 20,000,000 to 25,000,000 bu. It should be understood that the proportion of Wheat seeded on low lands is not very large—it being generally reserved until after the spring floods, and planted to Corn. The continued rainy weather, no doubt, injured the berry, and the grading in some sections has been slightly lowered.

In the Middle States the aggregate yield of Winter Wheat will be considerably less than in 1903, due mainly to the decreased acreage. In Ohio, Michigan, and Indiana the loss in area was quite large, and the condition not very good, though the harvest returns indicate a little better yield than anticipated. The yield in these states will probably be about 60 per cent of that harvested in 1903, and the quality rather good. In the Southern States, with the exception of Texas, the Wheat crop was quite good, and finally secured in fine condition. Kentucky and Tennessee in the aggregate produced more Wheat than last year. In Texas the estimates for that state have been a little low, and the yield will probably be about 70 per cent of that of last year. About the same state of affairs exist in Oklahoma, and the yield will probably be about 75 per cent of that reported in 1903. In Indian Territory the yield will be a trifle larger. Early returns indicated an aggregated yield in Kansas and Missouri of about 122,000,000 bu, compared with a yield of about 109,000,000 bu in 1903. Possibly the crop in these states may be reduced on the final returns about 15 per cent in the aggregate. In Nebraska, the outlook was rather favorable early, but unfavorable weather will probably reduce the yield about 10 per cent. In the Rocky Mountain districts the yield will be fair. On the Pacific Coast the aggregate yield will probably exceed that reported last year about 7,000,000 to 8,000,000 bu. The crop in California will be about one quarter less than officially reported in 1903, while the excess will be made up by the good prospects in Oregon and Washington. As a whole, the Winter Wheat crop may be estimated at 335,000,000 to 345,000,000 bu on present conditions—approximately 340,000,000 bu.

Spring Wheat was seeded under rather unfavorable conditions. The weather was wet, cold and unseasonable, and in the Northwest averaged ten days to two weeks late. The area is quite large and is probably 300,000 to 400,000 acres greater than estimated by the Department of Agriculture, due to the decrease in the Flax Seed area, owing to the decline in prices of that article. Considerable new land has been cultivated especially in North Dakota. The outlook under general conditions is favorable for an increase in the aggregate yield of 30,000,000 bu to 35,000,000 bu in excess of the returns of the Department of Agriculture for 1903. Of course, the present outlook is very promising—any condition over 90 per cent is nearly perfect from a crop-expert standpoint—and should any change occur it would probably be in the way of deterioration. In Iowa and Nebraska the prospects for Spring Wheat are decidedly better than for Winter Wheat, the condition being quite good. About the same condition of affairs exists in Wisconsin. In the Rocky Mountains district the outlook favors a fairly good yield. In Oregon and Washington the prospects are not quite as good as indicated one month ago, but the yield will be somewhat larger than in 1903. Present indications favor a crop of Spring Wheat of 285,000,000 bu to 275,000,000 bu—approximately 270,000,000 bu.

The total Wheat crop of the United States from present indications may be placed at 605,000,000 bu to 615,000,000 bu—approximately 610,000,000 bu.

The following table exhibits the estimated acreage and production of Wheat in the United States for 1904, according to the DAILY TRADE BULLETIN estimate on the July report of the Department of Agriculture, compared with the production reported in 1903. It should be distinctly understood that this report was made up previous to recent storms, which probably curtailed the production 25,000,000 bu:

Bulletin's Previous Estimates.

In this connection it may not be out of place to refer to previous estimates of the Wheat crop of the United States made by the DAILY TRADE BULLETIN from reports of its correspondents, compared with the estimates generally interpreted and credited to the Department of Agriculture on July 1, and with the final report of the Department at the close of the year:

‡Will probably be reduced, as the returns were forwarded previous to damage sustained by rains and floods.

It is well to state that the estimate of the DAILY TRADE BULLETIN of the crop of 1903 was widely at variance with the final returns of the Department of Agriculture. As all the early estimates made last season were considerably in excess of the final returns—not excepting the Department of Agriculture, with its large corps of correspondents—it is due to the public, and no discredit to the compiler, to admit the error of judgment. The error in the estimate was partially due to the flattering, but deceptive, outlook of the crop, and the disappointing harvest returns, coupled with very unfavorable weather during the harvesting and threshing season. The Department of Agriculture, which heretofore had generally enlarged the crop in its final returns, made a reduction of about 50,000,000 bu at the close of the year, compared with the interpretation placed on its report of the crop in July.

Crop Distribution—Consumption.

The poorer quality of the Wheat harvested of the crop of 1903, due mainly to damage at the harvesting and threshing season, and reflected in the inspection returns at the leading distributing markets, may have led to some increase in the feeding of unmerchantable Wheat—that totally unfit for marketing to farm animals and poultry. The rather high prices prevailing of Corn and Oats also may have encouraged a little more feeding of Wheat on the farms. Meats of all kinds have ruled high throughout the year, and the consumption of Flour was well maintained, especially in the manufacturing districts. The production of "breakfast foods" continues on a liberal scale. The poor quality of the Wheat no doubt slightly increased the quantity required to produce a barrel of Flour. The census of 1900 indicated a consumption per capita of about 5.35 bu. The estimates of the harvest year of 1901 indicated an average per capita of 4.90 bu, and that of 1902 at about 5 1/3 bu. Accepting the Department of Agriculture's report of the crop of 1903, and the quantity of Wheat in farmers' hands at the close of the harvest year, in conjunction with the official exports of Flour and Wheat as returned by the Treasury Department, and the quantity of Flour and Wheat reported in second hands by the DAILY TRADE BULLETIN, the distribution was approximately as follows for the year ending June 30, 1904:

SUPPLIES—1903-4.

	Bushels
Supplies in second hands, July 1, 1903	65,000,000
Supplies in farmers' hands, July 1, 1903	43,000,000
Crop of 1903	†638,000,000
Total	746,000,000

DISTRIBUTION.

Seeding	76,000,000
Exports, twelve months	121,000,000
Supplies in farmers' hands, July 1, 1904	37,000,000
Supplies in second hands, July 1, 1904	35,000,000
Total	269,000,000
Remaining for consumption	447,000,000

Allowing the population of the United to be about 81,000,000, the consumption per capita the past year would have been about 5.53 bu, but for reasons previously referred to, was probably not in excess of 5.25 bu. Computing the consumption per capita at 5½ bu, it is only an expenditure not to exceed $5 50 per annum. If the consumption is increased ½ bu per capita, the increase would be only 50c per annum, or one-seventh of one cent per day. With Meats held at high figures, it would not be unreasonable or extravagant to increase the consumption of Wheat ½ bu per capita per annum. One-half bushel of Wheat would produce about 22 lbs of Flour. The aggregate increased consumption would be about 1,782,000,000 lbs. The average increase per day—allowing 365 days—would be about 4,880,000 lbs, and the increased per capita consumption would be a trifle less than *one ounce* per day.

Wheat Crop in Foreign Countries.

Advices regarding the Wheat crops of the different countries in Europe are somewhat conflicting, but sufficient information has been pre-sented to indicate that the aggregate yield will be somewhat less than last year. Apparently the crop is somewhat backward in most countries, due to unseasonable weather. Too much rain has prevailed in some quarters, and not sufficient in others. The area seeded, with few exceptions, exhibited little change. The yields in some countries last year were considerably in excess of the estimates, as confirmed later by the rather free exports, and the supplies of Flour and Wheat in importing countries at the close of the harvest year are considerably larger than reported one year previous. Under present circumstances the yield of Europe will probably be about 140,000,000 to 150,000,000 bu less than in 1903. England seeded the smallest area in many years, and the yield per acre will probably reach an average. In France, the indications point to an aggregate yield of all Wheat possibly five per cent less than in 1903. Harvesting is progressing rapidly, and the quality of the Grain is quite good. In Germany, the aggregate crop will be somewhat smaller than last year. Bad weather at seeding time and unfavorable weather since will probably reduce the production of Winter Wheat in Russia, as the damage is in some of the larger districts, and the exports are understood to be mainly of Winter Wheat. In the sections raising Spring Wheat, the crop is more satisfactory, but it is doubtful if an average crop is secured. Russia will probably grow a crop fully five per cent less than in 1903. In Austria-Hungary the reduction in the Wheat crop will probably be five cent, due to weather damage. In Roumania, there has been material damage to the crop, and general estimates indicate a loss of about forty per cent. In Bulgaria, the crop is only fair, and will probably be about one fifth less than last year. Turkey in Europe will have a fair yield, and advices are rather favorable from Belgium and Holland. The Wheat crop of Italy will be reduced considerably—probably one-quarter less than last year. In Spain and Portugal there will be about an average crop secured. In Sweden, Denmark, Norway, and other smaller European countries, which raised limited quantities, there will be little difference from 1903. Indications point to good yields of Rye in the leading producing countries of Europe. Advices from Argentina indicate that a larger Wheat area was seeded than in 1903, but dry weather and frosts have damaged the crop in some sections, and it is doubtful if last year's aggregate yield will be exceeded, even with favorable weather to maturity. Other South American countries will produce fair crops. In Australasia, weather conditions have been good, and the outlook favors a good yield—probably equal that of last year. In India, the prospects are very flattering for a very good crop, somewhat in excess of that of 1903. In Africa, the outlook favors an increased yield in the principal countries. The following estimate is given of the world's crop of Wheat for two years:

Countries—	1904, bu.	1903, bu.
North America	700,000,000	738,000,000
South America	*150,000,000	†182,000,000

Statistical Position of Breadstuffs.

A general survey of the statistical position of Breadstuffs indicates that the situation is more favorable for the producer in exporting countries than during the harvest year just closed. The United States secured a fair crop of Wheat in 1903, and the supplies carried over from the crop of 1902, in all positions, was only about 11½ per cent. The harvest year of 1904 has been reached, with prospects of a moderate reduction in the aggregate yield, and quantity carried over in first and second hands is only about 11½ per cent, notwithstanding the exports of Breadstuffs from the United States were the smallest reported since the crop year ending June 30, 1890. While the prospects early in the season were quite favorable for a good crop generally, exceeding that of last year, the unfavorable weather throughout the country during the spring months, damaging the Winter Wheat crop and retarding the seeding of Spring Wheat, coupled with rainstorms and floods at the harvest time of the Winter, the yield has been materially reduced, and the prospects now are that the aggregate production will be slightly smaller than last year—about equal that of 1891—and 75,000,000 bu in excess of the average yield for the past fifteen years.

In the other portion of the globe the Wheat crop will not be as large as last year—will probably fall off in about the same proportion as in the United States. The increased production in Asia will probably offset the decrease in the United States, and the reduction in Europe, whatever that may finally turn out to be, may be accepted as representing the deficiency in the Wheat crop of the world for the harvest year of 1904.

A glance at the situation in this country reveals the fact that the Wheat crop of 1903 has been disposed of, whatever it may have been. There is no doubt but the consumption of Wheat in this country is liberal Prices of Meats have been maintained at high figures, notwithstanding the more reasonable figures for Live Stock. Another feature—possibly not a very important one, but nevertheless a factor—is the immense immigration at present, and mainly from countries where bread is the staple article of food—and about bordering on a luxury. Flour in this country is the cheapest article of food—about 3c per lb—which stands out prominently in contrast with Meats, which range from 10c to 25c. The plea of high prices of Flour curtailing consumption is virtually ridiculous. An advance of 10c per bu in Wheat is equal to only about 50c per capita per annum—*1c per week* The advance of 1c per lb in Meats would probably aggregate five times as much. In the manufacturing districts especially the price of Meats is an important factor, and the increased production of "breakfast foods" no doubt adds to the

consumption. The statistical feature for the year shows an increase in the consumption, but it was probably not fully warranted, as the excessive rains during the harvesting and threshing seasons rendered a slight proportion of the crop unfit for marketing. However, the crop has disappeared and the supplies in all positions reduced about 6,000,000 bu, notwithstanding a decrease of 40 per cent in our exports. If the Department of Agriculture's final report of the crop of 1903 was correct the farmers of the United States disposed of 568,000,000 bu, exclusive of the quantity retained for seed, and aggregating in value about $400,000,000

The aggregate supplies of Breadstuffs—Flour and Wheat—in all positions in the United States on July 1, 1904, may be conservatively estimated at 72,000,000 bu, compared with 78,000,000 bu one year ago, and 99,000,000 bu two years ago. The quantity of Flour and Wheat in second hands may be estimated at 35,000,000 bu, compared with 35,000,000 bu one year ago, and 46,000,000 bu two years ago—showing that the hold-over supplies in warehouses and in millers' hands is about the same. The supplies in farmers' hands were reduced about 6,000,000 bu, and are now 17,000,000 bu less than reported two years ago. The official visible supply of Wheat, compiled by the Secretary of the Chicago Board of Trade, (which includes stocks at some Canadian points), is about 2,000,000 bu less than reported one year previous.

In making an estimate of the supplies of Wheat in the United States for the current harvest year, the aggregate yield is placed at about 610,000,000 bu, or 28,000,000 bu less than reported by the Department of Agriculture last year. The estimate is made on the returns of our correspondents, and the aggregate report was delayed somewhat for some revisions on account of the recent storms. In obtaining our returns we endeavor to cover all portions of a State as much as possible, and obtain a diversity of yields. Very good prospects, or very poor prospects, are usually magnified simply because sentiment to a great extent works in one direction. The recent floods in Kansas unquestionably did considerable damage, but not to the extent many may estimate at this time. The crop may have been damaged 25 per cent in some sections and be almost perfect in others. The Wheat crop of the States of Missouri and Kansas are not alike in growth, owing to the breadth of country covered. Where these floods occur—on bottom lands—the proportion of Wheat seeded is only fractional, as they are generally reserved until after the usual spring floods for the planting of Corn. The information at hand would lead to the impression that not to exceed 25,000,000 bu has been lost in the Southwest by excessive rains and floods. At present there is nothing substantial presented to show any damage to the Spring Wheat crop that would prevent a good average yield.

The quality of the Winter Wheat raised in the United States this year is quite good—better than usual—excepting in portions of Nebraska, Missouri, Kansas and Oklahoma, where the quality has been slightly impaired by rains during harvesting and threshing seasons. Probably, of the aggregate yield, 250,000,000 bu is of good quality. The inspection returns at the leading markets show rather good grading, but the receipts for the season so far have been light, as the season was late and threshing has been delayed. Belittling the quality of a Grain crop never tended to improve prices—on the other hand, it has a tendency to depreciate the value of the crop generally. The quality of the crop should be represented as correctly as possible. There is some good Wheat and some bad Wheat every year, but occasionally the proportions change.

Under the general circumstances surrounding the Breadstuffs situation in this country and throughout the world, as viewed from an independent and non-speculative standpoint, the Flour and Wheat trade of the United States should be one of rather more than usual activity throughout the harvest year. The situation in Europe is somewhat different from that of one year ago—the deficiency in the crop there is more marked in the exporting countries, while last year the shortage was largely in the importing countries. Some of the countries which have been self-supporting may have to import some Breadstuffs. While competition from South America, Asia and Australasia may remain, there will probably be considerably less from Eastern Europe. The United Kingdom will probably require equal to 230,000,000 bu foreign Breadstuffs, and the merchants of our country should make an effort to regain at least some of the export business which has drifted away from us during the past twelve months. But it cannot be attracted back again, by opening the harvest year with creating the impression that "we have not raised much of a Wheat crop, and what we have is good for nothing." The average exports of the United States for the past fifteen years have been about 170,000,000 bu per annum, and indications now point to a surplus considerably below the average. The crop is not excessive, but a good conservative one, on which producers, millers, exporters, warehousemen, speculators and commission merchants should trade with more than usual activity and at fairly satisfactory prices. Foreign buyers were quite independent last year, as the offerings all over the world were free, but may be more conservative this year. With the present outlook and rather free distribution of Flour and Wheat at home, there is nothing particularly discouraging at present in the Breadstuffs situation. Possibly a reduction in prices of Meats—which does not look probable now—might curtail the consumption of Flour slightly, but the reduction of the working forces or wages in the manufacturing districts would tend to enlarge the consumption of the cheaper articles of food. Goon Wheat will be needed, and the farmers of the United States have a fairly good quantity for disposal.

In addition to the stocks returned at French ports, there are large quantities held in bond at millers' warehouses, but these quantities cannot be ascertained promptly.

THE WEATHER CONDITIONS.

Clear weather with stationary temperatures West, Southwest and Cloudy Northeast. Much crops but generally clear Northwest. Light and general rains and decidedly lower temperatures in Canadian Northwest. Cloudburst at Des Moines, with 4 3/4 inches of rain.

Indications are for generally fair weather over the district, except possibly local thunderstorms in sections near the Mississippi. Heat wave will be broken to day and to-night in Upper Mississippi Valley and northern lake region.

ITEMS OF GENERAL INTEREST.

Des Moines wired, Monday: "Scorching hot here. Party here from Northeast Iowa says there is plenty of rust in Corn there. Harvest is in full swing and Oats will move to market at once."

An Dallas (Texas) dispatch to-day says that ten days of June save that Wheat crop a good deal rather below expectation. The growth of Corn and other crops has been retarded by want of rain.

The controlling interests in the Syracuse Rapid Transit and the Utica and Mohawk trolly lines have been sold to the Vanderbilts, and these roads will be used as feeders for the New York Central.

A report from Naples says that the first threshings in the South of Italy indicate a yield much smaller than last year's, and the quality is inferior. Many unfavorable crop reports have induced millers to buy freely.

During the last fortnight of June Germany imported 2,632,000 bu Wheat and exported 48,000 bu. The net importation in the eleven months ending June was 56,781,000 bu, compared with 58,326,000 in the corresponding period of last season, and 72,950,000 bu in 1900-1.

The Homestead, Pa., Steel works started operation in full, Sunday, with the entire force working double time. The plant has been operating only about half time for the past year. By the starting of the mill at its full capacity 7,000 men will have steady employment.

Mail advices from Buda Pesth dated July 2 say the weather during the week has on the whole been warm and dry, with only a few showers in the beginning, and not unfavorable to the crops which are being cut. No figures as to the yield are yet available, but both the quality and quantity of the new crop vary considerably. Samples of new Rye are satisfactory. Crop reports regarding Barley, Oats and Corn show an improvement.

The Liverpool *Corn Trade News* of July 8 says: "Private estimates of the French Wheat crop, circulated to-day, put the likely yield 15 per cent less than last year's. If the world means a deficiency of 54,000,000 bu and make the crop some 312,000,000 bu to meet requirements of 344,000,000 bu. Russia, however, a good deal of old crop inferior Wheat in the country and North Africa should be able to furnish rather more than in the current season."

The *Corn Trade News* of July 7 says: "Reports as to the French Wheat crop continue very contradictory, but are certainly much less favorable than they were. The complaints which we have mentioned the last few days are repeated, and it is further said that as the Winter Rye is now being cut a poor sample, it is feared that Wheat may do the same. From the North of France, however, reports are still good, the present fine weather being favorable for maturing the crop."

The *Mark Lane Express* of July 4 says: "The rather heavy rainfall of Friday came a few hours too late to be put in the June returns, so that the month is already on record as an exceptionally dry period—.72 of an inch for thirty days. Sunshine was up to a full average; one record is 171 hours. The temperature was in turn, the day heat slightly above, the night temperature slightly below the average. The progress of the cereals in England has been regular and excellent. Oats promise a very fine crop. Barley has improved rapidly. Wheat is very healthy, but cannot be a big yield, the plant being thin in the ground."

Executive officers of Western railroads have succeeded in reducing the normal basis of rates on Flour for export from Missouri, Kansas and Nebraska to the Gulf ports. The inland proportions of through rates on Flour exported via the Gulf have been in an unsettled state since the commencement of the Omaha Grain rate war between the Great Western and Northwestern roads. The joint agent of the railroads at Kansas City will furnish daily to all the through rates to each export Grain and Flour, based on the ocean rates, which constantly fluctuate.

*Decrease. †Increase.

The *Agricultural Gazette* of July 4 says: "The rainfall of June has proved greatly deficient at all but one of the stations in England and Scotland named in the daily report of the Meteorological office. Holyhead alone, in the British stations in the list, had an excess in June. There were local storms in the South of England, and probably elsewhere, on Saturday, and rain became more general yesterday. It was much needed in most parts of the country, and a great deal more than has yet fallen, not only for Roots and Potatoes, but also for late sown spring Grain, for pastures and for Rowan Clovers and mixed Seeds. Eight days alternating with sunshine and a high temperature throughout the present month would be most conducive to the full development of growing crops."

President Warren, of the Lake Superior Corporation, has returned to Toronto from Europe. He says: "We inspected all the different industries and found many of them in a very satisfactory condition, especially the Steel plant and the rail mill. It has frequently been stated that the Steel plant and rail mill were fitted with second-hand machinery, but, as a matter of fact, everything is the most modern type, and several of the American directors declared it one of the best on the continent. It is hoped to have the Steel plant and rail mill ready for Government inspection in 90 days from the present date. The wood pulp mill is already in operation to its full capacity, turning out 100 tons a day. This will be increased, nearly all the product is being exported to the United States. The saw mill and lumbering operations are to the full capacity of the plant, and this year's cut will run close to 60,000,000 feet."

The Chicago *Inter Ocean* says: "If the new plan for 'leasing down' a portion of the production of the mills of the Paper Products Company is carried successfully, it is the opinion of the leading Chicago interests in the United Box Board & Paper Company that it will be of the greatest benefit to the latter company. The situation at present is that the latter company is getting the worst of a very bad market. We the last R. P. Newcomb said of the American Strawboard Company that a similar situation, it is not big enough to fight and it is too big to quit. The company is not large enough to control the market absolutely, but it is so big that the little nimble outsiders can cut prices under it and get what business is offering. The sanguine United Box people contend that if they can get orders enough that it can run its big mills continuously, and put in their accounting, accounts are only possible where production is continuous and machinery is fully occupied. Under those circumstances it can make board as cheap or cheaper than any concern in the country, and if it can't make a run intermittently and at part capacity production is necessarily costly. Furthermore, the maintenance of prices which will make production profitable is a necessity."

ITEMS OF GENERAL INTEREST.

Packers are buying more Hogs.

New York Exchange 30c premium.

Documentary Sterling steady at 484½.

Chicago Bank Clearings to-day, $28,865,938.

Deliveries on July contracts to-day were 216,000 bu Corn.

Consols closed 1-16 higher, at 88 11-16 money and 88 13 16 account.

Nebraska message says. "Wheat threshing out 15 to 20 bu per acre Corn perfect."

A dispatch from St. Charles, Mo., says: "Wheat threshing out 20 to 28 bu per acre."

About 75 per cent of the new Wheat arriving at Kansas City is inspecting No. 3 or better.

Nebraska message says prospects are very favorable for liberal marketings of new Wheat.

Eight packers purchased 7,000 Hogs to-day; shippers 1,500, left over, 5,000. Market closed 15c to 30c lower.

The Illinois Central Railway Company has declared the regular semi-annual dividend of 3 per cent.

Cotton in New York was weak and lower early, but advanced with moderate trading and closed 7@10 points higher.

Estimated receipts for to-morrow: Wheat, 16 cars; Corn, 181 cars; Oats, 116 cars; Rye 4 cars; Barley, 6 cars. Hogs, 11,000.

Reported that 136,000 bu Wheat—88,000 bu being Manitoba—64,000 bu Corn and 40,000 bu Oats were taken at the seaboard to-day for export.

Of 58 cars and 10,106 sacks of Wheat inspected at St. Louis yesterday, 16 cars and 3,563 sacks inspected No. 2, 20 cars and 3,761 sacks No. 3, and 17 cars and 2,042 sacks No. 4.

Des Moines wires "Hard rain commenced at 9:30, still pouring all along the line." Cornell, Iowa "Raining here and got enough of it now." The rains stopped at noon.

A dispatch from Waxahachie, Texas, Tuesday, said, "Texas Corn crop promises to be 200,000,000 bu, against 140,000,000 bu last year, and yield per acre will be large. The crop is made and entirely safe."

Local Securities were more actively handled and sold at higher prices. The feature was good buying of Can preferred and its advance of 1¼ points, with a reaction of ⅝. Biscuit common advanced 2 points.

Some exception is taken to the allowance of 50,000,000 bu of Wheat in first and second hands by the DAILY TRADE BULLETIN on July 1, 1905. On July 1, 1897, stocks were 69,000,000 bu, and on July 1, 1898, were 42,000,000 bu. This year, they are reported at 72,000,000 bu.

Stocks in New York were higher for the greater part of the list. The Grangers were the feature, and gained ⅝ to 2 points, the latter on Union Pacific. There is a bull pool in Union Pacific, which is forcing it higher. Commission house buying was active. London was a seller early. Steel preferred gained 1⅛, but most Industrials were easier. Money, 1 to 1½ per cent.

The special assessment of $25 00 on membership account of the Chicago Board of Trade is now due and payable. There are 1,792 members, and the aggregate sum will reach $44,800. Outside members should forward their checks immediately, and remain in good standing. The object of the assessment is to provide a fund for the purpose of buying in a certain number of memberships at a maximum price of $3,000 should there at any time be offerings at that figure.

The San Francisco *Weekly Commercial News* of July 14 says: "The situation in the Pacific Northwest is not so bright as it was two weeks ago, although a very large crop is sure to be harvested. Dry weather has undoubtedly done a good deal of damage and the heavy rainstorm in Eastern Oregon has added some to the loss. The three States produced last year 34,785,071 bu of Wheat against 41,679,435 bu in 1902 and 46,361,328 bu in 1901. This year, even with the damage referred to, the yield of 1901 will probably be exceeded."

President Winchell of the Rock Island system says that Kansas will have 75 per cent of an average crop of Oats. The outlook in Oklahoma and Texas is excellent. While there will be a decrease in the Wheat crop in Oklahoma, the increase in Cotton production will yield greater net revenue to the railroads. The Corn crop in Indian Territory and Oklahoma is nearly out of danger and will be the largest ever known. In Texas Corn is harvested and the crop will amount to at least 160,000,000 bu, against 140,000,000 bu last year.

A Minneapolis party who is out looking at the crops gives this view of the situation in Kansas. He wired from Topeka, Tuesday: "The loss to the Wheat crop of Kansas from the rains and floods of July 1 to 10 sums up as follows: Hard Wheat destroyed outright, 12 per cent, soft Red, 3 per cent, loss due to shrinkage and sprouting, 6½ per cent; loss in cutting and handling, 2 per cent. Taking the basis of 80,000,000 bu for the crop before July 1 means a loss of 19,000,000 bu or a crop of 61,000,000 bu provided good weather lasts to Aug. 1."

C. A. King & Co.'s annual report says. "Kansas Wheat crop has been damaged about 25 per cent this month by rains. Sumner County there, the largest Wheat producer, shows about 30 per cent damage. Ten largest Wheat counties there raising over third of the crop, average around 25 per cent. Missouri reports about 10 per cent damage this month by rains. Ohio and Indiana about 5 per cent damage mostly by rust. Illinois only slight damage and Michigan none. Quality will be good outside Kansas and Missouri. Crop in the Southwest will move freely last week in July, with favorable weather. Trifle over half say farmers are inclined to sell freely. Most millers will import considerable Wheat. Ohio, Indiana and Michigan now expect only half as much as short crop last year. Illinois half more and Missouri third more. Kansas may secure quarter less than 1903 large crop. Clover Seed promises fair, but late."

The Chicago and Northwestern Railway sends out the following. "For ten days we have had a special representative looking up the crop situation throughout the Dakotas and Minnesota. The substance of the report is that crops in the Northwest was never better. The rains covering part of the Dakotas on the 17th did no damage, and there has never been more favorable maturing weather during July. There is damage to Wheat in the Jim River Valley by smut, but it is impossible to state to what extent. The great feature in the general development is that it has been uniform, which assures excellent quality. Rye is harvested and Hay nearly harvested. Early Barley is ready. Wheat is in the milk stage and thriving wonderfully under present conditions. Crops of all kinds are past dangerous condition except Corn. There are no signs of rust or bugs or other similar troubles. Only damage now can proceed from the weather. The pleasing feature is the promise of highest grade in quality of all Grains."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The market is holding rather firm and while the sales continue small in the aggregate, there is a little more general inquiry noticeable.

WINTER WHEAT—Business is picking up some, due to larger offerings. The receipts are still small, but there was more new Wheat sold to-day than any day this season. A good demand existed and sales show about 1@2c lower range of prices. No. 2 Red new fresh arrivals free on board quotably $1 00 for good soft Wheat; a car sold at 95c but it was claimed to be mostly Hard Wheat. A lot of 18,000 bu c. i. f. Buffalo was reported at $1 02½. No. 3 Red new Wheat free on board sold at 95@96c and old at $1 03. No. 4 Red new Wheat sold at 90@91c. No Grade Red sold at 88@89c for new and at 92c for old. No. 2 Hard new Wheat to arrive first half of August sold at the price of new September regular car lot fresh arrivals free on board quotable at 94@96c. No. 3 Hard out of store free on board sold at 87c and car lot fresh arrivals quotable at 85@91c.

SPRING WHEAT—Was in fair demand and 1@2c lower. It was difficult to establish quotations as there was little doing and so little Wheat coming. No. 1 Northern in store nominally $1 01@1 01½, and car lots fresh arrivals $1 00@1 01. No. 2 Northern fresh receipts nominally 96@99c. No. 3 Spring fresh receipts quotably 88@94c. No. 4 Spring ranged at 80@90c for poor to choice.

REGULAR WHEAT—A good trade and unsettled market, with the close showing losses of 1½@2c. Early tone was quite strong and initial trades showed sharp advances, due to the further drop in British consols, higher cables, and fear of political complications over the Red Sea seizure. "Shorts" and commission houses led in the early buying. Liverpool quoted spot ½@1d higher and futures unchanged to 1¼d better. London came ¼d lower to 1d higher. Paris was 1½@2c higher. Antwerp and Buda Pesth unchanged and Berlin up ¼c. Liverpool was affected to some extent by the European political situation and unfavorable Russian crop advices. At the advance long property came on the market in large quantities and the situation changed about completely. The break was started on the report that Russia disavowed the acts of its commander in the Red Sea. It was also reported that Russia had apologized to England in the vessel matter. The prospect of larger receipts in the Southwest was another bear influence. Kansas City and St. Louis received 192,000 bu, against 208,000 bu last year and prediction St. Louis would receive 250,000 bu Monday. Map showed heavy and general rains and still raining over Nebraska and Western Iowa, light rains in Kansas and Missouri, and a heavy fall in the western part of the Ohio Valley. Generally fair weather was predicted outside of showers in Western Kansas, Nebraska and South Dakota. Minneapolis wired that with favorable weather the Red River Valley will produce nearly, if not quite, as much Wheat as a year ago. Another message said weather was all that could be desired for the growing crops. Receipts in the Northwest were 73 cars larger than last year, but primary movement 107,000 bu smaller than a year ago. Duluth reported foreigners bidding for forward shipment, but terms 2c out of line. It was estimated Kansas City would receive 150 cars to-morrow. Clearings were very meager, and 16 boat loads accepted at the seaboard. A sale of 10,000 bu new No. 2 Hard was reported made here shipment first half of August, at new September price. Duluth late in day reported 11 loads taken for direct export. Baltimore reported the receipt of 70,000 bu, about half of which was new No. 2 Red. British consols closed one-sixteenth higher on the day. Receipts at Duluth 76 cars and at Minneapolis 126 cars, a total of 202 cars, against 265 cars yesterday, 229 cars a week ago, and 129 cars last year. Local receipts included 9 cars Winter, no cars Spring, no cars mixed, a total of 9 cars, against 45 cars last year. Included in the above was 1 car contract grade. There was no cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 16 cars. Withdrawals to-day were 16,800 bu. Receipts at Western points were 379,936 bu, against 487,439 last year. At Eastern points 108,692 bu, against 233,734 last year. Shipments from Western points were 211,001 bu against 782,959 last year, and from Eastern points 9,814 bu against 98,078 last year. Shipments of Flour were 1,352 brls. Exports of Wheat in Flour were equal to 15,894 bu.

Future Deliveries of Regular Wheat—Fair trade and prices lower.

CORN—A fair trade with the early tone firm, but weakness set in later, and the close showed July off ⅜c. September lost ¼@⅜c while December gained 1-16c. The market was inclined to sympathize with Wheat at times, and started out higher, though weather conditions were looked upon as favorable. Liverpool was ¼d higher and steadier on reports that rain was needed in Roumania. Receipts were small at 120 cars, only 3 cars grading, and 183 cars are estimated for to-morrow. A feature was the more liberal July offerings, the sellers in turn taking the December. Generally fair weather was indicated and the Iowa State bulletin said the past week had been the best of the season for the rapid growth of the crop. Southwestern markets were weaker and local temper became "bearish" as the session advanced. "Shorts" covered on the decline, checking the break. Primary receipts were 363,000 bu, against 465,000 bu last year, and shipments 123,000 bu and 400,000 bu respectively. Local arrivals were 283,000 bu and shipments only 38,000 bu. Only 13 cars of contract were switched from private elevators. Exports were limited to 15,000 bu and 8 boat loads accepted at the seaboard. Shipping demand was reported slow and sales 50,000 bu. Car lots were in fair demand, with moderate offerings. Prices were ¼c lower. No. 2 closed about 49½c. No. 2 Yellow sold at 50¼c and closed at 50½c. No. 3 sold at 49¼c and closed at 49¼c. No. 3 Yellow sold at 50¼c and closed at 50¼c. No. 4 sold at 48@49½c.

Corn by sample—Offerings and demand moderate. Feeling easier, and prices unchanged to ¼c lower. Sales on track and free on board. No Grade sold at 42@45½c. No. 4 at 45@49½c. No. 3 at 49¼@49½c. No. 3 Yellow at 50¼@50½c. No. 2 Yellow at 50½c. No. 3 White at 49¼@49¾c. No. 2 White at 49¾c. Billed through No. Grade at 42@46c. No. 4 at 46½@48¾c. No. 3 at 48@48¾c. No. 3 Yellow at 49¼@49½c. No. 2 at 48½c. No. 3 White at 48@48¼c. No. 2 White at 48¼@48½c.

Future Deliveries of No. 2 Corn—Moderately active and closed irregular, being ⅜c lower to a trifle higher.

JULY—Sold at 48⅝@49⅝c. Opened at 49⅜c and sold off to 48½c, back to 49⅛c and closed at 49⅛c.

SEPTEMBER—Sold at 49@49¾c. Opened at 49⅜c to 49¾c and sold at 49½@49⅝c, to 49⅝c, to 49¼@49⅜c, to 49¾c, to 49⅛c, to 49¼c, to 49c, to 49¼@49⅜c, to 49⅛c, to 49⅛@49⅛c and closed at 49⅛@49¼c bid.

DECEMBER—Sold at 45⅝@46c. Opened at 46c to 45¾c, and sold at 45¾@45⅞c to 45⅝c to 45¾@45⅞c, to 45⅝@46½c, to 45⅝c, to 45¾c, to 45⅝@45¾c, and closed at 45⅝@45¾c bid.

MAY—Sold at 44¾@45¼c. Opened at 45¼c and sold at 45½c, to 45¼c to 45⅛c, to 45¼c, to 44⅞c, to 45@45⅛c to 44¾c to 45c to 44⅞c to 45c, and closed at 45c asked.

OATS—Were liberally traded in, and prices receded ⅜@⅝c and closed at nearly the low point for all except May. The latter was traded in more freely and gained ⅛@¼c. There were rains in Iowa, but the break in Wheat started selling of the list and the largest buyers of yesterday were sellers to-day. A feature of the cash business was the sale of 200,000 bu new White Clipped for September shipment at 4c over Chicago September c. i. f. Buffalo. Sales of Standard were [illegible] afloat. Arrivals were 70 cars, with 116 cars estimated to-morrow. Withdrawals were 30,075 bu. Seaboard clearances 18,300 bu. Car lots to go to store were steady for good. Standard in store closed at 40⅝c.

Oats by sample were slow and easy, with the poorer grades ½@1c lower and the best steady. There was a fair demand for the latter and the offerings were light. Of the others, there was all the supply necessary. Sales on track and free on board. No Grade at 30c. No. 4 at 35¼c. No. 4 White at 36@41c. No. 3 at 36c. No. 3 White at 40½@43½c. No. 2 at 36½@37c. Billed through No. 4 White at 33@39c. No. 3 at 35@35¼c. No. 3 White at 41@42¼c. At the river. No. 4 White at 31@38c. No. 3 White at 38c.

Future Deliveries of Contract Oats—Were fairly traded in and averaged lower.

JULY—Sold at 39⅜@40⅛c. Opened at 39⅞c, sold to 39⅜c, to 39⅝c at close.

SEPTEMBER—Active. Sold at 32¾@33⅛c. Opened at 33@33⅛c to 33⅛c, sold to 32¾c, to 32⅞c at close.

DECEMBER—Sold at 33⅛@33¼c and 33⅜c. Opened at 33⅜@33⅛c, sold to 33⅛c to 33⅛@33¼c, to 33¼c at close.

MAY—More doing. Sold at 35@35¼c. Opened at 35⅛c, sold to 35¼c, to 35c to 35⅛@35¼c at close.

RYE—The market was steady with a light trade. There was some demand, but trading confined to September which was ¼@½c higher. There were seven cars received, one of which was new. One car was withdrawn from private warehouse. No export clearances from the seaboard. No. 2 in store sold at 74¼c. No. 3 fresh receipts nominally 64@70c.

Future Deliveries of No. 2 Rye—Quiet. July nominally 74c. September sold at 59½@59½c and closed at 59c bid.

BARLEY—A few cars were sold of Screenings and low grade to fair Barley. There was not much to the market and no change. Good malting was quotably salable, steady and scarce. Samples of new Barley from Iowa, cut and about to be threshed, have come to hand. They indicated fair to good weight and unless impaired by late rains the color promises to be good. General quality so far better than last year. To-day's postings gave 5 cars inspected in. Quotations for the several grades were over a range as follows: Screenings at 28@38c for poor to choice. Feed Barley, common, dirty or musty down to 30@33c; poor heating lower, sweet good color thin, at 35@38c. Malting, low grade, was quotable at 40c; fair to good, sound, 42@45c; good color 48@50c and fancy above.

SEEDS—There was no trading. The market was without cash offerings. No. 1 Flax met with 1c advance in bids, and this was the only real change developed.

Timothy—Was lifeless to-day. Buyers and sellers, in the case of September delivery, were 5c apart, which prevented trading. There was no cash Seed on sale. Values were about nominally unchanged. September delivery was held at $3 20, and $3 15 bid. Old Seed, contract grade spot or July delivery, nominally $2 95. Country lots quotable at $2 00@2 75 for low grade to fancy, choice about $2 65@2 70, fair to good Seed $2 50@2 60 and rough at $2 30@2 45.

Flax—Continues firm at the same time inactive. Bids for No. 1 spot and future delivery were raised 1c for No. 1 Northwestern no change was made. The market was entirely devoid of sellers, it was therefore inactive with nothing of interest to note. Locally 3 cars or 3,540 bu were received and 5 cars or 5,391 bu taken out. At Minneapolis there were receipts of 9 cars, at Duluth 34 cars. No. 1 Northwestern or No. 1 from the Northwest remained at $1 21½ bag lots at a discount. No. 1 was salable at $1 17. Rejected about $1 12@1 16 depending on quality. July salable at $1 17 and September was $1 17 bid.

Clover—No features to note. The market remains inactive and nominal, it was without sellers. Contract spot Seed about $10 75@11 00. Country lots, common to choice, $7 00@10 25; fancy above; mixed with Buckhorn or other weed Seeds $6 00@8 00; poor, cleaned out of Timothy, very foul, down to $3 00@6 00. Fair to good $8 75@9 75.

Other Seeds—Lifeless and entirely nominal. Hungarian and Millets no quotations at present. Buckwheat quotable at $1 55@1 60 for good. Mustard at 90c@$1 10, poor down to 70@75c.

HOG PRODUCTS—Only a moderate trade was reported in Hog Products and the market was easy during the greater portion of the day. "Hogs were in larger supply, and prices decidedly lower, while packers were credited with selling fair quantities, and there was a little realizing on stop-loss orders." General demand was only moderate, and mainly by parties who were willing to accept small profits. Prices ruled lower on all leading articles, and closed comparatively quiet around inside figures. Trading was chiefly in September contracts. Receipts of Hogs at the leading Western packing points were estimated at 35,000 compared with 60,500 one year ago. Foreign markets were firmer, and prices were advanced 6d on Bricks and Hams. Receipts of Products were good of Lard and Meats about 36 cars. Shipments were light of Lard and Meats about 57 cars. Very little doing in the market for cash lots owing to the difficulty in loading cars. Offerings were moderate, and a fair inquiry prevailed. Prices without material change.

Mess Pork—Trade was fair in the market for Mess Pork, and the feeling was easy. Offerings were fair, and the demand was only moderate. Market opened weak at 2½c decline, and receded somewhat irregularly 7½@10c. Later the feeling was a trifle steadier, and prices rallied 5@7½c but receded 15@17½, and closed rather steady. Shipping demand was light, and offerings were small. Cash lots quotable at $12 65@12 70.

JULY—Quiet and quotable at $12 65.

SEPTEMBER—Offerings were moderately free and the demand was only fair. Sales were made at $12 67½@12 87½. Opened at $12 87½, sold to $12 77½@12 80, to $12 82½@12 85, to $12 82½, to $12 85 to $12 77½, to $12 80, to $12 67½, to $12 70, and closed steady.

OCTOBER—In moderate request, and offerings were only fair. Sales were made at $12 70@12 85. Opened at $12 80, sold to $12 85, to $12 70 and closed steady.

Lard—Trade was moderate in the market for Lard, and the feeling was easier. Offerings were fair, and the demand was only moderate. Market opened rather easy, and prices ruled 2½c lower and a further reduction of 2½@5c was submitted to, and the market closed comparatively steady at inside figures. Trading was chiefly local. Demand on shipping account was light with no particular pressure to sell. Cash lots quotable at $6 75@6 77½. Loose lots in small request with limited offerings. Prices steady at about 60c discount on September figures. Leaf Lard inactive and prices entirely nominal. Neutral in only limited demand with fair offerings. Prices quotably lower at $7 00@7 12½ for No. 1 and $6 75@6 87½ for No. 2.

JULY—Quiet and quotable at $6 75.

SEPTEMBER—Offerings were fair, and the demand was moderate. Sales were made at $6 85@6 90. Opened at $6 90, sold to $6 85, to $6 87½, to $6 85, to $6 87½, to $6 85 and closed steady.

OCTOBER—In light request and offerings were moderate. Sales were made at $6 90@6 95. Opened at $6 95, sold to $6 90 and closed steady.

Short Rib Sides—Trade was only fair in the market for Short Rib Sides, and the feeling was easier. Offerings were fair and the demand was not urgent. Opening trades were made at 2½c decline, and a further reduction of 10@12½c was submitted to, and the market closed comparatively steady around inside figures. Shipping demand was light and offerings were moderate. Cash lots were quotable at $7 12½@7 25 according to weight.

JULY—Quiet and quotable at $7 25.

SEPTEMBER—In moderate request and offerings were fair. Sales were made at $7 45@7 57½. Opened at $7 57½, sold to $7 47½, to $7 52½, to $7 45, and closed steady.

OCTOBER—Offerings were moderate, and the demand was light. Sales were made at $7 47½@7 55. Opened at $7 55, sold to $7 50, to $7 52½, to $7 47½, and closed quiet.

Other Meats—Trade was only moderate and the feeling rather steady. Offerings not very large and the inquiry was only moderate. Exporters rather backward and the home demand was only fair. Green Meats in moderate supply with a light inquiry and prices steady. Pickled Meats in fair request and prices well maintained. Dry Salted Meats were in fair demand with moderate offerings, and prices favored buyers. Smoked Meats called for in moderate quantities and prices were unchanged. Closing prices ranged as follows:

BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, July 14.]

Wheat – The local trade is virtually dead as to Wheat there is no demand from any source whatever Exporters are out of the market entirely for the present As European markets do not have to come to the coast for any Wheat, buyers abroad can purchase the same from other countries far cheaper than here. Indications point to 50c Wheat in the interior at the commencement of the season. Whether farmers will take that figure it is too early to predict. Most of them are in affluent circumstances, having realized handsomely on the three former crops, and have money in hand and do not need to sell to realize money to continue harvest work. Millers are not buying very freely Most of the export mills have plenty of Wheat on hand to cover the immediate wants in that line. Harvesting of fall Wheat is progressing quite rapidly and yields are turning out far better than many expected. The recent rains have been very beneficial to the spring Grain, especially that was sown very late The rain extended over the entire Wheat belt Farmers are all jubilant and predict that the crop will be the largest ever yet raised. Crop indications point to a very large one in the State of Oregon and the same will show a material increase over any year for some time past. Estimates made by the inspectors range from 30 bu to 60,000 bu for the three States. Quotations are lower and range for Club Wheat 65c; Bluestem 75c, and Valley, 75c per bu. The Willamette Valley will have a very good crop, and there is no doubt she will show a shortage over last year by about 33⅓ per cent.

Flour – A few orders have been received during the week mostly from Hong Kong where the demand at present is good. There is considerable Flour still unsold and large quantities have been spoiled by the warm weather so that many buyers were compelled to replenish their stocks, and brands that are well known and have established trade are the only ones that have any call for. Japan is not using any demand for Flour at present, considerable old stock remaining on hand, making buyers very cautious in placing new orders, as they prefer to see the old Flour stocks worked down considerably before making any large engagements. Shipments to South America show no material increase. California is calling for more Flour than usual, and there will be a good trade with that State this year for Northern mills. There is no demand from the United Kingdom, and indications point to none for some time to come. The quote export brands from \$4 75 to \$5 10 per bbl, showing a decline of 10c per bbl on the week; patents range from \$3 85 to \$4 15 per bbl. Quality and brands are considered when sales are made.

EXPORTS REACH A HIGH FIGURE.

WASHINGTON, July 17.—United States foreign commerce during the fiscal year 1904 was the largest in its history, the exports of manufactures being larger than any preceding year, while the exports of domestic products exceeded those of any other country.

The total exports during the year ending June 30, 1904, were \$1,460,898,534; against \$1,420,141,679 in the fiscal year 1903, an increase of \$40,687,850 The imports for the year were \$991,941,051, against \$1,025,719,237 in 1903, a decrease of \$34,974,184, and an excess of exports over imports of \$470,084,483, against \$394,422,442 in 1903 an increase of \$75,662,041.

Comparing the figures of 1904 with those of earlier years, it may be said that the total exports are larger than in any preceding year except 1901, and that the actual commerce—exports and imports combined—in 1904 is greater than that of any preceding year. The total commerce of the year amounted to \$2,451,839,585, against \$2,445,860,916 in 1903 and \$2,310,937,186 in 1902.

The exports of domestic products from the United States in the year will exceed those of any other country. The United Kingdom is next to the United States, the world's largest exporter of domestic products, and until within recent years surpassed the United States in its total. During recent years, however, the United States has rapidly gained upon and finally overtaken the United Kingdom in the race for supremacy as an exporter of domestic products.

THE HOP SITUATION.

[New York Producers' Price Current, July 16.]

There has been some little activity in Hops on the local market the past week and some parcels of Pacific Coast have changed hands at prices according to quality. Reports from New York State continue to come in very favorable and as there is absolutely no trace of vermin; the estimates as to the results are being increased. Reports from California continue favorable and estimates unchanged, but in Oregon owing to the long continued drouth, estimates are slowly but surely being reduced, and it is now expected this State will not raise over 90,000 bales Washington is also complaining of the drouth in western sections and estimates of the coming crop also being cut. Reports from England show an improvement, owing to more favorable weather and the estimates are now variously placed at 470,000 to 500,000 cwts. In the Continent, both in Germany and Austria conditions are extremely satisfactory and large yields being looked forward to, and crop in Bohemia so far advanced that early varieties will probably be ready for market by August 1.

THE WEATHER CONDITIONS.

Indications are for generally fair weather, with moderate summer temperatures over the district and a few scattered showers in southern and western portions

Barley	10,515,000	14,850,000

The Corn crop is reported to be poor.

Shippers won a victory, Monday, over the railroads in regard to a uniform bill of lading. While it has not yet been generally promulgated, officers of the Eastern railroads have agreed to waive the signature feature of the new bill, which was the bone of contention between the companies and the shippers. This agreement ends what promised to be a long and bitter struggle between the railroads and the shippers over the new bill of lading that is to become effective Sept. 1.

A Butte, Mont., dispatch says: "It is reported here that capitalists interested in the United States Steel Corporation have taken up the option money for the Pittsburg and Montana Company are about to absorb the entire interest of that company in Butte. The Pittsburg Company has latterly been short of funds, and the Steel corporation people refused to put up more under the old agreement About \$2,500,000 has been spent on the new development work here."

The crop of Hops in the State of Washington will probably amount to something over 40,000 bales with favorable weather. In Oregon the yield has been cut down somewhat by the dry weather, formerly expected to considered no longer possible. 90,000 probably coming nearer to the mark. In California about 85,000 bales will be produced. It is estimated that stocks on hand will amount to over 350 bales. Washington growers being cleaned out. In dealers' hands the c are about 5,000 bales, while last year at this time there were 21,000 bales left on hand.

Owing to lack of demand all Coal mines in the Eighth Ohio district, largely owned by Cleveland operators, have been put upon half time. The district covers the southeastern portion of the State, and is the most productive of the Ohio fields. Eight thousand men are affected by the curtailment of operations. The action of the operators is the result of an almost unprecedented accumulation in the business. Shutdowns are not confined to this district alone, but are extending to other districts as well. The only exception to these curtailments is the cause said to be responsible for this condition.

A telegram from Baltimore says: "For the first time since 1877 Baltimore has been called upon to ship Wheat to the West. Approximately 100,000 bu of No. 2 Southern Red Wheat have been forwarded to millers as far west as Cincinnati. It is said that a large part of the Western Wheat which is in bad condition, owing to unfavorable weather, and certain millers, in order to meet their orders for Flour, have been compelled to use some Southern Wheat until the harvest of the new crop of cereal begin to arrive from their own section. Orders for Southern Wheat have also been received from New York and Pennsylvania points."

The *Wall Street Journal* says: "Some important plans are now under consideration by the United Box Board and Paper Company, bearing upon its finances. These plans will soon be completed, and before the end of the month, it is understood, definite action will be taken upon them by the board of directors. The entire scope of the proposition cannot now be learned, but it is understood that it will provide for the funding of the floating debt and the present outstanding bonds into a new issue, which will materially improve the company's position. It is also understood that some other readjustments may be made in the company's financial organization, but additional details are at present not known."

Bradstreet's Sydney, N. W., correspondent, writing under date of May 30, says: "During the early portion of last week a light but useful rainfall was experienced over the entire Wheat-growing area of New South Wales, but more rain is very much needed. For several days past a perfect deluge of rain has visited the coastline and northeastern districts, but, unfortunately, failed to reach the dry country. In fact, in the latter districts we had little or no influence on Wheat holders, who are more than ever disinclined to sell now that prices are harboring at shipping points in nearly all the states. The only thing that has caused some revival in Grain chartering would be a week's steady rain over the Wheat-growing country."

The favorable developments in connection with the proposed combination for the National Lead Company and the United Lead Company are due to the influence of Standard Oil interests. The plan involves an increase in the capital stock of the National Lead Company. It is understood that both preferred and common stock will be increased. This new stock, the amount of which is not definitely determined, will be exchanged for the securities of the United Lead Company, for which there is \$9,000,000 in bonds and \$15,000,000 in stock. The American Smelting Company is a considerable holder of the United Lead stock. National Lead Company; therefore if the merger is carried out along these lines the smelting company will have a direct interest in the National Lead Company. This arrangement would give the National Lead a monopoly of the finished Lead manufacturing business, while the smelting company already monopolizes the pig Lead industry.

A private telephone system of large scale is being strung along the New York Central Railroad system from New York to Chicago. This will be the longest private telephone system in the world. A No. 6 copper wire is being used. It will cover every important city on the lines of the New York Central system. It runs from the Grand Central station across the North river to Weehawken, and follows the line of the West Shore Railroad to Buffalo. From the last mentioned point to Chicago it will extend over the Lake Shore route. The higher officials of the Vanderbilt system believe that the large expense of constructing and maintaining this private telephone line will be more than just fed by the convenience and prompt communication between the offices of the Eastern and Western divisions of the system It will save a large amount in telegraph and telephone tolls, besides preserving strict privacy in the communications

The growth of the Federal Sugar Refining Company will be watched with a great deal of interest. The president is Chas Spreckles, and among its directors are several capitalists. The company has been producing 307 brls of Sugar a day at its refinery in Yonkers, and it has just installed a plant by which its capacity will be increased to increase its output by units of 1 000 brls per day until it has a capacity of 7,000 It is expected that a production of 4 500 brls will be reached by the end of the year. It has been reported that the company intends later to build a second plant at one of the southern seaports, having a capacity equal to the Yonkers plant, thus making a total output of 15,000 brls a day. The present output of the American Sugar Refining Company is about 28,000 brls a day, with a total capacity of 40,000 brls. The National Sugar Refining Company has a capacity at its three refineries of 10,000 brls, and its output is about 7,000 brls. The Arbuckle plant is producing about 4,000 brls a day. The Federal company, it is said, will be controlled by the Havemeyers. The American Company is capitalized at \$9,000,000; on a rough calculation its output is capitalized at \$2,250 a barrel a day, or, on the basis of its sales, at about \$3 100 a barrel. The National Company, with a capitalization of \$30,000,000, shows \$1,000 of stock for each barrel per day capacity, or \$2,800 on the actual output. As compared with these figures, it is said that the intention of the promotors of the Federal Company is that the capitalization will not be greater than \$5,000,000 for the 7,500 brl plant at Yonkers, or \$10,000,000 for the ultimate 15,000 brl output. It is seen, therefore, that the Federal will be capitalized on a basis of less than \$700 a barrel. The capitalists who are behind the Federal Company believe that they will be able to refine Sugar at less cost than the older companies, and that on their moderate capitalization they will be able to make their stock much more attractive to investors than the stock of the American Sugar Company.

The half year's showing of the American Can Company was the best in its history People who have access to inside facts say that the company will be able to price the preferred shares on a 7 per cent basis this year, if the rest of the year is up to promise. The Central West has made a splendid showing. Sales during the last quarter are said to have averaged fully 20 per cent larger than those of last year.

AN EXPLANATION.

A statement has been sent broadcast that the DAILY TRADE BULLETIN last year estimated the exportable surplus at 213,000,000 bu without any reference to circumstances at that time. This was made at a time when the Wheat crop was variously estimated at 700,000,000 bu to 800,000,000 bu—the BULLETIN'S estimate being 735,000,000 bu. It is well known that all estimates of crop experts proved wrong—and they all have graciously admitted it even the Government figures were materially reduced. The final report showed the crop to have been 97,000,000 bu less, and on the same basis of calculation the exports would have been 116,000,000 bu. As the consumption was larger however the estimated supplies left over on July 1 were considerably reduced. In 1902 the BULLETIN allowed 128,000,000 bu for exports on a crop of 670,000,000 bu. The latter estimate proved correct, and the exports were 203,000,000 bu. The fact must not be forgotten that the BULLETIN estimated the crops of 1902, 1901, 1900 and 1899, at 2,480,000,000 bu, and the Department of Agriculture made the returns 2,487,000,000 bu, a difference of only 7,000,000 bu in four years, or less than 2,000,000 bu annually.

ITEMS OF GENERAL INTEREST.

New York Exchange 3c premium.

Documentary Sterling lower at 484.

Chicago Bank Clearings to-day, $26,789,264.

Deliveries on July contracts to-day were 30,000 bu Corn.

Minimum rate of discount of Bank of England is unchanged at 3 per cent.

Indications point to a decrease in the summer season's packing after this week.

Argentine Wheat shipments this week estimated at 2,000,000 bu and Corn at 2,600,000 bu.

Reported that 40,000 bu Wheat, 16,000 bu Corn and 30,000 bu Oats were taken at the seaboard to-day for export.

Ten packers purchased 16,600 Hogs to-day; shippers 1,500; left over, 13,000. Market closed steady at opening figures.

Stocks of Hog Products at Chicago estimated at 46,000 brls Mess Pork, 139,750 tcs Lard, and 22,500,000 lbs Short Rib Sides.

Estimated receipts for to-morrow: Wheat, 30 cars; Corn, 201 cars; Oats 60 cars; Rye, 1 car; Barley, 3 cars. Hogs, 10,000.

Indications are for scattered local thunderstorms and partly cloudy weather, with no decided changes in temperature.

The strike of packing house employes has been settled by referring all disagreements to arbitration. Work will be actively resumed to-morrow.

A St. Louis party who has a crop expert in Nebraska was quoted, Wednesday, as saying: "Reports are not bad on Wheat and favorable on Corn."

Reports from Oswego, Kan., which were very bad ten days ago now say, "The situation is much improved. Some farmers claim they will have as much Wheat as last year."

The Hungarian crop estimate has been officially raised from the totals figured a month ago. The estimate now is for a total crop of 127,300,000 bu, compared with 151,500,000 bu a year ago.

Cotton in New York was strengthened by higher cables. These offset the effect that a strike of Fall River operators will occur Monday next. Closing sales were at gains of 13@14 points.

Local Securities were moderately traded in and prices moved irregularly. The feature was the break of ½ in Biscuit common, an advance of ⅝ in Swift's and a 2 point rise, after 1 point decline, in Quaker Oats preferred.

Stocks in New York were liberally bought and advanced in the morning. After mid-day, prices receded and closed with good losses. Western Railways being ¼ to 1 lower, and Industrials off ⅝ to 1¼ points. Money ¾ to 1 per cent.

The Cincinnati *Price Current* reports the packing of the West for the week at 195,000 Hogs compared with 255,000 for the week previous and 415,000 for the corresponding week in 1903. Aggregate packing since March 1 reported at 8,135,000 Hogs compared with 8,120,000 for the corresponding time last year—an increase of 15,000 Hogs.

The Cincinnati *Price Current*, in its weekly crop summary, says: "Very favorable week for farm work and crop growth. Thirty million bushels is conservative estimate for recent Western Wheat losses. Quality irregular; below average. Corn progressing rapidly; about average condition. Oats not materially changed. Minor crops favorable."

A crop report issued by a Minneapolis firm gives a favorable view of the Northwestern Wheat condition and says: "With favorable weather conditions from now on the Red River Valley will produce nearly, if not quite as much Wheat as a year ago, and the country outside of the valley promises a good deal more. Weather conditions all over the country perfect and crop doing fine."

The *Northwestern Miller* says: "All the later reports from Kansas indicate that the condition of the Wheat crop is vastly better than was shown by earlier reports. The harvest is nearly completed and returns in many cases show an excellent yield. The quality will vary greatly, but indications are that there will be much good Wheat. Some reports indicate that yields are better than those of the last crop."

The Iowa State crop report says that the past week has been the best of the season for rapid growth of Corn. Conditions are about normal for this time of the year, but owing to the poor quality of seed the stand is generally below the average. The harvest of early Oats, Barley and Rye is progressing favorably. Spring Wheat is filling well and will soon be ready for the binders. Generally there has been less than the usual amount of damage to Grain crops by rust and blight.

Broomhall cables: "The *Marche Francais*, organ of the French Millers' Association, asserts that the Wheat crop matured before proper development had taken place and as a result yield will prove 25 to 30 per cent short of last year. The 1903 crop was 335,600,000 bu, so that the *Marche Francais* estimate for this year is 255,920,000 bu to 271,200,000 bu, or the smallest crop since 1897. Our agent at Barcelona advises us that drouth in April and May, excessive heat in June and severe hailstorms in July impaired the Spanish crops."

REVIEW OF TO-DAY'S MARKETS

FLOUR—Market is holding steady. Demand shows no marked improvement and nothing doing in the way of export.

WINTER WHEAT—Was firm and prices 1@2c higher. Demand good and more doing. More new Wheat coming and it is being taken up readily. No. 2 Red in store nominal; fresh arrivals free on board quotably $1 00@1 03. No. 3 Red fresh receipts of new sold free on board at 97c@$1 00½, and old at $1 01. No. 4 Red new Wheat sold free on board at 91@93c. No Grade Red sold at 80@92c. No. 2 Hard fresh arrivals free on board sold at 91@98c. No. 3 Hard choice soft Wheat sold at 98c, and ranged down to 87c for ordinary.

SPRING WHEAT—Was in fair demand and 1@2c higher. Very little doing, small receipts checking trading. No. 1 Northern in store sold at $1 02 and car lots fresh arrivals quotably $1 01@1 02. No. 2 Northern fresh receipts nominally 98@99c. No. 3 Spring fresh receipts quotably 88@96c. No. 4 Spring ranged at 68@90c for poor to choice, with sale of a car at 85c.

REGULAR WHEAT—A good trade, but largely local and professional, with fluctuations frequent within the established range. The close showed old July 2⅝c higher and new up 2⅛c while old September gained 1⅝@¾c and new 1¾c. A Paris cable said: "The St Petersburg correspondent of *Le Matin* states that Great Britain has given Russia only twenty four hours in which to reply to its protest against the seizure of the Malacca." The war possibilities, drop of 3-16 in British consols and unfavorable foreign crop advices were the principal "bull" helps. Local professionals as well as handlers of cash, were quite conspicuous on the buying side early in the day and market responded readily to the demand. Kansas City advices were again "bullish" on the weather conditions and reports from France, Spain and Germany favored the "long" interest. Liverpool quoted spot steady to ½d lower and futures ⅜d higher. English country markets were strong and fully 6d to 1s higher. London came ½d higher to ¾d lower. Paris came unchanged to ¼c higher. Berlin was ⅜c better and Buda Pesth 2¾c lower. The Hungarian crop was officially estimated at 2,400,000 bu over the promise of last month or a total of 127,200,000 bu against 151,500,000 bu last year. The organ of the French Millers' Association estimated the Wheat crop 25@30 per cent short of last year. The 1903 crop was 335,600,000 bu, so that the *Marche Francaise* estimate this year is 255,920,000 bu to 271,200,000 bu, or the smallest since 1897. The New York *Herald* had a Berlin cable stating that farmers thoughout Northern Germany are complaining. Harvest has been damaged much and all crops deteriorated during heat of last week. Map showed over 2 inches of rain at Valentine, Neb., and half inch at Des Moines. Rains quite general West and Southwest. Showers quite generally predicted to-day and fair weather by Friday. Minneapolis wired that it was raining hard at Hilsboro, N. D. Omaha wired: "Raining hard; looks as though had settled down for a long rain." The *Price Current* said the past week had been very favorable for farm work and crop growth, and 30,000,000 bu a conservative estimate of the recent Western Wheat losses. Quality irregular. Primary receipts were 43,000 bu ahead of last year. Kansas City and St. Louis received 208,000 bu, against 189,000 bu last year. Northwestern receipts were 51 cars larger. An early feature was the demand for both old and new July. Duluth reported 10 boat loads of Manitoba sold for direct export. Exports were very moderate, and 6 boat loads accepted at the seaboard. Argentine shipments were estimated at 2,000,000 bu. Flour output in the Northwest the past week 3-6,000 brls, against 445,000 brls the corresponding time last year. Minneapolis stocks are expected to decrease 450,000 bu this week. Buying September and selling December by elevator interests was a late feature. *Broomhall* reported more Argentine and Russian Wheat offered. Kansas City wired that 105 cars of Wheat were carried over to-day being unsold. Receipts at Duluth 69 cars and at Minneapolis 143 cars, a total of 212 cars, against 202 cars yesterday, 170 cars a week ago, and 161 cars last year. Local receipts included 12 cars Winter, 1 car Spring, no cars mixed, a total of 13 cars, against 53 cars last year. Included in the above was 1 car contract grade. There were 2 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 30 cars. Withdrawals to-day were 21,500 bu. Receipts at Western points were 541,356 bu, against 501,030 last year. At Eastern points 77,660 bu, against 227,848 last year. Shipments from Western points were 250,205 bu, against 198,945 last year, and from Eastern points 62,804 bu against 37,070 last year. Shipments of Flour were 3,790 brls. Exports of Wheat in Flour were equal to 79,749 bu.

SEPTEMBER New Style—Sold at 87@88⅛c and at 87⅛c. Opened with sales at 87@87⅛c and 87¼c, sold to 87⅜c, to 87¼c, to 88⅛c, to 88c to 88⅛c to 87¾c, to 88⅛c, to 88⅛c, to 88¼c, to 88⅜c, to 88⅝c, to 88½c, to 88⅝c, to 88¼c, to 88¾c, and closed at 88¾c bid.

DECEMBER Sold at 88⅝@88c. Opened with sales at 88⅝c to 88⅞c, sold to 87@87¼c, to 87c, to 87⅜c, to 87¼c, to 87⅝c, to 87¼c, to 87⅞c, to 87½c, to 88c, to 87½c, to 87⅞@88c, and closed at 87⅞@88c.

MAY—Sold at 88¼@89⅝c. Opened with sales at 88¼c to 88½c, sold to 88⅜c, to 88⅝c, to 88½c, to 89c, to 88¾c, to 89⅜c, to 89¼c, to 89⅜c, to 89¼c, to 89½c, and closed at 89½c sellers.

CORN—Only a moderate trade with the feeling somewhat unsettled, the close showing July ¼c better while September gained ⅝c, the December closed ¼@⅜c higher and May about ¼c better. Buying September was more general and "shorts" covered July. The distant futures did not advance proportionately. Market was strengthened chiefly by the early advance in Wheat. Weather conditions were looked upon as excellent, there being good rains West. Cables were easier. Liverpool spot and futures were quoted steady to ½d lower. Receipts were 187 cars, 10 cars grading, against 149 cars last year, when 15 were contract, and 203 cars are expected to-morrow. St. Louis wired: "Our reports on Corn in Southwestern Kansas and good portion of Missouri not very good. Northern Kansas, Nebraska and Iowa excellent." The *Price Current* stated that Corn was progressing rapidly and in about an average condition. Argentina shipments were estimated at 2,601,000 bushels. Charters were reported here for 190,000 bushels. Maryville, Mo., reported that the crop outlook was the poorest in ten years and that section would have to ship in Corn instead of shipping it out as usual. Kansas reports were more favorable. Western receipts were 262,000 bu against 334,000 bu last year, and shipments 355,000 bu and 351,000 bu respectively. Local arrivals were 178,000 bu and shipments 268,000 bu. There were 47,500 bu contract switched from private elevators. Exports were 68,000 bu and 2 boat loads were accepted at the seaboard. Local shipping demand continues quiet and sales 35,000 bu. Car lots were in fair demand and moderate supply. Prices were stronger. Sales almost entirely by sample. No. 2 closed at 49¾c and No. 2 Yellow at 51c. No. 3 closed at 49½c and No. 3 Yellow at 50½c. No. 3 White sold at 49½c and No. 4 at 48c.

Corn by sample. There was a better demand with the offerings moderate. Feeling was firmer and prices unchanged to 1c higher. Sales on track and free on board. No Grade sold at 42¼@48c. No. 4 at 45@50½c. No. 3 at 49¾@50½c. No. 3 Yellow at 50¾@51c. No. 3 White at 49½c. Billed through. No Grade at 44@46c. No. 4 at 48¾@49c. No. 3 at 48¼@48½c. No. 3 Yellow at 49¾@50c. No. 2 Yellow at 50@50¼c. No. 3 White at 48¾@48½c.

Future Deliveries of No. 2 Corn—Moderately active and firm, closing ¼@⅝c higher.

JULY—Sold at 49@49⅝c. Opened at 49c to 49⅛c and sold at 49⅝c to 49⅜c, to 49¼c, to 49⅝c, and closed at 49⅝c.

SEPTEMBER—Sold at 49⅛c to 49¾@49⅞c. Opened at 49⅛c to 49¼c, and sold at 49⅜c, to 49¼@49⅜c to 49½c to 49⅜c to 49⅝c, to 49⅜c, to 49⅝@49¾c to 49⅝c to 49¾@49⅞c, and closed at 49¾@49⅞c asked.

DECEMBER—Sold at 45⅝@45¾c and 46⅛c. Opened at 45⅝@45¾c to 45¾c and sold at 45⅞c to 45¾c to 45⅞c, to 45¾c, to 45¾@45⅞c to 45¾c, to 46⅛c, and closed at 46⅛c asked.

MAY—Sold at 44⅞@45c and 45¼c. Opened at 44⅞@45c and 45¼c and sold at 45@45⅛c, to 45c, to 45¼c to 45c to 45¼c, and closed at 45¼c bid.

OATS—Were active and strong, distant futures being bought by the largest "shorts." September took the lead and advanced ⅜c. December advanced ½c and other months ⅜@¼c. The advance was largely in sympathy with Wheat and on small offerings. Reports of rains Southwest and in Nebraska added to the uneasiness of "shorts." Cash sales were 70,000 bu, including 0,000 bu standard at 2¾c over September c. i. f. Buffalo. New York sold 30,000 bu for export. Seaboard clearances were 13,000 bu. Arrivals 95 car, with 7,000 bu withdrawn. Car lots to go to store were slow but steady. Standard in store closed at 40⅞c.

Oats by sample were in fair demand and steadier, sympathizing with futures. Sales on track and free on board. No. 4 at 37@38c. No. 4 White at 38½@39½c. No. 3 White at 40@41½c. Standard at 41@43c. Bill through. No. 4 at 37@38½c. No. 4 White at 38½c. No. 3 at 35½c. No. 3 White at 39@42½c. No. 2 at 36½c. No. 2 White at 43@43½c. At the river. No. 4 White at 33½@35½c. No. 3 White at 38@39c.

Future Deliveries of Contract Oats—Were active and higher.

JULY—Moderate trading. Sold at 39¾@39⅞c. Opened at 39¾c to 39⅞c, sold to 39⅞c at close.

SEPTEMBER Active. Sold at 32¾@33⅛c. Opened at 32¾c, sold to 33⅛c and closed there.

DECEMBER Active. Sold at 33¼@33¾c. Opened at 33¼c, sold to 33¾c at close.

MAY—Sold at 35@35⅜c. Opened at 35c, sold to 35⅜c and closed there.

RYE—The market was very quiet and without special change in prices. No new feature. Demand light. There were 13 cars received, one of which was new grading No. 4. It is claimed the new Rye is good, but rather damp. One thousand bushels were withdrawn from public elevator. There were no export clearances. No. 2 in store nominally 75c. No. 3 nominally 69@76c. For new No. 4 buyers asked 65c.

Future Deliveries of No. 2 Rye—Quiet. July 75c asked. September sold at 51¾c and that the closing.

BARLEY—Ruled about steady. Some demand for good feed Barley and like Screenings reported with steadiness prevailing very poor cars though ruled dull. Malting grades were salable to a limited extent at least which was enough to take the offerings. More samples of new Barley from Iowa were shown. They were of good quality. A good crop is expected all over provided the weather remains favorable. In about two weeks new Barley is expected to be on sale. Receipts to-day 8 cars. The market for Screenings was quotable at 28@37c for poor to choice. Feed Barley, common, dirty or musty down to 30@33c, poor heating lower, sweet good color, thin at 35@38c. Malting, low grade, was quotable 38@44c, fair to good, sound, 42@44c, good color 48@50c and fancy above.

SEEDS—Were quiet with new crop Timothy slightly easier and old crop steady and No. 1 Flax was slightly improved. There were no other developments.

Timothy—There was some old cash Seed on the market. Figures at which it sold could not be learned. It was said to be no criterion of the market on account of poor quality. Good cash old Seed quotably steady and low grades easy. New crop Timothy a shade weaker, September being offered at $3 17½, with $3 15 bid, that was about 2½c easier. Old Seed contract grade, spot or July delivery, nominally $2 95. Country lots quotable at $2 00@2 75 for low grade to fancy; choice about $2 65@2 70, fair to good Seed $2 50@2 60 and rough at $2 30@2 45.

Flax—There was ½c advance in bids for No. 1 cash and future delivery, and a sale of cash was made. Northwestern cash Flax nominally steady with the late bid price obtainable. There was nothing especial developed in the market. Receipts were 3 cars or 2,550 bu, and none taken out. At Minneapolis the receipts were 30 cars, at Duluth 14 cars. No. 1 Northwestern or No. 1 from the Northwest was $1 21½ bid. No. 1 was salable at $1 17½, a car sold at that. Rejected about $1 12@1 17 depending on quality. July salable at $1 17½ and September was $1 17½ bid and $1 18½ asked.

Clover—Was nominally higher on advices from outside when speculative interest has caused firmness. In some sections after the first cutting there has been sufficient rain to cause rank growth and this is not favorable, still should it turn favorable and remain so the chances for the crop would all be all right. In the meantime, however, there is a somewhat nervous feeling. Contract spot Seed quotable at $11 25. Country lots common to choice $9 00@10 50, fancy above, mixed with Buckhorn or other weed Seeds $7 00@8 50, poor, cleaned out of Timothy, very foul, lower. Fair to good $9 50@10 25.

Other Seeds—Nothing doing and nothing new. Hungarian and Millets, no quotations at present. Buckwheat quotable at $1 55@1 60 for good. Mustard at 90c@$1 10, poor down to 50@60c.

HOG PRODUCTS—A little more life was manifested in the market for Hog Products, but trading was on a moderate scale. Offerings were fairly liberal, and the inquiry was moderate. Outside orders were light, and local trading was only fair. Market opened rather easy, owing to the liberal supply of Hogs and the decline in prices, and a few trades were made at slightly reduced prices. Later, in sympathy with the strength in Wheat, a steadier feeling was manifested and prices rallied moderately and closed rather steady. "Shorts" bought moderately at the advancing scale. Trading mainly in September contracts. Receipts of Hogs at the leading Western packing points were estimated at 63,500 compared with 53,500 one year ago. Returns of the packing of the West for the week exhibited a decrease of 220,000 Hogs compared with the returns of the corresponding week in 1903—due mainly to the labor troubles at the packing houses. Foreign markets were firm for Meats, and Hams were quoted 6d higher while Lard was quiet and 3d lower. Domestic markets steady. Receipts of Products were fair of Lard and Meats about 16 cars. Shipments were moderate—of Lard and Meats about 88 cars. Only a moderate demand on shipping account, and offerings were fair. Sales were a trifle larger, and prices were without material change.

Mess Pork—Trade was fair in the market for Mess Pork and the feeling was a little unsettled. Offerings were not very large and the demand was only fair. Market opened rather easy with a little pressure to sell, and prices ruled 5@7½c lower. Later the market was stronger with moderate buying, and prices rallied 5@22½c and the market closed rather steady. Demand on shipping account was light and offerings were moderate. Cash lots were quotable at $12 70@12 75.

JULY—Quiet and quotable at $12 75.

SEPTEMBER In only fair request and offerings were moderate. Sales were made at $12 62½@12 85. Opened at $12 62½ to $12 67, sold to $12 70, to $12 67½, to $12 72½, to $12 70, to $12 77½, to $12 75, to $12 85, to $12 82½, and closed steady.

OCTOBER Called for moderately, and offerings light. Sales were made at $12 65@12 82½. Opened at $12 65, sold to $12 72½, to $12 70, to $12 82½, and closed quiet.

Lard—Only a moderate trade was reported in the Lard market, and the feeling was comparatively strong. Offerings were not very large and the demand was only fair. Foreign advices unfavorable to holders. Stock gradually enlarging due partially to receipts from interior. Prices ruled 10@12½c higher and market closed at outside figures. Demand on shipping account was light with no particular pressure to sell. Cash lots quotable at $6 82½@6 85. Loose lots in small request with limited offerings. Prices steady at about 0c discount on September figures. Leaf Lard was in light demand, with moderate offerings. Quotably steady at $6 12½. Neutral, in only limited demand, with fair offerings. Prices quotably steady at $7 00@7 12½ for No. 1 and $6 75@6 87½ for No. 2.

JULY—Quiet, with small sales at $6 82½@6 85 and closed steady at $6 85.

SEPTEMBER—Demand was fair and offerings were not very large. Sales were made at $6 82½@6 95. Opened at $6 82½, sold to $6 85, to $6 82½@6 85, to $6 92½, to $6 90, to $6 95 and closed steady.

OCTOBER. In moderate request and offerings were rather light. Sales were made at $6 90@7 00. Opened at $6 90, sold to $7 00 and closed steady.

Short Rib Sides—A fair trade was reported in the market for Short Rib Sides, and the feeling was somewhat unsettled. Offerings were moderately free, and the demand was only fair. Market opened rather easy and prices were about 2½c lower. Later, the feeling was somewhat stronger, and prices rallied 10@12½c and the market closed comparatively steady. Shipping demand was moderate and offerings were only fair. Cash lots quotable at $7 25@7 37½ according to weight.

JULY Quiet and steady at $7 40.

SEPTEMBER Offerings were moderately free, and the demand was fair. Sales were made at $7 42½@7 55. Opened at $7 42½ to $7 45, sold to $7 42½, to $7 47½, to $7 45, to $7 45@7 47½, to $7 45, to $7 55 and closed steady.

OCTOBER Demand was light and offerings were moderate. Sales were made at $7 47½@7 57½. Opened at $7 47½, sold to $7 57½ and closed steady.

Other Meats—Trade was only moderate and the feeling rather steady. Offerings not very large and the inquiry was only moderate. Exporters rather backward and the home demand was only fair. Green Meats in moderate supply with a light inquiry and prices steady. Pickled Meats in fair request and price well maintained. Dry Salted Meats were in good demand with moderate offerings, and prices well maintained. Smoked Meats called for in moderate quantities and prices were unchanged. Closing prices ranged as follows: GREEN Hams av 10@12 lbs 9¾@10c, 12@14 lbs 9½@9¾c, 14@16 lbs, 9½@9¾c, 18@20 lbs 9¼@9½c. Skinned Hams 11⅛@11¼c. Shoulders 6¾@6⅞c, Picnic Hams, 7⅛@7¼c. Bellies 8@11c. ARGENTINA.

[From the River Plate Review, May 28.]

Extracts from a most exhaustive report on Argentine Railways and the cereal traffic, presented to the Minister of Agriculture by Mr. Lahitte, the chief of the agricultural statistical office under date of May 14, 1904: In 1890 we had 2,906,000 hectares of land cultivated; Wheat, Corn and Alfalfa occupied 2,680,0 0 hectares (88 per cent), and of these wheat took 1,260,000 hectares, or 47 per cent, were in the provinces of Buenos Ayres, Santa Fe, Cordoba and Entre Rios; that is to say that it is in these districts, where the chances and risks of our agricultural conditions may be investigated.

The report then goes on to deal with the early days of Wheat cultivation, when land could be had for the asking almost, and recounts the varied actions in prices from 1877, when the price in England was 57s per quarter. In 1887, when the Argentine cereal export really commenced, prices in England had fallen to 33s, and in 1894 to 17s 6d, and this fall also affected rates for other cereals. This did not, however, retard the cultivation in Argentina, but rather had a contrary effect, as the following areas sower will show:

	Wheat. hectares.	Flax Seed, Corn. hectares.	Corn, hectares.
1895-6	2,250,0 0	567,324	1,245,000
1902-3	3,686,000	1,354,0 0	1,504,000
19 3-4	4,200,000	1,500,000	

It is notorious, says the report, that this increase of 200 per cent in ten years cannot be attributed to the abundancy and cheapness of labor, nor to the facilities for obtaining land on moderate interest, and that it is evident that the prolific soil with which nature has endowed this country, coupled with the railway extensions, have been the cause of the positive leap that gives an export of agricultural products valued at $120,000,000 Gold.

The year 1899-1 gave an export of 396 000 tons of Wheat; in 1901, three years after, the total reached the enormous figure of 1,508,000 tons, and three years later it fell to 102,000 tons, and we had to import 500 tons to meet the consumption of mankind. Three years later it had gone up again to 1,503,000 tons.

Examining the monthly returns of export, and taking that account that the harvest begins at the end of December and lasts up to March and April, we see that in the month of June three-fourth's of the year's exports have been shipped. In 1901 the best export was 1,281,600 tons, and by the end of June 1,322,000 tons, or 79 per cent, had been embarked. The quantity of Corn exported during the same year was 1,104,000 tons, and October 1st 1901, that is after the harvest, 1,781,0 0 tons, or 21 per cent, had been shipped. The railway traffic returns demonstrate equally the pressure of transport in the same particular period.

Wheat carried in 1903, 2,241,000 tons; carried from January to June, 1,728,000 tons, or 77 per cent.

Flax Seed carried in 1903, 833,800 tons; carried from January to June, 564,300 tons, or 68 per cent.

Corn carried in 1903, 2,119,000 tons; carried from May to October, 1,726,000 tons, or 77 per cent.

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

Flour made by mills outside of St. Louis, but controlled in that city.

The Minneapolis Flour output last week decreased 40,685 brls. This week there are fifteen mills in operation and the present outlook is for an output of 230,000 brls. In the corresponding week a year ago it was 238,000 brls.

The rate of Minneapolis mills last week was somewhat irregular. While some of them reported sales larger than their curtailed output amounted to, others experienced a very slim business, orders booked being a good deal short of quantity made. One company did quite a good business Wednesday and Thursday on the advance in Wheat. However, where buyers took Flour they wanted it at old prices and usually gained their point. As a rule, trade was characterized as very dull, buyers holding off for lower prices, and when taking Flying, doing so only as actually needed. Mills generally advanced prices 10@20c per brl, and on this basis Flour was very slow of sale. With some mills shipping directions come in too slowly, but with others they were more satisfactory.

No attempt is made to sell patent abroad. One mill manager said to-day that he could only make some $1 00 per brl too low to permit sales. On the basis that Flour was offered at in Glasgow, it could be shipped to New York, pay the high United States duty and still leave a margin between the price received and that which it could be sold from Minneapolis. Some millers report a better foreign demand for clears from Scandinavia and United Kingdom markets outside of London, though others could not say as much. One reported pretty good sales in the last week. Exporters had the opposite experience.

Minneapolis and outside mills are quoting patent at $1 90@2 15 per 196 lbs in wood f. o. b. Minneapolis.

THE SPRING WHEAT CROP.

[From the Northwestern Miller.]

The Wheat crop in the Northwest has made favorable progress during the last week. Though there was rain that were not needed, especially in the Red River Valley, they were of no great detriment. There have been three or four days of hot, forcing weather, and while some apprehension was felt as to the effect on the Spring crop in certain localities, on the whole it has no doubt been beneficial, giving the Wheat plant the sunlight and warmth that it has been wanting. If it had an injurious effect in some places, it has done much good in others. The same is true as to rain. The Red River Valley has had an excess of moisture all the season and rains during the week were a disadvantage. But west of the valley in North Dakota it was of benefit, and in that immense territory a large crop is assured. In the Red River proper Wheat is spotted, especially north of Grand Forks, it being poor on low land and good on high land.

In South Dakota, conditions are exceptionally favorable and the State promises to raise one of its largest crops. About the only discordant note from that State comes from Brown and Spink Counties, where the soil is sandy and rain is needed. With good weather, at some points cutting will begin in a week to ten days.

In Southern and Western Minnesota, much the same situation exists as in South Dakota, though perhaps rather too much moisture and lack of warm, bright weather has been noted for there. But summer weather is now being realized and Wheat is growing very rapidly.

In brief, the weather is favorable for Wheat and the outlook is for a comparatively large crop in the Northwest. Of course, early frost might do serious damage

THE FLAX SEED SITUATION.

[From the Oil, Paint and Drug Reporter.]

While it is yet too early to estimate with any degree of accuracy the size of the Flax crop, there is no dispute as to its being very much smaller than last year's yield. Figuring on an average yield, we are not likely to get more than about one-half the crop that was harvested in 1903. If unfavorable weather conditions prevail, the crop may be no small this year that in the existing surplus of Seed will seem like a God-send. It is largely a matter of yield and condition. The government crop report says that the acreage is 5 per cent less than that of last year by about 826,000 acres, or 25.6 per cent, and that the condition on July 1 was 88.6 per cent. It would be interesting to know on what basis this estimate of acreage is made. Last year the department estimated the area sown at 3,233,-229 acres, of which 1,314,400 acres were in North Dakota, and 26,3 0 acres were sown in the Southern Department, Oklahoma and Indian Territory. In North Dakota it is generally conceded that the sowing has been 35 to 40 per cent or more under that of last year. Of course this does not necessarily presuppose a correspondingly smaller crop, as a bumper yield might change the entire result, but it is well worth noting that the North Dakota crop for 1903 was only 25,000,000 bushels against very late in June and that it is in danger of frost. Also that the plant is reported in many sections as looking short. Assuming that the government estimate of 30,000,000 is not too much for the harvest, we would have an acreage this year of 2,400,-000 acres, which with an average yield of 8 bu to the acre, would give us a crop this year of 19,200,-000 bu. We do not think it likely that there will be several million bushels less than that, but it depends so much on the weather conditions between now and harvest that no accurate forecast is possible. The present prospect favors a much smaller crop than for two years past, and as the conditions abroad are all looking to smaller crops and higher prices, we may reasonably look for a good market all the bottom. The elimination of foreign competition from our Seed markets is certain to be a strengthening influence of great importance, and that consideration alone is one which promises a large amount of Seed into this country seems to be now assured. From Argentina comes the information that farmers there are sowing double the amount of Wheat that they sowed last year, and that they are disappointed in the price this year. Wheat has paid them better Also the same authority, the Buenos Ayres *Standard*, says that holders of Flax Seed will not be forced to let go cheap chiefly to the low prices offered. They believe that Flax Seed will soon go up very considerably from the present quotations. Similar reports have been coming to hand for some weeks past and they indicate that there is a widespread dissatisfaction among Flax raisers over the meagre prices received, which is likely to result in a reduction in the large planting of the two previous years. It is also stated that crop prospects for Flax Seed on the Danube are very discouraging this season.

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller, July 20.]

The attached table shows the output of Flour and approximate consumption of Wheat at Minneapolis and Duluth, the number of mills and "outside mills" with a daily capacity of 30,855 brls, from Sept. 1, 1903, to July 9, 1904:

	1903-04.		1902-03.	
	Flour, brls.	Wheat, bu.	Flour, brls.	Wheat, bu.
Minneapolis	12,587,585	56,893,000	14,669,130	65,995,000
Duluth	849,485	3,762,000	1,365,195	6,144,000
40 outside mills	5,950,570	26,777,000	5,881,815	26,482,000
Totals	19 ,426,640	87,432,0 0	21,916,140	98,606,000

These totals show the approximate corn sumption of 11,173,0 0 bu less Wheat this year than in 1902-03. This has occurred from the mills of Minneapolis and Duluth turning out 2,082,555 brls less Flour final to 5,173,0 0 brls during the year last year In contrast, the outside mills have increased their output to the extent of 65,755 brls, or equal to 295,000 bu of Wheat.

BOSTON WOOL MARKET.

BOSTON, July 15.—The *Commercial Bulletin* says: "It has been a big and lively week. Boston is having a scramble for Wool equaling that of the boom years of 1899 and 1900. Not only are the manufacturers all of whom are buying There is also some speculation between dealers, mostly in secured Wools, the latter selling new wools now, higher than a fortnight ago Fleece Wools are higher. Large blocks of Territory Wools have been bought by manufacturers at top prices. The London sales opened yesterday with medium cross breds 1d higher than this week and fine merinos up 5 per cent.

"The shipments of Wool from Boston to date from Dec 31, 1903, are 111,634,104 lbs, against 120,857,-096 lbs at the same time last year The receipts to date are 187,6 3,675 lbs, against 1 0,180,885 lbs for the same period last year."

THE WEATHER CONDITIONS.

Very wet in West, particularly Nebraska and Iowa, also general rains in Southwest, but not heavy. Much cooler in Northwest. Heavy local rains. Valentine Neb., had 2 20 inches; Des Moines, Ia., 2 10; Dodge 14, Wichita 08 Springfield, Mo., 42. Generally clear in Southwest, except light rains in Eastern Manitoba also in eastern part of Ohio Valley

ITEMS OF GENERAL INTEREST.

July dividends of the Cripple Creek district will be in excess of $825,000, the best in the history of the district.

The Capital City Grain Elevator Company, of Nashville, Tenn., will erect a new elevator of 200,-000 bu capacity.

The Cambria Steel Company has declared a dividend of 1½ per cent, payable Aug 15 to stockholders of record July 30.

Oats are rusted badly up to the head of the stalk. This will cut down the yield.

It is understood that the Cincinnati, Hamilton and Dayton will issue $3,000,000 of new stock in connection with the purchase of Pere Marquette.

The Quincy Mining Company has declared a dividend of $2 50 a share for the past six months payable Aug 25. Books close Aug. 1 and reopen Aug 8.

Francis B Chase, a Lumberman of Oshkosh, Wis., has filed a petition in bankruptcy. Liabilities are placed at $153,697, assets at $76,210, and exemptions $647.

The Pullman Chicago and Traction Company has declared the regular quarterly dividend of 1½ per cent on its preferred stock, payable Aug. 1 Books close July 2 and reopen Aug. 2.

The Shareholders of the United Fruit Company subscribed for 19,954 shares of the recent issue of 20,586 shares of new stock, leaving but 632 shares to be taken by the underwriting syndicate.

The Pullman Company dividend No. 160, a quarterly dividend of 2 00 per share from net earnings, has been declared, payable Aug. 15 to stockholders of record at the close of business July 30, 1904.

Control of the Cincinnati, Hamilton and Dayton and Chicago, Cincinnati and Louisville are temporarily in the hands of United States Mortgage and Trust and will remain there until a final plan is reported.

A petition has been received by the Chicago Board of Trade from the Philadelphia Exchange, asking the Chicago Board to petition Congress to make in favor of the Chesapeake and Delaware Canal.

The Danville and Northern Railroad Company, Monday, filed articles of incorporation with the Illinois Secretary of State. The principal office is to be at Danville, and the capital stock for the present is the nominal sum of $25,0.0.

At the stockholders' meeting of the Southern Pacific Company, held in Louisville, Ky., Wednesday, 1,520,600 of the 1,978,000 shares of stock were represented by proxies in the hands of the chairman. A resolution of the board of directors authorizing the capital stock of the company to $100,-000,000 by the issue of preferred stock was adopted.

A Topeka, Kan., dispatch says: "A great improvement is reported in the condition of the Corn crop throughout Kansas during the last week the weather has been favorable, and farmers are able to get into their fields and cultivate their crops. Farmers are wondering day and night after the Wheat. The average weight of this year's crop is 53 lbs."

The Memphis plant of the Southern Car and Foundry Company, which has been sold by the receivers for about $60,000 to the Southern Car and Foundry Company, gives the latter a plant further south than any now operated by it. It is calculated that Southern business will in time be handled at this plant and that it will be liberally patronized by the Southern roads.

The Pennsylvania Railroad has made a contract with the Cambria Iron Company for 8,000 tons of steel to be used in constructing the New York tunnel. The price to be paid for the bolts is 2c per lb, which is about 40 less than the present market price. The total cost will be about $500,000. It is understood the Pennsylvania Company will soon place several other large orders for construction material.

The Northern Pacific Railway Company has declared a quarterly dividend of 1½ per cent and an extra dividend of ½ per cent, both payable Aug. 1 to those lawfully entitled to receive the same. Books close July 21 and reopen Aug. 2. This is the same as declared in April. In January, 1½ per cent without any extra dividend was ordered. This makes 5 per cent for the present calendar year to date.

A Boston dispatch says: "There is a heavy movement in the Wool market, with trading marked by something of a feverish tone. This is due to a decline of from 1 to 2 cents in the value of the latest clips at the lowest-prices which the high market affords. There is a general buying of Territory Wools, especially the fine and medium grades. Territory Wools are firm Pulled Wools are quiet, with small offerings. Foreign Wools hold firm in sympathy with strong conditions abroad."

At the annual meeting of the stockholders of the American Chicle Company, held in Jersey City, Tuesday, the president reported that the company had paid 12 dividends during the fiscal year just ended June 30 last, and had added to its surplus $211,000 The total surplus now stands at $998,050. The dividends were at the rate 1½ per cent quarterly on the preferred and 1 per cent quarterly on the common stock. In the previous year the company paid dividends at the same rate and had a surplus left of $786,000

The purchase of the fourteenth Street Bank of New York, in his address to the New York State Bankers' Association, argued in favor of the passage of a law by the State compelling trust companies to make reports of their condition as they now, semi-annually, on the 30th of June and the 31st of December, but whenever called upon to do so by the State Banking Superintendent. This change was provided for in the bill before the last legislature known as the O'Neill bill, which was intended to secure equity in the regulation of banks and trust companies.

The *Iron Age* in its weekly summary of the Iron and Steel trade says: "Regarding the Steel situation, the improvement has been taking place chiefly in the Steel Sheets, the attention, and possibly apprehension, of buyers has been aroused, and hopes of sellers have been growing. It will take more than talk to lift prices in the lines on which quotations are posted, but they are supported by pools There is very little really reliable evidence that actual orders have increased materially or that consumption is again on the upward swing. On the contrary, there are those who state emphatically that they expect a slacker month for August."

The general loss committee, composed of expert surveyors here, which met Monday reported after the great fire of Feb 7 in Baltimore made its final formal report. Monday The report states that $4,723 claims were handled by the committee and that the amount of insurance paid on these claims was $3,071,358. There are still eleven claims unsettled, and in addition there were probably about 1,000 claims for small amounts that were settled direct by the companies. The amount involved in these small claims will not exceed $1,500,-000, so that the total insurance paid to those who lost by the fire will reach $4,571,358.

The Girard Trust Company of Philadelphia and another Philadelphia trust company, acting as trustees of estates, which are holders of the $100,300 preferred stock of the Lehigh Valley Railroad Company, have informed the company that they intend to bring a friendly suit to determine whether or not the annual dividend is cumulative. The question is an old one, and has been considered frequently. At a recent meeting of the directors of the Lehigh Valley a dividend of ½ per cent was declared on the preferred stock. This was the first dividend on that issue since 1893. The action of the directors at that meeting is construed as meaning that the management does not regard the stock as a cumulative issue.

All the cash required for the preliminary financing of the Pacific Steel Company has been raised. The amount deemed necessary, $150,000, is now held by the special pooling committee, which will have charge of all the initial work. The Pacific Steel Company, which was organized at San Diego, Cal., with a capital stock said to be $50,000,000 each of common and preferred, is the most pretentious Iron and Steel organization of the year. Charles M. Schwab has a large interest in the company, and relations between the Pacific Steel Company and the Bethlehem Steel Company will be extremely close. Mr. Schwab will dominate Bethlehem's policies. The reorganization committee get through, and with the new company as a Pacific Coast adjunct he will have, next to the Steel Corporation, one of the most important Steel companies in the United States.

Although the working balance of the Treasury has dropped to about $35,000,000, and there has been an unwritten law that it must not drop below $100,000,000, the action of Secretary of the Treasury Shaw to make no draft for the present on the Government funds now with the National banks. These deposits amount to $105,000,000. To make a call upon the banks at this time merely to bring the working balance up to a standard set by precedent might create an impression wholly unwarranted by the situation. The available cash balance in the Treasury is now the largest money on deposit with the banks, is $151,000,000. This is all really available at any time. The deficit of $18,000,000 for the first nineteen days of the month is explained by the fact that these appropriations made at the last session of Congress became immediately available and were drawn. This drain upon the Treasury is now over and the customs and internal revenue receipts increase as they are expected to do the deficit will disappear.

Broomhall's Argentine agent cabled. "Fine rain falling. Argentine Wheat markets continue firm, being influenced by good export demand Arrivals from interior liberal which is best evidenced by increase in visible of 440,000 bu last week, notwithstanding shipments are 800 000 bu larger than a week ago. Corn lost some of its strength, but is still firm Export demand now poor, while last week it was good Port arrivals continue small."

The *Modern Miller* says. "The weather most of the week has been favorable for harvesting Winter Wheat and this work has progressed satisfactorily in most sections as interruptions by showers were slight and of little consequence In the western part of the Winter Wheat belt where the greatest damage was reported as a result of heavy rains early in July, latest advices indicate that the loss is much less than reported. Yields in the Ohio Valley are disappointing."

Orange Judd Farmer says "The long delayed Winter Wheat harvest is completed. Threshing is again under way everywhere and scattered advices from the wet districts of the Missouri Valley indicate a rather better yield at the machine than was expected. Spring Wheat conditions continue favorable, the effect of a little too much rain in the Red River Valley being offset by benefit of good showers further West. A present reasonable expectation is a Wheat crop of 600,000,000 bu to 625,000,000 bu. High temperatures have caused rapid development of Corn and the position of the crop is now satisfactory, barring a little lateness generally, and weedy fields in important districts west of the Missouri River."

REVIEW OF TO-DAY'S MARKETS

FLOUR—Foreign demand still slow and domestic and local inquiry only moderate. Prices steady.

WINTER WHEAT—Business is picking up steadily in this market, due to increasing receipts Demand good and market steady for Red and 1@2c lower for Hard Winter. No 2 Red in store old Wheat nominal, with sales of 16,000 bu of new No 2 Red c. i. f. Buffalo next week shipment at $1 00, and several cars spot free on board at $1 00 No 3 Red fresh receipts new Wheat free on board sold at 97c@$1 00 No 4 Red choice new Wheat sold at 95c No 2 Hard fresh receipts free on board sold at 94½@96c and billed through at 95c No. 3 Hard fresh receipts choice new sold at 96c free on board and also billed through, and ranged down to 88@90c for ordinary. No Grade Hard sold at 92c.

SPRING WHEAT—Was in light demand and 1@2c lower. Very little doing, small receipts checking trading. No. 1 Northern in store offered 5c over old July, and car lots fresh arrivals quotably $1 01@1 02 No. 2 Northern fresh receipts nominally 97@98c No 3 Spring fresh receipts quotably 88@95c, with sale of a car at 95c. No. 4 Spring ranged at 68@90c for poor to choice.

REGULAR WHEAT—A fair trade and weaker feeling, with the closing showing old July off ⅜c new down 1c, while old September lost ⅞@1c and new 1c Weather conditions were more satisfactory, cables failed to respond to yesterday's advance on this side and crop reports indicated better yields than expected a while ago. The *Orange Judd Farmer* estimated the yield at 600,000,000 to 625,000,000 bu and the *Price Current's* advance proofs indicate an estimate of 625,000,000 bu but not to exceed 150,000,000 bu available for export, and implied Europe will need to import much more than the unusually small total of less than 122,000,000 bu which was exported from this country last year Local "longs" sold freely and there was no influential buying though the Southwest was credited with purchases Argentina shipped 1,841,000 bu, making 70,448,000 bu since Jan 1, against 51,410,000 bu last year The visible there was reported 3,240,000 bu compared with 2,800,000 bu last week and 3,352,000 bu one year ago Fine rains were reported in Argentina, and a good export demand reported there, arrivals from the interior liberal The settlement of the controversy between Great Britain and Russia, and larger Argentine shipments caused a generally weaker feeling at Liverpool and in the latter market spot was quoted ⅛d lower to ⅛d higher London ⅛d lower to 1⅛d higher the latter for spot Paris unchanged to ¼c higher Antwerp and Berlin were up ⅜c and Buda Pesth 1⅜c higher Fair weather was predicted except possible showers for Missouri and Kansas Minneapolis wired, "Receipts of Spring Wheat are practically over for this crop, and movement will be very small until we run into the new Wheat" Ontario wired, "Ontario's half crop of fall Wheat is badly damaged by rust A Paris authority estimated the French crop at 290,000,000 bu but conservative interests there considered the estimate too low Minneapolis stocks are expected to decrease 500,000 bu and Duluth decrease 110,000 bu Primary receipts 158,000 bu under last year Kansas City and St Louis received 270,000 bu last year 338,000 bu. Kansas City advices on the cash situation there were "bearish Exports were small and total for the week only 1,281,000 bu against 2,782,000 bu one year ago Acceptances at the seaboard 12 boat loads *Modern Miller* was bearish and foreigners were credited with selling here The larger estimate of 72 cars was a late factor Late Paris cable stated French crop was 70,000,000 bu short of 1903 Receipts at Duluth 87 cars and at Minneapolis 81 cars, a total of 168 cars against 212 cars yesterday, 226 cars a week ago, and 116 cars last year Local receipts included 31 cars Winter, 2 cars Spring, no cars mixed, a total of 33 cars, against 60 cars last year. Included in the above was none contract grade There were 2 cars and no bu taken from unlicensed elevators The estimated receipts for to-morrow are 72 cars Withdrawals to-day were 27,350 bu Receipts at Western points were 113,854 bu, against 571,543 last year At Eastern points 65,489 bu, against 281,132 last year Shipments from Western points were 164,700 bu against 149,345 last year, and from Eastern points 10,460 bu, against 89,001 last year Shipments of Flour were 20,055 brls. GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, July 21.]

The past week of warm and comparatively dry weather, following the previous cool and rainy weather, was probably the best all-round week of the season for farm work and crop growth. Harvesting of Winter Wheat is fast nearing completion, but the amount of threshing done is less than usual at this date. Latest advices from Kansas reflect much irregularity in extent of losses by excessive rains, from almost no loss to nearly a total loss; but the bulk of the Winter Wheat crop from the important counties range between 15 and 25 per cent. Missouri also is not turning out nearly as good a crop as was expected earlier in the season. For the United States of Missouri, Kansas and Nebraska, 30,000,000 bu might be regarded as a conservative estimate of loss within the past several weeks. Harvesting in these sections varies widely, but on the whole it is believed the quality of the Winter Wheat crop will be rather below the average. Advices from the Spring Wheat States reflect about a seasonable progress of the crop, the average condition being high.

Under the influences of the recent hot weather following last week's rains, the Corn crop has made very rapid growth and has been benefited by the week's progress. In some Southern States more rains are needed to maintain present good condition. The crop as a whole is about up to the average in condition, although still moderately late in development.

The fruit prospects were not materially changed in the past week, being moderately above an average. The crop will be especially larger than usual in Ohio and Illinois. Prospects are favorable in the important Northern peach States, as well as in Kansas and Missouri. A good condition of minor crops continues to be reflected in late correspondence.

In Ohio the past week was favorable for both crop growth and harvesting. Excepting Wheat, all important crops at present promise good to bountiful yields. Wheat is turning out very irregularly, both in yield and quality; some late complaint of damage by rust or insects in western counties, but generally the results are nearly as expected or three weeks ago. Corn is growing nicely. Oats promise a large yield through the State, and with the enlarged acreage will make a very large crop. Potato and grass crops good.

In Indiana Wheat harvesting was extended in the most northern counties; some threshing, but not much marketed yet; yields generally light, as was expected, although there were some surprises both in some southern and southeastern sections; quality is variable, and is believed will average low. Corn is doing well except on low river bottoms. Oats are turning out fine, but are below the average, good condition prevailing over most of the State. Minor crops favorable.

In Illinois Wheat cutting is about done; some threshing; little disappointment as to its quality in some southern localities. Corn has been showing an improving tendency in the past ten days or more, is generally reported in good or fine condition, although reports of serious injury by rust so than two weeks ago. Oats are making a light crop in the southern counties, but for the State as a whole promise an average crop. Somewhat variable but on the whole about an average. Hay crop is being gathered.

In Iowa growing Corn made very favorable progress during the past week. Much depends upon the condition fair to good, generally a week or more late. Oats harvest in progress; in eastern counties a large crop is expected; westward the prospects are variable, some sections are some good straw, but the State as a whole will probably have a good average in yield and quality, if harvested under seasonable conditions. Small crops generally are doing well. Hay crop will not be as large as last year, but will be about an average, of good quality, with weather favorable for gathering it.

In Missouri the Wheat crop, judging from late reports of correspondents, is not turning out nearly as well as was expected of it early in the season, although there are still favorable sections where a good crop was harvested, over the larger part of the State not much over half of a normal crop is indicated, and quality is variable, rather below the average in the best sections, the best of a rather poor sort, but is irregular in growth, and the acreage is short. The tendency lately has been toward improvement, which is not yet up to an average. Oats were hurt more or less by rains and rust; crop is irregular, some very good, some poor, on the whole hardly an average.

In Kansas the past week in most localities was quite favorable for resuming Wheat harvest work. Some reports indicate that practically no damage was done by recent rains, and that the crop is turning out about as well as was expected before the rains came; but in some important counties estimates of damage amount to 50 per cent or more; most of the estimates of damage range between 15 to 25 per cent. Some progress in cutting cultivation was made the past week. In central and western counties Corn prospects are good, but in the eastern part of the State, in the important Corn section, the condition is low, probably about 60 per cent, though with some tendency to improvement. Oats will make a light crop.

THE WHEAT CROP OF 1904.

[From the Cincinnati Price Current, July 21.]

It was mentioned in the *Price Current* last week that the interpretation placed on the Government July report indicated a Wheat crop of 700,000,000 bu, according to Mr. Howard of Chicago, and 691,000,000 bu according to Mr. Brown of New York. Mr. Howard has since indicated in his review in the DAILY TRADE BULLETIN that in view of the storms since the returns were made to the Government the position has been reduced to approximately 690,000,000 bu. The Brown calculation suggests 23,000,000 bu more than the Howard figures for July 1.

If the losses are not in excess of the present calculations, Mr. Howard's estimate of a crop of each 625,000,000 bu or more. For present purposes of calculation this appears to be a reasonable basis. The indicated supply of Wheat held by farmers and otherwise on July 1 about 150,000,000 bu. This amount of reserves can not well be reduced to much extent, under usual conditions. It can probably not of about 100,000,000 bu as a contribution to the year's requirements, if conditions shape so as to bring affairs to a comparatively close reckoning. Under these calculations the limit of supplies for the year for all purposes would be about 850,000,000 bu. Of this quantity it should be expected that domestic requirements for all purposes will closely approach 800,000,000 bu. Under this view the quantity available for exportation can not be expected to exceed about 150,000,000 bu. The quantity exported the past year was 212,000,000 bu, which was far above the usual distribution through such channels. Of this quantity about 90,000,000 bu represented exports to Europe. The current calculations of statisticians abroad imply that European countries must be expected to require more Wheat from surplus countries than the past year.

The American steamer Ventura, which sailed from Sydney, N. S. W., Wednesday, for San Francisco, had on board $1,000,000 in Gold.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, July 21.]

The movement of Hogs and packing operations have been greatly curtailed by the strike of packing house operatives in various markets of the West. Total Western packing 165,000, compared with 390,000 the preceding week and 420,000 two weeks ago. For corresponding time last year the number was 1,000,000 two years ago, 965,000. From March 1 the total is 8,135,000, against 8,1.0,000 a year ago—the earlier gain this season over last year now being practically disposed of. Packing at a point is not much good. Prices have advanced, prominent markets at the close indicating an average of about $5 90 per 100 lbs, compared with $5 15 a week ago, $5 30 two weeks ago, $5 60 three years ago, $7 50 two years ago, and $5 80 three years ago.

The speculative Provision market was only moderately active the past week, trading being unsettled by the strike conditions prevailing in the packing industry Prices at the close were slightly lower than a week ago for leading articles at Chicago, but the range in values for the week was not materially different from the preceding week. With leading facilities hampered and the movement of Hogs to market disturbed by the strike, the usual conservatism of the end of July has been so unsettled as to cause traders to hold off and await developments In all branches of the trade business is quiet The export clearances of Produce were light, and a decrease as compared with the preceding week and a falling off as compared with the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.
Pork, pounds	518,000	2,000,000
Bacon, pounds	10,637,000	10,250,000
Total, Meats	11,155,000	11,182,000
Lard, pounds	7,997,000	9,010,000
Total, Products	19,522,000	20,198,000

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since March 1, at undermentioned places, compared with last year, as follows:

THE WEATHER CONDITIONS.

Cooler temperatures everywhere. No heavy rains. Light showers and scattered showers. Dodge City has .45; Springfield, Mo., .18; Wichita, .03 and raining; Kansas City, .16.

Indications are for partly cloudy weather in this forecast district, with scattered showers in extreme west and southern portions, but generally fair elsewhere.

ITEMS OF GENERAL INTEREST.

The Hackensack, Bergen County, N. J., $150,000 of 4 per cent semi-annual six to twenty-year bridge bonds were awarded, Tuesday, at 102.635, a premium of $3,952.

The directors of the Automatic Electric Company have declared the regular quarterly dividend of 2 per cent, payable Aug. 1. Books close July 27 and reopen Aug 2.

The Standard Oil Company, Wednesday, announced another cut in refined Oil and Gasoline. Ohio State test refined Petroleum is reduced from 10½c to 9½c per gallon; deodorized stove Gasoline from 13c to 12c per gallon, and other products are cut 1c.

The London *Times* of July 8 publishes a full report of the crop conditions in Great Britain, which says Wheat at 82, against 88 in June and 87 a year ago; Barley 87, against 89; Oats 84. A thin plant and diminished acreage are almost generally complained of.

Reserve of Bank of England increased $600,000. Bullion increased $1,669,131 the past week. Proportion of the bank's reserve to liabilities is now 50.70 per cent, against 49.73 per cent last week, and compares with advance from 31⅞ to 58 per cent in this week last year.

A Berlin cable says crops in Central and Southern Russia, especially in the provinces of Kharoff, Bessarabia, Tauria and Poltava are a complete failure. The prospective yield is even poorer than thirteen years ago. Only in the Baltic provinces, Poland and in Kholm are fair Rye crops expected.

The Butte and Boston Company has sued F. A. Heinze, the Boston & Montana Company, and the Johnstown Mining Company for $1,500,000 damages as the alleged value of ore taken out of the Minnie Healy mine by Johnstown Company. The ore in question has twice been decided by juries to belong to Heinze.

Odessa advices of July 6 say: "During the past week local showers have fallen in Bessarabia, and this has greatly benefited the Corn crop, which is now looking much more hopeful than it did a week ago. What the effect of the rains will be on the other crops remains to be seen, although it is the general belief that they will benefit thereby."

A group of Chicago capitalists*, among whom are prominent the controlling interests in the Avenue State Bank, have bought the site and plans a new State bank for the town of Harlem. The charter has been secured, the stock fully subscribed, and officers and directors elected. As soon as quarters are completed the bank will open for business. The capital of the new bank will be $50,000.

The *Daily Express* (Dublin) publishes reports on the prospects of the harvest from correspondents in all parts of the country. The reports are in every instance very encouraging. All crops are very where in a forward condition, and if the present fine weather continues the harvest will be excellent. In the West the turf is completely dry and sound, and no symptoms of blight have appeared among the potatoes.

A group of out-of-town bankers and capitalists, mostly from Indiana, are reported to be planning a large new bank for Chicago. It is said that the capital stock has already been fully subscribed. The feature of the plan is that the capital has all been taken, according to the report, by people outside of Chicago, and the new bank institution is to be centrally located, and is to be organized under the State laws.

As a result of the general increase in business and a consequent belief that prices of all commodities will harden and then advance, the railroads are already looking out for rails for 1905 delivery. Three big systems are in the market bidding. Their combined orders annually exceed 500,000 tons. The Pennsylvania Railroad is one of the roads offering contracts, and it will want for next year's use 250,000 tons.

The annual report of the Virginia-Carolina Chemical Company, after paying charges and dividends, shows a surplus of $540,143, an increase of $512,447. It is understood several changes in the directory of the company will be made at the meeting in Jersey City, July 20. Banking interests which lent the company $6,000,000 a year ago are now represented on the board, but the representation probably will be increased.

The plate mills of the Shoenberger Works of the American Steel and Wire Company at Pittsburg, have been started up. They were closed for repairs July 1 for an indefinite period. The sheet mills at a point are not affected by the suspension before all the repairs were completed. An important conference of American Steel and Wire representatives developed the fact that the outlook for business this year will be as good as, if not better than, last year.

National bank note circulation Saturday reached the highest figure in its history. The increase in circulation during the week was $406,000. The effect of a steady movement which for some time has been noticeable, the national bank notes in circulation on July 1 being $418,606,888, against $415,720,881 on June 1, and $400,464,020 on July 1 1903. The present increase may be influenced by a desire to get in readiness for the crop moving season.

The big Talbot continuous process furnace which the Jones and Laughlin Company erected as an experimental plant two years ago has proved a success and has broken all records as to output. It is said to be the most excellent the company has, and has plans under way for the construction of five more furnaces of the same pattern, which will be erected adjoining the present plant. These furnaces will mean about $500,000 and give employment to over 1,000 men.

The $3,000,000 of preferred stock of the Virginia-Carolina Chemical Company, to list which application has been made to the New York Stock Exchange, is a part of the $8,000,000 of stock which was authorized on May 18. The $6,000,000 was underwritten by a syndicate of Wall Street bankers last year, although it is said that not more than 50 per cent was allowed. The proceeds of this issue are to be used principally for paying off the $6,000,000 loan made last year.

The order for 5,000 cars which was recently received by the American Car and Foundry Company for the Cincinnati, Hamilton and Dayton-Pere Marquette consolidation is the largest single order for freight cars in many years. It is understood that these cars will be built at the Detroit plant of the American Car and Foundry Company, so that the Cincinnati, Hamilton and Dayton people will have the benefit of handling considerable freight tonnage that will originate as the result of the order.

A New York exporter says of the situation: "Wheat has a prospect greatly below the average of the last three years, the lowest visible and reserves since 1896, and is selling at 88½c for October September, below the average prices of the last three last season. Corn has the prospect of the largest acreage but one in history, high condition with steady improvement, fair reserves, and is selling at 50½c for September, below the average for the corresponding 1901, when there was a crop failure. Cash Wheat is at a big premium. Cash Corn is at a small discount."

Crop report collected by the Indianapolis *Sentinel* says that Indiana has one of the shortest Wheat crops in yield and quality in its history. Millers estimate it at 12,000,000 bu to 20,000,000 bu, yields per acre in many localities being 10 to 12 bu. The report is confirmed by the Indiana weather crop bulletin, which says. "Cutting of Wheat was practically finished, except in the northern counties, and threshing began in the south section. Where threshing has been done the yield of a few scattered fields is reported good, but generally the crop is far short of an average in quantity, and, for the most part, inferior in quality."

The St Louis correspondent of the *Northwestern Miller* under date of July 18 says: "There was a marked improvement in crop reports received from the surrounding territory during the week. Heavy rains have fallen in several districts from which the only complaints came, but these were of the kind that the sun will soon set right. Throughout Missouri and Illinois threshers have been working steadily during the past three days, and favorable weather continues to be favorable for steady progress of this work. From reliable sources it is learned that the returns are better both as to quantity and quality than it was thought they would be and with favorable weather for another week, it is estimated farmers' deliveries of new Wheat will equal last year's."

The foreign visible Copper supply on July 15, 1904, was 169,625 tons, a decrease of 13,625 tons for the past two weeks. We give below the foreign visible supply at the beginning of each month since January, 1902, in tons:

	1904.	1903.	1902.
January 1	13,851	16,540	22,057
February 1	14,233	15,131	23,311
March 1	13,506	13,472	25,023
April 1	12,495	14,384	28,124
May 1	12,050	15,936	27,014
June 1	10,823	15,764	24,284
July 1	11,127	15,303	21,402
August 1		11,949	21,312
September 1		15,712	20,295
October 1		15,284	17,243
November 1		14,851	16,057
December 1		12,743	16,702

Supplies for the fortnight ended July 15 amounted to 25,153 tons, of which 7,875 tons were American. Deliveries, 13,611 tons

An Indian paper of June 18 says: "India has had (compared with the average of past years) a splendid Wheat crop for 1903-4. The area under cultivation was 27,773,144 acres, compared with 23,691,307 acres during the preceding year, and the outturn from the larger area was 8,357,503 tons, against 7,750,000 tons in 1902-3, and 7,000,000 tons in 1901-2. This result, but after all it only speaks of a yield of 12.65 bu per acre on the average, which is very far short of what we yet hope to see it after agriculture receives the State attention it ought to get. In 1902, the average yield of Wheat per acre in the United Kingdom was almost 33 bu. Surely India may yet be brought up to 20 bu. And the value of a difference would come over the prosperity of the land. The improved cultivation of Wheat would also mean the improved cultivation of all other crops. It must be borne in mind that there are occasions that agriculture is the prime interest of India.

A Boston firm has published a study of American Gas Consumption, and the following are the leading conclusions: "In prosperous years the company's earnings are sufficient to pay 7 per cent on the preferred stock, and 4 or 5 per cent on the common stock, the balance going for betterments to the property and additions to surplus. In years of depression, judging from the results of last year, when the business of the country as a nation prevailed, earnings will be sufficient to pay dividends on the preferred. The company is well supplied with working capital, having over $1,000,000 in net quick assets. Owing to five years of prosperity the company has increased its assets sufficiently to show a material value for the common stock. The two great points of strength are that the company has no bonds and is well supplied with working capital. In the event of long continued depression, therefore, the stockholders will have to carry no burden of interest on bonds or on a floating debt. The common stock is also well protected by the noncumulative feature of the preferred. If the preferred dividend be passed in a lean year, which, however, is unlikely, the position of the common stock is not in the least altered."

The report of Joseph Chamberlain's tariff commission on the Iron and Steel Industries sets at the conclusion that the decline of the British Iron and Steel industry is due to the fact that the manufacturers of America and Germany have secured control of the home markets by high duties, tariffs and an organized system regulating their export trade: that they are in a position to dump their surplus products on the British and other markets irrespective of cost, and that British dumping could not be carried on except for the British system of free imports. The committee expresses the opinion that the situation can be remedied by a system of tariffs arranged as follows: "A general tariff, consisting of a low scale of duties for foreign countries admitting British wares on fair terms. A preferential tariff, lower than the general tariff, for the colonies, giving adequate preference to British manufactures, and framed to secure free trade within the British Empire. A maximum tariff, consisting of comparatively higher duties, but subject to reduction by negotiation to the level of the general tariff." The report, which is signed by fifty-eight committeemen, is very long, and is the work of the ablest of British manufacturers, the evidence given before the United States Industrial Commission on Iron and Steel Industries, the organization and working of German kartels, and a vast amount of statistics, etc.

WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, July 22, 1904

An increasing demand for money is reported by the banks and there is a stronger undertone to the market. It is believed that rates have reached bottom and that 4 per cent will be the minimum. Most of the loans are put out at 4½ per cent, with some as high as per cent. From now on the country is expected to begin drawing money from city banks to move the crops. The drawing down of balances has been under way for some time, and will continue. Had the crops met no disaster in the Southwest it is believed that there would have been an abnormal call for funds, but even with the present promise there are indications of a demand fully equal to the ability of the banks to take care of when the crops commence to move. It is expected that prices will be higher, hence more money will be required. In New York loans were made as low as ½ of 1 per cent on the Stock Exchange. This is the lowest of the year. The range there for the week was ½ to 1¼ per cent. Time money there was 3½ to 4½ per cent.

New York exchange ranged at 25@35c premium per $1,000 and closed at 25c premium.

Foreign exchange was easier with a larger offering of bills. Shippers' sixty-day documentary sterling bills on London ranged at 484@484¼, and closed at 484.

Cotton in New York was erratic, with a moderate trade. The foreign and domestic news was rather more "bearish" than "bullish" and the disposition to sell on the part of speculators was responsible for sharp reductions from the high point. Wall Street was "bullish" and bought on the breaks while the South took advantage of the swells to sell. Spot stocks are being reduced. Closing prices for the week were at losses of 25@35 points on near futures and gains of 5@8 points on distant deliveries.

Local Securities were more generally traded in and reflected the strength and advancing tendency in Wall Street, recording good gains on a majority of shares, particularly the Industrials. Can and Biscuit shares were bought liberally to cover "shorts" and by investors on reports of good business, and made substantial gains in values. Swifts were handled moderately within a fair range and advanced on the announcement that the strike had been settled, but weakened when the men went out again. Elevated and Cable shares were slow but steady. The bond market was active and firm.

Stocks in New York were actively traded in at a higher range of prices. The buying was largely by professionals, and one large interest headed by Western men was a factor in advancing prices on many of the stocks, especially Union Pacific, Atchison, Brooklyn Rapid Transit and Steel preferred. Crop reports from the West were more favorable, and the disposition on the part of Wall street is to discount the future, and it is doing it as rapidly as possible. Most of the traders are "bullish," and while there is an increased commission house business East and West, the public at large are not in the market extensively, although strong efforts are being made to get them in. Business conditions are considered good and there is a more confident feeling among holders. Supplies of many good stocks in the street have been reduced, and the "bear" interests do not find it as easy to control the market as heretofore. There has been a good rise in many stocks and the tendency is still upward. Money is easy, with loans as low as ½ of 1 per cent. This is one of the factors in making a "bull" market. On the advances there was a good deal of selling, but stocks were readily absorbed. A decline in British consols and fears of fresh foreign complications led to moderate selling by foreigners, but their stocks passed into strong hands. At the close prices on a majority of the list were higher than the previous week. Bonds were more actively traded in at a higher range. Total sales on the New York Stock Exchange for the week were 3,828,000 shares, compared with 3,512,000 shares the previous week and 4,510,000 shares for the same time last year.

The principal Stocks traded in on the New York Stock Exchange and the number of shares disposed of during the week was as follows:

With the mercantile houses there is an increasing volume of business. Shipments of goods sold early in the season are being made, and so far cancellations have been very few, even from the districts that have suffered loss of crops of late. This is taken as a healthy state and shows that the people have money, and are believers in the high prices of Grains making up, to a fair extent, for the crop losses. It is the experience of the trade however, that the best business is in years when good crops are general and prices are low. New buying is of a fair volume and from now on is expected to increase. There has been no new developments in Cotton goods and the recent action of the market has rather a strengthening influence on values. In Woolens and Silks there was a firm tone. With clothing and shoe houses there was a fair run of buying. Makers of Iron and Steel are having a better business in some respects. Stocks of pig Iron are figured as only equal to eighteen day's supply, consumption under normal conditions, and there is a curtailment of production underway. There has been a great deal of buying of round lots of late, and the weakness has changed to steadiness, and there is less disposition on the part of furnace men to sell except where the deliveries suit them. Inquiries have been made of late for deliveries extending into the first part of 1905, but sellers are not numerous on this kind of contracts. Finished products are taken in small lots. Steel rail mills are fairly supplied with orders and it is expected that no change will be made in prices for the coming year. Jobbers of light and heavy Hardware are fairly supplied with small orders and they are getting specifications on old orders for heavy material in larger volume. Weakness prevailed in the market for bituminous Coal. The partial shutdown of the packers owing to a strike has reduced consumption. They take about 200 cars a day for steam purposes and their curtailment naturally affects the market. Some large orders were in the field for season contracts, but for the present they are held in abeyance. Lumber is selling more freely. Of late large bills have been received for yellow pine timber and flooring and 10,000,000 feet have been sold, mostly for local construction. Prices are steady. White pine and hemlock are having a fair sale, and hardwoods, which have been slow sale, are now receiving more attention. In other lines of merchandise there was nothing new. Collections are fair.

COMMERCIAL.

Business is steadily broadening on the Chicago Board of Trade, commission houses as well as brokers and receivers experiencing a fair trade the past week. With increased receipts of new Grain, which will shortly be realized, a further improvement in the general trade is anticipated. Fluctuations were such as to attract increased outside interest and foreigners were in the leading markets on a larger scale. Weather and crop conditions were again the principal dominating influences in all the leading cereals, the trade in Hog Products, however, being curtailed to a large extent owing to the labor troubles. There is little doubt but that the balance of the summer months will witness renewed activity, and coarse Grains come in for greater attention. The period of crop scares in Corn will soon be at hand and outside speculators in this cereal should see that their trades are well margined. Climatic conditions in the Northwest from now until harvest will also be watched closely, and price changes are likely to be on violent order should there be a wet harvest. A fund of $44,800 was collected on Wednesday by the Board of Trade from its assessment of $25 00 on the membership list of 1,792. The object of the assessment was the providing of a fund with which to retire memberships at a maximum figure of $3,000.

Weather and crop conditions in Europe were fairly favorable the past week. Hot forcing weather was reported in the United Kingdom, but in France complaints as to quality were rather more numerous as the harvest progressed to the northern districts. The harvest is about under way in Germany, and the weather reported hot and dry. Reports as to the Wheat yield in Roumania were varied, but rain is needed to save the Corn crop. In Bulgaria, prospects are said to be good, and in Hungary the shortage in yield is less than expected a few weeks ago. Reports from Russia were somewhat conflicting, but there is little doubt but that the crops will be moderate at best. The Italian crop is turning out below expectations, and in Sweden the shortage is estimated at about 30 per cent. Taking Europe as a whole, the Wheat yield may be said to be 140,000,000 bu to 150,000,000 bu short of last year. *Broomhall* estimates the European crop at 1,688,000,000 bu, against 1,856,000,000 bu in 1903. Asia, 416,000,000 bu, against 352,000,000 bu the year previous.

Weather conditions in the United States and Canada were more satisfactory the past week. There was less rain and temperatures were more seasonable. Harvesting of Winter Wheat made good progress and reports of sprouting in shock and of damage by mould less numerous. Spring Wheat made satisfactory advancement and indications are for a good crop. The DAILY TRADE BULLETIN estimated the combined yield at 610,000,000 bu. Corn made exceptional progress, the weather being hot and forcing, or just such as needed. Outside of complaints from the Lower Missouri Valley, Oats have done well, the harvest being in progress, with satisfactory yields reported.

The movement of Grain from the farms and interior elevators was moderate the past week, though the new Wheat moved somewhat more freely. In the Northwest the arrivals of Wheat at terminal points was larger than a year ago, holders no doubt being inclined to sell on the crop outlook. Through the West and Central West coarse Grains were marketed in moderate quantities and receipts at the larger points of accumulation were smaller than a year ago at this time. In the Southwest new Wheat moved more freely and indications are for a liberal movement with a continuation of favorable weather. Through the Central West receipts are still meagre. The movement of Grain Eastward was only fair and largely on old business. Exports of Flour and Wheat are still meagre and light of Corn and Oats. Bookings on the coast, too, continue limited. According to the official visible supply, as compiled by the Secretary of the Chicago Board of Trade, there was a decrease in the supply of Wheat, Corn, Oats, Rye and Barley. *Bradstreet's* showed a heavy reduction in the supply of Wheat, a moderate decrease in Corn and a fair reduction in Oats.

A good business was reported in the leading speculative markets on 'Change the past week. Wheat was again easily the leader in the speculative list, and much higher prices ruled the opening days, "shorts" covering freely on the rise. The political situation and Dardanelles affair abroad, advancing tendency of the markets there and general statistical position all combined to create a "bullish" sentiment and prices advanced sharply. At the advance "longs" unloaded freely and stop-loss limits were uncovered on the decline. Better weather and crop news and prospective freer movement and understanding between England and Russia over the Red Sea seizure tended to change local sentiment and resulted in the reaction. Corn was inclined to sympathize with Wheat, though the effect of the fine growing weather was partially offset by the attitude of the September "longs." Higher prices were established early, but failed to be maintained. Oats were affected by the action of other cereals, and the expected increase in receipts tended to create a nervous undertone. Rye was strong, the July being congested. Barley was quiet, and the trade in Seeds limited. Hog Products were only moderately active, the trade being somewhat at sea, owing to the strike situation at the Yards. Labor troubles at the packing houses unsettled the speculative and shipping markets. Trading light and largely in contracts for September. Hogs were in small supply and prices very irregular. All things considered, the market held steady. Packing of the West for the week 220,000 Hogs short of last year; season, 8,135,000, against 8,170,000 in 1903.

Just a moderate trade was reported in cash Grain this week, due altogether to the decrease in the offerings. There was a good inquiry for Wheat from millers, but very little on sale and business in consequence was restricted. Corn was in moderate demand, principally on local account, a fair percentage going into store. Good Oats were scarce, the bulk of the offerings being of very poor quality, and demand slack for such lots and prices declined several cents. Rye was strong and higher and Barley quiet and steady. Seeds were firm. Hay was firm for choice, while the poor qualities were very dull. Inferior grades lower. Hog Products were quiet. Holders were unwilling to sell without the strike clause as to loading and buyers were unwilling to accept property under restrictions. Sales light and prices without special change. Exports for the week, compared with the corresponding week in 1903, exhibited decreases of 1,890 brls Pork and 619,000 lbs Lard, and an increase of 694 boxes Meats. Cattle and Sheep were marketed in much smaller numbers and prices fluctuated frequently owing to the strike.

FREIGHTS—Traffic on Eastern and Western roads is light, but is picking up. The only rate disturbances are in Flour from the Northwest and from Missouri River for export. These are being fixed up. The tariff is as follows:

To—	From Chicago. Domestic.	Export.	From Miss. River. Domestic.	Export.
Boston	19½	13½	22½	16
New York	17½	13½	19½	16
Philadelphia	15½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News	14½	11	16½	14½

Flour rates are to be 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 3c per bu on Wheat, Corn, Barley and Oats.

Ocean rates on Grain are steady and engagements limited. Rates on Grain are ¾d per bu from New York and ½d from Boston. Through rate on Wheat from Chicago to Liverpool is 5.85c per bu and Corn 5.65c. Flour 19c per 100 lbs and Provisions 35⅝c per 100 lbs.

Lake rates are firmer at ¼@1c for Grain to Buffalo.

FLOUR—There was a little more doing in this market the past week and values were held higher. Sales, however, are still limited to the local and domestic trade and inquiry confined chiefly to Hard Spring Patents. Bids from abroad are still out of line, though a few scattered lots were taken recently where the price was considered right. There was, however, more inquiry from the United Kingdom for fall delivery, but the terms offered were at great variance with millers' views. Millers look for an improved market with the advent of August and the July contracts out of the way. The Eastern demand is said to be quiet, though stocks are said to be very moderate. Considerable Flour has been forwarded on consignment. Offerings of Flour from the outside are moderate. The Southwest is not offering any to speak of and those from the Northwest were meagre. Local stocks are reported as very moderate. City mills are only running on part time and on special grades. Local jobbers are not buying ahead any for future use. They all expect values to recede when the Wheat movement becomes freer. The output at the principal points in the Northwest the past week were 385,000 brls, as compared with 445,000 brls one year ago. Stocks in the United States and Canada as compiled by the DAILY TRADE BULLETIN were 1,780,000 brls on July 1, against 2,086,000 brls June 1 and 1,611,000 brls July 1, 1903. The week closed steady at the following prices:

MILLSTUFFS—The market has held rather steady during the past week. The receipts have been small and the demand only moderate. Sales of Bran in 100-lb sacks, sacks included, were made at $16 00@16 50 per ton.

WINTER WHEAT—Trading has been on a slightly larger scale during the past week, and the market has ruled rather steady. There has been more business doing in elevator lots, and also more doing in fresh arrivals, as the receipts of new Wheat, while yet very small, they have shown an increase, and there were a few more of these on sale than there were last week. A good milling demand has existed, and some inquiry also on shipping account. Local millers, however, were credited with being the principal buyers. Several round lots of Hard Wheat in store were sold. The rain in the West delayed the movement some, but the weather has improved some this week, and dealers look for increased receipts. For the week the receipts were 62 cars, against 13 cars the previous week. There were withdrawn from public elevators 58,000 bu, and from private warehouses there were withdrawn 52 cars and 35,000 bushels. No. 2 Red in store has been entirely nominal; it is in the hands of a few strong parties who are not offering it on sale, and it is virtually held off the market. Dealers have mentioned $1 15@1 25 as the quotable prices, but no sales were reported at any such figures. New Wheat car lots sold at $1 00@1 03. No. 3 Red fresh receipts new Wheat ranged at 95c@$1 01½, and old Wheat quotable at 99c@$1 05. No. 4 Red new Wheat sold at 89@93c. No Grade Red sold at 88@92c. No. 2 Hard fresh arrivals free on board ranged at 94@99c, and a round lot shipment first fifteen days of August sold at same price as new September. No. 3 Hard round lots in store sold at 87@90c, and fresh arrivals free on board ranged at 87@95c.

SPRING WHEAT—Only a light business was transacted in this market during the past week, and while the contract grade, No. 1 Northern, has ruled somewhat irregular, following the changes to some extent of the speculative market, the other grades ruled comparatively steady. Very little Wheat was received and the few cars of fresh arrivals were taken by millers and shippers; an occasional round lot of Wheat in elevator was bought, the receipts not being adequate to the local requirements. The receipts for the week were only 12 cars. There were withdrawn from public elevators 47,400 bu and from private warehouses 20 cars. No. 1 Northern in store has been quoted during the week within the range of $1 00½@1 06½ and about 5@8c over old July; car lots of fresh arrivals free on board were quoted at $1 00@1 04. No. 2 Northern fresh arrivals free on board quotable at 98c@$1 00. No. 3 Spring in store sold at 91c and fresh arrivals free on board ranged at 88@95c. No. 4 Spring ranged at 68@90c.

REGULAR WHEAT—This market was quite animated at times during the past week and the trade was of good volume. Feeling prevalent was unsettled, and fluctuations sharp and frequent, the close showing old July about ¼c higher, while the new lost ⅜c. Old September closed 1⅛c higher and new 1⅛@1¼c better. The week started out strong and under general investment buying and covering by "shorts" prices advanced sharply, new July touching 98c, while new September sold to 89¼c, the December 88⅛c. May sold to 89½c. The statistics, both domestic and foreign, were construed as "bullish," the markets on the other side displayed an advancing tendency and traders were considerably disturbed owing to the Dardanelles incident. Buying for foreign account was more general and market displayed a decidedly strong undertone. World's shipments were small at 6,868,000 bu, against 6,968,000 bu previous week, and 10,570,000 bu one year ago. Quantity on ocean passage decreased 3,280,000 bu to 40,256,000 bu, compared with 28,640,000 bu one year ago. The visible decreased 755,000 bu, compared with 1,244,000 bu decrease one year ago. Total is now reported 12,719,000 bu against 13,167,000 bu in 1903, and 20,415,000 bu in 1902. Local public stocks decreased 70,000 bu to 1,118,000 bu, compared with 1,549,000 bu one year ago. Local stocks in all positions 2,144,000 bu, a decrease last week of 141,000 bu; stocks one year ago 3,011,000 bu. Contract stocks decreased 29,599 bu, and now include 585,197 bu, against 1,214,527 bu one year ago. *Bradstreet's* decreased 5,790,000 bu, compared with 2,228,000 bu decrease one year ago. Continental Wheat stocks July 1 were 16,920,000 bu; June 1, 19,712,000 bu; July 1, 1903, 12,280,000 bu. At the advance "long" property came out in large quantities and the market had indifferent support. Stop loss limits were uncovered and before the decline was checked new July touched 93c, new September 86¾c and December 86⅛c. More favorable crop advices, and clear, cooler weather in the Northwest were among the "bear" influences. The decline in cash values and prospective freer movement in the Southwest were also depressing factors. The Government weekly weather report claimed Spring Wheat as a whole, both early and late sown, has advanced satisfactorily. The least favorable reports were being received from Northern Minnesota, where the crop on low lands is thin and late. Better weather for harvesting prevailed than in the preceding week, and this work has made generally satisfactory progress, although still delayed by moisture in portions of Kansas and the Ohio Valley. Comparatively few reports of sprouting in shock and of damage by mould were reported this week. *Broomhall* on Monday cabled: "Indications world's Wheat crop: Europe, 1,688,000,000 bu, against 1,856,000,000 bu last year. America (without United States), 240,000,000 bu; last year, 200,000,000 bu. Asia, 416,000,000 bu; last year, 352,000,000 bu. Other countries, 128,000,000 bu; last year, 120,000,000 bu. Total without United States, 2,472,000,000 bu, against 2,528,000,000 bu—last year's figures slightly revised." European crop conditions cabled on Tuesday: "United Kingdom—Hot, forcing weather has continued past week and Wheat is ripening rapidly. The grass is burning up. France—Complaints are more numerous from center as harvesting progressing northward. Extreme heat affected the quality. Germany—Weather is hot and dry. The Rye harvest has commenced. Roumania—Threshing returns vary considerably. In some districts Wheat is of very fine quality, while in others there is much smut. Bulgaria—Prospects good everywhere. Hungary—Yield shortage rather less than expected. Russia—Interior markets strong and advancing on the indifferent crop outlook. Italy—Crop yield is below expectations. Sweden—Wheat crop promises 70 per cent of normal yield. Crop for the past ten years averages 4,162,000 bu." The DAILY TRADE BULLETIN estimated the crop in the United States at 610,000,000 bu and placed the amount available for export at 142,000,000 bu. Stocks in farmers' hands about 6,000,000 bu less than a year ago. The world's crop was estimated at 140,000,000 bu to 150,000,000 bu less than a year ago. The following estimate was given of the world's Wheat crop for two years:

Countries—	1904, bu.	1903, bu.
North America	700,000,000	728,000,000
South America	*130,000,000	†132,000,000
Europe	1,650,000,000	1,796,000,000
Asia	*500,000,000	†471,000,000
Africa	50,000,000	45,000,000
Australasia	*80,000,000	†80,000,000
Total	3,110,000,000	3,252,000,000

*Crop now growing. †Crop now being marketed.

Primary receipts this week were much smaller than a year ago and exports at the same time were less. Clearances this week were only 1,281,000 bu, and since July 1 aggregate 3,573,000 bu, against 8,815,000 bu for the same period in 1903. Bookings at the seaboard, too, were meagre. Argentina shipped 1,840,000 bu this week, making a total of 70,448,000 bu since the first of the year, as compared with 51,410,000 bu one year ago. The visible there was reported at 3,210,000 bu, against 2,800,000 bu a week ago and 3,352,000 bu a year ago. The *Orange Judd Farmer* estimated the yield in the United States at 600,000,000 bu to 625,000,000 bu and the *Price Current's* advance proofs indicate an estimate of 625,000,000 bu, but not to exceed 150,000,000 bu available for export, and implied Europe will need to import much more than the unusually small total of less than 122,000,000 bu which was exported from this country last year.

CORN—Increased activity was witnessed under this head the past week, more interest being manifested in the deferred or new crop futures. Fluctuations were quite frequent, and all things considered the situation was firm. Closing prices showed September ⅝c higher, while the December gained ⅝c and the May ¾@⅞c. Weather conditions were looked upon as ideal most of the week, but a good many adverse private crop reports were received from sections in Missouri and Nebraska. Buying orders from these sections were quite numerous and lent color to the same, and local "shorts" were also somewhat uneasy owing to the attitude of the "long" interest in September. Receipts were small and local stocks last week showed a heavy reduction; in fact, routine statistics in general favored holders, and in the rush to provide for outstanding contracts September advanced to 49⅞c, while December sold to 46⅛c and May 46⅜c. At the improvement in prices "longs" were inclined to secure profits and a reaction followed. September selling back to 49⅛c, while December sold off to 45⅝c and May to 44¼c. The following was a sample of the private crop reports from the West: "If the strip of country through which the Rock Island Road runs from Southern Iowa to Kansas City is any indication, Southern Iowa and Northern Missouri will not raise 50 per cent of an average Corn crop. In fact, it will be almost a failure. West of the Des Moines River for 100 miles or more there is not a field where the Corn is as high as the fences. The greater part of it is less than waist high, much of it only knee high, and many fields are apparently being cultivated for the first time. The stand is thin, many hills have but one to three stalks. The entire crop is from two to six weeks late, and thousands of acres give the appearance of the first of June rather than the middle of July." The visible supply decreased 90,000 bu, compared with 171,000 bu increase last year. Total is now 6,084,000 bu, against 7,619,000 bu in 1903 and 6,503,000 bu same date in 1902. Local public stocks increased 39,000 bu to 2,893,000 bu, against 3,684,000 bu one year ago. Stocks here in all positions were reported 5,534,000 bu, a decrease last week of 553,000 bu. Stocks one year ago were 7,465,000 bu. *Bradstreet's* available decreased 773,000 bu, against 681,000 bu decrease one year ago. Contract stocks increased 39,682 bu and are now 2,792,892 bu, against 3,295,657 bu one year ago. World's shipments were 5,024,000 bu; previous week 4,094,000 bu; year ago 5,801,000 bu. Quantity on ocean passage increased 562,000 bu, to 15,804,000 bu, compared with 17,116,000 bu one year ago. Receipts here this week were 1,437 cars, compared with 1,089 cars last week, and 1,287 cars one year ago. Transfers of contract from private to public elevators continue moderately free and the September "longs" will probably find the supply here by the first of the month quite liberal. Shipping operations were only on a moderate scale, in fact, the Eastern demand was a little slack this week. Exports, too, were small, the total for the week being 707,000 bu, against 1,501,000 bu for the same period in 1903. The Government weekly crop bulletin was "bearish," stating that Corn had experienced a week of exceptionally favorable weather, and has made rapid growth generally in all directions. Very few unfavorable reports concerning this crop are received. The State bulletin, too, claimed crop conditions had improved. Bookings at the seaboard for forward shipment were meagre. The movement through the West was moderate and smaller than that of a year ago at this time. Argentine shipments were very fair this week at 2,662,000 bu, making 32,775,000 bu since Jan. 1, compared with 23,160,000 bu one year ago. The visible there is now 3,634,000 bu, against 3,690,000 bu last week and 3,231,000 bu one year ago. The Buenos Ayres *Handels Zeitung* says that in common with many merchants, it believes the official estimate of Corn yield (and consequently the estimates of 3,000,000 tons surplus) to be too high. It says it would be well pleased to see exports reach last year's figure of 96,000,000 bu, and thinks it cannot be much smaller than this, although many expect that it will be smaller.

OATS—Were active and advanced part of the week and held the greater portion of the gain. A feature was the increased interest in September, December and May, which developed liberal activity and strength, recording the best advances. Speculative interests who are out for a campaign, are buying May. July was rather neglected and moved erratically within a good range on light trading. Reduced stocks and the advance in Wheat had a strengthening influence and caused highest prices, which were not all held. Realizing sales later carried prices off, but closing figures were at gains of ¼@⅜c at 39⅝c for July, 33⅛c for September, 33¼@33⅜c for December and 34⅞c for May. Eastern shippers took more interest in the market for new September shipment and paid 4c over September c.i.f. Buffalo. Standard sold mostly at 1@1¼c over July in store. The first car of the new crop arrived Wednesday from Illinois. They graded No 4 White and sold at 42c. Weather crop bulletin was mostly favorable and said: "Reports of injury by rust continue from the lower Missouri Valley, but elsewhere this crop has advanced favorably. Harvest is in progress in the central valleys and in the Middle Atlantic States, with satisfactory yields." There were reports from Iowa and parts of Illinois of rust, but the majority of advices were for a good yield. In the sample market low grades were slow and declined 3@4c, the East not wanting them. Good lots were off 1c to 1½c. Receipts for the week were 615 cars, against 528 cars the previous week and 1,277 cars last year. Export clearances were 99,001 bu, against 159,000 bu the previous week, and 111,000 bu last year. Stocks in all positions decreased 360,000 bu and are 736,000 bu. Standard decreased 154,000 bu and were 202,811 bu. The visible supply decreased 551,000 bu, and was 3,886,000 bu, against 4,491,000 bu last year.

RYE—The market has developed more life during the past week, and prices were advanced some 5c for July and 1c for September delivery. There has been more doing both in cash and futures. The action of the market rather manifested speculative operations. A fair demand existed and the offerings have been light, especially for July. The stock in store here is owned by one or two parties, and they have been indifferent about selling: in fact, from day to day parties made bids to purchase, but there were no offerings. The July future has been bid up 18c from the low point of a few weeks ago, with scarcely a sale intervening. If there have been any "shorts," they certainly have felt very uncomfortable. There were some exchanges of July for September at about 15c difference. Sales of some 80,000 bu of cash No. 2 Rye were reported, the first sales of round lots for many days. The receipts have been small and the movement of new Rye delayed some by the late rainy weather. There were three cars of new Rye received and all inspected No. 4. The Rye was good, but too damp. The few cars of fresh arrivals offered were taken up readily, but most of the receipts went into store direct and were not offered on the market. The receipts for the week were 32 cars. The visible supply was 780,000 bu, against 815,000 bu the previous week and 614,000 bu the corresponding week a year ago. Local stock 454,000 bu, against 234,000 bu a year ago. No. 2 in store was nominally 70c early in the week, and later sold at 74c and 74¼c; fresh arrivals free on board entirely nominal. No 3 fresh receipts free on board entirely nominal and quotable at 60@68c. New No. 4 sold at 60@65½c free on board. For future deliveries of No. 2 Rye July opened at 70c bid, then 75c was bid and later sold at 74c. September sold at 58½@59¾c.

BARLEY—There was a very narrow market. The sale of a few cars daily comprised all of the business there was done. The weather was so very hot that a demand for Barley would hardly be expected. There was, however, some inquiry. Good Barley was salable and steady. There was some demand for very choice, but it was not to be had. Low grades were called weak. As to values no especial change could be quoted. Sometimes it was hard to tell much about values, there being so little trading. There was nothing important heard from the country. In Iowa cutting of Barley was started. In some quarters there were quite heavy rains, but no complaints of damage came in. So far everyone seems to regard the general outlook as good. Samples of new Barley from Iowa were shown, they were good color and varied some in weight. Some of the best had a value of about 50c placed on it, but none as yet offered. There were inspected in during the week 25 cars, compared with 32 cars a week ago. No ouput reported and none a week ago. Exports from New York of 112,203 bu appeared; that was something quite unusual compared the past. Visible supply decreased 100,000 bu, but there still remained 1,236,000 bu, against 410,000 bu a year ago. During the week prices

were quoted over a range like the one following: Screenings at 28@37c for poor at choice. Feed Barley, common, dirty or musty down to 30@33c; poor heating lower; sweet, good color, thin, at 35@38c. Malting, low grade, was quotable 38@40c; fair to good, sound, 42@45c; good color 48@50c, and fancy above.

SEEDS—Developments were not important. The volume of trade in all lines was very small. In the case of Clover there was no business done, and yet there finally was quoted about 25c advance. Timothy—new crop advanced about 5@7½c, and then fell back, while old Seed was not changed. In the Flax market there remained a steady tone, prices were mildly on the ascent, as the figures elsewhere given show.

Timothy—There was little in the way of change. There may be said to have been a steady market. On Monday there was a little stir in September Timothy, but after th t it was quiet again. Tone of the market was inclined to be easy. There were selling orders, though no large ones, yet enough disposition of this kind to suggest that the crop was progressing all right. There was no cash old Seed to speak of on the market. It was quotably salable, yet perhaps not especially cared for. There was nothing to draw out or make a regular test of the market.

Receipts the past week, lbs	216,150
A week ago	360
Corresponding week last year	281,810
Shipments the past week, lbs	94,807
A week ago	35,930
Corresponding week last year	145,140

September delivery covered a range in the transactions of $3 17½@3 22½: the market closed at $3 20 sellers and $3 12½ bid. Cash prices did not change any, that is the quotations did not; values have been nominal for some time. Old Seed, contract grade, spot of July delivery was nominally $2 95. Country lots were quoted at $2 00@2 75 for low grade to fancy; choice about $2 65@2 70, fair to good Seed $2 50@2 60, and rough at $2 30@2 45.

Flax—There was a strong market again. In prices there is presented, for No. 1 spot and future delivery, 2½c advance and Northwestern improved 1½c. Only a small business was done. On the open market nothing much developed. There were but extremely limited offerings. The market was firm and somewhat better in the Northwest. Southwestern Seed will be the first to come out of the new crop. Little was heard from that quarter. Last year it was early in August when the first new Flax came in. All of the talk continues along the line of a "short" crop on account of reduced acreage, and further outcome uncertain, because no one knows what weather effects there may be. The feeling in the market was firm. Postings gave 13 cars inspected in, compared with 18 cars a week ago. An output of 5,200 bu reported, against 22,000 bu the previous week. In the local stock there was no change, 18,374 bu remained, against 16,291 bu the same time a year ago. Duluth increased 20,000 bu, and had 6,020,000 bu, while Minneapolis decreased 27,000 bu and reported 113,000 bu. No. 1 cash advanced from $1 15 to $1 17½; closed at $1 17½. No. 1 Northwestern or No. 1 from the Northwest starting at $1 20½, improved to $1 22, and closed at $1 22. Rejected was nominal of an early range of $1 09@1 14, and a later one of $1 11@1 16, depending on quality. July delivery inactive; in a nominal way bids were advanced from $1 15 to $1 17½. September covered a similar range $1 15 to $1 18, with an occasional small sale.

Clover—There was no trading. The market presented firmness. No consignments were offered. No old Seed whatever is coming in. It is too early to tell much about the new crop, only that the acreage is not large. The first cutting for Hay is now going on and there have been some complaints of too much rain, which is apt to promote rank growth; not desirable. This caused firmness elsewhere and finally a 25c nominal advance here. Good weather from now forward can make a nice crop of Clover. No interest in futures as yet appears. Prices, after the advance noted, had a closing range as follows: Contract spot Seed about $11 25. Country lots, common to choice, $9 00@11 00; fancy above; mixed with Buckhorn or other weed Seeds, $7 50@8 50; poor, cleaned out of Timothy, very foul, less. Fair to good $9 50@10 50. Movement during the week compared with a week and a year ago was as follows:

Receipts—The past week, lbs	158,000
A week ago	33,300
Corresponding week last year	
Shipments—The past week, lbs	36,870
A week ago	2,860
Corresponding week last year	4,390

Other Seeds—A small lot of Millet came on the market and was sold at 75c, but there was no regular market for any of the lines included under this head. They were about all entirely nominal, and will be apt to remain so up to the time new lots will be ready to move. Receipts and shipments the past week with comparisons were as follows:

Receipts the past week, lbs.	1,564
A week ago	
Same time last year	132,600
Shipments the past week, lbs	217,075
A week ago	242,550
Same time last year	162,480

HAY—The receipts for the week were 3,520 tons, against 3,479 tons for the previous week. Shipments for the week were 294 tons, against 107 tons for the previous week. Choice old Timothy and Prairie Hay met with a good demand during the past week and offerings were small. Prices ruled firm. Low and medium grades were in liberal supply and very dull. The demand was extremely light and prices weak. A car of Timothy Hay was received Saturday. It was of good quality and sold at $12 00 per ton. Since then several cars of new Timothy and Prairie Hay have been received, and the market ruled dull. Dealers prefer old Hay and receivers found the new Hay slow sale. A car of new Texas Prairie Hay arrived early in the week and sold at $11 50 per ton. This is said to be the first car ever received from that State at Chicago. Quotations at the close ranged as follows: Choice Timothy, $13 50@14 00; No. 1 Timothy, $12 00@13 00; No. 2 Timothy, $10 00@11 00, No. 3 Timothy, $8 00@10 00. Choice Prairie, $11 00@11 50; No. 1 Prairie, $9 50@11 00; No. 2 Prairie, $8 00@9 00; No. 3 Prairie, $7 00@7 50; No. 4 Prairie, $5 50@6 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $9 00@10 50 for new and $7 00@14 50 for poor to choice old Timothy, $9 00@11 50 for new Iowa and Texas, $6 00@9 00 for old State, and $9 00@11 50 for Iowa, Nebraska and Kansas Prairie Hay. Rye Straw sold at $10 00@10 50 and Oat Straw at $5 50@7 00.

COOPERAGE—Labor troubles at the packing houses interfered with Cooperage market during the past week, and very little business was transacted. Offerings were moderate and the demand was limited. Ash Pork Barrels quiet and quotable at 95@97½. Oak Pork Barrels quiet and slow sale at $1 05@1 07½. Lard Tierces were in light demand and dull, with a little pressure to sell. Prices favored buyers, and closed at $1 25@1 27½. Iron bound Lard Tierces were quiet and quotable at $1 10@1 12½ for six hoop and $1 15@1 17½ for eight hoop. Oleo Tierces called for sparingly, and quotable at $1 17½@1 20.

HOGS—Interior shippers of Live Stock accepted the advices of the Commission Merchants and forwarded only a small supply of Hogs to market during the week just closed. Packers were unwilling to purchase owing to the labor troubles, and shippers purchased the bulk of the offerings to provide for Eastern orders. The market was rather firm early in the week, and prices ruled 25@35c higher on the whole range, with a moderate increase in the supply, a weaker feeling was manifested, and prices settled back 35@45c, and closed steady at about inside figures. Sales during the week were made at $5 15@5 90 for light, $4 80@5 35 for rough packing, $5 00@5 90 for mixed, and $5 05@5 90 for heavy packing and shipping lots, with the bulk of the trading within the range of $5 20@5 75 for fair to good averages. At the close about 15,000 Hogs remained in the pens unsold. Pigs were in moderate supply, with a fair inquiry, and sales were made at $5 00@5 80 according to size and weight. Receipts of Hogs at the other Western packing points were light and quality rather good.

PACKING—Very little business was transacted at the packing houses during the past week, owing to the labor troubles. Supply of Hogs very light, and the manufacture was mainly of articles required for the Dressed Meat trade, with small quantities of Lard, Hams, etc, which packers would be compelled to make in the general order of business. The independent packers made limited quantities of some articles.

PROVISIONS—Not much life was manifested in the market for Hog Products during the past week, due mainly to the labor troubles at the packing houses. Outside orders were comparatively light, and local speculators and packers were not inclined to do much trading. A moderate business was reported in September and a light trade in October contracts. Supply of Hogs was small at the large packing points, and the returns of the packing of the West for the week exhibited a decrease of 220,000 Hogs, compared with the returns for the corresponding week in 1904. Foreign markets were stronger and prices were higher for Meats, while Lard was rather dull at slightly reduced prices. Domestic markets were rather quiet. Receipts of Products were moderately large, and the shipments were only fair—might be considered fairly liberal owing to the difficulty in loading property from the warehouses to the cars. Hogs ruled somewhat higher early in the week, but receded quite sharply again with an increase in the supply, and the market closed rather easy. As the strike of the packing house employes has been settled temporarily settled. Early in the week, the feeling was rather firm, with moderate miscellaneous buying, and prices were advanced considerably on all the leading articles. At the extreme figures reached there was some inclination to realize by holders of moderate quantities, and packers were credited with favoring the selling side of the market. A weak feeling was developed, and prices declined sharply all around. Toward the close a little more steadiness was manifested with a moderate recovery in prices, and the market closed steady. Stocks of all kinds are moderately large. The demand on shipping account was fair in the way of filling small orders, and offerings were moderately free. Buyers and sellers were somewhat apart in views owing to the difficulty in trading—latter insisting on a "strike clause" which the former refused to accept. Exporters were virtually out of the market, and the demand was mainly from the home trade. Sales were somewhat lighter than during the week previous, and prices were without material change.

Pork—Trade was only moderate in the market for Mess Pork during the past week, and the feeling was somewhat unsettled. Offerings were moderately free, and the demand was only fair and from miscellaneous sources. Trading was chiefly in September and October contracts, and a few trades were made in transfer at about even figures. Supply on hand fairly liberal. Packers sold fair quantities. Early in the week, the demand was fairly active, especially from "shorts," and prices were advanced 20@22½c on the whole range. At the advance, there was some pressure to sell, while the demand slackened, and prices irregularly receded 35@40c. Toward the close, rather more steadiness was manifested, with moderate buying, and prices rallied 20@22½c, and the market closed comparatively steady. Demand on shipping account was moderate and offerings were rather light. At the close cash lots were quotable $12 70@12 75. Other cuts of Pork were in limited demand with small offerings, and prices were without material change.

Lard—Only a fair business was transacted in the Lard market during the past week, and the feeling was somewhat unsettled and prices irregular. Offerings were fair, and the demand was moderately active, but somewhat spasmodic. Foreign markets were inclined to dullness, and prices ruled lower. Domestic markets were quiet. Stocks on hand are gradually enlarging, due mainly to arrivals from interior packing points. Trading chiefly in contracts for September. Early in the week, the demand was fair, with no particular pressure to sell, and prices ruled 5@7½c higher on the whole range. At the advance, there was considerable pressure to sell, and a weaker feeling was developed. Prices irregularly receded 12½@15c. Toward the close, there was some miscellaneous buying, credited to "shorts," and the market exhibited considerable strength. Prices rallied 10@12½c, but gradually receded again 2½@5c all around, and the market closed rather steady. The inquiry on shipping account was limited, and the offerings were moderate. A few small trades were made at about July figures—closing at $6 80@6 82½. Refined Lard was in moderate demand, and a few sales were made at prices not made public. Loose lots were in fairly good request, and offerings were moderate. Quotable at 52½@50c discount on September figures. Leaf Lard was in small demand, and in limited supply, and sold sparingly at $6 12½. Neutral was in only limited request, and offerings were fair. Market was rather quiet and prices quotably lower at $7 00@7 12½ for No. 1, and $6 75@6 87½ for No. 2.

Short Rib Sides—A fair business was reported in Short Rib Sides, and the market was somewhat unsettled. Offerings were fair, and the demand was moderately active. Prices ruled irregular. Stock on hand fairly large, but manufacture limited. Receipts from the interior were fair. Bulk of the trading was in September contracts, though October met with a little more favor. Early in the week there was fair miscellaneous buying, and the market was stronger in a general way. Prices were advanced 5@7½c. At the improvement, there was considerable pressure to sell, and a weaker feeling was developed. Prices declined 20@22½c on the whole range. At the decline, the demand was rather good, partially credited to "shorts," and prices rallied 10@12½c, but settled back again 2½@5c, and the market closed comparatively steady. Demand on shipping account was moderate, and offerings were only fair. At the close, cash lots were quotable at $7 25@7 37½ according to weight.

Green Meats—Very little business was transacted in Green Meats. City packers were virtually out of the market, and outside packers slow to sell. Demand from all sources rather light. Hams was quiet and nominally unchanged. Skinned Hams were in very small request and prices ruled steady. Shoulders were inactive and prices nominally unchanged. Picnic Hams were quiet and prices ruled steady. Bellies were in limited request and prices without material change.

Pickled Meats—Only a moderate trade was reported in Pickled Meats during the past week.

Offerings were moderate, and the demand was somewhat limited. Foreign markets were stronger, and prices ruled higher, but the orders from that quarter were light. Merchants in the home markets was not inclined to purchase to any extent. Offerings were fair, but the sales of all kinds were moderate, as packers were unable to deliver property very promptly. Hams were called for moderately, and prices were well maintained. Skinned Hams were in fair demand and prices ruled steady. Shoulders were in limited request and prices were unchanged. Bellies were quiet and prices steady.

Dry Salted Meats—Trade in Dry Salted Meats was on a moderate scale during the past week. Offerings were not very large, and the demand was fairly active. Holders were unwilling to sell except with a "strike clause" in the agreement, and buyers were unwilling to accept property in that way, consequently trade was restricted. Foreign markets were stronger, and prices were higher, but orders from that quarter were limited. Domestic markets were comparatively steady. Stocks of all kinds are quite large. Foreign cuts of Hams were inactive and prices were entirely nominal. Shoulders were in limited request and prices were unchanged. Long Clear and Extra Long Clear Sides were inactive and prices nominally unchanged. Short Clear Sides were quiet and prices steady. Extra Short Clear Sides were in small request and prices inclined in favor of buyers—closing at about 7⅛@7¼c. Extra Short Rib Sides were in rather light demand and prices were without material change—quotable at 7⅛@7¼c. Rough Sides were in rather good demand, and offerings were fair, but sales were moderate owing to the labor troubles. Prices closed steady at 7⅛@7⅜c according to weight. Plates were in moderate demand at steady prices. Butts quiet and quotable at about former figures. Backs were in moderate request and prices fairly well maintained. Bellies were in fair demand to fill small orders, and prices were steady. Foreign fancy and special cuts of Meats were quiet and prices were unchanged.

Smoked Meats—Quite a good business was transacted in Smoked Meats during the past week and a comparatively steady feeling prevailed. Orders from the Southern markets were somewhat larger. Car lots were in good demand and the jobbing trade was fairly active. Supplies of all kinds are fairly large. Prices were well maintained. Hams were fair request at steady prices. Skinned Hams were called for moderately and prices were unchanged. Shoulders were rather quiet and prices steady. Picnic Hams were called for moderately, and prices were well supported. Sides of all kinds were in rather good request, and prices fairly well maintained on all cuts. Breakfast Bacon was in fair request at former figures.

Beef Products—Trade was somewhat limited during the past week, but there were no particular changes to note. Offerings were moderate and the demand was light. Difficulty in loading property on cars interferred with business to some extent. Foreign markets were steady, and domestic markets were quiet. Supply of Cattle rather light and prices irregular. Manufacture of Products were light. Shipments of Dressed Beef were moderate. Beef Hams quiet and steady at former figures. Extra Mess Beef quiet and comparatively steady. Plate Beef was quiet and prices were unchanged. Extra Plate Beef was in light request and prices steady. Tallow was called for sparingly, and offerings were moderate. No material change to note in prices. Oleo Stearine was rather quiet and prices steady—closing at 6⅞@7c.

Greases—Only a moderate business was transacted in Greases during the past week, and there were no particular changes to note. Offerings not very large, and the demand was moderate. Prices without material change.

The Amalgamated Copper Company has declared the regular quarterly dividend of one-half of 1 per cent, payable Aug. 29. Books close July 28 and re-open Aug. 15.

It is understood that the income account of the Baltimore and Ohio for the year ended June 30 will show something under 8 per cent on the common stock for the year.

THE COAL TRADE.

[From the Wall Street Journal, July 19.]

The anthracite trade h s been distinctly quieter since the first of this month. There have been fewer orders than in any month since the opening of the Coal year. This was expected, as it is well understood that the trade has been very fully supplied recently and the mid-summer period is always one of dulness. It is a fact, however, that the orders which overlapped from June because of inability to fill them are sufficient to absorb the supply of prepared sizes of Coal, and few of the companies have any surplus of that class of Coal. The steam sizes are still being piled up, and no large market is likely for them for several weeks. Western shipments are large, and apparently a good deal of Coal is still needed to supply the ordinary requirements in that section. Lake shipments of anthracite Coal from Buffalo for the season are 457,333 tons, as compared with 816,563 tons in the same period of last year. The season opened six weeks late this year by reason of the strike. The anthracite shipments at Chicago have been 240,913 tons, against 390,536 tons last year. The tonnage of all kinds of Coal at Chicago this year is 317,980 tons below last year.

Later in the month, no doubt, a restriction of tonnage will be agreed upon for August. The average price of prepared sizes in June is said to have been $4 58.

The bituminous Coal trade is quiet but somewhat improved. The supply of Coal is in excess of the demand and prices are low, but there is no longer any great quantity of Coal being sacrificed at the absurdly low prices which have occasionally been quoted for the past two months. The usual prices are from 80c to $1 00 at the mines, and some demurrage Coal has been gotten rid of last week at the former figures. Nobody looks for any great improvement for several weeks yet. Large shipments from West Virginia which go into consumption as contracts made very early still cause a good deal of comment in the trade. The United States government has largely increased its purchases of Coal in the last few years, and now buys about half a million tons per annum, mostly bituminous. The government is establishing Coal stocking points in all parts of the world, and will be a large buyer for years. The ordinary requirements of the government are about five times as much as they were a few years ago.

THE WEATHER CONDITIONS.

Generally clear weather throughout Western agricultural country. Cool and pleasant in all directions. Exception is Abilene Texas, with 2.50 inches rain.

ITEMS OF GENERAL INTEREST.

The City Comptroller of Rochester, N. Y., has awarded the $1,000,000 3½ per cent semi-annual fourteen-year local improvement bonds at 100 64.

A shipper in Logan County, Illinois, writes: "Wheat is yielding 10 to 20 bu per acre: Oats 30 bu where 45 bu were expected." Rust is supposed to have caused the light yield.

The Michigan State Telephone Company has declared the regular quarterly dividend of 1½ per cent on the preferred stock, payable Aug. 1. Books close July 22 to Aug. 1, inclusive.

Essex County, Massachusetts, has awarded a temporary loan of $100,000 in anticipation of taxes to the City National Bank of Gloucester, Mass., at 3 per cent discount and a premium of $6 00.

The syndicate that purchased the City of Chicago judgment bonds has been dissolved. The security was sold at a profit of a little more than 1 per cent. Checks for the profits were mailed Thursday.

A committee of the New York Produce Exchange has made an arrangement with the floating elevator combination modifying charges which, it is believed, will add greatly to the commerce of New York during the Grain exporting season.

The city treasurer of Rochester, N. Y., has awarded the $170,000 3½ per cent semi-annual twenty-year water bonds and the $160,000 3½ per cent semi-annual ten to fifteen and one-half-year East Side trunk sewer bonds at 101.88 and 100.43, respectively.

A New York banking firm have purchased $4,000,000 Westinghouse Electric and Manufacturing three-year 5 per cent notes, indorsed by the Security Investment Company of Pittsburg. The notes are issued to cover recent investments made by the Westinghouse Company in railroad enterprises in this country.

The United States Realty and Construction Company common and preferred stocks have been stricken from the list of the New York Stock Exchange, having been nearly all converted. The Clearing-House gives notice that the stocks are dropped and the successor stocks of the United States Realty and Improvement Company are substituted therefor.

Dornbush of July 13 says: "Our Odessa correspondent writes that crops in that neighborhood have suffered greatly from drouth, particularly in the Dnieper Vall y, where until lately the harvest outlook promised well. In the Crimea, crop conditions are very unsatisfactory while around Eupatoria Winter Wheat is good, Barley less than an average, and Oats are almost a total failure."

Dornbusch's Buda Pesth correspondent writing under date of July 9 says: "The Flour market this week was very active and a large business was done both for prompt and future delivery. Austrian consumers taking the opportunity of covering their requirements as millers were willing sellers, being desirous of clearing their old stocks of Flour to make room for new Wheat. The sales on Friday reached the record for this year. Provincial millers also did a good business. Mill offal well sold."

The United States Realty and Improvement Company has given notice that the time within which the old company's stock may be deposited with the New York Security and Trust Company, in exchange for the stock and bonds of the United States Realty and Improvement Company, upon the terms stated in the offer of June 10 last, has been extended to and including Sept. 1 next. All bonds delivered in exchange for stock deposited after Aug 1 will have the first coupon detached, and will not, therefore, begin to draw interest until Jan 1 1905.

The London *Times* says: "As far as the Wheat crop is concerned many farmers—we might, indeed, say most—regard it as the poorest they have ever grown. When, later on, it is possible to make trustworthy estimates of the total production, this year's Wheat crop can scarcely escape being the smallest within living memory. A continuation of such weather as has been experienced since July set in must have the inevitable effect of accelerating the date of Wheat cutting and rendering it earlier than seemed probable at even so recent a date as mid summer."

The *Corn Trade News* of July 11 says of the French crops: "The crops are ripening in splendid weather and the harvest is advancing from Southern to Central districts. Complaints are still heard that the Wheat crop in the center has short, poorly filled heads and has been burnt somewhat from excessive heat but some other districts from which complaints have lately been received now appear to be better satisfied with their crop. The great producing districts of the North still send excellent reports. Owing to press of field work and contradictory crop reports, the markets have been poorly supplied and prices have further advanced."

The following is said to be from good authority: "All thought of a dividend on Reading common may be dismissed, so far as the near future is concerned. So, also, may be the suggestion that the company will convert the second preferred stock into first preferred and common, as it has the right to do. The company is substantially controlled by two owners, each of which has a large investment in second preferred. Unless the common stock were going to pay 4 per cent, these holders would suffer by conversion of the second preferred, and therefore it will not be done. The rumors of a dividend and of conversion doubtless grew out of the speculation in the common stock."

The Inter-State Commerce Commission, Wednesday, through the United States District Attorney at Cincinnati, sued eight railroads, charging continued violations of the inter-state commerce ruling and orders issued over a year ago. The petition asks that each railroad be enjoined from further violations and fined $500 for every day's violation. The action is based upon a complaint of the Proctor and Gamble Company, alleging that these roads entered into a conspiracy to raise the classification on common or laundry soap. Penalty is asked for 371 days, or a total of $1,484,000, from the eight roads.

The Winnipeg correspondent of the *Northwestern Miller*, writing under date of July 18, says: "The condition of the Wheat crop remains almost uniformly good. The weather is mostly bright and warm, with occasional showers of rain, just enough to keep up the supply of moisture. There were some complaints early in the week from Northwestern and Central Manitoba and Eastern Assiniboia of need of rain, and one or two correspondents noted damage from this cause, but the needed showers have since arrived and all seems well again. The crop is still some days behind normal years as regards growth, but it is catching up and will perhaps regain the lost time before harvest time arrives."

The *Agricultural Gazette* of July 11 says: "The continuance of drouth up to the beginning of the present week is a serious misfortune. It is now nearly four weeks since any considerable fall of rain occurred in many parts of the country, and reports from most districts indicate a striking deterioration in the harvest outlook. The Wheats, as usual, have withstood the drouth well, and this may be said also of the best of the Barley and Oats crops that were sown in good time. The rest of the spring Grain, however, has been dwarfed badly, while the Potato crop in some cases is described as having been irretrievably injured. A good fall of rain quickly would be in time to save the Grain crops from further deterioration."

The annual meeting of the stockholders of the Northern Pacific Railway Company, which has been adjourned from time to time since October, 1903, was adjourned, Thursday, indefinitely. In explanation the vice president of the company issued a statement, in which he said the continuation of the injunction granted on the application of Messrs. Harriman and Pierce, trustees, which prohibits the distribution of stock owned by the Northern Securities Company, makes it impossible to meet the requirements of the charter of the Northern Pacific Company, which prohibits the transaction of any business at stockholders' meetings unless a majority of the outstanding stock is present and voting. Much more than a majority of stock is owned by and registered in the name of the Northern Securities Company, and under the decree of the United States Court such stock so registered is prohibited from voting.

The *Mark Lane Express* of July 11 says: "The Wheat has come healthily into bloom and the Rye is still more advanced. The broad and healthy leaf blades of the Wheat plant are a feature this season. There seems to be insect pests on the leaf blades to an extent which is unusual, but they will not do much harm thus late in the season. There is little rust or blight. It is altogether a healthy season, and fine quality is assured if the next three weeks have anything like sixty hours of bright sunshine apiece. Oats have eared well and are the most regular of the crops; the Barley is the most irregular. The rain of the 1st and 2d inst. did wonders for Beans and Peas. Farmers have made excellent progress with Haymaking, and as the cereals are quite ten days late the one great harvest will be completed before the other calls for attention. The Wheat and Oats do not strike us as tall, but a fair average crop of long Straw should be grown."

For the year ending June 30 the Missouri, Kansas and Texas earned about 5 per cent upon its $13,000,000 of preferred stock, after charging liberal betterments into operating expenses. The company, however, will not consider dividend payments this year, as its new construction work is not yet completed. For three years Missouri, Kansas and Texas has been building into Oklahoma and Indian Territory under the name of the Missouri, Kansas and Oklahoma Railroad. This extension is about completed and the "Katy" is now a system of about 3,600 miles. The extensions were all built from the proceeds of the sale of bonds made three years ago, and the stock representing the new mileage has all gone into the treasury of the parent company. The Missouri, Kansas and Texas is now in as strong a position as any railroad in the Southwest, and as one of the leading officials of the road says: "We are now in a position where the other fellow can name the rate."

Future Deliveries of No. 2 Rye—Quiet July entirely nominal September 69c bid; none offered

BARLEY—A round lot was sold to-day It seemed the sale was in progress of negotiation at the close of last week This trade broke the monotony of the extreme quietude lately prevailing, and which again would have prevailed for general offerings were small. The market was quotably quiet and slow Little mixing demand and malting demand also quiet No essential change in prices There was a good reduction last week in the visible Only 2 cars posted in The market for Screenings quotable at 28@37c for poor to choice Feed Barley, common dirty or musty down to 30@33c; poor heating lower sweet good color thin at 35@38c Malting low grade was quotable 38@40c, fair to good, sound, 42@45c good color 48@50c and fancy above.

SEEDS There developed a firmer and a shade higher Flax market with however only a small business done Grass Seeds of all kinds scarce and quiet with values nominally unchanged

Timothy—Was quotably steady No change developed Buyers and sellers for September delivery remain apart, and for cash Seed the market was nominally steady Of cash lots there were no offerings September delivery contract new Seed was salable at $3 15 and $3 20 was asked Old contract spot or July delivery nominally $2 95@3 00 Country lots quotable at $2 00@2 85 for low grade to fancy choice about $2 65@2 75, fair to good Seed $2 50@2 65 and rough at $2 35@2 45

Flax—General market firm Old crop prices advanced ½@1c but new crop not changed About the only reason given for the advance in the market was that it was higher in the Northwest A few trades were made, but they were of small volume in each case No Flax posted received but 4 cars or 4,165 bu, taken out No change was shown in local stock It remained at 18,371 bu against 67,291 bu a year ago Minneapolis receipts 30 cars and Duluth received 23 cars No 1 Northwestern or No 1 from the Northwest at $1 23½, big lots at a discount, a car in bags selling at $1 22½ No 1 was nominal at $1 18 Rejected about $1 13@1 17 depending on quality. July sold at $1 18 and September sold at $1 18

Clover—Nothing doing and no change whatever Contract spot Seed quotable at $11 25 Country lots, common to choice, $9 00@10 50, fancy above; mixed with Buckhorn or other weed Seeds $7 00@8 50, poor, or cane 1 out of Timothy, very foul, lower Fair to good $9 50@10 25

Other Seeds—Entirely nominal as yet Hungarian and Millets, no quotations at present Buckwheat quotable at $1 55@1 60 for good Mustard at 90c@$1 10 poor down to 50@60c

HOG PRODUCTS—Very little business was transacted in Hog Products in a speculative way The strike situation at the packing houses tends to unsettle trade generally Outside orders were meager and local speculators and packers were virtually out of the market Hogs were in small supply and higher, and the receipts at the larger Western packing points were only 12,500 compared with 62,800 one year ago Foreign market were firmer and Lard and Cumberland Sides were quoted 3d higher Domestic markets were quiet Receipt of Products were fair of Lard and Meats about 18 cars Shipments were quite light of Lard and Meats about 5 cars Prices of the speculative articles were slightly higher during the early part of the session but the market declined sharply toward the close and the market closed quiet Very little doing in the market for shipment and offerings were moderate Difficulty in loading the property on cars tends to check business Prices without material change

CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, July 12.]

United Kingdom—The forcing weather of the past few days has raised hopes of an earlier commencement of harvest in the United Kingdom than appeared at all possible a fortnight ago, with a continuance of ordinary summer weather we should hear of Wheat being cut in Hants about the 25th inst., but it will be a long time before harvest becomes general in the principal Wheat producing districts of East Anglia. The ultimate outturn of the crop cannot be greatly affected thus late in the season but of course the quality should be finer than for a couple of years past if we are favored with suitable weather. To-day's prospect was summed up by a dealer in English Wheat on the Liverpool market as "the smallest crop for a century, possibly of fine quality."

Russia—Crop reports from this great grower are very mixed this year. During the past few days districts which have been complaining before have sent in reports of quite a change for the better, while others have joined the ranks of the discontented. The weather at present is extremely hot and field work in some parts is rendered impossible. In Bessarabia the situation is very bad and a complete crop failure is apprehended in some districts. Interior markets are ruling very firm while stocks of old Wheat at some ports are completely cleared out.

Roumania—The Wheat harvest is now general and samples of the new crop have reached Braila and even Liverpool. Some of these samples are unusually fine and bear evidence of the plentiful sunshine under which Roumania, Bessarabia and Hungary have sweltered during the early weeks of this summer, there is a remarkable absence of rain or Rye among the Wheat, or sprouted grains, while the berry appears plentiful to an extent unusual in Danubian Wheat. These early samples are frequently of inferior quality, but not at the moment there is a disposition to take a more sanguine view of the general situation. Heavy rain of short duration has fallen, benefiting Indian Corn, Rice and Millet, but has not yield more than 70 per cent of last year's crop Bulgarian reports are still favorable.

Hungary—Cutting is in progress and no essential change in the prospects has been reported.

Argentina—Further fine rains have fallen and prospects for the new Wheat and Flax Seed seedings continue to improve. Freights have improved, when any indicate larger shipments presently

Australasia—Further beneficial rains have fallen in New South Wales following those recently reported from Victoria.

India—Further rains have fallen, but the natives offer sparingly and until prospects are more assured it is not likely they will maintain their present policy of reserve.

France—The harvest is rapidly advancing northward and reports are still cast in a sanguine vein as far as concerns the great producing districts in the north. In other parts the enthusiasm of a month ago is superseded by numerous complaints and if we are to believe all we are told there are a great many instances of heat damage, thin fields and a light yield. In some southern departments where threshing has commenced the yield is disappointing, the Grain being of excellent, fine grain upon the heavy soil, but grey, pinched and light from the ordinary fields. It is, however, yet too early to say anything definite about the crop in many important departments.

Germany—The weather recently has been more favorable and complaints are less frequent, but it seems as if the crop would be poor in the eastern districts of the Empire.

Italy—The yields so far reported from the earlier districts do not lead one to look for a large crop

Spain—Renewed reports of damage by extensive hail storms are to hand, and the improvement does not look for a large crop this year but acknowledges that it is early yet to form a decided opinion.

Portugal—Reports as to yield are conflicting and a substantial importation will be required, estimated by our correspondent at 4,000,000 to 4,500,000 qrs. Corn prospects are excellent

THE WEATHER CONDITIONS.

With the exception of light rains in portions of Northwest, fairly heavy rains in Nebraska and storm area in Colorado, weather map this morning generally clear with seasonable temperatures. Sioux City has .92 inch rain. Valentine .16, North Platte .20, Pueblo 1.42.

Indications are for cloudy and showery in the Southwest and West, clearing in Dakotas and cooler Northwest.

Incorporation papers have been filed in the East for the Howland Paper Bag Company and the Norfolk Pulp Company at Norfolk, Conn. Mr. Howland was at the head of Howland & Co., one of the bag making companies combined in the Union Bag and Paper Company, and has been identified until recently with the Union Company. The pulp mill, it is expected, will supply the paper for the manufacture of bags by the new company.

A New York banking firm announces that the $1,050,000 Westinghouse Electric and Manufacturing Company three-year 5 per cent notes have all been sold An official of the Westinghouse Electric Company says that the note sale is a part of a comprehensive plan with reference to the extension of the company's business in Europe and Canada and in other directions, and that the transaction will include the issue of the remaining 60,000 shares of treasury stock, par value $50, which it is proposed to offer to stockholders at $60 per share, and for which 37,969 shares have been underwritten at that price.

The *Corn Trade News* of July 14 says of the French crop—The weather is very hot and to-day and discourages all business except to fill the most urgent requirements. Moreover, the attendance of our weekly markets was small owing to farmers being busy with the harvest. The reports of both the crop become more numerous as the harvest progresses. The yield is disappointing in some southern districts where threshing has commenced. The Grain is very irregular. In others the plant has ripened prematurely. There is, however, some slight hope that the shortage in yield from the ordinary fields may be made up to a great extent from the heavier soil. In the West and Southwest the fields are thin Around Paris, on the other hand, Wheat stands well and will be of fine quality. In the North the crop is magnificent. In these circumstances holders are exceedingly reserved, but the demand remains inactive and millers are not disposed to pay the advanced prices asked. The cool weather of the national fetes also have restricted the attendance on the market, and business generally is very difficult to put through

WEATHER BUREAU REPORT.

The Weather Bureau weekly crop report, issued at noon to-day, is as follows:

Spring Wheat Some complaints of rust are received from all portions of Iowa and South Dakota, but generally the crop has advanced favorably, although poor and weedy on lowlands in Northern Minnesota The crop is ripening in the southern portion of the Spring Wheat region, harvesting having begun in Iowa, while early Spring Wheat has been somewhat improved by rain in Oregon. Much of the late sown has been cut for Hay. In Washington, Spring Wheat is backward and suffering from drouth

Winter Wheat—With another week of favorable weather for harvesting and threshing this work will advance satisfactorily, harvesting being nearly completed in the more northerly sections In the lower Missouri Valley the continuous rains of the previous week reduced the yield and lowered the quality of much Winter Wheat, while higher temperatures in the extreme northern portion of the Corn belt would have been more favorable

Corn - Has made excellent growth, and is in the most promising condition generally throughout the Corn belt The crop is now largely laid by in a satisfactory state of cultivation, early planted being in silk tassels as far north as Nebraska, Iowa and Illinois

Oats—Harvest has continued under favorable conditions and the crop is very promising.

Cotton Has suffered to some extent from lack of cultivation and too rapid growth in portion of the Central districts and while shedding and rust are reported in places, elsewhere the crop generally has done well. Bolls are now opening in the more Southerly portions, and picking has begun in Texas, where ample rains have relieved the drouthy conditions prevailing at the close of the previous week Boll weevils have appeared in two border parishes of Louisiana adjacent to the ones that were affected in Texas, but as yet are causing no material inquiry

ITEMS OF GENERAL INTEREST.

New York Exchange 25c premium.

Documentary Sterling firm at 484¼.

Chicago Bank Clearings to-day, $23,941,089.

Deliveries on July contracts to-day were 85,000 bu Corn.

Reported English merchants purchasing Grain at San Francisco.

The London Stock Exchange will be closed next Saturday and Monday.

A crop expert wires from Omaha that Nebraska will have 35,000,000 bu Wheat.

Reported that no Wheat and 24,000 bu Corn were taken at the seaboard to-day for export.

Advices from Winnipeg indicate that the outlook for Wheat is not quite so favorable.

Six packers purchased 3,700 Hogs to-day; shippers, 700; left over, 2,000 Market closed steady.

Indications are for generally fair weather in the Northwest, but with showers in the Mississippi and Missouri Valleys.

Estimated receipts for to-morrow: Wheat, 98 cars; Corn, 150 cars; Oats, 61 cars; Rye, 4 cars; Barley, 5 cars Hogs, 4 000.

The reported delivery yesterday of 25,000 bu Wheat on July contracts was an error cash Wheat rules at a premium over the delivery.

The receipts of Wheat at Liverpool during the past three days were 941,000 bu, of which 240,000 bu were American. Receipts of Corn, 218 000 bu, of which 88,000 bu were American

Cotton in New York had a stronger start, but weakened, near months suffering the most. Crop reports were in the main favorable and buying support part of the day poor The market closed 7@10 points lower on near and 1@3 points lower on deferred deliveries.

Local Securities were traded in moderately. Can and Biscuit were easier. The street has a rumor that Can preferred is to be put on a 7 per cent basis. Quaker Oats preferred, which has been advancing of late, broke 1 point Street's common broke ¾

Stocks in New York weakened and closed ⅜ to 1½ lower on Western Railway shares 1 to 1¼ lower on Industrials, and steady to 2 lower on Coalers. Fresh political complications abroad acted as a check on buying, and caused realizing sales which started the decline Money was easy at 1 per cent.

Bradstreet's report of the available supply for the past week shows the following changes:

	1904, bu.		1903 bu.
Wheat east of Rockies	Dec. 878 000	Inc.	139,000
Europe and afloat	Dec. 1,500,000	Dec.	100,000
Total	Dec. 2,378,000	Inc.	39,000
Corn	Dec. 472,000	Dec.	509,000
Oats	Dec. 910,000	Inc.	887,000

Broomhall's weekly foreign crop summary says "United Kingdom—Condition of Wheat generally below an average First field has been cut France—In the center, harvest is progressing rapidly. Quality good, but yield deficient. In the north some complaints of scorching. The *Marche Francais* considers the official report indicates crop of 360,000,000 bu, which compares with 366,000,000 bu last year. Germany—Continued heat and drouth affecting the crops. No complaints regarding Winter Wheat. Russia—Weather been favorable, but latest advices confirm previous reports that crops are very poor in several of the districts in South and Southwest. This is important growing territory."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Market continues quiet Demand moderate and no material change in values

WINTER WHEAT—Was in good demand and prices ½@1½c higher, but most of the advance did not occur until well near the close, and part of the receipts brought only about ½c above yesterday's figures. The offerings were larger, the quality of the Wheat good, and there was rather sharp competition for the offerings No 2 Red fresh arrivals free on board sold at 97@99c. No. 3 Red fresh arrivals sold at 96@97c, with sales billed through at 95@95½c and at the river at 94¼c No. 4 Red sold at 88@91c and No Grade Red at 90c No 2 Hard fresh arrivals free on board sold at 94@97c and billed through at 93c. No. 3 Hard free on board quotable at 90@91c with a sale at the river at 90c No 4 Hard sold at 89c No 3 White sold at 93@95½c

SPRING WHEAT—Was in fair demand and prices quotably steady and unchanged. The receipts continue small No 1 Northern in store quotably 5c over old July bid and ranged nominally 99¾c@1 02½ and fresh arrivals free on board quotably $1 01@1 02 No 2 Northern fresh arrivals free on board quotably 95@98c No. 3 Spring fresh receipts free on board quotably 85@95c No 4 Spring nominally 85@90c for poor to choice, with sale of a car at 81c

REGULAR WHEAT—A fair trade but mainly local and on the professional order The close showed old July 1½c higher, new up 1c, while old September was up ¾c and new ⅝@¾c higher. Market was inclined to weakness at the start, influenced chiefly by the unresponsive cables and heavy receipts in the Southwest. Local "longs" sold with considerable freedom and "short" selling was more in evidence but at the decline "shorts" came in freely on the 5-16 drop in British consols and adverse foreign crop conditions as cabled by *Broomhall* Many of the early sellers turned buyers and market acted oversold Liverpool quoted spot ¼d lower to ½d higher and futures ¼@⅜d lower Receipts there the past three days large, 941,000 bu, and only 240 000 bu from America London came ⅛@¼d higher. Paris was ½@1½c higher and Antwerp unchanged Berlin declined ⅝c and Buda Pesth lost ⅝c According to *Broomhall* the Liverpool market was affected by the large official estimate of the French crop. The *Marche Francais*, considered official French report, indicated a crop of 360,000 000 bu The map showed light rains in Minnesota, Nebraska Missouri and Kansas and showers are probable in Illinois, Indiana and Missouri fair for the Northwest and Kansas Stocks here in all positions reported 1,692,000 bu, a decrease last week of 152,000 bu. stocks one year ago 3 532,000 bu Contract stocks decreased 24,798 bu, and now include 570,330 bu against 1,077 495 bu one year ago *Bradstreet's* decreased 2,378 000 bu, compared with 39 000 bu increase same week in 1903, and imparted some strength to the situation Kansas City and St Louis received 606,000 bu against 330,000 bu last year, and primary movement was 146 000 bu larger than in 1903 Kansas City expects 231 cars to-morrow The weekly weather crop bulletin generally noted satisfactory conditions Exports were moderate and no boat loads accepted at the seaboard. Minneapolis reported stocks decreased 210,000 bu for first half of the week Cash values in the Southwest were reported stronger Winnipeg wired "Must reduce estimates on Wheat yield considerably" San Francisco wired English houses were good buyers in this market Receipts at Duluth 135 cars and at Minneapolis 91 cars, a total of 246 cars against 345 cars yesterday, 266 cars a week ago, and 231 cars last year Local receipts included 152 cars Winter 2 cars Spring, no car mixed, a total of 154 cars, against 162 cars last year. Included in the above were 21 cars contract grade There were 7 cars and 1 800 bu taken from unlicensed elevators The estimated receipts for to-morrow are 98 cars Withdrawals to-day were 60,450 bu. Receipts at Western points were 929 000 bu, against 784,442 last year. At Eastern points 231,149 bu, against 204,320 bu last year Shipments from Western points were 301,830 bu against 298-205 last year, and from Eastern points 22,420 bu against 69,019 last year Shipments of Flour were 18,090 brls. Exports of Wheat in Flour were equal to 103 825 bu

Wheat situation in the Northwest in a nutshell—it will depend altogether on the weather. A good liberal crop may be raised or a moderately small one At present the weather is cool, and favorable for filling.

In Local Securities there was fair trading and a weak tone. Biscuit and Can preferred sold off sharply on profit-taking. Box Board preferred gained ½, and Quaker Oats preferred advanced 1 point, but reacted.

Stocks in New York were weak and averaged lower The selling pressure was the strongest on Steel preferred, which declined 1⅞. Western Railway shares lost ½ to 1⅛ Industrials ¼ to 1 and Coalers ¼ to ¾. Money ¾@1 per cent.

Cotton in New York was stregthened by the steadiness in cables and by foreign complications. "Bearish" influences had no effect, and "shorts" were good buyers resulting in a sharp advance Closing sales were 5@10 points higher.

Officials of railroads that gridiron the Northwest say their crop reports on Wheat and Oats are the most favorable in twenty years. They get crop reports daily from all along their lines and keep in closer touch with the crop conditions this year than ever before

The Iowa crop bulletin says: "In the larger part State conditions were favorable for work in Hay and Grain harvesting four to five days during the week In the southern and central sections Oats and Barley are nearly all in shock. In northern sections late Oats will soon be ready to cut. Corn is doing well in all districts."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The market is without important change. Demand moderate and almost exclusively on local and domestic account

WINTER WHEAT—Was quoted steady for the No 2 Red, while the undergrades were reported 1c lower, but the market generally closed up stronger all around The decline in the undergrades was attributed to a less urgent demand from speculators, as it would be difficult to get the Wheat cleaned and ready for delivery in July Quality averages good Besides the speculative buying there was some demand from millers No 2 Red in good demand and 16,000 bu sold at 2c over new July c. i. f. Buffalo, and car lots of fresh arrivals sold at 97@98c free on board No 3 Red fresh receipts sold at 93@97½c free on board and at 96c billed through No 4 Red fresh receipts sold free on board at 86@90c, with a few choice cars at 94@96c, and sold billed through at 93c No 2 Hard fresh receipts sold at 92½@96c, and No. 3 Hard at 90@95c

SPRING WHEAT—Was in fair demand and prices quotably steady and firm. The receipts continue small No 1 Northern in store quotably 5c over old July, with sales at $1 02@1 03 and fresh arrivals free on board quotably $1 01@1 02 No 2 Northern fresh arrivals free on board quotably 93@99c No. 3 Spring fresh receipts free on board quotably 94@95c No 4 Spring nominally 68@90c for poor to choice

REGULAR WHEAT—Was active and stronger with a good trade The close showed gains ranging from ⅝c to 2⅛c The foreign situation appeared to be the principal "bull" incentive, the fear of further foreign political complications causing a feeling of nervousness to prevail Cables were stronger and British consols off 9-16, which on top of the 5 16 yesterday shows a decline of ⅞ or nearly one point Liverpool quoted spot steady to ½d lower, and futures ⅜@1d better London was ¼d lower to 1¼d higher Paris came ¼@½c lower, and Antwerp unchanged Local professionals were prominent on the "bull" side of the market and while realizing and profit taking was general on the advance, offerings were well absorbed Market influenced indirectly on reports that the English premier had created a sensation in Parliament by referring to the recent seizures and sinking of the Knight Commander The map showed clear and cool conditions in the Northwest, light showers in Iowa and raining at Valentine Heavy rain at Springfield, Mo. Thunderstorms were predicted for Illinois, Indiana and Missouri, fair weather for Minnesota Iowa and North Dakota; cloudy for South Dakota, Nebraska and Kansas The London *Statist* of July 18 in commenting on the general Wheat situation predicted a scarcity the coming season New York private advices confirmed considerable damage to the French crop and reported inquiries for No. 2 Red and No 2 Hard for September and October shipment. Another New York message stated Liverpool was offering to resell at 1@1½c below what it could be bought for there. Reports from Southern Illinois claimed Wheat was turning out only one-third as much as expected and testing only forty-five pounds to the bushel. Three large farms owned by Chicago parties in Southern Michigan threshed out two, five and seven bushels respectively. St. Louis reported a miller there as selling 2,000 sacks Flour for direct export. Primary receipts were 107,000 bu larger than last year Kansas City and St. Louis received 370 000 bu, against 280,000 bu last year Kansas City expects 219 cars to-morrow Duluth reported the sale of 20,000 bu No 1 Northern Foreigners were again credited with buying futures here Exports small and but 7 boat loads accepted at the seaboard. Minneapolis stocks were estimated to have decreased 475 000 bu the past four days The strength of cash values in the Southwest was one of the late "bull" factors Late London cables reported stock market demoralized and papers full of war talk. Owners of steamship Arabia were reported as filing a protest with authorities at Washington and traders feared the United States might become involved Receipts at Duluth 61 cars and at Minneapolis 78 cars, a total of 140 cars against 218 cars yesterday 202 cars a week ago, and 1?5 cars last year Local receipts included 78 cars Winter no cars Spring 1 car mixed a total of 79 cars, against 57 cars last year. Included in the above were 25 cars contract grade There were 45 cars and no bu taken from unlicensed elevators The estimated receipts for to-morrow are 74 cars. CORN—A moderate trade and firmer tone with the close showing gains of ¼c to ½@⅝c The higher cables, moderate receipts, the advance in Wheat, and less favorable crop news were the strengthening factors. There was a fair general demand, but nothing large, while the offerings were moderate. Liverpool quoted spot steady to ¼d higher, and futures ⅜d higher Receipts were 173 cars 12 cars grading, against 112 cars last year, when 14 cars were contract, and 242 cars are estimated for to-morrow *Orange Judd Farmer* returns for August 1 crop report, so far as received do not bear out the general assumption that there has been a marked improvement in Corn prospects during June and July. Scattered reports from all sections, numerous enough to be indicative of the situation, show no change in the Ohio Valley, except small improvement in Indiana. The serious effect of the excessive rainfall in the Missouri Valley is shown by a slight decline in Missouri and a drop of 15 to 20 points in Kansas. The early returns may be taken as indicating no improvement in Corn since July 1 Southwestern markets were strong Weather, present and prospective, was favorable Primary receipts were 563,000 bu, against 369 000 bu last year, and shipments 232 000 bu and 321,000 bu respectively. RYE—Was firm and prices for cash ⅛c higher Futures quiet and firm The offerings were very light and holders generally indifferent about selling Seven cars were received to-day, and there were withdrawn from store eight cars and 800 bu No export clearances from the seaboard New No 2 to go to store sold at 72½c No. 3 nominally 65@70c.

Future Deliveries of No. 2 Rye—Quiet July 72c bid and 73c asked. September 60¼c bid and 65c asked July was exchanged for September at 11c difference

BARLEY—The demand for malting account seemed to have almost ceased It seemed as if buyers no longer cared particularly about buying old Barley They perhaps preferred to wait for new which soon will begin to move To-day a car of new Iowa, good quality was offered to arrive prompt shipment and a bid of 50c was put out on it For old Barley prices were nominally unchanged Low grades of all kinds slow quiet and easy, but no offerings to speak of Seven cars were shown in the posted receipts to-day Old Barley prices quotable over a range as follows Screenings at 28@37c for poor to choice Feed Barley, common dirty or musty down to 30@33c, poor heating lower, sweet good color, thin, at 35@38c Malting low grade was quotable 38@40c; fair to good, sound, 42@45c choice 48@50c, and fancy above

SEEDS—There was little done, nothing aside from the sale of a small quantity of new crop Timothy Grass Seeds were quotably steady and Flax nominally a shade higher

Timothy September delivery sold at $3 20 the outside quotation of yesterday This denoted steadiness Only a very little sold Not so much interest shown in the market as on yesterday. In regard to cash Seed, nothing was learned There was none offered The market could only be called nominally unchanged Market for old contract spot or July delivery nominally $3 10 Country lots had a nominal range of $2 00@2 85 for low grade to fancy choice about $2 70@2 75, fair to good Seed $2 50@2 65 and rough at $2 10@2 45

Flax Firmness prevailed and there was ½c advance in prices The market was improved in the Northwest and this week the price of Oil has again improved somewhat. There was no Flax offered and an advance in bids did not therefore bring about any business. Two cars or 1,700 bu received here but none taken out At Minneapolis 4 cars were received at Duluth 23 cars For No 1 Northwestern or No. 1 from the Northwest $1 24 was bid No. 1 was salable at $1 18½ Rejected about $1 14@1 18, depending on quality July salable at $1 18½ and September at $1 18½

Clover There were no developments Nothing was done and no effort was made to do anything It was a neglected nominal market Contract spot Seed at $11 25 Country lots common to choice, $9 00@10 50, fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 50 poor, cleaned out of Timothy, very foul, lower. Fair to good $9 50@10 25

Other Seeds—No market at present for Hungarian and Millets Buckwheat quotable at $1 55@1 60 for good Mustard at 90c@$1 10 poor down to 50@60c

HOG PRODUCTS—Only a moderate trade was reported in Hog Products and the feeling was somewhat unsettled Offerings were not very large, and the demand only fair Hogs were in fair supply—ruled lower early and then rallied again Receipts at the leading Western packing points were estimated at 53,300, compared with 59 500 one year ago. Foreign markets were stronger and prices were advanced 6d on Hams and Cumberland Sides Domestic markets were quiet and steady Receipts of Products were quite liberal—of Lard and Meats about 30 cars Shipments were small—of Lard and Meats about 58 cars Outside speculative orders were moderate and local trading was rather light Packers sold moderately, and there was some realizing by "longs" Inquiry was mainly by parties who were anxious to even up their trading temporarily Prices were slightly higher early but settled back moderately on general realizing. BREADSTUFFS ON THE PACIFIC COAST.

[From the Portland Commercial Review, July 21.]

Wheat—Sales of Wheat are very small, and millers are the only buyers at present, and this only in small quantities, so as to enable them to run on local trade. Exporters have no wants to fill, are out of the market entirely, and will only purchase when prices are on a ratio with export trade. Harvesting is in full operation all over the Wheat belt, and fields coming in are fully as large as the crop of last. There will be a very large fall crop harvested. The shower in the other Wheat districts during the week have been of great benefit to the spring-sown Grain, and indications point to a very large harvest of the same. Estimates are being received from all over the Northwest in regard to the size of the crop. We desire to say to our many corre pondents that we will make our estimate after the crop is actually in hand. Indications point to a larger crop than several years ago, and we would not be surprised to see the crop about 60,000,00 bu Wheat for this State alone. Parties in close touch in the State of Washington predict 38,000,00 bu for that State. We cannot say whether these figures will be borne out. If yields continue as they have, the figures will without doubt have a just amount. Oregon, the eastern section, will show a material increase over former years and Idaho will exceed that of a year ago. Quotations for Wheat remain as last week. Valley on top for club and fie for bluestem. Valley Wheat will be quite scarce the coming season, and it is doubtful whether the farmers there will harvest 200,000 bu. This will cause buyers in that section of the State to purchase freely of Eastern Oregon and Washington Wheat to enable them to keep their mills in operation. The Wheat coming is of good rain fell on the Grain fields of the Willamette Valley. This drouth is almost unprecedented here Its evil effect was aggravated by the late spring rains, which caused a large growth on top for club and fie for bluestem. Valley Wheat will be quite scarce the coming season, and it is doubtful whether the farmers there will harvest 200,000 bu. This will cause buyers in that section of the State to purchase freely of Eastern Oregon and Washington Wheat to enable them to keep their mills in operation. The Wheat coming in is of good quality, but the amount will be fairly large. Instead of this, the rain held on until almost too late to plant the spring Grain at all, and when good weather did come it dev eloped into a drouth. The result is that spring Grain is only a few inches from the ground, and much of it will not be bound at all. That which is threshed will yield poorly. The heads are small and very poorly filled. Much of the fall-sown Grain of this year is of a high standard of excellence. That part of the fall Grain that was sowed on low ground has filled poorly and will not be half a crop. That on the upland will be quite fair. In some instances making three fourths of a crop, rarely promising a full crop. The Hay crop has averaged more than half what it has in yearly gone by. The spring season is about over, and the general report is half a crop.

Flour—This market is without change. There is some demand for export, but buyers are only after well-known brands, and those that have had an established reputation will find it difficult to sell abroad. The principal inquiry comes from China, where stocks have to be replenished, as Hong Kong was a heavy seller to that market, and reduced her accumulation considerably. Japan is taking only small parcels to keep up brands that have been down. Possibly before the end of July there will be a free movement for export At the present time only small lots are being shipped. South American demand has shown some improvement, and several good orders for cargo lots have been received during the week California shipments are heavy, and considerable Flour is going down by each steamer, and the movement is becoming quite large, and, as predicted in these columns several weeks ago, that the trade with that State will show a material increase over last season. and the shipments down there in 1893-4 were the largest in the history of the trade. There is little demand for export to the United Kingdom. This trade has fallen off considerably in the last few years, as prices here are higher than from other countries.

THE JULY DEFICIT.

[From the Wall Street Journal, July 22.]

Much comment has been caused by the large deficiency in the Government revenues this month. As a matter of fact, however, there is nothing surprising or unusual in a July deficit in every year since 1879, except four, there has been a deficiency in the revenue in July. This is shown by the following table:

July.	Deficiency.	Surplus.
1879	$10,356,8 2	.....
1880	1,911,108	.....
1881	575,526	.....
1882	.....	$6,920,880
1883	6,509,017	.....
1884	2,393,410	.....
1885	6,915,941	.....
1886	.....	233,980
1887	1,332,062	.....
1888	4,778,867	.....
1889	9,811,238	.....
1890	.....	1,304,516
1891	3,949,049	.....
1892	2,018,407	.....
1893	8,770,113	.....
1894	1,838,243	.....
1895	14,473,205	.....
1896	13,069,259	.....
1897	13,079,545	.....
1898	30,410,365	.....
1899	8,508,832	.....
1900	14,344,470	.....
1901	.....	12,746
1902	7,507,877	.....
1903	8,276,007	.....
	165,841,725	8,276,000
1904	19,581,967	.....

Thus, in every year except 1882, 1886, 1890 and 1901 there has been a July deficit. The average deficit for the 25 years is $6,380,000. In the first year of the Spanish war, the July deficit was $30,-415,366 which is the largest amount our Government revenues have fallen behind in any July since the resumption of specie payments in 1879 Last year the July deficit was $8,276,000.

The fact that our revenues have been less than our expenditures this month is, therefore, nothing to cause apprehension. It is only always happens at the beginning of a fiscal year that the Government expenditures are very large.

It is only the size of this July's deficit that is open to comment. In 21 days we have run behind $19,581,967, or more than double the deficit for the entire month of July, 1903. If the rate keeps up the rest of the month, the deficit may reach $20,-000,000 or nearly equal the big deficit of the war year 1898.

It is important to remember, however, in considering the effect of this deficit on the treasury's resources and its ability to get along without another call on the depository banks, that August is usually a month of surplus in Government receipts There has been a surplus in every August since 1879, except 1886, 1893, 1894, 1897, 1898 and 1900

ILLINOIS CROP BULLETIN.

SPRINGFIELD, July 26. The Illinois crop bulletin for the week ending July 25 was as follows:

Weather conditions have been highly favorable for crop development and farming operations during the week, decidedly the most favorable of the season. High temperatures were limited the first part and moderate temperatures the latter part of the week While the rainfall was deficient, only scattered showers falling, sufficient moisture was left from previous rains this week to supply generally the requirements of vegetati n.

Corn has made rapid growth and is mostly laid by. Many fields are tasseled.

The cutting of Oats will be in active operation in the northern district during the ensuing week; the work is practically finished in the central and southern districts and some threshing has been done, with satisfactory output. Many complaints are made of injury by rust.

Wheat, Rye, and Barley are in shock. Considerable Wheat has been threshed during the week under very favorable conditions, and an average yield of good quality has resulted.

Excellent curing weather prevailed, and a large quantity of Hay has been secured in good condition. Reports indicate a yield below average, but of superior quality.

Pastures are generally good, but rain would improve conditions in some localities. Gardens are yielding bountifully, and the outlook for Potatoes is promising. Sweet Corn is ripe and is producing abundantly. Tomatoes, Blackberries and berries are ripe. Grapes continue promising. Apples are dropping at a rapid rate, and some orchards are already bare

WEATHER AND CROPS IN ROUMANIA.

[From Dornbusch, July 12.]

Rain has fallen in some districts, but it has been of short duration and sporadic in character. The weather has been very hot again, and great anxiety prevails about the crops. In some districts it is standing high and looks well, and where rain has fallen it will soon shoot out cobs. In other districts it is very short, and only little hope are entertained of the plant producing more than a single cob, if even that. If rains do not fall within the ensuing week, it is reported that the yield will be very much compromised, and if rain should fall within that period, the crop is likely to be about 70 per cent of last year's. Harvesting is getting into full swing in Wallachia, the bordering districts of Moldavia will follow, and there will become general during the coming week. Threshing is commencing on some of the more advanced farms, and some very good samples of Wheat and Barley have been sent down for inspection These first samples, however, are generally of the best, and cannot yet be taken as a criterion of the crop in general, although opinion here is that the quality of the wheat will be better than last year. There are confirmatory reports about the yield being better than was expected. Opinion about the yield is still very contradictory, and it is practically impossible to say anything reliable, but the color continues good and some of it will be of good weight. Rye certainly, and Oats probably, will be under quantities said. We have very bad reports about Bessarabia where crops of all descriptions are said to be entirely lost.

THE HOP SITUATION.

[New York Producers' Price Current, July 23.]

The Hop market this week has been dull and but few sales are to be reported. To effect business, prices would have to be cut materially, and we make a reduction in the range of quotations. Brewers report an exceedingly good business the past week, and there is no question but what they are selling their product freely. Reports from the New York State continue to be good, with excellent growing weather. Reports from Oregon show that the hop-needed rain has at last appeared and continued some thirty hours, which unquestionably, has been a benefit to the crop, both in Oregon and in Washington. California reports are unchanged. Dealers are offering to contract on the Coast at prices ranging from 18@ 20c, but growers do not show much inclination to close at these figures. Reports from England claim a week of fine weather, but the Coast, in fact, it has been so warm both there and in Germany that they are now crying for rain. The Enelish estimate of 400,0 0 cwts. has not been changed.

THE WEATHER CONDITIONS.

Fine conditions shown Clear and cool throughout the Northwest on the 20th; 0 inch rain at Valentine, Neb., and now raining Springfield, Mo., has 1 02 inches, but balance of Southwest clear. Raining at Louisville, Cairo, .25 inch.

Indications for the weather Northwest: Partly cloudy and with showers or thunderstorms in most of Southwest. Illinois, Indiana, Kansas, Nebraska partly cloudy and warm

ITEMS OF GENERAL INTEREST.

It is rumored that the full dividend on Erie first preferred will not be paid

Manhattan Elevated of New York has placed an order for 100 trailer cars, involving an expenditure of $350,000.

Seven million feet of Lumber was destroyed by fire Sunday at Bay City, Mich. Loss, $70,000; fully insured.

The St. Joseph Railway, Light Heat and Power Company reports $30,807 net for June, and $56,09 net for July 1.

The Turkey Red Dye Works at Bellefont, near Providence, R I, were destroyed by fire Monday. The loss is estimated at $200,000

Chicago houses with Kansas connections say the Kansas City Corn shows a better crop than its estimate to 70,000,000 bu of Wheat for Kansas.

Five hundred and fifty operatives struck at the United States Cotton Company's mills at Central Falls, R. I., Monday morning. The 12½ per cent cut in wages.

The mills shut down

An English syndicate is discussing plans for the formation of a corporation to purchase and control the Oyster industry on Long Island. Millions of dollars are invested in the industry.

Evidence that the demand for new cars by the railroad companies is far from what it has been expected it would be at this season is reflected in the fact that the Pullman Company has let go fully 2,000 men from its shops since the last week in June.

Thirty thousand textile operatives walked out in compliance with the strike order issued in protest against the 12½ per cent wage cut effective Monday at Fall River, Mass. Thirty-seven mill corporations are involved and eighty-one mills are closed by the strike

"Corn through Nebraska and Iowa has a good stand," said a Chicago commission man Monday. "There is some rust in Oats and Wheat, and the Wheat crop is rather light, but Oats are good. Wet weather has delayed Haying, and comparatively little has been done in this line"

Stocks of Wheat in store at Fort William, Port Arthur, Keewatin, Winnipeg and interior country points are approximately 4,237,000 bu, against 4,226,000 bu a week ago, 3,561,000 bu a year ago, 2,145,000 bu two years ago, 1,829,000 bu three years ago, 3,000,000 bu four years ago, and 4,540,000 bu five years ago.

The New York *Journal of Commerce* begins its July Cotton report with encouraging reports from Texas. The improvement of a month ago has been continued and the crop is particularly promising in North Carolina. Rain is needed, especially in South Carolina, but has come recently in amounts to give relief.

The rumors that have been current that the Missouri Pacific is soon to issue additional stock are characterized by that road's officials as absurd, with the company's affairs as altogether absurd He says the company has no plans under way that call for such action, and adds that crops in the road's territory are looking splendidly well.

The traffic of the Chicago City Railway Company for the first half of July is said to have averaged well ahead of the corresponding period in last year, but is said to have fallen off materially since the strike at the Stock Yards was declared. Some authorities say the losses occasioned by the packing-house tie up will amount to at least $1,000,000 a week.

Chicago interests in the National and United Lead Companies announced privately, Tuesday, that the proposed merger of the two companies had been abandoned definitely at least. It is understood the proposed plan was unsatisfactory to the United Lead interests, and leaders in that company refused to agree to the terms. A committee has been appointed to draft a new plan.

The Chicago *Inter Ocean* says: "Consumption of Beef and Pork has decreased heavily the past two weeks since the packing-house strike started, and the fall-off from over one week ago has become general. Every one seems to have curtailed the use of Meats, and distributers in the South, particularly those who have stocks on hand, have raised their prices, and the trade is not following the advance."

The Republic Iron and Steel Company has sold 100,000 tons of foundry Iron at an advance of 50c per ton over recent sales, and has become the Pennsylvania Railroad Company. The Youngstown mills of the Republic Company will go on double time this week. The company has large orders for bars and plates. Here is buying a large amount of scrap for the balance of the year at prevailing prices

An officer of the Reading Company, commenting on the latest reports of dividends on the common stock, says: "Reading has certainly been making some good earnings. Were this business to continue at its recent rate the hope fora dividend on the common stock would be entertained with justification. As a matter of fact, however, the earnings of the Reading Company, in common with those of railways generally, have commenced to fall off."

Favorable action was taken by the Chicago Board of Trade directors, Tuesday, on a communication from the National Business League. The latter is in favor of a considerable shortening of the term of office to a single one of six years. This, it claims, would lessen the burdens of business and enhance the efficiency of the executive and legislative branches and prove a distinct benefit to secure a re-election of the President at the expense of needed legislation.

For the fiscal year 1904 St. Louis and San Francisco Railroad will shell out about $1,650,000 on common stock after payments of all standing dividends on Eastern Illinois and on Frisco first and second preferred. Such a surplus represents an activity of nearly 7 per cent on common stock. Surplus will include all surplus earnings of Eastern Illinois after dividends. It represents the equity of the Rock Island Company in the St. Louis and San Francisco.

A Boston dispatch says: "A reaction in the volume of business in the Wool market is noted this week, following the almost abnormal activity of the preceding few weeks. The tone is the same as firm as ever. The larger mills have apparently stopped buying, the smaller making up the market. The appearance of buyers in the market is still felt. Territory Wools continue relatively active, with some larger lots placed Pulled Wools are firm, and the same is true of foreign grades, though the market is quiet."

Leading interests in the Prairie State Bank, Chicago, have decided to start a small National bank. The new institution will be called the Prairie National Bank. It will have a capital of $250,000 and a paid-in surplus of $50,000. One-half the stock of the new bank will be offered for subscription to the shareholders of the Prairie State and a quarterly dividend of 2½ per cent will be declared on Prairie State stock in order to assist in the payments for the new stock, the underwriting price of which will be 112½ per share. The new bank will be managed by the same set of officers as now manage the state Bank.

The directors of the Quincy Mining Company did not increase the dividend to $3.00, as was anticipated some quarters would be done, but the increase was not justified by the earnings. For the first six months of the year the company produced 8,810,000 lbs of Copper and sold it at an average price between 12¾c and 13c. Quincy has its own Copper and does not pay a commission therefore on any selling agency. During this six months period the company's net earnings amounted to $270,000, or $2 70 per share, against $2 50 declared as a dividend. Coats were practically on the same basis as last year, although this year the construction account will be nearly below that of 1903.

If the sentiment expressed by shippers and receivers of Grain and by elevator interests are considered the Board of Trade Directors will decide to establish a Grain weighing bureau. It will cost $50,000 a year To secure an able traffic manager will necessitate the payment of a salary of $10,000 a year, as good traffic men who are able to influence railroads into making rates in favor of Chicago are not easily secured. A meeting of the elevator interests and the receivers and shippers was held yesterday afternoon and a special committee of the Directors. Sentiment was unanimously in favor of the freight bureau, provided a proper man can be secured to take charge of it. A committee of opinion was appointed to report and no move be made at once to keep Grain coming to Chicago, or the prestige of this market will be lost.

The Chicago *News Bureau* says: "The National Carbon Company, which is regarded a good barometer of industrial conditions, especially from the standpoint of electrical power for manufacturing purposes, appears to be showing significant gains in the output of its products. Light and power plants all over the country are said to be commencing to call for more supplies and the demand is interspersed with a liberal number of new orders. The latter is an important factor, inasmuch as new orders mean that projects which have been held in abeyance are being carried out. Municipal lighting plants and new electric railroads are being financed since it has become less difficult to sell bonds. Of course, officials of the Carbon Company say, the increase in new business is not large, but it is a long step toward improvement over the conditions which have prevailed for about eighteen months past. It is expected that the National Carbon Company will show better earnings this year than it did the previous one."

The Winnipeg *Commercial* of July 23 says: "Judging from the latest railway crop reports the rains at the close of last week, which were very general, were exceedingly useful in those sections where the weather had been too dry to date, and in other sections were enough to do any appreciable damage in localities previously well supplied with moisture. In fact, out of the hundreds of reports received by our two reporters much rain. These were Emerson and Otterburne, but even at the latter point no damage is reported. At Emerson the complaint was not so much of too large but of the windstorm accompanying it. In but three or four localities, the total area of which is insignificant, did hailstorms occur. On the other hand, the general comment is: 'Crops looking well; weather favorable; heavy yield expected.' In a number of instances the Grain is stated to be completely headed out, while heading out is general. On all the branches of the Canadian Pacific and Canadian Northern lines there is so little variation in the condition when the reports were made up on Tuesday that it is unnecessary to go into details. Nevertheless, however, the report that prospects were never better, and Antler, Assa., hazards a prediction of forty bushels to the acre in that locality. In one place heads are reported from the time long. At the time the report was compiled Straw ranged from twenty inches to three feet. In one or two places haying is already in progress."

A Kansas City man says "The Wheat in Kansas that was damaged badly was in the central part of the State This Wheat has not commenced to move. Our large receipts at present are from Oklahoma and Southern and Western Kansas It is still a disputed question whether 20 000 000 bu of Wheat were lost or not. There was, however, a great quantity washed away."

The New York *Journal of Commerce* this morning continues the July Cotton reports with statements from Mississippi Louisiana and Tennessee The Tennessee showing is favorable, but the deterioration due to excessive moisture in Mississippi and Louisiana constrasts strongly with the excellent conditions in Alabama and the Atlantic States. Fields are very grassy.

NEW BARLEY.

Three cars of new Barley were received—one from Illinois, which sold at 51c, and two cars from Iowa, which brought 48c All were of an improved quality over the first arrivals of a year ago First car last year received on July 28, graded No. 4, and sold at 45c

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Foreign bids are better than ten days ago, but still prohibitive. Local and domestic inquiry moderate Market firm

WINTER WHEAT—Was irregularly lower, No. 2 Red declining 2@3c and the other grades 3@5c Trade was good, but only at the lower prices were buyers inclined to purchase On account of the inability to get Wheat to elevators in time for delivery on July contracts, speculators were less anxious to buy and millers bought fair quantities. The offerings were larger No 2 Red sold at 97@97½c, and early in special location few cars sold at 98½c, with sales billed through at 94@97c. No 3 Red covered a wide range with sales at 88¾@92½c, and some early sales at 93@94½c, and billed through sold at 90½@92c No 4 Red sold at 80@91c. No. 2 Hard sold at 94@95c, and No. 3 Hard at 90@95c No 3 White sold at 91½@93c

SPRING WHEAT—Quiet and easy. Nothing doing to-day and prices entirely nominal. The receipts continue small No 1 Northern in store quotably 5c over old July, and nominally $1 00½@1 03 and fresh arrivals free on board quotably $1 01@1 02. No 2 Northern fresh arrivals free on board quotably 98@99c No. 3 Spring fresh receipts free on board quotably 85@94c No 4 Spring nominally 88@90c for poor to choice.

REGULAR WHEAT—A fair trade and weaker tone the close showing old July off 2⅞c while new new lost 2⅛c. Old September closed ⅝c lower and new ⅝@¾c easier The foreign situation was less "bullish" British consols being ⅜ higher, while cables were weaker and local "longs" liquidated from the start. "Bull" leaders were more timid about adding to their lines, though at the decline there was reinstating of Wheat sold yesterday. Liverpool quoted spot steady to ½d higher and futures ⅝@¾d lower London was ¼@1¼d lower Paris was decidedly weak and off 2¾@3½c Antwerp was up ⅝c and Buda Pesth ⅝d lower. Berlin unchanged Premier Balfour announced in the House of Commons to-day that the acute stage of the Red Sea incidents had been passed and the Russian volunteer vessels would be withdrawn The map showed heavy rains in Northern and Central Illinois and general rains in Ohio Valley and Missouri Fair and warmer weather was predicted for Illinois Indiana, Iowa, Nebraska and Kansas, cloudy and showers possible for Missouri, Minnesota and the Dakotas *Broomhall* cabled the German official report of July 15 made the Wheat crop 60 per cent compared with 76 one year ago A representative of the Minneapolis *Times* who has traversed Kansas placed the damage at 24 per cent and total yield 60 000 000 bu The *Price Current* claimed the Winter Wheat harvest was practically finished, but threshing returns limited; Indiana indicates some disappointment, but elsewhere indications unchanged Week favorable for Spring Wheat. A feature was the narrowing of the difference between new and old July The spread narrowed to the same price Elevator interests bought the new July and commission houses sold old July Beneficial rains were reported in Australia Primary receipts were large and 194,000 bu greater than a year ago Kansas City and St. Louis received 387,000 bu, against 278,000 bu in 1903 and Southwestern advices indicated a liberal movement in Kansas next week Rust reports from the Northwest were more numerous, but advices in many instances were conflicting Flour output in the Northwest the past week was reported at 417,000 brls, against 402 000 brls same week one year ago. Exports were moderate, and 12 boat loads accepted at the seaboard. Kansas City wired. "Expect 200 cars to-day; too much rain in Oklahoma " Disappointing yields were reported in Southern Ohio Light frosts were reported in parts of North Dakota last night The decline in cash values locally was a late factor. It is estimated that with the quantity of Wheat that has gone into public elevators from private houses in addition to that sent to regular warehouses direct there is now fully 300,000 bu of No 2 Red and No 2 Hard ready to be delivered on July contracts *Broomhall* cabled crop advices on the Continent were unfavorable, particularly in France Greece and Austria Hungary. Argentine shipments for the week were estimated at about 1,200 000 bu Receipts at Duluth 60 cars and at Minneapolis 61 cars, a total of 121 cars against 140 cars yesterday 212 cars a week ago, and 133 cars last year Local receipts included 81 cars Winter no cars Spring, 4 cars mixed, a total of 85 cars, against 58 cars last year Included in the above were 14 cars contract grade There were 45 cars and 16,000 bu from unlicensed elevators The estimated receipts for to-morrow are 115 cars Withdrawals to-day were 9,650 bu Receipts at Western points were 714,575 bu, against 521,387 last year At Eastern points 105 397 bu against 231,347 bu last year Shipments from Western points were 528 883 bu against 347,645 last year and from Eastern points 31 032 bu, against 121 575 last year. Shipments of Flour were 5,734 brls Exports of Wheat in Flour were equal to 56 835 bu

Future Deliveries of Regular Wheat—Fair trade prices lower

CORN—A moderate and easier undertone the close showing declines ranging from ⅜c to ½c The sharp decline in Wheat generally favorable weather and subsidence of the war talk were among the "bear" influences. "Longs" sold freely and floor traders were arrayed on the "bear" side Demand was confined chiefly to "shorts" Receipts were 216 cars, with 21 cars contract, against 140 cars last year, when 18 cars graded and 152 cars are estimated for to-morrow Liverpool quoted spot ¼@¾c higher and futures unchanged Liverpool reported spot and La Plata cargoes strong The Italian official report of July 20 claimed the crop was being injured by drouth. Last year the crop was 36,000 000 bu. Argentine shipments this week were estimated at 2,000,000 bu New York reported a better demand from Liverpool, and at the close claimed 11 boat loads accepted. The *Price Current* reported the past week favorable for the growing crop Southwest markets were weaker. Local shipments were large—665,000 bu, while receipts were 252 000 bu Primary receipts 392,000 bu last year 323 000 bu Shipments 744 000 bu and 132,000 bu respectively There were 16,100 bu and 31 cars of contract switched from privated elevators. Exports were 101,000 bu and cash sales here 200,000 bu, the demand being a little better Car lots were in moderate supply with fair demand Prices were ¼c lower. SEPTEMBER Active Sold at 32⅞c and at 33⅛@33¼c Opened at 33⅛c to 33⅛@33¼c sold to 32⅞c to 33@33⅛c at close.

DECEMBER—Sold at 33¼@33⅜c and at 33½c. Opened at 33⅜ to 33½c, sold at 33½c, to 33¼@33⅜c to 33⅜@33½c at close

MAY Fair trading Sold at 34⅞@35c and at 35¼c Opened at 35¼c to 35¼c sold at 34⅞@35c, to 35⅛c at close.

RYE—Was steady A fair demand existed and offerings light Prices for September delivery ⅛@¼c higher, and cash ½c lower More doing in car lots taken mostly to go to elevator The receipts were eight cars There were withdrawn from private warehouses 5,600 bu and 1 car and from public elevator 1,000 bu No export clearances from New York No. 2 fresh receipts sold at 71½@72c and No 3 at 65c

Future Deliveries of No. 2 Rye—Ruled firm July nominally 73c September sold at 61c, and closed at 61c bid There were changes of July for September at 12c difference

BARLEY—The market did have some feature to it to-day Three cars of new crop Barley coming on sale awakened a little interest Two cars were from Iowa, better Barley than came at first last year still it was not full weight and showed some stain It sold at 48c There also was a car of Illinois Barley, better weight and better color than the other but a little soft this brought 51c It is a little too early for new Barley It cannot be expected to be kept in best order except by careful handling. Some of the new received was threshed from the shock whereas for good results Barley should first be stacked and allowed to go through the sweat Prices obtained may be said to be full up to old Barley prices Of old Barley hardly any was offered It was salable and yet no demand especially existed No change could be quoted Posted receipts 7 cars Old Barley prices nominal as follows Screenings at 28@37c for poor to choice. Feed Barley, common dirty or musty down to 30@33c poor heating lower sweet good or thin at 35@38c Malting low grade was salable at 38@40c, fair to good, sound, 42@45c choice 46@51c and fancy above

SEEDS—There was some trading in new crop Timothy Seed Market steady and unchanged for Grass Seed Flax was weaker, but nothing was done

Timothy—A fair demand for new Seed September delivery existed Yesterday's quotation of $3 20 was maintained All offered at that figure was taken and it remained bid The market exhibited a strong tone No old Seed offered aside from some to arrive and that did not sell Market for old Seed about nominally unchanged Present order trade was said to be slow Quotable contract old spot or July delivery at $3 0? Country lots quotable at $2 00@2 85 for low grade to fancy, choice about $2 60@2 75 fair to good Seed $2 50@2 6 and rough at $2 35@2 45

Flax—There was an easier feeling Bids for No 1 spot and future delivery were reduced 1c This was due to easier market in the Northwest No 1 Northwestern remained nominally unchanged No business was transacted to-day There was no Flax of any kind on sale Local movement 1 car or 850 bu received and 2 cars or 1,500 bu taken out At Minneapolis the receipts were 7 cars and at Duluth 8 cars For No 1 Northwestern or No 1 from the Northwest $1 21 remained bid but for No 1 bids reduced to $1 17½ Rejected about $1 15@1 17 depending on quality. July salable at $1 17½, and September at $1 17½

Clover—Inactive and nothing new to note Contract spot Seed at $11 25 Country lots common to choice, $9 00@10 50; fancy above, mixed with Buckhorn or other weed Seeds, $7 00@8 50 poor, cleaned out of Timothy, very foul, lower Fair to good $9 50@10 25

Other Seeds—No market at present for Hungarian and Millets. Buckwheat quotable at $1 55@1 60 for good Mustard at 90c@$1 10 poor down to 70@75c

HOG PRODUCTS—Not much life was manifested in the market for Hog Products Outside orders were small and local trading was limited Trading in a speculative way will probably be light until the labor troubles are adjusted Offerings were small, and demand light Market was firmer, and prices ruled slightly higher, closing steady Hogs were in moderate supply and prices ruled higher. Receipts at the leading Western packing points were estimated at 43,500 compared with 64,500 one year ago Returns of the packing of the West for the week exhibited a decrease of 145,000 Hogs compared with the returns of the corresponding week in 1903 Foreign markets were stronger and quotations were advanced 6d on Hams and Cumberland Sides Domestic markets steady Receipts of Products were fair of Lard and Meats about 13 cars Shipments are gradually enlarging—of Lard and Meats about 31 cars Rather a good inquiry on shipping account and offerings were fair Demand chiefly on domestic account Sales rather liberal but not fully reported. Prices well maintained on all the articles

Mess Pork—Only a moderate business was transacted in Mess Pork Offerings were comparatively light and the demand was moderate Feeling rather firm, and prices were advanced 10@12½c on the whole range, and the market closed rather steady around outside figures Very little inquiry on shipping account, and offerings were moderate Cash lots quotable at $12 85@12 90

JULY—Quiet with small sales at $12 85 closed at $12 90

*Minnesota, Dakota and Iowa mills outside of Minneapolis and Duluth.

†Flour made by mills outside of St. Louis, but controlled in that city.

The Minneapolis Flour output last week increased 17,360 brls. The week's total mills are in operation, and the prediction is made that buyers in the near future will be in the market for Flour at present as they can get along with. Spot Wheat is like above the September price, and the trade expects Flour on the basis of the latter, at which the miller can not afford to sell. Occasionally millers are perhaps found who will do this, but they are not numerous.

Export trade is extremely dull. Like domestic buyers, importers when bidding name prices based on September Wheat and as a result virtually no business is done in Flour. Bids are around 25@26c. but most millers, considering the uncertainties as to the new Wheat, decline to do business. In the last week Holland has been making considerable Flour Trade London, which has been indifferent for some time, has shown more interest and made a few purchases of this grade. Such ports have also been in the market to a limited extent.

Southern mills are in the midst of their busy season and from them come reports of satisfactory business. Most mills in the Southwestern territory, however, continue to complain of dull markets and small demand. Movement of Wheat in the Ohio Valley is very light and farmers seem inclined to adopt their tactics of a year ago, dissatisfied with offering a short crop of unusually varied quality and condition. However, millers are hopeful of a freer movement this week of new Wheat that will show a higher average of condition

NORTHWESTERN WHEAT CONSUMPTION.

[From the Northwestern Miller July 27.]

The annexed table shows the Flour output and approximate consumption of Wheat at Minneapolis and Duluth, together with that of 47 "outside mills" with a daily capacity of 30,905 brls. from Sept. 1, 1903, to July 23, 1904:

	1903-04. Flour. Brls.	Wheat. Bush.	1902-03. Flour. Brls.	Wheat. Bush.
Minneapolis	12,652,480	57,685,000	14,921,355	67,185,000
Duluth	848,945	3,820,000	1,391,696	6,263,000
40 outside mills	6,079,075	27,356,000	8,018,490	27,083,000
Totals	19,780,490	89,012,000	22,331,540	100,492,000

These figures represent the approximate consumption of 13,980,000 bushels of Wheat in excess of that in 1902-03. This has occurred from the mills of Minneapolis and Duluth turning out 2,631,675 brls less Flour, equal to 11,733,000 bu of Wheat, than last year. In contrast, the outside mills have increased their output to the extent of 60,615 brls, equal to 273,000 bu of Wheat.

THE STATE OF THE TREASURY

[From the Wall Street Journal, July 30.]

The amount of Government money now held in National Bank depositories—$105,000,000—is not likely to be disturbed this summer or fall. At the Treasury it is thought that the receipts and expenditures from now on will run along more evenly than they have during the first eighteen days of July, and after the 1st of August the Treasury will be at least on an even keel, with the probabilities that the receipts will exceed, after that date, the expenditures. At the present time the deficit for the month of July is $17,892,000, which, in round figures, is $10,000,000 greater than for the same period of July, 1903. It is believed that the maximum deficit for the month of July was reached on Monday, and that between now and the first of August the deficit for the month will be reduced between $2,000,000 and $3,000,000, making the deficit for the month of July about $15,000,000. With the coming of August the receipts and expenditures are expected to run nearly equal, and with the beginning of the fall import trade the receipts are expected to increase, so that possibly by Oct. 1, or at the farthest Nov. 1, the deficit for the year, created in July, will be nearly or wholly wiped out.

At the present time, with the present deficit for July, of nearly $18,000,000, the Treasury working balance has been reduced to less than $40,000,000, which $10 000,000 spread over nine sub-treasuries, makes the amount rather thin in spots, and, if it were believed that a further reduction of expenditures over receipts would be continued, then Secretary Shaw, it is understood, would call in from the banks some portion of the $105,000,000 of Government money now held with which to strengthen the Treasury working balance As explained, however, this condition is not expected to continue, and the Treasury working balance is expected to increase, so that it will not be necessary for him, unless something unforseen occurs, to make further demands upon the banks for Government money between now and next fall.

THE SPRING WHEAT CROP.

[From the Northwestern Miller.]

Aside from the danger of an early frost, the crop situation in the Northwest is highly favorable. "The weather during the week has for the most part been all that could be desired. Nov. 1 is a long way off, however, while the temperature has been by no means high, it ranging from 45 to 90 degrees. Wheat has thrived and made rapid growth. It is now coming out at roots points, and cutting will be begun this week in Northern Iowa and Southern South Dakota.

The growing Wheat is from one to three weeks late, but in the main promises a fair to good yield. Since it will for some time yet be passing through the "milk" and "dough" stage of development, early frost could do heavy damage. In 1888 there was a frost on Aug 17 along most of the line of the crop. However, usually frosts do not come until well into September.

The Wheat crop is conceded to be at present in a very favorable condition, both as to yield and quality. Reports to the *Market Record* as to the outlook for yield average 18 bu per acre. Taking 12,300,000 as the acreage to be harvested in States, this would mean a total crop of about 240,000,000 bu. However, any change from now on must be for the worse, and it is hardly probable that some deterioration will not take place. But on round figures even 15 bu per acre the crop would figure 200,000,000 bu.

WHERE HAS THE GOLD GONE?

[From Bradstreet's, July 23.]

The *Wall Street Journal* recently declared that "the increase in the production of Gold has been nothing less than marvelous. In 1874 the world's output of Gold was estimated at $120,500,000. At Jan. 1, 1903, the world's stock of Gold was estimated at $3,38_,000,00) Here is a gain of $4,000,000,000 in thirty years. The *Wall Street Journal* a few days ago published a table showing the Coinage of Gold production since the year 1800 had amounted to $3,903,400,00 In all the preceding years since the discovery of America by Columbus the total production was $2,4_,800,00) More Gold has been produced since 1891 than in the three centuries preceding 1800. Of the total production of Gold since the discovery of America, nearly one-half has been mined in the last thirty years, and of this amount 30 per cent was produced by the United States.

But, while the enormous production of Gold may well amaze us, the problem of its distribution puzzles us. Where has all the Gold gone to that has been produced since the Incines began to coin money? Only a small proportion of Spain's 1873 accounts for all except about $800,000,000 of the present stock of Gold in the world, and the production from 1847 to 1873 was more than double $800,000,000. Where then, has all the Gold gone to that was mined before 1880? Apparently there is no trace of it anywhere, unless it be found in the art objects for which Gold is used.

"The amount of Gold that goes into the arts and sciences varies each year, and its amount is by no means easy to determine. The Director of the Mint estimates that the annual consumption of Gold amounted to $75,764,400 The total production of Gold in that year was about $295,000,000, so that the use of Gold in the arts and industries amounted to a little over one-fourth of that mined. Accepting this percentage as a basis for calculation, it would appear that of the total production of Gold since 1903 amounting to $10,98_,181,000, the proportion that went into the arts and industries was $2,746,295,350. This leaves a balance of $8,238,885,750, which should appear, it would seem, in the present stock of coin and bullion. Gold But, as a matter of fact, the total stock of Gold in the world on the first of January, 1903, was, as has been stated, $3,382,000,000. This leaves $856,885,750 which there appears to be no account.

"Has this vast wealth been lost in the past four centuries, or is any large proportion of it still in existence, and if so, where? Some light on this may be made in times of special demand? The answers, it is evident, might be made to such an inquiry. Professor J. Laurence Laughlin, of Chicago, last year took up and traced the disappearance of this large sum of Gold, which he estimated in 1901 as amounting to $1,500,000,000, but which, on the basis of the estimate which we have made of it, was more than $2,000,000,000. Professor Laughlin suggests that this immense sum is largely held in reserve by great financial houses for purposes, and by many other private bankers, the character of whose business does not require them to make public reports of their specie holdings.

"If Professor Laughlin's guess is correct, this is a fact of enormous importance One thing is certain, that the amount of Gold in the world must be very much larger than the estimates made by the Director of the Mint. In view of the immense needs of the various Governments of the earth during the next few years, and of the efforts which are now being made to put China and Mexico on the Gold basis, the probability that there is more Gold in reserve than appears in the records should inspire increased confidence"

THE WEATHER CONDITIONS.

Rains are general east of Mississippi River through Illinois and eastern Ohio Valley—Springfield, Ill., 2.16; Chicago, .53. Also light rains in Southwest, in Missouri and Kansas. Clear West and Northwest.

It is understood that the bondholders' protective committee of the Colorado Fuel and Iron Company has practically solved the difficult problem of the reorganization of the financial reorganization plan without securing the assent of all the holders of debenture bonds. As the organization committee proposes to work it out, the dissenting debenture holders may keep their bonds intact, under the provisions of the original agreement with the rights, including that of redemption. Of the outstanding issue of $11,068,000 debenture bonds, about $10,000,000, it is understood, have been deposited with the organization committee. The nonassenting bonds, therefore, are to be kept alive, despite reorganization.

A WORD TO SOUTHERN CORN PLANTERS.

Under this heading the New York *Sun* says: "In six Southern States—Virginia, North Carolina, South Carolina, Georgia, Alabama and Mississippi—there is a total area of approximately 15,000,000 acres planted in Corn. The yield from this area for 1902 was 225,000,000 bu. Iowa, with 8,200,000 acres in Corn, produced 290,000,000 bu, and Illinois, with about the same acreage as Iowa, produced 38,000,000 bu. Iowa and Kansas together, with about the same acreage as the six States of the South, produced 400,000,000 bu. Fourteen States, comprising New England, New York, New Jersey, Pennsylvania, Ohio, Indiana, Michigan, Wisconsin and Minnesota, with an acreage of 14,000,000, or 1,000,000 less than the six Southern States, produced 430,000,0 0 bu This, however, does not mean, generally speaking, a Southern crop. One of two conclusions seems unavoidable. Either the South is wasting a vast amount of energy in getting only some 8 or 10 or 12 bu an acre in return for its labor—an unfruitful soil, or it is wasting energy and losing results by careless and unintelligent methods in cultivating a fairly fruitful soil. The South, as a section, has not with a standard warrant of its rich fertility, its endless possibilities in agriculture. Illinois, Kansas and Iowa may have better Corn lands, but the figures which we quote strengthen the belief on the whole northern belt, make it impossible to account for the southern shortage in yield per acre on the score of inferior soil or adverse climatic conditions. If the average yield per acre in the South were brought up to the standard of other sections, the South would be the richer by about $150,000,000 a year."

PIG IRON PRODUCTION.

According to the figures of pig iron production for June, the total was 1,330,100 tons, compared with 1,583,800 tons last May and 1,717,000 tons in June, 1903.

Shipments of Wheat from Argentina this week were 1,272,000 bu, against 1,810,000 bu the previous week, and 1,448,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 71,720,000 bu, against 52,818,000 bu same time in 1903.

Stocks in New York advanced in the morning, but sold off after midday, and closed ¾ to 1½ lower for the Grangers, 1¼ lower for Steel preferred, ¼ to ¾ lower for the Coalers, and ½ lower to ¼ higher for Tractions. Money ½ to 1 per cent.

Shipments of Corn from Argentina this week were 1,946,000 bu, against 2,562,000 bu the previous week and 3,489,000 bu for corresponding week last year. Shipments since Jan. 1 reported at 34,721,000 bu, against 26,649,000 bu for same time last year.

The shipments of Flax Seed from Argentina this week were reported at 528,000 bu, compared with 424,000 bu last week, and 350,000 bu for the corresponding week in 1903. Shipments since Jan. 1 reported at 33,010,000 bu, compared with 19,813,000 bu for the corresponding time last year.

Bradstreet's reports the exports of Corn from the Atlantic and Gulf ports the past week at 416,000 bu against 709,000 bu for the previous week and 929,000 bu for the corresponding week last year. Exports since July 1 were 2,313,000 bu, compared with 5,357,000 bu for corresponding time last year.

Bradstreet's reports the exports of Wheat and Flour from the United States and Canada for the past week at 1,613,000 bu, against 1,251,000 bu for the previous week, and 3,191,000 bu for the corresponding week last year. Exports since July 1 were 5,185,000 bu compared with 12,006,000 bu for the corresponding time last year.

Samples of Barley shown here from Minnesota and Iowa are exceptionally fine. A Barley specialist, says, "The crop of Barley in Iowa, Wisconsin, and Minnesota is large. The yields are heavy and the quality is above the average. Possibly there has been slight discoloration in the Northwest by recent rains. The prices for new Barley, made on the first arrivals are not an indication of what maltsters will pay, as the receipts were taken by cereal interests."

The Grand Rapids, Mich., correspondent of the *Northwestern Miller* says: "Wheat cutting is progressing very favorably, as the weather could not be better. The quantity will be light, not as much as was anticipated; however, the quality will be very fair, except where the Wheat stood very spotted, where there will be more or less chess and shrunken Wheat. Otherwise there is no fault to be found. In this locality the Wheat will yield all the way from 10 to 15 bu per acre, a few fields may go above that but they are very far between."

The *Modern Miller* says: "Favorable weather this week for harvesting of Wheat has permitted this work to be practically completed in the Winter Wheat belt. Reports of disappointing yields have been received from central regions, but average in general is up to expectations, and in Kansas and Nebraska show a loss in actual Grain much below early estimates. Grain received at the mills and at the markets shows effect of rains during harvest, in that the grade has been lowered, and much of it is light weight through failure to fully mature."

REVIEW OF TO-DAY'S MARKETS.

FLOUR—The demand was moderate and steady and without quotable change.

WINTER WHEAT—The market for No. 2 Red in store was firm and prices 1@2c higher, but to go to store and on track prices for Red Wheat were 1@2c lower, on account of being unable to get the Wheat in elevators in time for delivery, while choice Hard Winter ruled steady. Demand fair. No 2 Red round lots in store quotably 96¼@98⅜c, with sale of car load at 97c, and fresh receipts free on board sold at 95c. No 3 Red fresh receipts free on board sold at 89@92½c, and billed through at 92c. No 4 Red fresh receipts free on board sold at 81@87½c. No Grade Red Winter sold at 80c. No 2 Hard fresh arrivals quotably 94@95c. No 3 Hard sold at 90c free on board and at 87c at the river. No 4 Hard sold at 88c. No 3 White sold at 90@92c, and No. 4 White at 90c.

SPRING WHEAT—Quiet and steady. Very little doing and prices nearly nominal. The receipts continue small. No 1 Northern in store quotably $1.01@1.03, and fresh arrivals free on board quotably $1.01@1.02. No 2 Northern fresh arrivals free on board quotably 98@99c. No. 3 Spring fresh receipts free on board quotably 88@94c, with a sale at 88c. No 4 Spring quotably 80@90c for poor to choice, with sales at 80@88c.

REGULAR WHEAT—A fair trade and rather active, nervous market, with closing prices 2¼c higher for old July, while new gained 2¼c. Old September closed 1⅜c higher, new 1⅜@1½c higher. Market started out stronger being influenced to some extent by the action of old July, which advanced sharply on covering by "shorts." This advance at the opening was said to be due to the turning down of a large lot of Wheat by the inspection department that "shorts" had counted on delivering, and the other futures advanced in sympathy. Rust talk from the Northwest was also a "bull" help but the principal strength came from the drop in British consols which closed 5-16 lower. The prospect of rain in the Northwest helped along the advance considerably and "shorts" covered very freely on the upturn. Map was fairly favorable, showing only scattered rains in Iowa, Ohio and Minnesota practically clear in the three Northwest States. Showers and thunderstorms were generally indicated. Argentine shipped 1,272,000 bu, making 71,720,000 bu since Jan 1, against 52,818,000 bu last year. The visible there was reported 3,352,000 bu against 3,240,000 bu last week, and 3,320,000 bu one year ago. Argentine weather was cabled as favorable and Wheat reported growing well. Market there firm with good export demand. Liverpool quoted spot steady to ⅛d higher and futures unchanged to ⅛d higher. London came steady to ⅛d higher. Paris was ⅛@⅛c lower. Antwerp unchanged. Berlin ⅛c higher and Buda Pesth ⅛c higher. A private cable to St Louis exporter in answer to a private letter on European crop and war prospects read as follows: "Crop prospects are favorable on the Continent; expect peaceful termination." Minneapolis wired, "Has been some damage but local, and not much at that." Exports were moderate and total for the week 1,613,000 bu against 3,191,000 bu last year. At the seaboard no boat loads were accepted. Minneapolis stocks decreased 475,000 bu to 700,000 bu this week. Primary receipts were 117,000 bu larger than a year ago. Kansas City and St. Louis 418,000 bu, against 137,000 bu one year ago. St Louis reported the stock of No 2 Red at 3,000,000 bu. Kansas City expects 115 cars to-morrow. *Modern Miller* was construed as "bearish." Decline in Consols according to local banking houses was due to being interest day. Receipts at Duluth 55 cars and at Minneapolis 65 cars, a total of 110 cars against 121 cars yesterday, 168 cars a week ago, and 23 cars last year. Local receipts included 103 cars Winter, 4 cars Spring, 2 cars mixed, a total of 119 cars, against 64 cars last year. Included in the above were 28 cars contract grade. There were 42 cars and no bu taken from unlicensed elevators. The estimated receipts for to-morrow are 100 cars. Withdrawals to-day were 8,950 bu. Receipts at Western points were 691,972 bu, against 575,855 last year. At Eastern points 51,813 bu against 311,411 bu last year. Shipments from Western points were 288,363 bu against 261,847 last year, and from Eastern points 73,336 bu against 280,234 last year. Shipments of Flour were 22,362 brls. Exports of Wheat in Flour were equal to 173,000 bu.

Future Deliveries of Regular Wheat—Good trade and prices higher.

CORN—The trade was only of a moderate volume chiefly local and professional. Feeling developed was comparatively firm and the close about ¼c higher. Market was indirectly helped by the action of Wheat. Commission houses led in the early buying, while the selling came mainly from floor traders and local "longs." There was scattered covering by July "shorts." Receipts were 189 cars, making 1,731 cars for the week, against 1,016 cars for the corresponding week in 1904, and 185 cars are estimated for to-morrow. Liverpool came unchanged to ⅛d lower for spot and futures ⅛d lower. Receipts there the past three days 150,000 bu, half of which came from America. London quoted cargoes on passage 1½d higher. Argentine shipped 1,946,000 bu, making 34,721,000 bu since Jan. 1 against 26,649,000 bu same period last year. Visible there is now 3,322,000 bu, against 3,634,000 bu last week and 3,574,000 bu in 1903. Argentine markets are firm, with export demand moderate. Movement from interior points reported liberal, but quality still unsatisfactory. Weather conditions were looked upon as favorable, and showers generally indicated. Local receipts were 254,000 bu and shipments 162,000 bu. Primary receipts were 390,000 bu against 297,000 bu last year, and shipments 245,000 bu and 91,000 bu respectively. Exports 51,000 bu and total for the week 416,000 bu, against 929,000 bu one year ago. Transfers of contract from private elevators 41,000 bu and 16 cars. Southwestern markets were stronger. Shipping demand moderate and sales 110,000 bu. Car lots were in moderate supply and fair demand. Prices ¼c higher. No 2 sold at 49¾c and closed at 50c and No. 2 Yellow at 51½c. No 3 sold at 49½c, and closed at 49¾c. No 3 Yellow sold at 51c, and closed at 51c. No. 4 that was yellow sold at 50¼@50½c. New York reported 30 boat loads for export.

Corn by sample—Was in good demand, with moderate offerings. Feeling firm and prices unchanged to ¼c higher. Sales on track and free on board: No Grade sold at 43@46c. No 4 at 47½@51c. No. 3 at 49½@51c. No. 3 Yellow at 51¼c. No. 2 Yellow at 51½c. No 3 White at 49¾@50c. Billed through: No Grade at 45½c. No. 4 at 48@49¾c. No. 3 at 49¾@50¼c. No. 3 Yellow at 50@50½c. No. 2 Yellow at 50½@50¾c. No 3 White at 48¾@49¼c.

Future Deliveries of No. 2 Corn—Moderately active and firmer, closing unchanged to ¼c higher.

JULY—Sold at 49⅛c and 49¾@49⅞c. Opened at 49⅜c and sold at 49⅛c, to 49¼c, to 49⅝c, to 49¼c, to 49¾@49⅞c, to 49⅜@49½c, and closed at 49⅜@49½c.

SEPTEMBER Sold at 49¼c and 49⅜@49¾c. Opened at 49½c to 49⅜c, and sold at 49¼c, to 49⅜@49¾c to 49⅝c, and closed at 49⅝c asked.

DECEMBER—Sold at 45⅝@46c. Opened at 45⅞c, and sold at 45⅝c, to 45¾c to 45⅝c, to 46c, to 45¾c, to 45¾@45⅞c, and closed at 45¾@45⅞c bid.

MAY—Sold at 44⅞@45c and 45¼@45⅜c. Opened at 45⅛c to 45¼c and sold at 45c, to 45⅛c, to 45c, to 45¼@45⅜c, to 45⅛@45¼c, and closed at 45⅛@45¼c.

OATS—Were excited for July, with moderate trading. It opened with a flurry, prices being ⅜c to 1⅜c higher in the first few minutes. Around 40c there was good selling, but in the last ten minutes prices advanced 1½c on the purchase of less than 100,000 bu. "Shorts" led the buying throughout and offerings were in scattered lots. After the close 85,000 bu were delivered. The "shortage" has been underestimated, there being a moderate line held by a cereal interest. At the last prices were up 2⅛c for the day. Distant months advanced on liberal trading and closed ⅛@¼c higher. Cash sales were 10,000 bu. Showers were predicted for West and Northwest. Arrivals were 96 cars and 107 cars are estimated for to-morrow. There were 35 cars of new in the arrivals. Withdrawals were 9,975 bu. Seaboard clearances were 17,000 bu. Car lots to go to store were steady. No. 3 White sold at 38½c for new. Standard in store closed at 41¼c.

Oats by sample were in better demand and steady. Offerings were liberal, including a fair percentage of new. Sales on track and free on board: No Grade new at 36½c, old at 35c. No 4 at 35@36c. No 4 White at 37@39c. No 3 new at 38½c, old at 36c. No 3 White new at 38½@39½c, old at 38@41. Standard at 39½@40¼c. No 2 White new at 39@40¼c. Billed through: No Grade new, hot at 33c. No. 4 at 32@34c. No. 4 White at 37¼@38c. No 3 White new at 38¼@39½c. Standard new at 38c, old at 40c. No. 2 White new at 38¾c. At the river: No 4 White at 35@37c. No 3 White at 39½c.

Future Deliveries of Contract Oats—Were active and higher, with July the feature.

JULY—Excited. Sold at 39½@41¼c. Opened with sales at 39½c to 40½c, sold to 39½c, to 41¼c, and closed there.

SEPTEMBER—Active. Sold at 32⅞@33c and at 33⅜c. Opened at 33c to 33⅛c, sold to 32⅞@33c, to 33⅜c to 33¼@33⅜c at close.

DECEMBER. Sold at 33¼@33⅜c and at 33¾c. Opened at 33½c, sold to 33¼@33⅜c, to 33⅝c to 33⅝@33¾c at close.

MAY—Fair trading. Sold at 35⅛c and at 35¼@35⅜c. Opened at 35¼c; closed at 35¼c.

RYE. Ruled firm for September and easier for cash, No. 2 car lots being about 1c lower. Demand fair, but wholly speculative. The receipts were 15 cars. There were withdrawn from private warehouse 4 cars and 18,500 bu and from public warehouse 400 bu. No export clearances from New York. No 1 Rye sold to go to store at 71c. No 2 sold at 71c to go to store and at 70@72c free on board. No 3 sold at 65@65½c.

Future Deliveries of No. 2 Rye—Quiet. July nominally 73. September 61¼c bid. Changes of July for September were made at 11c difference.

BARLEY—The market got down again to where there was nothing of interest to it. A few cars of old Barley around but no new on sale to-day. Very little demand for old. In fact for any kind at present. Nine cars inspected in, two of which were new, but they were cars on the market yesterday. No change in prices quoted. Screenings at 28@35c for poor to choice. Feed Barley common dirty or musty down to 30@33c, poor heating lower, sweet good color thin, at 35@38c. Malting low grade was quotable 38@40c fair to good, sound 42@47c choice 48@50c and fancy above.

SEEDS. There was a firmer market for new crop Timothy and Flax all but No 1 Northwestern, was easier. These were the only changes and entire market very quiet.

Timothy. The market was firmer for new crop. September delivery sold at $1.22½ or at 2½c advance. After a few cars were sold nothing more was heard and that was the nominal closing. No cash Seed offered. That branch of the market was entirely neglected, nominal; there was nothing to suggest any change in prices. Contract old spot or July delivery quotable at $3.16. Country lots quotable at $2.00@2.?? for low grade to fancy, choice at out $2.60@2.?? fair to good Seed $2.50@2.65 and rough at $1.??@2.15.

Flax. September delivery sold at 1c below the last nominal quotation and No 1 Flax generally was quoted 1c easier. Northwestern done remained steady; that was nominally unchanged. No Flax on sale aside from some new crop delivery and demand for this backward. The market in the Northwest was a shade easier. There was no local movement. Minneapolis receipts 9 cars and Duluth 18 cars. For No 1 Northwestern or No 1 from the Northwest $1.23 was ?? bid but for No 1 bids were reduced to $1.06½. Rejected about $1.12@1.16 depending on quality. July salable at $1.16½ and September sold at $1.16½.

Clover. Nominal as yet. A little old Clover was shown but nothing was done. Contract spot Seed at $11.25. Country lots, common to choice, $9.00@10.50, fancy above, mixed with Buckhorn or other weed Seeds $7.00@8.50, poor, cleaned out of Timothy, very foul, lower. Fair to good $9.50@10.25.

Other Seeds—No market at present for Hungarian and Millets. Buckwheat quotable at $1.55@1.60 for good. Mustard at 90c@$1.10, poor down to 50@60c.

HOG PRODUCTS—Considerable interest was manifested in the market for Hog Products and trading was somewhat larger. Offerings were fair and the demand was moderately active. Outside orders were somewhat larger and local trading was fairly active. Packers favored the buying side of the market and appeared to be confident that they will be conducting their business in good shape within a few days. Hogs were in good supply and prices ruled lower, but this feature appeared to have little influence on the market. Grain markets were stronger, and this had some effect in a general way. Prices ruled higher on all the leading articles and extreme figures were fairly well supported to the close. Some business in the way of transferring contracts from September to October. Receipts of Hogs at the leading Western packing points were estimated at 43,800, compared with 36,000 one year ago. Foreign markets were reported steady, though Backs were quoted 3d lower. Domestic markets steady. Receipts of Products were rather light of Lard and Meats about 11 cars. Shipments were small—of Lard and Meats about 12 cars. Demand on shipping account was fair and offerings were moderate. Feeling firm and prices well supported.

Mess Pork. Trade was fair in the market for Mess Pork and the feeling was stronger. Offerings were not very large, and the demand was fair. Market opened rather steady, and prices were advanced 12½@15c on the whole range and the market closed steady at nearly outside figures. Very little demand on shipping account and offerings were small. Cash lots quotable at $13.05@13.10.

JULY—Demand light and offerings were moderate. Sales were made at $12.95@13.10, and the market closed steady at $13.07½.

SEPTEMBER—Offerings were moderate, and the demand was fairly active. Sales were made at $12.95@13.10. Opened at $12.95, sold to $13.05, to $13.07½ to $13.05 to $13.10, to $13.05@13.07½ to $13.07½, and closed steady.

OCTOBER—Demand was fair, and offerings were moderate. Sales were made at $13.00@13.12½. Opened at $13.00, sold to $13.07½ to $13.05, to $13.17½, to $13.05@13.07½, to $13.12½, to $13.07½, and closed steady.

Lard—A fairly good business was reported in the Lard market, and the feeling was stronger. Foreign advices unchanged. Offerings were not very large, and the demand was fair. Prices were advanced 5@7½c on the whole range, and the market closed steady around outside figures. Demand on shipping account was light, with no particular pressure to sell. Cash lots quotable at $6.95@6.97½. Loose lots in small request with limited offerings. Prices steady at about 52½c discount on September figures. Leaf Lard was in light demand, with moderate offerings. Quotably steady at $6.25. Neutral in only limited demand, with fair offerings. Prices quotably steady at $7.00@7.12½ for No 1 and $6.75@6.87½ for No. 2.

JULY—Called for sparingly and offerings light. Sold at $6.95.

AUGUST. Quiet with small sales at $6.95.

SEPTEMBER—In fair demand, and offerings were not very large. Sales were made at $6.97½@7.05. Opened at $6.97½, sold to $7.05, to $7.02½, to $7.05, and closed steady.

OCTOBER. Offerings were moderate and the demand was fair. Sales were made at $7.05@7.12½. Opened at $7.05, sold to $7.07½@7.10, to $7.07½, to $7.10@7.12½ and closed steady.

DECEMBER. Quiet with small sales at $6.85@6.90, and closed at $6.85.

JANUARY—Quiet and sold sparingly at $6.92½@6.95 and closed at $6.92½.

Short Rib Sides. A fair business was reported in the market for Short Rib Sides, and the market was stronger. Offerings were not very large, and the demand was fair. Prices were advanced 10@12½c on the whole range and the market closed steady around outside figures. Shipping demand was moderate and offerings were rather light. Cash lots quotable at $7.50@7.60 according to weight.

JULY. Quiet and steady with small sales at $7.52½@7.60 and closed at $7.60.

SEPTEMBER. In rather good demand and offerings were fair. Sales were made at $7.57½@7.70. Opened at $7.57½ to $7.60 sold to $7.62½ to $7.60 to $7.62½@7.65 to $7.62½ to $7.70, and closed steady.

OCTOBER. Offerings were moderate and the inquiry was fair. Sales were made at $7.62½@7.72½. Opened at $7.62½ to $7.65, sold to $7.72½ and closed steady.

JANUARY. Quiet, with small sales at $6.70.

Other Meats. Trade was moderate, and mainly on domestic account. Exporters backward, notwithstanding the steadiness abroad. Offerings were fair and the inquiry was fairly good. Green Meats in limited supply with a light inquiry, and prices steady. Pickled Meats in fair request and prices well maintained. Dry Salted Meats were in fair demand with moderate offerings, and prices favored sellers. Smoked Meats called for moderately and prices were unchanged. Closing prices ranged as follows:

COLORADO GOLD OUTPUT.

The following figures show the tonnage and production of Gold in Colorado for the first six months of the present year. Taking these figures as a basis for an estimate of the output for 1904 shows that if the present output is continued during the other half of 1904 the production for the year will be close to $22 500 000. The following figures show the production by months for the first half of the year

Months—	Tons.	Average.	Total value
January	51,500	$26 00	$1,753,000
February	54,500	29 00	1,630,600
March	54 300	29 00	1,746 000
April	58,800	30 00	1,851,400
May	60,500	28 00	1,895,000
June	52,700	27 00	1,607,000
Totals	332,300		$10,522,800

The following table gives the individual treatment made by mills and smelters for June:

Plants—	Tons.	Average.	Total value
Smelters	8,500	$60 00	$510,000
U S R. and R. Co	18 000	25 00	450,000

GRAIN TRADE AND CROPS.

[From the Cincinnati Price Current, July 28.]

Very little harvesting of Winter Wheat remains to be done, and the 1904 crop of this Grain is now practically made. It is being threshed and marketed more than a week later than usual. Threshers' reports are not very numerous yet, but so far the indications are that the crop is coming up to earlier expectations or better in the South, and east of Central Ohio; there is more or less disappointment in Indiana and Missouri, and it is not entirely up to earlier expectations in Illinois. In Kansas late correspondence reflects considerable damage to the Wheat from the excessive rains several weeks ago, although not so extensive as the extreme estimates made immediately after the rains intimated. So far as the weather conditions of the past week are concerned, there has been no essential change in the situation further than that harvesting and threshing were carried on favorably.

The Spring Wheat crop has made satisfactory growth during the past week, without material change from its previous high condition. Prospects are generally well above an average except in the Red River Valley where it is thin and weedy. The plant is maturing with large heads, which appear to be filling well There are some complaints of rust but they are not regarded as serious.

The Corn crop has made seasonable progress, with a moderate tendency toward improvement. Taken as a whole the crop has a good healthy color, appears to be vigorous, and fields are clean of weeds, but it is still a week or more backward. Up to the present time there has been ample moisture and not enough warmth Rain is just beginning to be needed in the Ohio Valley and north to Michigan. In Kansas and Missouri the crop had a poor start and is weedy, with reduced acreage, but conditions lately have been improving, and a fair crop in that section may yet be made. Taken as a whole the Corn crop is fully up to an average and possibly slightly better

The Oats crop is maturing favorably in the northern section, and being harvested under favorable conditions in the southern section of the Oats region The present indications are for a crop well above the average in yield, and of good quality In the Ohio Valley the crop is especially heavy.

The past two weeks have been favorable for making Hay, and much progress was made. Taking the country as a whole a large crop of good quality is almost made. The Potato crop, as well as pasture and minor crops generally, continue to be reported favorably from most sections.

In Ohio the past week was very favorable for field work Wheat is practically all cut, and some is being threshed, yield irregular in quality and quantity, but on the whole about as good as expected, say 60 per cent crop Hay has been saved in good condition, and although short in some localities, on the whole is a good crop: some eastern counties it is unusually heavy. Oats are turning in northern and being cut in southern counties. A handsome crop is expected. Corn is making satisfactory progress: more rains soon would be desirable in many localities: the Corn is somewhat better in western than in eastern counties. Clover is somewhat short in northern counties.

In Indiana the Wheat crop seems to have turned out less than was expected a month ago, not much, if any, over half a crop Corn has been growing nicely, and the condition is fully up to an average, although rain is desired now over much of the State. Oats harvest is now in progress and a large crop, well above an average, is expected. Hay crop is a little spotted, but on the whole is good, and gathered under favorable conditions Potatoes and minor crops are in good condition.

In Illinois the week was very favorable for crop growth and field work. Corn is still a little backward in growth, but otherwise is in very g od condition and making good progress: rains now desired, but not urgent. Oats harvest is in progress; about an average crop of good quality is expected. A fair to good Hay crop is being put up under favorable conditions.

In Iowa small Grains generally are in good condition Oats cutting is in progress, there are good yields in most places, but there are some poor yields also; the aggregate yield will come up to the average. Corn is making favorable progress, with plenty of rain in most localities, condition ranges f om fair to very good and on the whole is up to an average, but a little backward The week was a little wet for Hay making, but there will be a fairly good crop, not equal to last year.

In Missouri the Wheat crop is threshing out less than was expected a month ago, and the quality is variable, below the average. Corn has improved some, but it had a poor start, and the acreage was reduced by excessive rains at planting time Oats were irregular and slightly below the average in yield Hay crop generally is good

In Kansas, while the extreme estimates of damage to Wheat by rains are being considerably modified by the more favorable weather of the past ten days, late reports from some of the important Wheat counties continue to reflect considerable lowering of earlier estimates. Corn has improved by recent favorable weather conditions and is generally looking fairly good on uplands, but more or less weedy on lowlands. The Oats crop is light. Pastures are good.

PORK PACKING AND PROVISIONS.

[From the Cincinnati Price Current, July 28.]

The labor disturbances have further restricted packing operations. Total Western packing 240,000, compared with 195,000 the preceding week and 395,000 two weeks ago. For corresponding time last year the number was 395,000 and two years ago 260,000. From March 1 the total is 8,485,000—which represents a correction of an error two weeks ago. The total a year ago was 8,515,000—there now being a small decrease in the comparison. The quality is more irregular than heretofore, and not so uniformly good Prices at the close are about the same as a week ago, indicating an average of about $5 40 per 100 lbs for prominent markets, compared with $5 40 a week ago, $5 15 two weeks ago, $5 40 a year ago, $7 85 two years ago, and $5 65 three years ago

The speculative Provision market was rather quiet the past week, and there was no particular change in the level of prices The strike in the packing industry has unsettled trade conditions, and there is a disposition to defer trading in the futures until normal conditions shall again prevail. Foreign markets were quiet but firm. Domestic markets ruled quiet without much change. The export clearances of Product were fairly liberal, and show an increase over the preceding week and a gain as compared with the corresponding week last year.

The week's export clearances of Hog Products compared with corresponding time last year:

	Past week.	Last year.
Pork, pounds	552 000	360,000
Bacon, pounds	10,384,000	12,775,000
Total, Meats	10 936,000	13,135,000
Lard, pounds	13,024,000	7,760,000
Total, Product	23,960,000	20,904,000

Special reports to the Cincinnati *Price Current* show the number of Hogs packed since March 1, at undermentioned places, compared with last year, as follows

March 1 to July 27—	1904.	1903.

PLENTY OF HOGS IN SIGHT.

Discussing Hog market conditions and prospects, the *Breeders' Gazette* says:

Stock yards talent holds radically different views regarding the immediate future of the Hog market. In one circle "bull" sentiment is rampant. The midsummer run justifies this, both numerically and in a quality sense. These conditions are attributable to a disastrous Cattle feeding season which sent the summer Hog crop marketward several months in advance of its normal time.

Shippers are unanimously of the opinion that the Hog growing belt is full of immature stock and packers are not worrying about a supply for the winter packing season.

Hogs by the hundred thousand, that would have been finished for the summer market had Corn been available, have been turned out on grass. They are making growth if not acquiring that stage of corpulence which insures market popularity.

Porcine health is phenomenally good all over the country, and the growing crop is merely awaiting maturity of Grain to put it in shape for the killer If growers can restrain their impatience and refrain from feeding new Corn in the hope of getting Hogs on the early market, decimation by disease is improbable. This means a belated but heavy supply for the winter packing season.

WHEAT IN THE CENTRAL WEST.

[Indianapolis Cor. of Northwestern Miller.]

While Wheat in the southern part of Indiana and Ohio, and through Kentucky, has been moving in a limited way during the week, the receipts nevertheless have been very light. The Wheat received so far on this crop seems to be in varied condition. Some deliveries have been of a very excellent quality, whereas adjoining fields to those yielding fine Wheat, produced Wheat that would test not over 48 to 52 lbs to the bushel. One notable instance was a load of Wheat that, as it came from the bags, tested 50 lbs; it was run through a sieve and fully 25 per cent of screenings removed. After this operation the Wheat tested only 52 lbs and was then not fit for milling. On the other hand, not far from the field producing this poor quality, Wheat tested from the farmers' wagon as high as 62 lbs and was of very excellent quality.

The new crop will not begin moving freely anywhere in the Ohio Valley before this week, at which time it is expected that throughout Central Ohio, Indiana and Kentucky a free movement will be noted It will be fully a week or ten day's before any movement of consequence will be noted in the northern part of this section It was supposed a few weeks ago that while millers were expecting a short crop it would be of very good quality, but disappointment in this direction is promised on all sides.

The price of new Wheat is abnormally high and many of the mills throughout the Ohio Valley are nearly, if not entirely, down because their owners are not willing to load up their bins while the present high and unreasonable prices for new Wheat prevail. In Indianapolis on Friday last some Wheat was sold on a basis of 90c prompt delivery. This, the millers generally feel, is quite unreasonable and will prevent the sale of Flour to either domestic or foreign markets.

WHEAT IN OREGON.

[Portland Correspondent of Northwestern Miller.]

Harvest is at full swing in nearly all of the Winter Wheat districts in the Pacific Northwest and the returns are fully up to expectations, except in occasional localities where frost or heavy rains cut down the yield a little. Forty-bushel yields are quite common through Walla Walla and Umatilla counties, and even on the light lands, where 10 to 13 bu is usually considered a fair yield, fields are turning off as high as 28 to 30 bu per acre.

The Willamette Valley, which was supposed to be very close to a total failure, has brightened up under the influence of a fine rain, and the spring Grain will now make a fair crop, although the rain came too late to do the Winter Wheat much good Barley and Oats east of the Cascade mountains are turning off big yields.

No new-crop Wheat has yet reached tidewater, but it is now coming into the warehouses in the interior quite freely. There is still a small movement of old-crop Wheat, and within the past ten days fully 1,000 tons have been taken out of the Walla Walla country to go to the Chicago market.

Work has been started at the Steel works of the Colorado Fuel and Iron Company at Pueblo, Colo., on a rush order for 4,000 tons of eighty-five pound Steel rails for the White River branch of the Missouri Pacific Railway, extending from Carthage, Mo., to Memphis, Tenn. The present order is but a comparatively small portion of the amount that must be turned out later, and it is understood that the rails for the entire White River line will be made at Pueblo.

THE WEATHER CONDITIONS.

Light rains and generally cloudy in Nebraska and Iowa. Cloudy and occasional rains Northwest. Heavy rains and wide storm area in extreme Northwest and parts of Manitoba, extending down into Montana. Clear Southwest and in Ohio Valley.

Raining now at St. Paul, Soo City and Omaha. Wider storm area over extreme Canadian Northwest, extending down into Montana and evidently responsible for cloudy weather and rains down into Northwest and West.

ITEMS OF GENERAL INTEREST.

Twelve business houses were destroyed by fire at Mora, Minn., Wednesday, causing a loss estimated at about $70,000.

It is said that over 10 per cent of Rock Island locomotive equipment is reported laid up owing to shortage of business.

The Pressed Steel Car Company declared the regular quarterly dividend of 1¾ per cent on its preferred stock, and 1 per cent on its common.

It is reported that the June statement of the Pennsylvania Railroad will show an increase of $100,000 net earnings, owing principally to a reduction of operating expenses.

The Philadelphia and Reading Coal and Iron Company, Thursday, issued orders to shut down all of its collieries in the Schuylkill region from July 30 to Aug. 8, for the purpose of curtailing production.

It is stated that the Wabash and Missouri Pacific Railroad systems are to be consolidated in September, and that Joseph Ramsay, Jr., president of the Wabash, is to become president of the consolidated lines.

A general resumption of work has been ordered in the Joliet plant of the Illinois Steel Company next Monday. All the departments, which have been idle several weeks, will be reopened but one, about 1,500 men getting work

The Chicago, St. Paul, Minneapolis and Omaha Railway Company has declared the regular semi-annual dividend of 3½ per cent on its preferred stock, and of 3 per cent on its common stock, payable Aug. 20 to holders of record Aug. 6

According to an official of the Paper Products Company, the selling agency of the United Box Board and Paper Company, and a number of important outside manufacturers, the past fortnight has brought very welcome improvement to the general business situation. It is said that nearly all of the trust's mills are running along fairly well filled with orders. Better prices are being secured than earlier in the month, and it is said that taken as a whole the situation is a great deal more satisfactory than it has been at any time for months past.

A Chicago commission man who was in Duluth, Thursday, wired: "From information gathered here that section of North Dakota around Devil's Lake, on the Great Northern and Soo Roads, as far west as Minot, will raise from two and one-half to three times as much Wheat as last year, and if frost holds off North Dakota will raise more Wheat than any time in her history. It is also estimated that the Red River Valley, where the damage reports are coming from, will not raise over 10 per cent to 15 per cent of the Wheat raised in North Dakota this year. The reports on Oats are very flattering, but on Flax show decreased average."

An illustration of the changes possible to occur favorably in Wheat fields is shown in an instance reported from Hendricks County, Indiana, to the *Indiana Farmer*, the correspondent saying: "I wish you could see a twenty-acre field of Wheat I have. It looks to be five feet tall and thick, with long heads, and parties that have seen it say it is good for 25 bu per acre. It has made about all this growth since the first of May. I waited until April to sow Clover. Several parties wanted it for Corn: said it would not pay to leave it stand, but I concluded to sow the grass seed whether there was any Wheat or not." This was a report late in June.

The Nashville, Tenn., correspondent of the *Northwestern Miller* says: "Receipts of Wheat are much more liberal than for any previous week during the season and millers are being well supplied with grinding stock. Elevators and warehouses are rapidly filling up Many of the Wheat-growing countries report larger yields than at first were anticipated, and this leads to the belief that the crop will come up to the general average. The quality of the Grain is holding up to first tests and millers are making a very choice grade of Flour in consequence. Larger growers seem inclined to hold on for better prices, but the small farmers are selling as fast as they can get their Wheat to market just as they have done in years past."

The Westinghouse Electric works at East Pittsburg are now employing about 7,000 men, or about 2,100 less than at the top of the boom. The company's output runs from $2,000,000 to $2,500,000 a month, and new orders are coming in in encouraging value There appears to be every indication of increasing business from now on. The manufacture of turbine engines has become a very important part of the company's business. During the past two years the turbine has been so rapidly developed that it is no longer an experiment Practically all plans for large electric installations now provide for turbine engines. Among electric engineers it is considered very doubtful if any further installations of large reciprocating engines will be made in electric power plants.

The London *Statist* of July 16 says: "The outlook for next season, beginning on Aug. 1, is that America, Canada, Russia, and Danubian countries may not be able to spare for Europe in the aggregate more than 200,000,000 bu, compared with 288,000,000 bu in the past season and 369,000,000 bu the previous season. India, Australia, and Argentina are the only other sources of supply, and as the European countries next season will require to import 448,000,000 bu to 464,000,000 bu, it becomes quite a serious question whether these requirements will be easily satisfied. In our opinion there will be absolute scarcity, if the next Argentine crop to be reaped next December be not a large one, and even if it equals the record crop of the past year in that country higher prices than those which at present obtain will be necessary to obtain the needful supplies by drawing upon the old stocks in the various countries. What seems to us to be quite clear is that every bushel of the surplus Wheat in India will be required."

The Chicago *Inter-Ocean* says: "Missouri Pacific has made one of the slowest recoveries from the low price of last year, being now less than 8 per cent higher than the lowest of 1903. It lost about 30 per cent in 1903, between the highest and lowest, and has only made an outside gain of 10 per cent which it now shows as stated less than 8 per cent. Union Pacific on the other hand, has made an outside recovery of 34 per cent from the lowest of last year, and Atchison about 25 per cent. It is not certain that the sluggishness of Missouri Pacific in the market is due to the lukewarmness of the Standard Oil element toward the plans of the Wabash extension in the East, but it is noteworthy also that the Wabash securities have not been favorably affected by the approach of the time when the Pittsburg extension will begin to make earnings, and the securities of Wheeling and Lake Erie, which is the connecting link, have been steadily falling to a new low record in the case of the first preferred, while the second preferred and common are at practically the lowest price reached in the break of 1903. The first preferred made a low price of 40¼ in '903, and is now a couple of points lower than that."

The Chicago *Inter Ocean* says: "While Grain shippers and vessel owners are complaining about the Grain trade slipping away from Chicago to the Southern Gulf routes, there is now a Canadian plan to shorten the route for export shipments from Chicago, which, while it will lessen the complaint of the shippers, will add to the troubles of American vesselmen who have for a long time felt the keen competition of the Canadian lake lines. According to present plans of the Canadian Government a great reduction in the distance by water from Chicago to the St. Lawrence River will be made by building a ship canal from Georgian bay to Ottawa. The Dominion Government has already made an appropriation of $150,000 for preliminary work. If it is decided to build the waterway about $10,000,000 more will be voted to carry out the project. By the newly proposed route Lake Erie will be cut entirely out of the course between Chicago and the seaboard, and the sailing distance will be lessened several hundred miles. The plan is to run the canal from a point in Georgian Bay via French River to Ottawa. A clear twenty-feet of water is to be provided, and the work of construction will take about three years."

The following table exhibits the number of Hogs estimated packed from March 1 to date in this city as compared with the returns of previous years.

1904	2,117,000	1901	2,713,000
1903	2,575,000	1900	2,682,000
1902	2,662,000	1899	2,839,000

Broomhall estimates the Wheat crop of Europe at 1,687,000,000 bu, compared with 1,858,000,000 bu in 1903, and 1,857,000,000 bu in 1902. Decrease this year 171,000,000 bu. Wheat crop of the world estimated at 3,056,000,000 bu, compared with 3,097,000,000 bu in 1903, and 3,155,000,000 bu in 1902. Decrease this year, 41,000,000 bu.

The receipts of Flour and Grain at Chicago for the past week were equal to 4,312,000 bu and the shipments were equal to 3,307,000 bu. For the corresponding week in 1903 the receipts were equal to 4,424,000 bu, and the shipments to 2,695,000 bu. These figures are supposed to include the through shipments of Flour

The official exports of Flour from the United States for the year ending June 30, 1904, were 16,999,432 brls, and of Wheat 44,230,169 bu—an aggregate of 120,727,613 bu. The exports for the previous twelve months were 19,716,481 brls Flour and 114,181,420 bu Wheat—an aggregate of 202,905,498 bu. Decrease during the past year—82,177,985 bu.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate and market steady as outlined on the second page. Offerings of new moderate

WINTER WHEAT—The market was steady to ½@1c lower. A fair demand existed chiefly speculative, with millers taking moderate quantities. No. 2 Red sold to go to store at 94½c and in store at 98¾c, with sales free on board at 91c and billed through at 93½c. The Wheat in store commanded a premium because it could be delivered on July contracts while on-track Wheat could not. No 3 Red fresh arrivals sold at 91@91½c. No 4 Red covered a range of 87@90c. No 2 Hard sold at 92c and billed through at 91c. No 3 Hard sold at 90@90½c.

SPRING WHEAT—Quiet and steady. Very little doing and prices nearly nominal. The receipts continue small. No 1 Northern in store quotably $1 01@1 03 and fresh arrivals free on board quotably $1 01@1 02. No 2 Northern fresh arrivals free on board quotably 98@99c. No 3 Spring fresh receipts free on board quotably 8[illegible]@[illegible]c. No 4 Spring quotably 60@90c for poor to choice

REGULAR WHEAT—A good trade with the feeling "bullish," higher prices ruling, the close showing gains of 2c for old July, while new was up 1¼c. Old September was ¼c lower, and the new unchanged. Local professionals as well as commission houses were active on the buying side and foreigners were credited with buying December here and at New York. Rust talk from the Northwest the rains in Minnesota and Manitoba strength in Continental markets and reports from Northwest that farmers were stacking their Wheat all combined to create a "bullish" sentiment. Berlin was up 1c, Buda Pesth ¾c and Paris ¼@1c higher. Australian shipments were small at 296,000 bu. *Broomhall* estimated the world's shipments at 8,000,000 bu and predicted but a moderate change in the quantity on ocean passage. Arrivals in the United Kingdom this week 4,000,000 bu, first week 3,807,000 bu and 5,400,000 bu a year ago. English farmers deliveries were 176,000 bu at 84½c, against 120,000 bu last week at 83¾c and 144,000 bu one year ago at 87½c. Local weekly receipts were 518,000 bu, and shipments 298,000 bu. Primary points this week 4,516,000 bu last week, 2,548,000 bu year ago, 3,711,000 bu. Receipts in the Northwest 1,133 cars, against 1,420 cars previous week, and 986 cars in 1903. Topeka wired "Threshing shows that much of the crop will grade only No 3 and nearly all short in weight. Harvesting has been finished." St. Louis wired "Stock of contract likely to be 650,000 bu by noon, and probably that much increase in total stock this week." Showers were indicated for Illinois, Indiana, Missouri, Minnesota and North Dakota. Fair for South Dakota, Nebraska and Kansas. Duluth wired "We have your report of bad weather in the Northwest. Weather in the Northwest could not be better for growing crops." Kansas City and St Louis received 390,000 bu, against 331,000 bu, and Kansas City expects 191 cars on Monday. Elevators interests here bid up the old July, and "shorts" bought at the advance. A Lincoln, Neb., message said indications were for a crop of 33,000,000 bu. Clearances were a little larger than of late, but no boat loads were taken at the seaboard. July Wheat at St Louis touched $1 00. A feature was the buying for Northwest account. *Broomhall* estimated the world's Wheat crop at 3,056,000,000 bu, compared with 3,097,000,000 bu in 1903. Shortage in Europe 171,000,000 bu. The English visible decreased 276,000 bu, compared with an increase of 1,428,000 bu same week in 1903. Realizing and profit taking became general toward the close, the distant futures ruling weak. Old July broke from $1 00½ to 97¼c in a short time and closed at $1 00. Cash values here weaker. Receipts at Duluth 49 cars and at Minneapolis 119 cars, a total of 168 cars against 110 cars yesterday, 213 cars a week ago, and 159 cars last year. Local receipts included 117 cars Winter, 4 cars Spring, 3 cars mixed, a total of 124 cars, against 90 cars last year. Included in the above were 20 cars contract grade. There were 54 cars and 21,000 bu taken from unlicensed elevators. The estimated receipts for Monday are 150 cars. Withdrawals to-day were 28,700 bu. Receipts at Western points were 674,062 bu, against 622,504 last year. At Eastern points 186,278 bu, against 277,612 bu last year. Shipments from Western points were 503,740 bu, against 114,150 last year, and from Eastern points 121,853 bu, against 176,692 last year. Shipments of Flour were 35,219 brls. Exports of Wheat in Flour were equal to 280,338 bu

Future Deliveries of Regular Wheat—Active and unsettled

JULY—Old Style—Sold at 97¼c@$1 00½. Opened at 98¾c, sold to 99c, to 98¾c, to 99¾c, to 99c, to 99½c, to 99¼c, to $1 00½, to 97¼c, to 98¼c, to 97½c, to $1 00 and closed at $1 00 sellers

JULY—New Style—Sold at 97c@$1 00½c. Opened at 98½c, sold to 98¾c, to 99½c, to 99c, to 98⅝c, to 99c, to 98⅞c, to $1 00½, to 97¼c, to 97½c, to 97c, to 99½c, and closed at 99½c.

SEPTEMBER—Old Style—Sold at 91½@92¾c. Opened at 91⅞c; sold to 91¾c, to 92⅜c, to 92¼c, to 92¾c, to 91½c, to 91⅝c and closed at 91⅝c sellers

SEPTEMBER—New Style—Sold at 90¼@91⅜c. Opened with sales at 90¼c to 90½c, sold to 90⅜c, to 91⅛c, to 90⅞c, to 91c, to 90⅝c, to 91⅜c, to 90½@90⅝c, to 90⅜c and closed at 90⅜c

DECEMBER—Sold at 89¼@90¾c. Opened with sales at 89⅝c to 89¾c, sold to 89½c, to 89⅜c, to 89⅝c, to 89½c, to 90¼c, to 89⅞c, to 90c, to 89¾c, to 90¼c, to 89½, and closed at 89½c asked

MAY—Sold at 91¼@92c. Opened with sale at 91¾c to 91⅝c, sold to 91⅞c, to 91⅝c, to 91½c, to 92c, to 91⅞c, to 92c, to 91¾c and closed at 91¾c

CORN—Only moderately active, in fact, a little slow at times, the range being narrow and trade about all local. Rather a steady undertone was prevalent early, but the near futures broke badly later, and the close showed July off ⅝@¾c and September ¼@⅜c, while the May was ¼c higher. The weather was more favorable and crop advices more assuring, but Wheat was stronger and market was inclined to sympathize with that cereal. Commission houses were moderate buyers and selling was scattered. Receipts were 2[illegible] cars with 31 cars contract, against 195 cars last year when 22 cars graded and 227 cars are estimated for Monday. Showery conditions are generally indicated. Local weekly receipts were 1,948,000 bu and shipments 1,812,000 bu. Primary receipts this week were 2,711,000 bu, against 2,06[illegible],000 bu last week and 2,115,000 bu one year ago. Topeka wired that weather conditions were fine for Corn. There were 40 cars and 8,150 bu contract switched from private elevators. Exports were 108,000 bu and 10 boat loads taken at the seaboard. A Lincoln message said indications were for a crop of 275,000,000 bu, but crop about ten days late. Southwestern markets were steady. Shipping demand is gradually improving. Sales were moderate. Car lots were in good demand and moderate supply. Prices were firmer. No 2 closed about 49½c. No 2 Yellow closed at 51¼c. No 3 sold at 49¾@50¼c and closed at 49¼c. No 3 Yellow closed at 51c. No 4 sold at 49¼@50½c, outside for yellow

Corn by sample was in good demand, and offerings were moderate. Feeling was firm and prices unchanged to ½c higher. Sales on track and free on board. No Grade sold at 46@47c. No 4 at 47½@51c. No. 3 Yellow at 51½@[illegible]¼c. No 2 Yellow at 52c. No 3 White at [illegible]@50¾c. Billed through No 4 at 48@50¼c. No 3 at 48@49¾c. No 3 Yellow at [illegible]@[illegible]. No 2 Yellow at 50¾@51c. No 3 White at 49¼c. No 2 White at 49½c

Future Deliveries of No. 2 Corn—Only moderately active, ruling firm early, but broke badly and closed ⅝@¾c lower to ⅛c higher

JULY—Sold at 48¾@49⅝c. Opened at 49⅜c and sold at 49⅝c, to 49½c to 48⅝c off to 48¾c and closed at 48¾c

SEPTEMBER—Sold at 49¼@49¾c. Opened at 49⅜c to 49⅝@49¾c and sold at 49¾c, to 49½@49⅝c to 49⅝, to 49½c, to 49¼c off to 49¼c to 49¼@49⅜c, and closed at 49¼@49⅜c asked

DECEMBER—Sold at 45¾@46⅛c. Opened at 45¾c to 45¾@45⅞c and sold at 45⅞@46c, to 46⅛c, to 46⅛c to 46, to 46¼c, to 45¾@45⅞c to 45⅞c and closed at 45⅞c sellers

MAY—Sold at 45¼c and 45½@45⅝c. Opened at 45¼c and sold to 45½@45⅝c, to 45¼c, to 45¼@45⅜c, and closed at 45¼@45⅜c sellers

OATS—The feature was July. It advanced 4¼c on buying by "shorts" and closed at a net gain of 3¾c. Some of the leading "longs" took profits, while one of the cereal interests was mainly responsible for the advance both in July and of 2½c in cash market. Trading was heavy and at times buying orders hard to execute, especially at the last, prices being rushed up 2½c inside of ten minutes. Aside from the excitement attending the closing of July trades business was moderate and distant futures closed the same as yesterday. Arrivals were 120 cars, with 129 cars expected Monday. Withdrawals were 4,000 bu. Private elevators made [illegible] bu. There were 63 cars new in the day's receipts, 6 cars being Standard. Seaboard clearances 32,458 bu. Car lots to go to store were steady to 2½c higher. Cash sales were 40,000 bu, including 25,000 bu Standard resold. The latter closed at 4[illegible]c in store

Oats by sample were in active demand and all choice samples advanced 1@2½c, the cereal interests being the best buyers. All the desirable grades were cleaned up. Sales on track and free on board. No 4 White new sold at 38½c, old at 37@38c. No 3 White new at 39½c, old at 39@41c. Standard new at 40½@40½c. No 2 new at 37c. No 2 White new at [illegible]@41½c. Billed through. No 4 White at 37½@40¾c. No 3 White new at 40@41c. Standard new at 40@41½c, old at 40c. No 2 new at 36¼c. No 2 White new at 40@41½c. At the river. No 4 White at 36½@36¾c. No. 3 White old at 40c

Future Deliveries of Contract Oats—Were active and higher for July and steady for other months

JULY—Active. Sold at 41¼@45½c. Opened excited at 41¼c to 43½c, sold to 41¼c, to 45½c, to 45c at close

SEPTEMBER—Fair trading. Sold at 33¼@33½c. Opened at 33¼c, sold to 33½c to 33¼c at close.

DECEMBER—Sold at 33⅝@33⅞c. Opened at 33⅝c, sold to 33⅞c, to 33⅝@33¾c at close.

MAY—Sold at 35¼@35⅜c. Opened at 35¼c, sold at 35⅜c, to 35¼c at close

RYE—The market was dull and prices for cash declined some 4@5c since yesterday. The Rye could not be got into store for delivery on July contracts, and possibly "shorts" all filled. At any rate there was no demand excepting of a speculative character, and with September delivery offered at 62½c without takers buyers of the cash reduced their bids materially. The receipts were 11 cars, mostly new and of good quality. There were withdrawn from private warehouses 5,500 bu and one car. No export clearances from New York. No 2 fresh receipts sold at 66c free on board and part car sold at 70c with sales billed through at 65c. No. 3 sold at 64c free on board.

Future Deliveries of No. 2 Rye—Quiet. July entirely nominal. September 61c bid and 62½c asked.

BARLEY—Was inactive, practically neglected. Only a few cars of old Barley on sale, no new. No demand especially existed. Values nominally unchanged. Five cars inspected in. Market for Screenings quotable at 28@37c for poor to choice. Feed Barley, common, dirty or musty down to 30@33c; sweet, good color, thin, at 35@33c. Malting, low grade was quotable 38@40c, fair to good, sound, 42@45c; choice 48@50c, and fancy above

SEEDS—No trading to-day. No cash Seed on sale. Speculative market also neglected

Timothy—Was nominally firm. Sellers scarce. New crop Seed, September delivery, held a shade higher, $3 25 being asked. The offers to sell not accepted, nothing was done, and, in fact, no bids were heard. Old Seed nominally steady to firm. None on the regular market, hence there could be nothing doing. Contract old spot or July delivery nominally $3 00@3 05. Country lots quotable at $2 00@2 90 for low grade to fancy; choice about $2 75@2 85, fair to good Seed $2 55@2 70 and rough at $2 40@2 50.

Flax—There was no trading. The market was neglected. No change quotable in prices. Four cars received and 4,104 bu taken out. At Minneapolis receipts were 15 cars; at Duluth 14 cars. No 1 Northwestern or No 1 from the Northwest remained at $1 24. No 1 quoted at $1 16½. Rejected about $1 12@1 16, depending on quality. July quotable at $1 16½, and for September $1 16½ bid

Clover—Continues as yet inactive and entirely nominal. Contract spot Seed at $11 25. Country lots, common to choice, $9 00@10 50, fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 50, poor, cleaned out of Timothy, very foul, lower. Fair to good, $9 50@10 25.

Other Seeds—Trading absent for Hungarian and Millets with quotations at present. Buckwheat quotable at $1 55@1 60 for good. Mustard at 90c@$1 10, poor down to 5[illegible]@60c

HOG PRODUCTS—Trade was only moderate in the market for Hog Products and chiefly on local account. Outside orders meager. Market was rather easy at the opening and prices ruled lower but a little miscellaneous buying tended to some strength, and prices rallied slightly. Toward the close, the feeling was easy, with more pressure to sell generally, and prices settled back considerably and the market closed easy. Hogs were in good supply, and prices ruled lower. Moderate supply expected during the coming week. Receipts at the leading Western packing points were estimated at 45,400, compared with 35,000 one year ago. Foreign markets were decidedly stronger, and Liverpool quotations were advanced 1s on Cumberland Sides, 6d on Hams and 3d on Backs and Lard. Domestic markets were quiet. Receipts of Products were good of Lard and Meats about 24 cars. Shipments were light of Lard and Meats about 57 cars. Demand on shipping account was fair, and offerings were moderate. Holders rather firm in their views, and asked higher prices in some instances. Buyers slow to follow. Sales not very large and prices well maintained

Mess Pork—Rather a good business was transacted in Mess Pork and the feeling was rather easy. Trading chiefly local. WEEKLY TRADE REVIEW

MONEY AND STOCKS.

CHICAGO, FRIDAY EVENING, July 29, 1904.

Evidence of an increasing demand for money is more apparent and there is a better undertone throughout the West. Large loans have been made of late to Western manufacturing interests that have not been in the market as borrowers for a long time. Three banks loaned $3,000,000 within a few days to manufacturing interests for use in extensions which have been put off, as conditions were unfavorable for making them. Calls for money with which to move the crops are enlarging, and money is being used more freely in many lines where little was wanted heretofore. It is certain that there will be a large call made on local banks for money to move the crops. The East will also have to furnish a good portion. With prices higher than in recent years it means that more money will be required than heretofore, and that country banks, although in better shape than in recent years, will be unable to furnish all the money necessary. Rates are steady at 4½ per cent on call and 4½ to 5 per cent on time. In New York there is a more hopeful feeling regarding the future. It is not believed that the Government funds deposited in the banks will be withdrawn. If it should there would be an important change in the money market and rates work higher. Call loans on the Stock Exchange were ¾ to 1¼ per cent; sixty days were 2 per cent; ninety days 2¼ to 2½ per cent, and five to six months 3¼ to 3½ per cent.

New York Exchange was steady, with rates at 25c to 40c premium per $1,000, and closed at 25c premium.

Foreign Exchange was unsettled, with sharp fluctuations. This was explained as due to the disparity in the high rates for money in London and New York, or 2 per cent. Shippers' sixty-day Documentary Sterling bills on London ranged at 484¼ to 484¾, and closed at the outside.

Stocks in New York were depressed by the war scare, Russia having seized more ships, and by the break in British consols and on selling orders from London. The strike of packing-house operatives throughout the country and of the textile workers in the East also tended to curtail operations on the buying side, and brought liberal selling on the part of speculative holders. The advance in foreign exchange and the probable exports of Gold also contributed toward making an uneasy feeling and offset the effect of all the "bullish" influences. The main factor that the buying of stocks has been on of late is the low rates of money, ½ to 1 per cent, but even with such low rates there was not the disposition to go against the unfavorable influences, added to the uncertainty regarding the outcome of the crops. It was the belief of some of those who were instrumental in starting the recent advance that the recent rise had discounted all good influences for the present. On Thursday there was a complete change in the situation abroad, the acuteness of the crisis having passed. This caused an advance in consols and brought active covering by "shorts" and replacing of speculative lines recently sold out. Prices advanced and regained about all the early loss. The declaration of the regular quarterly dividend on United States Steel preferred of 1¾ per cent and the showing of better earnings was offset by the reduced number of orders on hand as compared with a year ago. Earnings for the first half of the year were $32,698,611, a decrease of $28,698,624 from the same time in 1903, surplus after dividend of 3½ per cent is $920,591. The number of unfilled orders on hand June 30 were 3,192,277 tons, a loss of about 1,000,000 tons from the same time last year. In the bond market there was good activity of the investment character and prices held better than stocks. The latter made good declines and closing sales were at good losses from previous week. Total sales on the New York Stock Exchange for the week were 2,619,000 shares, against 3,848,000 shares the previous week and 3,037,000 shares for the same time last year.

A better tone pervaded the mercantile trade, and, although there was no great activity in the demand for goods, there was evidence of an increase from now on. The buying of dry goods is fair, the interior distributors having been helped out by the hot weather creating a demand for light summer goods. Shipments of merchandise of all kinds to the interior on orders previously taken are increasing, and will from now on. The strike of mill operatives against a reduction of 12½ per cent at Fall River will curtail the output of goods, and there is less pressure on the part of manufacturers to sell at ruling prices. In the Iron and Steel market there is a slow readjustment under way. Specifications are coming in more freely and there is evidence of a steadily increased consumption, as buyers who have been shopping around for months are now making fewer protests about prices and show an increased disposition to pay the prices asked. Large sales of pig Iron have been made of late and there is less pressure to sell. The Coal trade is slow. Lumber is moving freely, yellow pine being the best seller. In all other lines there was a steadiness of prices and no new features. Collections are in good shape.

Cotton in New York was influenced to a greater extent by the crop reports, which were mostly favorable. The movement so far shows the Government's figures of the crop last year were too low. Consumption has been cut off by the high prices. Foreign complications also had considerable to do with the price movement. Closing prices were at losses of 25 points on July and at losses of 4 to gains of 15 points on other months, as compared with the previous week.

Local Securities were stronger in the early trading, but receded on profit taking. The Biscuit Company is pursuing its policy of concentrating its manufacturing plants, and has closed those at Aurora and Peoria, Ill. It can manufacture more economically at its larger plants and supply its distributing houses with goods to better advantage. There was a rumor afloat that Can preferred is to be put on a 7 per cent basis, but there was no great amount of buying on that rumor. Box Board made a small gain on reports of an improved market for its products. Quaker Oats were bought fairly, and reports of business were favorable. Very little was done in Traction or Elevated shares, and changes were limited. Bonds were liberally traded in.

COMMERCIAL.

A fair business was reported in commercial circles on the Chicago Board of Trade the past week, the speculative as well as receiving and shipping branches displaying greater activity. Outside interest is gradually increasing, the war talk and unsettled feeling in political circles in Europe being partially responsible for the revival in the speculative trade. Ordinary influences, such as the crop outlook, movement and prospective supplies, were lost sight of for the time being. Commission houses, as well as receiving interests, experienced a fairly satisfactory business, and indications point to a continuance of the same. Foreign interest was more marked, and there is little doubt but that the export and shipping demand will shortly revive. All things considered, the outlook appears to indicate renewed activity all along the line.

Weather conditions in the Northwest and Canada the past week were, in the main, favorable. Corn made excellent growth and is generally in a promising condition throughout the principal surplus States. The crop is now laid by and in a satisfactory state of cultivation and early planted reported in tassel as far north as Nebraska. Harvesting Oats has continued under favorable conditions. Threshing and harvesting Winter Wheat has advanced satisfactorily and is completed in the more northerly sections. There is still some complaint as to quality in the Missouri Valley. Spring Wheat is ripening in the Southern districts and harvesting has begun in Iowa, while early Spring Wheat has been somewhat improved by rain in Oregon. Much of the late sown has been cut for Hay. In Washington, Spring Wheat is backward and suffering from drouth. There was some complaint of rust from South Dakota, but the crop as a whole is said to be in good condition.

European crop conditions were watched more closely than usual this week and reports were somewhat conflicting. In the United Kingdom the condition of Wheat is considered below an average, and cutting is now under way. Harvesting is well under way in France, and while the quality is good, the yields were deficient. The *Marche Francais*, however, considered the official report to indicate a crop of 360,000,000 bu, against 366,000,000 bu one year ago. In Germany continued drouth and heat is affecting the crops, and there is some complaint regarding Winter Wheat. The weather in Russia has been favorable, but latest advices confirmed previous reports that the crops are poor in several of the Southern and Southwestern districts.

There was a freer movement of Grain from the farms and interior elevators the past week. Weather conditions in most sections were such as to facilitate the handling of the new crops and farmers were more disposed to sell at the prices prevailing at country stations. In the Northwest the movement of Wheat was larger than a year ago at this time, but stocks at terminal points are gradually decreasing. Through the West marketing also showed a tendency to enlarge and new Oats are commencing to move. In the Southwest there was a noticeable increase in the receipts of Wheat at accumulating points, and the arrivals were of good quality. Through the Central West and at points tributary to the local market arrivals showed a material increase. In the South and Southeast marketings were fair, which was also the case on the Pacific Coast. The movement of Grain toward the seaboard was moderate and arrivals at Atlantic and Gulf points lighter than customary at this season of the year. Exports of Flour and Wheat, as well as Corn and Oats, continue small, and the new business booked for forward shipment was very unsatisfactory. According to the official visible supply, as compiled by the Secretary of the Chicago Board of Trade, there was a decrease in the supply of Wheat, Corn, Oats and Barley, and an increase in Rye. *Bradstreet's* showed a liberal reduction in the supply of Wheat, a fair decrease in Corn and a large reduction in Oats.

Speculative transactions in Grain were of good volume the past week, while the trade in Provisions was rather limited. Wheat was again the leader in the Grain list and prices were quite irregular. "Bull" interests were more conspicuous on the "long" side the first of the week, the fears of further political complications in Europe owing to the aggressions by Russia on American and British shipping, tending to impart a strong undertone to the situation. Foreign crop news, too, was not of the best, and the English and Continental markets displayed an advancing tendency. At the advances established, however, liquidation set in and prices settled back, but the close was quite steady. Corn was inclined to sympathize with Wheat notwithstanding the fine growing weather, while Oats displayed considerable independent strength on reports of rust and light yields in Illinois and steadily decreasing stocks. Rye was firm and Barley quiet and steady. Hog Products were comparatively dull. The labor troubles at the Stock Yards still interfered with business and trade was restricted in all branches. Speculative offerings were not very large and demand only fair. Prices were comparatively steady. Packing of the West for the week 115,000 Hogs short of last year; season 8,485,000, against 8,515,000 in 1903.

A good trade was reported in cash Grain. Offerings were larger and demand better for all descriptions. Wheat was wanted by millers as well as speculators and carriers, the quality of the offerings being excellent, and the choice grades still commanded considerable premium. Corn, too, sold well, the receipts being larger. Oats were in larger supply and the quality of the new offerings the best in the past three years. Demand was good and prices well maintained. Old Oats were dull and very irregular in price. Rye was quiet and firm and not much doing in Barley. Seeds were slow, but markets firm. Hay was quiet and easy. Hog Products were in moderate request and offerings were only fair. Sales were possibly somewhat larger and there was no particular change in prices.

FREIGHTS—Traffic shows no material changes for the week. With Eastbound lines business is slow in Grains and moderate in merchandise. The tariff is as follows:

To—	From Chicago. Domestic.	From Chicago. Export.	From Miss. River. Domestic.	From Miss. River. Export.
Boston	19½	14½	22½	16
New York	17½	13½	19½	16
Philadelphia	16½	12½	17½	15
Baltimore	14½	11	16½	14½
Newport News	14½	11	16½	14½

Flour rates are to be 17½c domestic and 15c for export. Provisions are 30c per 100 lbs, Chicago to New York.

Rail rates at and east of Buffalo to New York are 8c per bu on Wheat, Corn, Barley and Oats.

Ocean rates on Grain are steady and engagements small. Rates on Grain are ¾d per bu from New York and ½d from Boston. Through rate on Wheat from Chicago to Liverpool is 5.65c per bu and Corn 5.65c. Flour 19c per 100 lbs and Provisions 35½c per 100 lbs.

Lake rates are firmer at 1c for Grain to Buffalo.

FLOUR—There was nothing particularly new or interesting developed under this head the past week. Transactions continue moderate in volume and are confined almost exclusively to local and domestic account. Foreign bids are perhaps a little better than ten days ago, but still below the views of millers. As yet there is little doing in new Flour, though Southern Illinois and Indiana millers are offering the same in a moderate way for immediate shipment as well as next months' shipment. Local jobbers and the large pie and biscuit makers are, however, reluctant in buying ahead on any extensive scale, fearing the readjustment in Wheat futures with the going out of July. Southwestern millers are also offering new Flour, but are not inclined to force sales. Stocks in most sections are very moderate at best, and millers are of the unanimous opinion that the demand will improve next week. The market as yet has failed to advance or keep pace with the rise in Wheat values, but millers are asking full former figures, and in some instances slight advances were obtainable. Most of the city mills are running on part time and turning out special grades. The output in the Northwest the past week was 417,000 brls, as compared with 402,000 brls for the corresponding week last year. The week closed quiet but firm at the following prices:

MILLSTUFFS—Ruled firmer during the past week. A good demand existed and the receipts were small. Bran sold at $16 50@16 75 per ton in sacks, sacks included.

WINTER WHEAT—The market has been more active and a larger business was transacted. Prices early declined 2@3c, but later there was a steady recovery and this decline was regained, but at the close broke off 3@6c. Trading has been active to the extent of the offerings, there being a very good demand from the various sources, and Wheat of all grades was taken up readily. Speculators competed with millers and shippers for the offerings, and the market has been a more satisfactory one than for some time past. The quality of the arrivals has been good, grading mostly No. 2 and No. 3 Red and No. 2 Hard. The receipts have steadily increased and made a good showing, with larger arrivals expected next week. Prices here compared favorably with other markets and that attracted the Wheat. For the week the receipts were 550 cars, against 62 cars the previous week. There were withdrawn from public elevators 46,550 bu, and from private warehouses there were withdrawn 236 cars and 37,600 bu. No. 2 Red new Wheat fresh arrivals free on board sold at 96@97½c to 97@99c and then off to 95@97c, and billed through at 91@97c. No. 3 Red new Wheat fresh arrivals free on board sold at 92@97c, off to 88¾@92½c; billed through at 90½@95½c, and at the river at 94½c. No. 4 Red sold at 81@94c, with sales of poor and stumpy Wheat at 80c, and billed through at 92¼@94c. No Grade sold at 80@90c. No. 2 Hard fresh receipts free on board sold at 92@96c, and later at 94@97c, off to 94@95c, and billed through at 92½@93c. No. 3 Hard fresh receipts free on board sold at 88@95c, and at the river at 87@90c. No. 4 Hard sold at 88@90c. No. 3 White sold at 90@96½c and No. 4 White at 90c.

SPRING WHEAT—Nothing of importance developed in this market during the past week. Only a light business was transacted and while the contract grade, No. 1 Northern, has ruled somewhat irregular, following the changes to some extent of the speculative market, the other grades ruled comparatively steady. Very little Wheat was received and the few cars of fresh arrivals were taken by millers and shippers; an occasional round lot of Wheat in elevator was bought, the receipts not being adequate to the local requirements. The receipts for the week were only 16 cars. There were withdrawn from public elevators 20,950 bu and from private warehouses 26 cars. No. 1 Northern in store has been entirely nominal, and part of the time 3c over old July, ranging at 99½c@$1 03. Fresh arrivals free on board were quotable at $1 01@1 02. No. 2 Northern fresh arrivals nominally 98@99c. No. 3 Spring fresh arrivals free on board quotably 88@95c. No. 4 Spring nominally 68@96c for poor to choice.

REGULAR WHEAT—There was a good trade and active market in Wheat the past week, fluctuations being sharp and frequent within the range established. Early in the week sentiment was decidedly "bullish" and higher prices ruled, a moderate reaction following. The close showed old July 2¼c higher while new gained 3¾c. Old September closed 2½@2⅝c higher, while new advanced 2¼c. Local professionals led in the early buying, and "shorts" came in on the bulge, which was not checked until old July touched 98¾c while new sold to 98c. Old September sold to 91⅝c and new 90¼c. December touched 89c, and May 90⅛c. Market for a time acted oversold and advanced steadily even in face of "bearish" crop advices and the increased movement in the Southwest. Fear of foreign political complications, as evidenced by the declines in British consols, was an indirect "bull" help, as also the "bullish" interview with the President of one of the great railway systems in the Northwest on the crop situation. Statistics too were construed as favorable to the to the "long" interest and helped strengthen the market. Foreign crop advices too caused "shorts" much concern and situation for a time was quite one sided. Realizing and profit taking took place on the rise in prices, but the offerings appeared to land in strong hands, the market having good support from "bull" leaders. The relatively steady prices for the cash article, and active demand for the new arrivals here and at other centers, likewise tended to impart a stronger undertone to speculative values. English and Continental markets were decidedly strong and helped the advance. There was local buying on the press reports of Russian aggressions against American and British shipping. The subsidence of the war talk caused renewed liquidation and old July declined to 95½c, while September touched 90⅝c, and the December 87¾c, but rallied again and closed strong. The world's shipments were about as anticipated at 8,056,000 bu, against 6,808,000 bu previous week and 7,560,000 bu in 1903. Quantity on ocean passage decreased 392,000 bu, and is now 39,861,000 bu, or 11,840,000 bu larger than one year ago. The visible supply decreased 544,000 bu, compared with 117,000 bu decrease last year. Total is now 12,175,000 bu, against 12,050,000 bu in 1903 and 21,591,000 bu in 1902. Local public stocks decreased 75,000 bu, and are now reported 1,043,000 bu, against 1,368,000 bu the corresponding date one year ago. Stocks here in all positions reported 1,992,000 bu, a decrease last week of 152,000 bu; stocks one year ago 3,532,000 bu. Contract stocks decreased 24,798 bu, and now include 670,399 bu, against 1,077,495 bu one year ago. *Bradstreet's* decreased 2,378,000 bu, compared with 39,000 bu increase same week in 1903, and imparted some strength to the situation. A prominent Liverpool concern cabled on Monday that the market was advancing from speculation and that supplies were not equal to the demand. The French harvest was reported progressing unfavorably with prospect for a moderate crop of good quality, the total being estimated at 283,000,000 bu. The *Marche Francais*, however, interpreted the official report to indicate a yield of 360,000,000 bu, against 366,000,000 bu one year ago. The report referred to above claimed Winter Wheat was good in only 23 departments, compared with 42 in June and 44 a year ago; fair and middling in 54, compared with 44 in June and 40 a year ago. The Spring Wheat condition good in 22 departments, compared with 26 in June and 31 in July 1903, fair and middling in 31, compared with 20 in June and 24 a year ago. *Broomhall* sumed up the foreign situation in the following cable which was received on Tuesday: "United Kingdom—Condition of Wheat generally below an average. First field has been cut. France—In the center, harvest is progressing rapidly. Quality good, but yield deficient. In the north some complaints of scorching. Germany — Continued heat and drouth affecting the crops. No complaints regarding Winter Wheat. Russia—Weather been favorable, but latest advices confirm previous reports that crops are very poor in several of the districts in South and Southwest. This is important growing territory." The Liverpool *Daily Post* of July 14 had the following: "Australian freights continue firm for Grain. Latest mail advices state that favorable conditions are being experienced for new Wheat crop. Of the old crop about 22,000,000 bu were still on hand at the end of May. About 23,000,000 bu have been exported up to that time, to take which 180 vessels were chartered. Weather conditions on this side were fairly satisfactory this week, and the Government weekly crop bulletin was as follows: "Spring Wheat—Some complaints of rust are received from all portions of Iowa and South Dakota, but generally the crop has advanced favorably, although poor and weedy on lowlands in Northern Minnesota. The crop is ripening in the southern portion of the Spring Wheat region, harvesting having begun in Iowa, while early spring Wheat has been improved by rain in Oregon. Much of the late sown has been cut for Hay. In Washington, Spring Wheat is backward and suffering from drouth. Winter Wheat—With another week of favorable weather for harvesting and threshing this work will advance satisfactorily; harvesting being nearly completed in the more northerly sections. In the lower Missouri Valley the continuous rains of the previous week reduced the yield and lowered the quality of much Winter Wheat." A special crop report issued by a Minneapolis Grain company said: "Minnesota, North Dakota and South Dakota have never promised on the 22d day of July a better crop of small Grain than they do to-day. There is only one spot in these three States that shows a condition below the average, and that is a portion of the Red River Valley lying between Wahpeton and Drayton. It represents a strip perhaps 15 or 20 miles wide by 140 miles long, which did not recover from the spring overflow of the Red River. The small Grain lands of North Dakota cover a territory 400 miles square, and all observers agree that that vast territory never gave such splendid promise for a good crop. Wheat is practically all headed out. The samples we have received are of good quality and color and the heads show good length; in the southern section it is all in the milk or dough. Wheat harvest will begin Aug. 1 in the southern counties of South Dakota and Minnesota." San Francisco reported a better demand for cargoes from the United Kingdom, but the new business booked at the Atlantic seaboard was small. Exports, too, were meagre and total clearances for the week 1,613,000 bu. Since July 1 they aggregate 5,185,000 bu, compared with 12,006,000 bu same period in 1903. The primary receipts for the week compared favorably with those of a year ago, and the total since July 1 foots up 7,789,000 bu, as compared with 10,622,000 bu in 1903, and 17,818,000 bu in 1902. Argentine shipments were reported 1,272,000 bu, making 71,720,000 bu since Jan. 1, compared with 52,818,000 bu for the same period in 1903. The visible supply there is at present reported 3,352,0000 bu, against 3,240,000 bu last week, and 3,320,000 bu one year ago. The London *Statist* of July 16 in commenting on the general Wheat situation, said: "The outlook for next season, beginning on Aug 1, is that America, Canada, Russia, and Danubian countries may not be able to spare for Europe in the aggregate more than 200,000,000 bu, compared with 288,000,000 bu in the last season and 360,000,000 previous season. India, Australia, and Argentina are the only other sources of supply and as the European countries next season will require to import 448,000,000 to 461,000,000 bu, it becomes quite a serious qestion whether these requirements will be easily satisfied. In our opinion there will be absolute scarcity if the next Argentine crop to be reaped in December be not a large one, and even if it equals the record crop of the last year in that country higher prices than those which at present obtain will be nessarry to obtain the needful supplies by drawing upon the old stocks in the various countries. What seems to be quite clear is that every bushel of the surplus Wheat in India will be required.

CORN—Just a fair trade was witnessed in the speculative market for Corn the past week, transactions being in the main for local account. All things considered the feeling was firm and the close shows September ⅛@¼c higher, while December gained ⅛@¼c and the May ¼c. Weather conditions most of the week were favorable and reports as to outlook more assuring, but Wheat and Oats displayed an upward tendency and Corn was inclined to advance in sympathy. The weekly weather crop bulletin stated that the crop had made excellent growth, and is in most promising condition. The crop is now largely laid by in a satisfactory state of cultivation, the early planted being in silk tassels as far north as Nebraska, Iowa and Illinois. There was a fair miscellaneous demand the opening days, while the offerings were moderate and situation was comparatively strong. September advanced to 50c, while December sold to 46⅜c, and May to 45¾@45⅝c. Realizing and profit taking set in around these figures and the market gradually receded. September declined to 49¼c, while December touched 45⅝c and May 44⅞@45c, close being quite steady as noted above. Receipts were somewhat larger and the shipping demand was rather slack, but these features did not appear to disturb "bull" leaders and the September was given good support on all soft spots. Foreign advices were firm, and the crop outlook in Roumania no doubt caused some apprehension on other side. A severe drouth was reported in that country and a short yield in consequence indicated. The crop there the past ten years has averaged 73,000,000 bu. Statistics were looked upon as moderately "bullish." The visible supply decreased 306,000 bu, compared with 308,000 bu decrease one year ago. Total is now 5,778,000 bu, against 7,311,000 bu in 1903 and 7,466,000 bu in 1902. Local public stocks increased 55,000 bu and are now 2,858,000 bu, compared with 3,453,000 bu last year at this time. Stocks here in all positions reported at 5,475,000 bu, a decrease of 59,000 bu. Stocks one year ago 6,738,000 bu. Contract stocks increased 59,308 bu last week, and now include 2,851,200 bu, compared with 3,149,062 bu a year ago. *Bradstreet's* available decreased 472,000 bu, against 808,000 bu decrease for the same week in 1903. The world's shipments were 4,374,000 bu, against 5,021,000 bu the previous week and 5,166,000 bu one year ago. Quantity on ocean passage increased 384,000 bu and is now 16,168,000 bu, against 18,077,000 bu one year ago. Receipts here this week were 1,731 cars, against 1,437 cars last week and 1,016 cars one year ago. The movement through the West was freer and largely in excess of last year, still Missouri and Iowa feeders reported taking all the Nebraska offerings and paying 53@54c at Iowa and Missouri points. Private elevators continue to turn out the contract grades with considerable freedom and deliveries from day to day were fair. Shipping operations were on rather a moderate scale this week, the East at times offering to resell cargoes that have not got under way at lower figures than cost. Exports, too, were meagre and bookings at the seaboard were insignificant. Clearings this week were 416,000 bu, making 2,303,000 bu since July 1, as compared with 5,357,000 bu one year ago. Argentine shipments continue quite liberal at 1,910,000 bu, making the total since Jan. 1 aggregate 31,7..,000 bu, as against 26,649,000 bu for the same period in 1903. The visible there is reported at 3,6..,000 bu, against 3,634,000 bu last week and 3,574,000 bu one year ago. The market was helped to some extent by the *Orange Judd Farmer* returns for August 1 crop report; so far as received, they do not bear out the general assumption that there has been a marked improvement in Corn prospect during June and July. Scattered reports from all sections, numerous enough to be indicative of the situation, show no change in the Ohio Valley except small improvement in Indiana. The serious effect of the excessive rainfall in the Missouri Valley is shown by a slight decline in Missouri and a drop of 15 to 20 points in Kansas. The early returns may be taken as indicating no improvement in the Corn average since July 1. There appeared to be a better demand for car lots this week and the current receipts sold quite readily. No. 2 sold at about September figures to go to store and No. 3 Yellow was about 1½c premium.

OATS—The market for Oats was stronger and prices averaged higher. Trading on outside account was fair and sentiment rather "bullish" on the distant deliveries. On the advances local "longs" with profits were good sellers, especially of July, which yielded readily under the increased offerings, and toward last had rather poor support. At close an active demand from "shorts" advanced prices 2⅛c. Deliveries small, but trades settled up readily. July closed at 41¼c, a net gain of 1⅝c. September finished at 33¼@33⅜c, a gain of ⅛c. May was more actively handled and closed at 35¼c, a gain of ⅝c for the week. The weather was favorable for harvesting and the Government weekly crop bulletin, while admitting the existence of rust in a few localities, said the crop gave favorable promise. There were some advices of disappointing yields from Central Illinois which was the basis for moderate local buying. Receipts of new Oats were fair, but not as large as expected and the quality averaged good, being largely No. 3 White and Standard. In the shipping branch of the trade there was a fair business, but Standard lost its premium over July. In the sample market cash lots continue to bring a large premium over futures, which is a "bullish" influence. Arrivals for the week were 691 cars, compared with 615 cars the previous week and 1,511 cars last year. Seaboard clearances were 95,779 bu, against 29,000 bu the previous week, and 265,000 bu last year. Contract stocks decreased 24,961 bu, and were 167,818 bu. Stocks in public houses are only 19..,000 bu, a decrease of 56,000 bu for the week, and public and private houses are 632,000 bu, a loss of 94,000 bu. The visible supply decreased 679,000 bu and was 3,007,000 bu, against 5,229,000 bu last year.

RYE—The market has held rather firm during the past week, and prices for cash and September delivery were advanced slightly above the figures ruling last week. Business has been of a rather restricted character. There has been some little demand, and the offerings have been light. Dealers have been reluctant about selling September as the market is a very narrow one—in fact operators have rather ignored the market. The receipts have increased some nearly all new Rye that is coming, and quality is good, generally grading No. 2. The fresh arrivals were taken mostly by speculators and went to elevators, with occasional cars for manufacturing purposes. The receipts for the week aggregated 49 cars, against 32 cars the previous week. There were withdrawn from public elevators 41,400 bu and from private warehouses 39,500 bu and 19 cars. The visible supply increased 31,000 bu, and was reported at 811,000 bu, against 634,000 bu a year ago. Local stock in store was 471,000 bu, and a year ago was 227,000 bu. No. 2 in store sold at 70c up to 74½c and back to 70@71c. No. 3 sold at 65@70½c, and No. 4 at 62c. For future deliveries of No. 2 Rye the market was quiet. July was held at around 75c early, and was quoted nominally about 73c later. September opened at 59c bid, later sold to 60c, and then at 61c. There were exchanges of July for September at 14c, at 12c and at 11c difference.

BARLEY—On Monday of the past week a round

of cars was sold. This was the only incident of any note, until late in the week when new Barley came in. At other times the trading was confined to a few cars daily. A malting demand of a small order existed. Good Barley was salable; it about held its own. Only an occasional choice car appeared. When such Barley came on the market it also was salable. Low grades were easy. There was only a light mixing demand, also few cars used for this purpose were offered. Cutting of Barley has been actively prosecuted through Iowa and Southern Minnesota. The impression is that there will be large crop. Samples so far submitted indicate a good quality, but a good deal depends on the weather during the next couple of weeks. A few Iowa samples also have been poor, some damaged, stained, and some light and shrivelled. On Thursday the first actual receipts and offerings of new Barley appeared. Three cars of new crop Barley coming on sale awakened a little interest. Two cars were from Iowa, better Barley than came at first last year, still it was not full weight and showed some stain; it sold at 48c. There also was a car of Illinois Barley, better weight and better color than the other, but a little soft; this brought 51c. It is a little too early for new Barley. It cannot be expected to be kept in best order, except by careful handling. Some of the new received was threshed from the shock, whereas, for good results, Barley should first be stacked and allowed to go through the sweat. Prices obtained may be said to be full up to old Barley prices. Received, as posted inspected ... 53 cars; there was more than this no doubt judging from the large sale made early in the week; the previous week 25 cars were reported and two weeks ago 32 cars. Output was 4,000 bu; there had been none for several weeks. New York gave exports of 11.303 bu; a week ago 103,205 bu were reported. Visible supply decreased 281,000 bu, and was given as 955,000 bu compared with 365,000 bu the same time last year. Local regular stock did not change, remaining at 72,317 bu; a year ago there was none in regular houses. Values during the week covered a range as follows: Screenings at 26@37c for poor to choice. Feed Barley, common, dirty or musty down to 30@33c; poor heating lower: sweet, good color, thin, at 35@38c. Malting, low grade, was quotable 38@40c; fair to good, sound, 42@45c; choice, 48@50c, and fancy above.

SEEDS—Aside from a small business being done in new crop Timothy the market for Grass Seeds was lifeless. In this part of the trade, however, a firm feeling prevailed, and sellers who held out, and they all held out, succeeded in realizing their views. Cash market for the different kinds of Grass Seeds was inactive and nominal. Flax was firm early with few sellers, and there was some advance in prices, but toward the end weakened and improvement was lost.

Timothy—The interest manifested in new crop Seed remains very tame. Were it not for the very little which was done in this, however, there would have been no market. Of cash old Seed the market practically was bare. Arrivals, according to the postings, were very small—less than last year. It is not the season for much outside business to be doing, yet there was some. Cash or spot Seed prices presented no changes from the opening to the close; they were for the most part entirely nominal. Nothing especial has been learned about the crop outlook. The weather has been favorable and prospects must be good, as more would have been heard about it. New crop Seed was steady and firm. From the start, buyers and sellers were about 7½c apart on September. Sellers held to their point and gradually buyers came up until the asking prices were reached, and then some business was done. Little disposition to sell was manifested, especially on the part of country operators. It was a quiet market and withal an uneventful one.

Receipts the past week, lbs	23,050
A week ago	246,150
Two weeks ago	360
Corresponding week last year	145,320
Shipments the past week, lbs	117,520
A week ago	94,807
Two weeks ago	35,930
Corresponding week last year	154,070

Contract spot old Seed had a nominal quotation of $3 00. September delivery opened at $3 12½ bid and $3 20 asked. Under mild buying orders bid were gradually advanced so that there was some trading at $3 20 and finally $3 22½ was obtained, and formed the closing. Country lots of old Seed were quotable at $2 00@2 85 for low grade to fancy; choice about $2 65@2 75; fair to good Seed $2 50@2 65 and rough at $2 35@2 45.

Flax—This market has continued on the side of firmness. Prices continued in an upward tendency. Improvement at the same time was not important. Old crop Flax advanced 1c and new crop ½c. A few speculative or future delivery trades were made, and occasionally there was a little cash Flax sold. Transactions in either case, however, were important, In the Northwest there was a firm market. It also had its effect on the price of Oil, which advanced 1c. Raw Oil in car lots was quoted at 42c, being a gain of 1c per gallon. At the close the market turned weaker and a reaction in prices took away the advance except for No. 1 Northwestern which held its own. The receipts were small, 8 cars, compared with 13 cars the previous week and 16 cars two weeks ago. There was 8,024 bu withdrawn, week before 5,200 bu were taken out, two weeks ago 22,050 bu. No change appeared in last report of local stock, it remained at 18,374 bu; last year at the same time there were 67,294 bu here. Duluth stock gained 2,732 bu and 6,023,612 bu were reported. Minneapolis decreased 13,000 bu and had 160,000. No. 1 Cash advanced nominally from $1 17½ to $1 18½, reacted and closed at $1 17½, and No. 1 Northwestern or No. 1 from the Northwest from $1 22½@$1 24, and closed at outside quotation. There was a nominal range for Rejected at $1 12@1 17 early to $1 14@1 18 later, and $1 12@1 16 finally. July delivery improved from $1 17½ to $1 18½, and Septemoer from $1 18 to $1 18½; both closed at $1 17½. There were a very few sales.

Clover—There was no trading the past week. The market was devoid of cash offerings, also of speculative orders. Values have been entirely nominal and presented no changes. The first crop, or Hay crop, of Clover has been very generally cut, and Clover is now going to the seed crop. The weather recently has been favorable for this. The area is said to be somewhat short. A large crop is not looked for under the best of conditions, but a good crop may be secured if everything works out right. No special demand for Clover at present. Speculation alone would prompt demand at this time, and no interest of this kind has been witnessed. During the week nominal prices were over a range as follows: Contract spot Seed, $11 25. Country lots, common to choice, $8 00@10 50; fancy above; mixed with Buckhorn or other weed Seeds, $7 00@8 50; poor, cleaned out of Timothy, very foul, lower. Fair to good, $9 50@10 25. Movement during the week compared with a week ago and a year ago was as follows:

Receipts—The past week, lbs	68,920
A week ago	156,000
Two weeks ago	33,300
Corresponding week last year	24,600
Shipments—The past week, lbs	47,050
A week ago	30,870
Two weeks ago	2,860
Corresponding week last year	32,645

Other Seeds—There is nothing in the line of Seeds, Hungarian and Millets, in season at present. The market is still without quotations. There are no arrivals and offerings. No demand at present exists. Dealers would buy, but it would be at a figure at which they would be willing to take Seed, lay it away and hold over. What that figure would be there has been nothing which could be taken lately as an indication. Buckwheat nominal also. Very little, if any, old remains, and at this season there is no demand. The acreage this year is said to average a little larger than last. The Wheat went into the ground under favorable conditions. Mustard salable, and yet not particularly called for; market also without offerings. Receipts and shipments the past week with comparisons were as follows:

Receipts the past week, lbs	248,182
A week ago	1,561
Two weeks ago	.....
Same time last year	55,325
Shipments the past week, lbs	523,840
A week ago	217,075
Two weeks ago	242,550
Same time last year	34,105

HAY—The receipts for the week were 2,975 tons, against 3,520 tons for the previous week. Shipments for the week were 182 tons, against 294 tons for the previous week. Only a moderate business was transacted in this market during the past week. The offerings of choice old Hay were small and the demand was good. A firm feeling prevailed. Poor and medium grades were in liberal supply and very dull. There was scarcely any demand and receivers found it almost impossible to effect sales. Prices irregular, depending entirely on the quality. New Hay is arriving quite freely, and selling very slowly. Demand very light as dealers prefer the old Hay. Quotations at the close ranged as follows: Choice Timothy, $13 50@14 00; No 1 Timothy, $12 00@13 00; No. 2 Timothy, $10 00@11 00; No. 3 Timothy, $8 00@10 00. Choice Prairie, $11 00@11 50; No. 1 Prairie, $9 50@11 00; No. 2 Prairie, $8 00@9 00; No. 3 Prairie, $7 00@7 50; No. 4 Prairie, $5 50@6 50. Inside prices on Prairie Hay for State and outside for Kansas, Nebraska and Iowa Hay. Sales ranged at $9 50@10 00 for new and $5 00@14 50 for poor to choice old Timothy, $4 50@7 50 for new State, $10 50@11 50 for new Kansas, and $6 00@11 50 for old Iowa, Kansas and Nebraska Prairie Hay. Rye Straw sold at $10 00 for new, and $10 50@11 00 for old. Oat Straw sold at $3 00 for damaged.

COOPERAGE—The Cooperage market remains in a masterly state of inactively owing to the labor troubles. Packers out of the market for the present, and there is very little inquiry from outside parties. Offerings were moderate, and holders were unwilling to press their property on the market under the circumstances. Ash Pork Barrels quiet and quotable at 95@97½. Oak Pork Barrels were inactive and nominal at $1 05@1 07½. Lard Tierces were quiet and quotable at $1 25@1 27½. Iron bound Lard Tierces were quiet and quotable at $1 10@1 12½ for six hoop, and $1 15@1 17½ for eight hoop. Oleo Tierces inactive and nominal at $1 17½@1 20.

HOGS—The receipts of Hogs during the past week, were rather small. Shippers were advised to hold their Hogs back owing to the labor troubles. Quality rather good. Packers were not inclined to purchase to any extent, and shippers provided for only moderate orders from the Eastern markets. Market was firm throughout the week, and prices were advanced 20@40c on the whole range, and the market closed compartively steady. Sales during the week were made at $5 05@5 77½ for light, $4 75@5 20 for rough packing, $5 00@5 80 for mixed, and $5 00@5 75 for heavy packing and shipping lots, with the bulk of the trading within the range of $5 15@5 65 for fair to good averages. At the close about 2,000 Hogs remained in the pens unsold. Pigs were in rather light supply, with a moderate inquiry, and sales were made at $4 95@5 55 according to size and weight. Receipts of Hogs at the other Western packing points were only moderate and quality fairly good.

PACKING—Owing to the labor troubles, there was very little business transacted at the packing houses during the past week. Supply of Hogs was light, and manufacture of all articles limited. Slaughtering chiefly for the wants Dressed Meat trade. Only small quantities of Lard, Hams, Picnic Hams and Sides produced. All kinds of Pork neglected. Independent packing firm made limited quantities.

PROVISIONS—An unsatisfactory condition of affairs prevailed in the market for Hog Products during the past week. The strike at the Stock Yards tended to unsettle the market, and operators were not inclined to do much business. Outside orders were very light, and local packers and speculators were backward about trading. Hogs were in small supply, and prices materially higher, but this feature appeared to have little effect on the market for Products. Rather better supply of Hogs at the far Western packing points than at Chicago. Returns of the packing of the West for the week, compared with the corresponding week in 1903, exhibited a decrease of 145,000 Hogs. Foreign markets were decidedly stronger, and prices were higher on all descriptions of Meats. Domestic markets were a little more active especially in the manufacturing districts. Receipts of Products were fairly liberal, and the shipments were only moderate. Early in the week, the feeling was rather firmer, and prices ruled slightly higher all around, but a weaker feeling developed later. "Longs" were a little anxious to realize, and "shorts" bought moderately of all kinds. Operators inclined to even up their trades. Prices declined materially all around At the reduction, there was a little more inquiry, while the offerings were meager, and prices rallied gradually and the market closed rather steady at the improvement. Trading confined almost exclusively to September and October contracts. Stocks of all kinds are fairly liberal. In the shipping branch of the trade there was a fairly good business transacted, but details were not fully reported. Demand mainly to supply the want of the domestic trade. Offerings were fair, and holders rather firm in their views. Interior packers were rather free sellers Difficulty in loading cars checked business to some extent. Prices ruled higher on nearly all the leading articles

Pork—A comparatively light business was transacted in Mess Pork during the past week, and the feeling was somewhat unsettled. Offerings were moderate and the demand was only fair and chiefly for small quantities. Supply good. Trading mainly local. September and October deliveries selling at about the same figures. Packers sold moderately. Early in the week, the feeling was stronger, and prices 5@7½c higher, but later there was some inclination on the part of "longs" to realize, and a weak feeling was developed. Prices irregularly declined 15@20c. At the reduction the demand improved, while the offerings were smaller, and the market exhibited considerable strength. Prices rallied 40@50c on the whole range, and the market closed rather steady. Demand on shipping account was moderate and offerings were rather light. At the close cash lots were quotable $13 05@13 10. Other cuts of Pork was in limited demand with small offerings, and prices were without material change.

Lard—Trade was moderate in the Lard market, and the feeling was somewhat unsettled Offerings were somewhat limited, and the general demand was light. Trading chiefly local. Stocks quite liberal. Manufacture rather light. Foreign markets steady. Trading chiefly in September and October contracts—the latter commanding about 5c premium. Market opened rather firm, and prices were advanced 5@7½c, with moderate buying. At the advance there was a little pressure to sell, and prices declined 12½@15c. Toward the close the offerings were rather light, while the demand was moderate, and a firm feeling developed. Prices rallied 17½@20c, and the market closed steady. Very little doing in deferred deliveries. The inquiry on shipping account was limited, and offerings were moderate. A few small trades were made at about July figures—closing at $6 92½@6 95. Refined Lard was in moderate demand, and a few sales were made at prices not made public. Loose lots were in fairly good request, and offerings were moderate. Quotable at 50@55c discount on September figures. Leaf Lard was in small demand, and in limited supply, and sold sparingly at $6 25 Neutral was in only limited request, and offerings were fair. Market was rather quiet and prices quotably steady at $7 00@7 12½ for No. 1, and $6 75@6 87½ for No 2.

Short Rib Sides—Only a fair trade was reported in Short Rib Sides, and the feeling was somewhat unsettled. Offerings were fair, and the demand was moderate. Interior packers inclined to sell Prices ruled irregular. Stock on hand fairly large Manufacture very light. Trading chiefly in September and October contracts. Early in the week the feeling was steadier, and prices ruled 5@7½c higher. Later, there was considerable pressure to sell, and prices declined 10@12½c Toward the close the feeling was stronger, and prices rallied 22½@25c, and the market closed rather steady. Demand on shipping account was a trifle larger, and offerings were fair. Cash lots at the close were quotable at $7 50@7 60, according to weight.

Green Meats—No business of consequence was transacted in Green Meats during the past week, and there were no particular changes to note. Local packers have little property to offer and outside packers, were slow to sell. No particular demand from any source. Hams quiet and prices without material change. Skinned Hams were called for sparingly and prices nominally unchanged. Shoulders were inactive and prices nominal. Picnic Hams were in very light request and prices ruled steady. Bellies in limited request and prices unchanged

Pickled Meats—Only a fair trade was reported in Pickled Meats during the past week, but a large business was transacted than made public Buyers and sellers were not disposed to give details and most of the items were on "private terms." Advices from abroad were a little more favorable to holders, but orders from that quarter were meager. Merchants in the home markets accepted fair quantities. Holders not pressing much property for sale. Supplies of all kinds are fairly large. Delivery of property slow owing to the labor troubles. Hams were called for in fair quantities, and desirable averages were held about ⅛c higher. Skinned Hams were in moderate request, and prices were well maintained Shoulders were in small demand and prices were unchanged. Picnic Hams were in rather good demand and prices well supported. Bellies were in moderate demand and prices steady.

Dry Salted Meats—A fair business was transacted in Dry Salted Meats in a quiet way, and mainly for the wants of the domestic trade. Details of trading not made public. Outside packers sold fair quantities, and buyers accepted from local holders, though the difficulty in loading cars checked business considerably. Supplies of all kinds are quite liberal for the season of the year. Foreign markets were stronger and prices ruled somewhat higher, but orders from that quarter were limited. Domestic markets were comparatively steady. Foreign cuts of Hams were quiet and steady. Shoulders little called for, and prices ruled higher. Long Clear Sides and Extra Long Clear Sides were inactive and prices nominal. Short Clear Sides quiet and prices ruled higher. Extra Short Clear Sides were in moderate request and prices ruled steady -closing at 7¼@7⅜c. Extra Short Rib Sides met with a little more favor and prices well maintained—closing at 7¼@7⅜c. Rough Sides were in fairly good request, and sales were larger Prices were steady—closing at 7¼@7½c according to weight. Plates were in moderate demand and prices steady. Butts rather quiet and quotable at about former figures. Backs were in moderate demand and prices were without material change Bellies were in fair demand and prices well supported. Foreign fancy and special cuts of Meats were quiet and prices unchanged

Smoked Meats—There was rather a good business transacted in Smoked Meats during the past week, and the market was decidedly stronger Orders were moderately free from the Southern markets Car lots were in good request and offerings were fair. Jobbing trade was quite good. Supplies of all kinds are fair Undertone to the market rather firm and prices generally ruled higher. Hams were in good request and prices ruled ¼@½c higher. Skinned Hams were in fair demand and prices were advanced ¼@½c Shoulders were called for moderately, and prices ⅛@¼c higher. Picnic Hams were in fair demand and prices ruled ⅛@¼c higher Sides of all kinds were in rather good demand, and sales were moderately large Prices inclined in favor of sellers. Breakfast Bacon was in fair demand and prices ruled ¼@½c higher.

Beef Products—Only a moderate business was transacted in Beef Products, and there were no particular changes to note. Offerings were somewhat limited, and the demand was only fair. Production rather light. Supplies of all kinds are fair. Receipts of Cattle rather small. Shipments of Dressed Beef were moderate. Foreign markets were steady, and domestic markets without material change. Beef Hams in rather fair demand, and prices ruled steady. Extra Mess Beef was quiet at unchanged prices Plate Beef called for sparingly at about former prices. Extra Plate Beef quiet and prices steady. Tallow in fair demand, and prices inclined in favor of sellers. Oleo-Stearine in fair demand, and prices steady—closing at 7c.

Greases—Trade was moderate in the market for Greases during the past week. Offerings were not very large, and the demand was only fair. Prices without material change.

THE KANSAS WHEAT CROP.

[Kansas City Cor. Northwestern Miller.]

With the completion of harvest and threshing in full swing over all of Kansas, it is made certain that the State has as is usual, emerged from its calamity with colors flying and a liberal crop of Wheat for its mills to grind and a surplus for mills elsewhere in the world. Returns from every part of State are of the most encouraging nature. From some sections information comes that conditions are better than a year ago, from others reports are that there is a vast improvement over what was promised a fortnight ago, and from those parts of the big Wheatfield where the crop was one time reported entirely destroyed, there are reports indicating a half crop or more with variable quality but lots of good Wheat among the bad.

To hazard an estimate of the crop now that fuller information is at hand, this department suggests that Kansas will be found to have produced in the neighborhood of 70,000 000 bu Wheat, 60,000,000 bu of it of good milling quality. The opinion hereabouts is that a third of the crop will grade No 2, and that two-thirds of it will grade No. 3 or better. There will be, as a matter of course, a large amount of very bad Wheat—some of it practically unmerchantable so far as mill use goes

A pleasant feature of the present condition is that many farmers are stacking their Wheat. With the Wheat in stack and given opportunity to cure properly, the percentage of good milling Wheat will be materially increased. Present weather conditions are ideal for the saving of the Wheat in good shape. If the quality of the new Wheat now coming to market is maintained, there will be small reason for any great disappointment among millers.

WHEAT IN WESTERN CANADA

[Winnipeg Correspondent Northwestern Miller.]

Notwithstanding the disquieting reports concerning the Wheat crop of Western Canada which have been going the rounds of the Grain trade of late, your correspondent can say that up to this moment there is nothing serious to report in the way of unfavorable news. The crop has made another week of solid progress toward maturity, and while it is, of course, not yet possible what the ultimate outcome will be, it is safe to predict that, given the present condition right up to harvest time. Western Canada will turn out a crop of Wheat which will compare more than well with any that has gone before it. It is true that some parts have had too little rain and some parts have had too much, but the greater part of the crop is in prime condition, and, barring accidents, will yield well.

THE WEATHER CONDITIONS.

Rains heavy and general in Manitoba: also in Minnesota and Wisconsin Light, but general all over Iowa Clear in Nebraska, Dakotas, Ohio Valley and Southwest. St Paul has 2 42 inches, Qu Appelle 2 10

Indications are for threatening weather with showers over Upper Mississippi Valley and Lake region, probably followed by clearing and cooler Sunday.

ITEMS OF GENERAL INTEREST.

Philadelphia papers report that the Pennsylvania will order for delivery next year about half the Steel rails taken in 1904

The Union Pacific Railroad has declared the regular semi-annual dividend of 2 per cent each on its common and preferred stocks, payable Oct. 1.

An official crop bulletin for Italy covering the first ten days of July, says that in Northern and Central Italy rain is still wanted for Corn, Pulse and forage. In the Southern districts and Sicily the crops have been benefited by the abundant rains although some damage has been caused here and there by hailstorms. The cutting of Wheat is going on but is still yielding below expectations. Rice is promising.

Stockholders of Southern Pacific Company of record at the close of business, July 28, will be entitled to subscribe to $40,000,000 new preferred stock. For the next three days the clerical force of the company in the New York office will be engaged in making a list of the shareholders of record It is expected that circulars giving details regarding the subscriptions and warrants for the same will be mailed to the stockholders Aug. 1.

Corn Trade News of July 18 says: "Our correspondent at Stockholm sends us a copy of the official report upon the crops up to the end of June. Summarizing them we find that Wheat promised at that time to be about 75 per cent of a crop Rye about 70 per cent, Barley about 68 per cent Oats about 70 per cent. Mixed Grain 70 per cent, Hay about 65 per cent. The weather during July has been favorable and prospects now may be considered as somewhat better than when the official report was collected."

In discussing future probability of the return to dividends on the company's stock, the president of the Chicago Pneumatic Tool Company says: "Since our dividend was passed we have not considered the matter in any form, although it may come up this fall or at the end of the year. More than likely, if at all, it will be at the latter time. The quietness of general trade has not hurt our business in the least, the results in sales being ahead of last year. All of the company's factories both in this country and abroad are busy." During the next fortnight the company expects a favorable legal decision in the case where an injunction has been asked against the Cleveland Pneumatic Tool Company restraining it from using their pneumatic hammer The case is similar to the one in which the Philadelphia company was enjoined some time ago.

A Chicago bond firm is offering the five year 5 per cent Gold notes of the Chicago Great Western Railway Company on a basis to net about 5 per cent. These notes are part of a total issue of $2,500,000, of which $1,500,000 has been placed abroad with some of the largest financial institutions in England and on the Continent, the balance having been purchased principally by banks in the United States. The agreement under which these notes are issued provides that the company cannot issue additional notes in excess of $500,000 in any one year hereafter, and also provides that the company can place no lien on its property without providing for the payment of these notes. This virtually makes the notes a first mortgage on the entire mileage of the company at the very conservative rate of $10,000 per mile. The net income of the property is practically five times the interest on all the company's outstanding notes. The Chicago Great Western Railway is unique, owing to the fact that it has no bond indebtedness.

Chicago Steel masters have heard little of the proposed combination of Canadian Steel companies with an aggregate capital of $50,000,000, but the statement is made that even with such a combination the United States Steel makers could remain the dominant factors in the Dominion market for a long time The companies said to be interested in the combination are the Dominion Steel Company, the Dominion Iron and Steel Company, and the Nova Scotia Steel and Coal Company. A Steel man says: "If the amalgamation of these Canadian properties are carried through there would still remain for the United States Steel Corporation and its American competitors for a long time as free a Canadian market as at present, because the merger companies could not immediately compete successfully with us. The Steel plants of both the Nova Scotia and Dominion Steel are far from completion, and would require the expenditure of large sums before they could turn out finished product to their full capacity. Meantime companies this side the line would be doing the business."

The unprecedentedly heavy exports of Steel rails from this country for the fiscal year ended June 30 have been felt very seriously by the foreign rail manufacturers, and there is a possibility of a combination among the European producers against the American competition For the eleven months of the fiscal year ending on May 31 the value of Steel rails exported to Europe from this country aggregated $2,951,585, as compared with only $675,000 for the same period in 1903, and $700,000 for the full year. The primary reason for the increase in exports this year was the falling in the demand for domestic consumption. During the year of 1903 the booked mail orders for domestic roads exceeded the combined capacity of all the rail mills at least 400,000 tons, and the deficiency was partly made up by imports of German and English rails. This condition was entirely changed this year, and the American manufacturers of Steel rails were forced to seek foreign markets, with the result that there was an increase in exports of approximately 600 per cent. Unquestionably this was made possible by the low prices quoted abroad, but at all events the manufacturers were able to keep their plants in full operation during the period of business reaction in this country, and the surplus product was used up.

As the time approaches when the interior West will need money to move the crops, more or less interest is naturally centered in something definite as to when the movement will commence, what it is going to amount to as compared with former years, and all other inklings concerning its probable bearing on the future money market. In view of the prospects for an immense crop Chicago bankers appear to be unanimous in their opinion that the demand for money this year will be larger than ever before. In normal years it is estimated fully $50,000,000 or 60,000,000 in currency has been sent out into the country by Chicago banks. Several authorities contend that the movement this year will be even larger and that the demand will be a great deal earlier than a year ago, when it was put back fully a month owing to the lateness of the crops. This year it is expected that the call for money from the interior will begin early in August, and even though the large banks which supply most of the currency are well supplied with small bills this year, it is now believed that they will be drawing upon New York by September, which was just about the time the country demand commenced to show with any degree of significance last year. If the interior demand for money bears out the present theory of some bankers this year it will not take a great while for the large surpluses held by Chicago institutions to melt away and higher rates will follow.

It is learned from an authoritative source that manufacturers of box board are not receiving the "leasing down" plan, as proposed by the United Box Board and Paper Company interests, with favor and few are said to have responded to the recent circular letter sent out asking them to attend a meeting for the purpose of discussing the matter. This, no doubt, is why no date has been set for the conference. It is stated that mills outside of the Paper Products company agreement are opposed to entering into a plan for the purpose of curtailing their production. The owners of most of these mills are said to have engaged in the business because they see a chance to make money competing with the trust, and that they are unwilling to enter into any agreement that would prove adverse to the present conditions. The box board business is improving, and so long as the mills are kept busy, with prices fairly firm, those who should know say the leasing down plan probably will be held in abeyance until some future time when it shall be necessary to resort to it.

REVIEW OF TO-DAY'S MARKETS.

FLOUR—Demand moderate, but market quite steady, considering the Wheat movement. Sales still confined to local and domestic wants.

WINTER WHEAT—Was in good demand and the market was steady, with a rather firm closing. Offerings fair and meeting with ready sale, and taken by the various interests. No. 2 Red in store sold at 94c, and fresh arrivals free on board at 93@95½c and billed through at 92½c. No. 3 Red fresh arrivals free on board sold at 90@93c. No. 4 Red fresh arrivals free on board sold at 85@90c. No. 2 Hard fresh arrivals free on board sold at 92@94c and billed through at 91¼@91¾c. No 3 Hard fresh arrivals free on board sold at 85@91c. No. 4 Hard sold at 83c. No 3 White sold at 90@91½c.

SPRING WHEAT—Was quiet—nothing doing. The Wheat, however, was held firmly and about 1c higher. No. 1 Northern in store nominally about $1 02@1 02¼, and free on board offered at $1 03. No. 2 Northern was quotably 92@99c. No. 3 Spring nominally 88@95c, and No. 4 about 68@90c.

REGULAR WHEAT—Was active and unsettled with a heavy trade, the close being 1¼@1½c higher for September, while December gained 1⅜c, and May 1¾c. Sentiment at the start was weak and local "longs" sold freely taking profits, quite a few stop orders being uncovered on the break. The better weather, present and prospective, and large receipts were among the "bear" influences. Primary movement was 548,000 bu larger than year ago, Kansas City and St. Louis receiving 808,000 bu, against 425,000 bu last year, and large receipts estimated. At the decline, the demand improved and situation turned strong. Buying by the Northwest was a feature, and rust reports from that section were again quite numerous. The London *Times* reported increased crop damage from practically every country on the Continent, due chiefly to drouth, and was an indirect "bull" help. Paris was up 1½c and Berlin 1c higher, while Buda Pesth was 1⅜c lower. English markets closed. World's shipments were 8,536,000 bu, against 8,056,000 bu the previous week and 7,912,000 bu one year ago. The quantity on ocean passage decreased 1,152,000 bu to 38,712,000 bu, compared with 25,514,000 bu in 1903. World's stocks of Breadstuffs for July show a reduction of 4,778,000 bu, compared with July, 1903. America decreased 6,536,000 bu. The visible supply increased 918,000 bu, compared with 464,000 bu increase last year. Total is now 13,093,000 bu, against 13,414,000 bu in 1903, and 21,372,000 bu in 1902. Local public stocks increased 336,000 bu, and are now 1,379,000 bu, against 1,480,000 bu same date one year ago. Showers were predicted for Illinois, Indiana and Missouri, but generally fair elsewhere except Kansas, where local showers are indicated. Minneapolis reported stocks reduced 265,000 bu in two days. Stocks in interior elevators of the Northwest decreased 267,000 bu during July. Exports were limited and 15 boat loads accepted at the seaboard. Advices from the Northwest were in many instances very conflicting, but Hessian fly was reported in certain sections, being the first time reported. Cash values here were higher. Receipts at Duluth 35 cars and at Minneapolis 145 cars, a total of 180 cars, against 168 cars Saturday, 348 cars a week ago, and 207 cars last year. Local receipts included 149 cars Winter, 1 car Spring, no cars mixed, a total of 150 cars, against 115 cars last year. Included in the above were 31 cars contract grade. There were 41 cars and 22,400 bu taken from unlicensed elevators. The estimated receipts for to-morrow are 242 cars. Withdrawals to-day were 1,000 bu. Receipts at Western points were 1,291,456 bu, against 743,519 last year. At Eastern points 83,483 bu, against 389,013 bu last year. Shipments from Western points were 272,679 bu, against 412,933 last year, and from Eastern points 15,804 bu, against 123,924 last year. Shipments of Flour were 7,778 brls. Exports of Wheat in Flour were equal to 50,805 bu.

Future Deliveries of Regular Wheat—Good trade and market firm.

SEPTEMBER—Old Style—Sold at 91¼@93c. Opened with sales at 91⅝c to 91¼c, sold to 92⅜c, to 92c, to 92⅛c, to 91⅞c, to 92⅝c, to 92¼c, to 93c, to 92⅞c, and closed at 92⅞c bid.

MAY—Sold at 91@93⅛c. Opened with sales at 91⅛c to 91⅛c; sold to 91c, to 92⅜c, to 92c, to 92⅝c, to 92½c, to 93c, to 92⅞c, to 93⅛c, and closed at 93⅛c.

CORN—There was a heavy trade early, and later interest appeared to increase. Feeling prevalent was stronger, with a noticeable increase in the trade in the forward deliveries, May leading. Closing prices showed September up 1⅜@1¾c, December 1⅛c and May 1c. The December-May spread narrowed to about ⅜c. Foreign buying of September was reported, the Roumanian news being quite a factor. The Government there was reported as prohibiting exports owing to the crop being almost totally destroyed by drouth. Berlin was quoted 2c higher. Commission houses were active on the buying side and prices varied greatly at the opening. Provision interests and local "longs" sold, but offerings at the start were very moderate. Receipts 201 cars; last year 195 cars and 241 cars looked for to-morrow. The visible increased 71,000 bu, against 319,000 bu decrease last year. Total is now 5,819,000 bu, against 6,992,000 bu in 1903 and 7,281,000 bu in 1902. Local public stocks increased 112,000 bu to 2,970,000 bu, against 3,597,000 bu same date last year. World's shipments 3,214,000 bu; previous week 4,474,000 bu; year ago 5,355,000 bu. Quantity on passage increased 676,000 bu to 16,844,000 bu, against 18,583,000 bu one year ago. Southwestern markets were strong. Weather conditions favorable. Primary receipts, 521,000 bu; last year, 302,000 bu. Shipments, 306,000 bu and 207,000 bu, respectively. Local arrivals 257,000 bu and shipments 214,000 bu. Exports 27,000 bu, and 60 boat loads taken at the seaboard. Cash sales here were 200,000 bu. There were 20 cars and 28,000 bu contract switched from private elevators. Car lots were in good demand and prices ½@1c higher. Offerings moderate. No. 2 closed at 51¼c and No. 2 Yellow at 51½c. No. 3 closed at 51c. No. 3 Yellow sold at 52c and closed at 52c. No. 4 sold at 50@51c.

Corn by sample Was firm and ½@1c higher. Demand good, and offerings moderate. Sales on track and free on board: No Grade sold at 44@44½c. No. 4 at 48@51¼c. No. 3 at 50½@51c. No. 3 Yellow at 52@52¼c. No. 2 Yellow at 52¼c. No. 3 White at 50¾@51½c. Billed through: No Grade 43@45c. No. 4 at 48@50¾c. No. 3 at 49½@50¼c. No. 3 Yellow at 51@51¾c. No. 2 Yellow at 51¼@51¾c. No. 3 White at 49¾@50c. No. 2 White at 50c.

Future Deliveries of No. 2 Corn—Active and strong, closing 1 to 1⅜@1¾c higher.

AUGUST—Sold at 49½c and 50c, and closed at 50½c nominally.

SEPTEMBER—Sold at 49⅜@51⅛c. Opened at 49⅜c to 49⅞c, and sold at 49¾@49⅞c, to 50c, to 49¾c, to 50⅛c, to 49⅞c, to 50⅜c, to 50¼c, to 50⅝c, to 51⅛c, to 50¾c, to 51c, and closed at 51c asked.

DECEMBER—Sold at 46⅛c and 47@47⅛c. Opened at 46⅛c to 46¾c and sold at 46½c, to 46⅜c, to 46⅝@46¾c, to 46⅝c, to 46¼@46⅜c, to 47@47⅛c, to 46⅞c, to 47c and closed at 47c asked.

MAY—Sold at 45¼c and 46⅜@46½c. Opened at 45¼c to 45⅞c, and sold at 45¾c, to 45⅞c, to 45¾c, to 46c, to 45⅝c, to 45⅞c, to 45¾c, to 46⅜@46½c, to 46⅜c, and closed at 46¼@46⅜c bid.

OATS—Were active and closed ¼@⅜c higher at about the best prices. The gain was small compared with other Grains. The feature was the break of 3@6c in cash lots and heavy selling by the cash interests against purchases made in the country. Thus their offerings, however, failed to force prices below Saturday's close, except for September which sold off ⅛c. Late buying by commission houses lifted prices ½c. The cash sales were 100,000 bu. The seaboard sold 120,000 bu. Arrivals were 129 cars with 78 cars new all grading high. Estimates for to-morrow 267 cars. Local stocks increased 115,000 bu, and are 340,000 bu. The visible supply decreased 326,000 bu. Seaboard clearances were 12,000 bu. Car lots to go to store were 3@6c lower. No. 3 old sold at 34c Standard at 37c, and in store closed about 34½@35c.

Oats by sample were in good supply and weak and 3@6c lower on new which comprised the bulk of the offerings. Old were in smaller supply and steady. At the decline buyers took hold freely. Sales on track and free on board: No Grade new at 30@37c. No. 4 old at 32@35½c. No. 4 White new at 36c: old at 34@37c. No. 3 new at 35c; old at 36½c. No. 3 White new at 33@40c. Standard new at 35½@40½c. No. 2 new at 35@37c. No 2 White at 36@40½c. Billed through: No. 4 new at 31@33c; old 31c. No 4 White old at 36¾@37½c. No. 3 White new at 34½@38c; old at 38@40c. Standard new at 35@37½c. No. 2 new at 34¼c. No. 2 White at 35@37c. At the river: No. 4 White new at 33½c; old at 35¾@36c.

Future Deliveries of Contract Oats Were active and higher.

AUGUST—Slow. Closed at 34⅛@34½c.

SEPTEMBER—Active. Sold at 33⅛@33⅝c. Opened at 33⅛c to 33⅛@33¼c, sold to 33⅝c, to 33⅜@33½c at close.

DECEMBER—Sold at 33⅝@34⅛c; closed at 34½c.

MAY—Sold at 35⅛c and at 35⅝@35¾c. Opened at 35⅛c, sold to 35⅝@35¾c, closed at 35⅝c.

RYE—Ruled firm, with a light business for September delivery, while cash transactions showed a decline of 3c. There were 10 cars received and 9 cars withdrawn from private warehouse. No export clearances from New York. The visible supply increased 57,000 bu. No. 2 in store entirely nominal, and car lots fresh arrivals free on board sold at 63@64c. No 3 sold at 62c.

Future Deliveries of No. 2 Rye—Light trading and market firm. September sold at 62c and closed at 62c bid and 62½c asked.

BARLEY—More samples of new Barley were shown. They represent a wider territory than heretofore. They indicate an uneven crop. Some defects, more or less important, in both color and weight, are indicated, but after all, in both of these particulars the crop promises an improvement over last year's crop. A car of new on sale to-day was very nice Barley only that a part was soft heating. For this reason 40c was the best bid: had it been in sound order, suitable to hold, it would have been worth about 10c more. It is a mistake to try to get Barley in so very early. It should be stacked and permitted to go through the sweat, so as to get in first class condition. If soft or heating few can use it, only such as can give it the proper handling. Such buyers will not take it except at low prices. Only 3 cars were inspected in. Visible supply increased 99,000 bu and was 1,054,000 bu, against 348,000 bu a year ago. There was a small decrease in local regular stock. A few cars of fair to good malting, old Barley, were offered. They were salable, at the same time there was no special demand, and former outside prices were not obtainable. Screenings nominal over a range of 28@37c for poor to choice. Feed Barley, common, dirty or musty down to 30@33c; sweet, good color, thin, at 35@38c. Malting, low grade, was quotable 38@40c; fair to good, sound, 42@45c; it is doubtful if at present any old Barley would bring over 45c.

SEEDS—There was an easier feeling in new crop Timothy and new crop Flax also sold off a trifle. In the cash market extreme quietness prevailed for all lines.

Timothy—Against being held Saturday at $3 25, September delivery sold to-day at $3 17½@3 20, and closed at $3 17½ sellers. Most of the session the market was neglected, and it was toward close before anything was done. Cash market nominally unchanged. Nothing to speak of on sale. Contract old spot or August delivery nominally $3 00@3 05. Country lots quotable at $2 00@2 90 for low grade to fancy: choice about $2 75@2 85, fair to good Seed $2 55@2 70 and rough at $2 40@2 50.

Flax—Was weaker with ½c decline for No. 1 old crop or new, but otherwise there was no change. No. 1 Northwestern remaining unchanged. There was some trading in September delivery but nothing else was done. Four cars or 3,800 bu were received, none taken out. No change in local stocks: 18,374 bu reported against 67,291 bu a year ago. Minneapolis received 14 cars and Duluth 11 cars. No. 1 Northwestern or No. 1 from the Northwest remained at $1 24. No 1 was $1 16 bid. Rejected about $1 12@1 15, depending on quality. September sold at $1 16 and that was bid.

Clover—No interest whatever shown in the market. Nothing new or changed in outside advices. Market entirely nominal. Contract spot Seed at $11 25. Country lots, common to choice, $9 00@10 50; fancy above, mixed with Buckhorn or other weed Seeds, $7 00@8 50; poor, cleaned out of Timothy, very foul, lower. Fair to good, $9 50@10 25.

Other Seeds—Trading absent for Hungarian and Millets, with quotations at present. Buckwheat quotable at $1 55@1 60 for good. Mustard at 90c@$1 10; poor down to 50@60c.

HOG PRODUCTS—Only a moderate business was reported in Hog Products, and an easier feeling prevailed. Hogs were in liberal supply and lower, which encouraged a little selling of Products, but the strength manifested in Grain tended to check any material decline in prices. Outside orders were limited, and local trading was only fair. Offerings were fair and the demand was not very urgent. Prices declined moderately all around, but rallied again to about inside figures, and the market closed rather steady. Receipts of Hogs at the leading Western packing points were estimated 59,100, compared with 54,000 one year ago. Foreign markets were closed, and domestic markets rather quiet. Exports for the week compared with the corresponding week in 1903 exhibited an increase of 302 brls Pork, and decreases of 3,278,000 lbs Lard and 6,000 boxes Meats. Receipts of Products were good—of Lard and Meats about 23 cars. Shipments were moderate—of Lard and Meats about 80 cars. Inquiry on shipping account was light, and offerings were moderate. Sales limited and prices unchanged.

Mess Pork—Only a fair business was transacted in Mess Pork, and the feeling was unsettled. Offerings fair and the demand was moderate. Opening trades were made at about 7½c decline, but a little more steadiness was manifested, and prices rallied 5@7½c. Later a weaker feeling was developed, and prices receded 10@12½c, but near the close rallied 10@12½c, and the market closed rather steady. Shipping demand was limited, and offerings were moderate. Cash lots quotable at $12 85@12 90.

SEPTEMBER—In moderate request and offerings were fair. Sales were made at $12 80@12 92½. Opened at $12 85, sold to $12 92½, to $12 80, to $12 90@12 92½, to $12 90, and closed steady.

OCTOBER—Offerings were not very large, and the demand was moderate. Sales were made at $12 82½@12 95. Opened at $12 92½, sold to $12 90, to $12 92½, to $12 82½, to $12 90, to $12 87½, to $12 95, and closed steady.

Lard—Rather a small business was reported in the Lard market, and the feeling was unsettled. Offerings were light, and the demand was limited. Prices ruled 2½@5c lower early, but rallied again, and closed comparatively steady. Demand on shipping account was light, with no particular pressure to sell. Cash lots quotable at $6 87½@6 90. Loose lots in small request with limited offerings. Prices steady at about 50c discount on September figures. Leaf Lard was in light demand, with moderate offerings. Quotably steady at $6 25. Neutral in only limited demand, with fair offerings. Prices quotably steady at $7 00@7 12½ for No. 1, and $6 75@6 87½ for No. 2.

SEPTEMBER—Demand rather light, and offerings were moderate. Sales were made at $6 95@7 00. Opened at $7 00, sold to $6 95, to $7 00, to $6 97½@7 00, and closed steady.

OCTOBER—Offerings small and demand light. Sales were made at $7 02½@7 07½. Opened at $7 05, sold to $7 02½, to $7 07½, and closed quiet.

Short Rib Sides—Trade was moderate in the market for Short Rib Sides, and the feeling was unsettled. Offerings were fair, and the demand was moderate. Prices ruled 5@7½c lower early, but rallied again, and the market closed steady around outside figures. Shipping demand was light, and offerings were moderate. Cash lots quotable at $7 50@7 62½ according to weight.

SEPTEMBER—In moderate demand and offerings were fair. Sales were made $7 60@7 65. Opened at $7 60, sold to $7 62½, to $7 60, to $7 65, to $7 60, to $7 65, to $7 62½ to $7 62½@7 65, and closed steady.

OCTOBER—Offerings were not very large and the demand was rather light. Sales were made at $7 62½@7 67½. Opened at $7 67½, sold to $7 62½, to $7 67½, to $7 65@7 67½, and closed steady.

Other Meats—Trade was moderate, and mainly on domestic account. Exporters buying moderately. Offerings fair, and the inquiry moderate. Green Meats in limited supply with a light inquiry and prices steady. Pickled Meats in fair request, with only moderate offerings, and prices were steady. Dry Salted Meats were in fair demand, with moderate offerings, and prices were steady. Smoked Meats called for moderately and prices were steady. Closing prices ranged as follows:

GREEN—Hams, av 10@12 lbs, 9¾@9⅞c; 12@14 lbs, 9½@9⅝c; 14@16 lbs, 9½@9⅝c; 18@20 lbs, 9¾@9⅞c; Skinned Hams, 11⅛@11¼c; Shoulders, 6¾@6⅞c, Picnic Hams, 7⅛@7¼c; Bellies, 9@11c. CROPS IN FOREIGN COUNTRIES.

[From Broomhall's Corn Trade News, July 16.]

United Kingdom—Another week of forcing weather has brought the beginning of harvest quite close, indeed we should not be surprised if we were to hear of the cutting of an early field of Winter Barley or Oats in Kent or Sussex next week. The *Mark Lane Express* of yesterday's date, says: "The contracts being made with firms for the use of mechanical harvesters and other harvest implements indicate that the end of July will mark the general beginning of Wheat harvest south of the Thames, and Monday, Aug. 18, be the usual date of commencement in Hertfordshire. There is no laid Grain, and the present promise is of rapid, satisfactory, and economical harvest. The plant has seldom bloomed in better weather, and the season is causing farmers to look as hopeful as at this time last year they were feeling the reverse. Even though the yield cannot bulk really heavily, the comfort derived from the grain being reliable and sound for malting will stand instead of being a suspected and too often rejected sample, is likely to make the autumnal market, of 1904 a much more cheerful scene than the close of October and November, 1903. The Winter Oats have come on fast under the hot sun, and will sometimes be fit for cutting by the end of the present month."

Russia—Reports from this important producer are again of a very varied character, but all seem to be agreed that in the southern and southwestern governments the crops are in a very unsatisfactory state, mainly due to the excessive heat, which in some regions has resulted in total failure. On the whole however, the winter crops are generally looking better than the spring crops.

Roumania—Notwithstanding the recent rainfall, the Corn crop is still suffering from lack of moisture, and generally speaking is backward for a short time. Harvesting of Wheat is becoming more general and threshing is being more extensively proceeded with. The quality of the Wheat is satisfactory, although the berry is small and contains a large percentage of ghiten and is practically free from foreign matter. The quality promises a wide variety, but threshing returns continue to give better results than expected.

Hungary—Harvesting of Wheat should by this time be completed. From the most recent advices the yield is likely to come pretty near an average one, and although the crops have matured too rapidly, and some percentage of shrunken Grain is spoken of, the quality for the most part may be considered as good.

Argentina—The area under Wheat in this southern grower is estimated to have increased 10 per cent On the 14th our cable advised that the crop was doing well. Condition of present crop-plants is said to be satisfactory The Flax Seed crop, also, is reported as having started well. The demand for jute and early August freights is maintained, and indicates liberal shipments in the near future of Corn and possibly of Wheat also.

France Latest crop news from France indicates an average crop of excellent quality generally In the South and Southwest the yield will, it is thou.ht, be below last year's In the Southeast things are rather better, but in its as yet too early to say anything definite. Nevertheless the Wheat there will be very dry and undoubtedly of a heavier natural weight than last year In the central departments the outlook is still better, there being an abundance of sheaves. It is however, feared that the quality has suffered from the excessive heat. In the departments of the Loire and Cher there are many cases of Corn-cockle, which grow more numerous as the harvest progresses In the Bourgogne district the crop has also suffered from heat. In the Paris district, on the other hand, the Wheat crop is a fine one in every respect.

Germany—The prevailing hot and dry weather has enabled farmers to complete the cutting of Rye and to carry the already ripe portions of this and the Rape Seed crop under good cond tions. For the still standing portions rain is, however, daily needed, particularly in the eastern districts, where the crop will it is feared, be distinctly a p or one.

Spain—High wind and hailstorms are again said to have caused damage in certain localities. Wheat cutting should now be in full swing. No complaints have so far been made on the head of the quality, but the bulk is not likely to turn out as big as expected.

THE WEATHER CONDITIONS.

Weather quite cool, but generally clear Northwest. Light and scattered showers in Northern Minnesota, Manitoba and Saskatchewan. Very light rains Southwest and in Ohio Valley There were light general rains Saturday in Manitoba.

Indications are for generally fair and cooler over the Mississippi Valley and lake region. Fair and warmer west of Mississippi River, except showers in Kansas and Southern Missouri.

Bank Clearings of the leading financial centers of the United States for the past week aggregate $1,814,103,788, a decrease of 10 3 per cent compared with the corresponding week last year.

After listening to arguments by counsel, Judge Bradford, in the United States Circuit Court, Wilmington, Del., refused to draw his decree in the Northern Securities case in such a manner that money in hand can be used to pay dividends or stock not involved in the suit can be disposed of.

The State Bank Examiner, Thursday, took charge of the State Bank at Staunton, Wis., and closed its doors. The liabilities of the bank are stated to be $137,961, of which amount $79,701 is due depositors. No application will be made for a receiver and a movement to reorganize the bank is made. The making of too many small loans on single institutions is said to be the cause of the bank's embarrassment.

A call has been issued for the regular semi-annual meeting of the board of directors of the Metropolitan West Side Elevated Railway Company, Chicago, to be held Aug. 8. It will be at this meeting, if at all between now and next February, that the policy of resuming dividends on the preferred stock of the road will be discussed. There appears to be ample ground for believing that payments will not be resumed at this time.

The Winter Wheat Millers' Association was in session at Chicago, Thursday It was a called meeting to consider the securing of Wheat supplies, and to discuss rate discrimination. Most of the millers said prices of Wheat were too high considering the condition of the Flour trade. They explained their attitude of buying all the Wheat offered at their stations as due to a fear that it would get away, and they might have to pay higher prices.

One of the best indications of improvement in the Western trade situation is to be had in a statement made by an official of the American Steel and Wire Company, the largest subsidiary concern of the United States Steel Corporation. Sales of the company are said to be fully as large as they were a year ago, and all of the mills are in operation. Remarkable as this may be said to have been made since the salesmen went back on the road early in the month, and each week brings forth further increase.

The Pressed Steel Company is expected to make $1,000,000 in the fiscal year ending Aug. 31, and interests connected with the company are beginning to discuss the chances of resumption of dividends on the preferred stock this fall. Advocates of resumption of dividends declare that the company thus far in the fiscal year has made, through operations on the basis of the figures given by the United States Steel Corporation, enough money to pay 7 per cent on the preferred, 3 on the common and leave a margin for other expenditures.

Poor railroad earnings seem to be the rule for the third week of July. The turn is entirely comparative, for the earnings of the week seem once more when compared to those prior to three years ago. Large systems reporting are the L and N, decrease 5 per cent; Southern Railway, increase 2½ per cent; Canadian Pacific, increase 12½ per cent; Chicago Great Western, decrease 18 per cent; Denver and Rio Grande, decrease 15 per cent; International and Great Northern, decrease 11 per cent; Missouri Pacific, decrease 8 per cent; Texas and Pacific, decrease 6 per cent, and Toledo, St. Louis and Western, decrease 8½ per cent.
